At Woodford's, near Portland, at noon on the 22d inst., an unknown man about twenty-three years old, having the appearance of being a tramp, fell under the wheels of a Maine Central railroad train and was cut to pieces, dying instantly. It was supposed he was a man named Charles Geary, who had for some time been harmlessly insane.

Two of the oldest residents of Kennebunkport died on Monday, the 22d inst., namely, Oliver Davis, aged ninety-four years and eleven months, and Mrs. Mary Downing, aged ninety-one years and six months.

The boat's crew of the fishing schooner Helen M. Crosby, eight men, are believed to have gone down in the squall of Saturday night off Provincetown; they had their seine around a school of fish when the squall struck, and the schooner shot up to them, but they refused to take the line on account of having so much water in the boat; the captain hailed them to let the seine go and come on board, but the schooner in a few moments dropped off to leeward out of sight, and the boat was not seen again.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who desire the most manly, successful treatment should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Au Choy.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.
Send for "How to Cure Skin Diseases."

It is said the Langtry garter is getting to be fashionable and much worn; how this may be, we do not know, but we do know that everybody is using Dr. Bull's Cough Syrup, for all catarrhal affections.

Dr. Amos Dowd was tried in Great Barrington, Mass., Saturday, for selling liquor on Sundays without a license. He was found guilty on five complaints, and fined $500 and costs, with three months' imprisonment in the house of correction. Dowd sold the liquor called in the town "blood purifier."

Unable to Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body, and I am unable to tell one half that I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Aple, 17 Allston street, Boston.

Elisha R. Marvin, claiming New York as his home, was arraigned in Dover on Monday for the alleged selling and offering for sale lottery tickets for the "Little Havana lottery drawing" to take place October 26th at Havana, tickets $2 each. The court ordered the prisoner to be held for trial in the supreme court, and in default of bonds he was committed to jail.

Though numerous causes may operate to turn the hair gray, all that is needed to restore the natural color is Hall's Vegetable Sicilian Hair Renewer. For more than twenty years its sales have been enormous, but we have yet to learn of its first failure.

Charles P. Ela, youngest son of Hon. Jacob H. Ela, sixth auditor died at Denver, Colorado, Oct. 20th, in the 31st year of his age. He was a native of Rochester, and began the practice of law in that town after graduating from the Columbia law school at Washington. Governor Prescott appointed him police justice of Rochester, and he held the position until his death, being probably the youngest police judge ever appointed in the state.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

A Delaware & Hudson railroad train went through a bridge near Fort Edward, N. Y., Oct. 22d. There were about twenty passengers on board, of whom three were killed and all the others more or less injured.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

Gen. Steadman's funeral procession at Toledo, Ohio, Oct. 22d, was four miles long, at least 10,000 persons attending.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

In New York, Oct. 21st, Mrs. Louisa Doherty, aged thirty-five years, inflicted fatal wounds on herself and five-year-old child with a knife. She was recently separated from her husband, who is a policeman.

"As two boxes of Dr. Benson's Celery and Chamomile Pills *cured* a friend of *neuralgia*, whom the Drs. here could'nt help, I'll send for some myself." Clifford Shand, Windsor, Nova Scotia.

Two children of Wm. E. Post, aged three and five years, left alone by their mother at Passaic, N. Y., set themselves and the house on fire, and were burned to death.

From Groton, Mass., Mr. Wm. S. Carr writes as follows: "Ellis's Spavin Cure has cured my horse. He was very lame with ringbone." Try it.

In a fight between two families and their friends, in a church of Burke county, Ga., last Sunday, Thomas H. Syms was shot dead, and his sons Thomas and Frank mortally wounded. Several of the other party were wounded. The despatches say "the sad affair creates profound sorrow."

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

At Nashville' Tenn., Oct. 22d, while Barrett's circus was performing, Robert Brierly shot Robert Bates twice, killing him instantly. Ten years ago Bates killed Brierly's brother at a dance, and was imprisoned six years for it.

Begin Early in Life

to cleanse the teeth with *Sozodont*, and you will be repaid in maturer years and very probably in age, by the possession of sound molars and incisors, which will give you a more youthful look than you would otherwise have, and enable you to chew without incurring the penalty of a toothache. And when you have children, use the same fragrant preparation and they will have ample cause to be grateful to you. Don't omit for a single day.

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good:"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,
"From a complication of kidney, liver, rheumatic troubles and Nervous debility;
"Under the care of the best physicians,
"Who gave her disease various names,
"But no relief,
"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:
"How much better father is since he used Hop Bitters."
"He is getting well after his long suffering from a disease declared incurable,"
"And we are so glad that he used your Bitters."

Cures Blood Poisoning.

I was suffering from Blood Poisoning and Mercurial Rheumatism, and had spent $500 for treatment with no benefit, and it seemed that I was doomed to die. Caught at Swift's Specific as a drowning man would at a straw, and it has saved me from a horrible death, and cured me sound and well. It is the greatest medicine in the world.
C. H. SMILEY, Quincy, Ill.

HEREDITARY—Swift's Specific cured me sound and well of a Scrofulous taint inherited from my ancestors. J. A. MAY, Macon, Ga.

I am sure that Swift's Specific saved my life. I was terribly poisoned with Malaria, and was given up to die. Swift's Specific relieved me promptly and entirely. I think it is the greatest remedy of the age. C. G. SPENCER,
Sup't Gas Works, Rome, Ga.

$1000 REWARD will be paid to any chemist who will find, on analysis of 100 bottles of S. S. S., one particle of mercury, iodide potassium or any poisonous substance.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN's method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, by a method recently introduced, not less than 30,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and mental task, bring on kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. Sherman's Treatise, 250 pages, on Diseases of Physicians, Merchants, Farmers and others who have been cured mailed for 10c. Pamphlet of photographs of bad cases, 25c. by express. Principal office, 251 Broadway, N. Y.; days of consultation each week, Mondays, Tuesdays and Saturdays. A GREAT SUCCESS

☞ The best family pill made—Hawley's Stomach and Liver Pills. 25c. Pleasant in action and easy to take.

SCROFULA

and all scrofulous diseases, **Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils,** and **Eruptions of the Skin,** are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete antidote of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

"Yours respectfully, MRS. ANN O'BRIAN," 148 Sullivan St., New York, June 24, 1882.

☞ **All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.**

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures **Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility,** and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

The latest news from Africa is decidedly encouraging; the natives have ceased to try their grand parents, and have advanced so far that they use habitually Dr. Bull's Cough Syrup, which is a sure cure for all lung troubles.

Elijah Taylor of Effingham, aged eighty-three years, was killed Oct. 20th by a vicious bull which he was attempting to drive into the barn. The bull was afterward shot.

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulater of the various bodily functions. Ask your druggist.

Samuel Evans, a boy of Lancaster, had his right arm badly shattered by the accidental discharge of his gun, Oct. 22d.

Another Waltham citizen, Mr. E. P. Morry, with H. J. Johnson, druggist, says: Ellis's Spavin Cure cured my horse of weak knees, and Stocked Legs.

George Houston, a wealthy farmer of Acworth, hung himself while his wife was at church Oct. 21st.

A specific, and the only one for *all forms* and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

The democrats of Buffalo, N. Y., are in a rumpus. One faction has nominated Jonathan Scoville for mayor, and the adherents of Manning, the present mayor, have called another convention.

Mr. R. A. Bartt, Hillsboro Bridge, N. H., says: "I took Brown's Iron Bitters for lung difficulty, cough, etc., and received much benefit."

The city election in Baltimore, Md., took place Oct. 24th. F. C. Latrobe, the democratic "ring" candidate for mayor, was opposed by J. M. Heiskell, also a democrat, the latter being supported by the republicans as well as by the anti-ring democrats.

In St. Louis, Mo., Oct. 23d, Kate Douglass, a negress, for the murder of Joseph Miller, and Charles Rose, a negro, for the killing of George Ingram in April, 1881, were sentenced to be hanged on Dec. 7th.

We dont hesitate to say that for a year past we have sold more of Swift's Specific (S. S. S.) than all other blood purifiers combined, and with most astonishing results. One gentleman who used half a dozen bottles says that it has done him more good than treatment which cost him $1,000. Another who has used it for a Scrofulous affection reports a permanent cure from its use.

VAN SHAACK, STEVENSON & CO., Chicago.

James Egan, pitcher of the Brooklyn base ball club, and Maurice Brick, pitcher of the Monitors of Waterbury, Conn., have been bound over in $500 each for alleged highway robbery at Waterbury.

Why do you suffer with back ache, pain in the chest, rheumatism, or lameness anywhere when a Hop Plaster will surely give you relief? Druggists sell them, 25 cts.

In Chanute, Kansas, Oct. 23d, R. J. Barkley was fatally wounded on the street by Ranse Walters, to whose sister Barkley had been paying attention contrary to the wishes of her family. The immediate cause of the difficulty is said to have been disparaging remarks made by Barkley about the young lady, which reached the ears of her brother. Walters was lodged in jail. Both the young men belonged to prominent families.

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick headaches when every remedy failed.

By the explosion of a keg of powder in a squib factory at Kingston, Pa., Oct. 23d, eight children between the ages of eleven and sixteen years were terribly injured. Two girls and one boy died in a few hours, and two others were fatally burned; the other three children it was thought had a chance to recover.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

"Dear husband and father, we love one another more than our words can tell," is the way Robert Thackeray's wife and son wrote him when they recently eloped. And they had the cheek to add: "Thanks to your liberality, we shall know no privation." The bereft old man searched New Haven for his family on Saturday, but in vain.

This favorite brand of pure Whiskey is bottled only by Chester H. Graves & Sons, 35 Hawkins St., Boston, Possessing ample capital, this firm does not put this brand of their best and purest goods until it has become mellowed by age. They control the entire production of this brand, and allow no adulteration whatever. It is a pure Whiskey, and as such can be prescribed by doctors or purchased for domestic use from Druggists and Grocers everywhere.

A despatch from Brattleboro, Vt., says: "The police it is stated have discovered the rendezvous of a gang of juvenile counterfeiters at Jamaica, N. H., the members of which gang are bound together by the most solemn oath. They reside in Londonderry, Jamaica, Ashuelot and Townshend. Moulds and records, it is said, have been seized. A young member, who was recently arrested for horse stealing, is credited with having given the information to the police."

An Enthusiastic Endorsement.

GORHAM, N. H., July 14, 1879.

GENTS—Whoever you are, I don't know; but I thank the Lord and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow-men that was ever conferred on mankind. TIM BURCH.

Five British war steamers have passed St. Thomas, W. I., from Barbadoes bound for Hayti, to investigate the recent firing on a British merchant steamer at Port au Prince.

Lord Chesterfield, the pink of politeness in his day, said that a true gentleman should be always *suaviter in modo, fortiter in re*, which means, mild in manner, strong in action. This is precisely the character of Ayer's Carthartic Pills. Nothing operates so mildly and yet so powerfully in removing disease.

Remarkable Cure of Scrofulous Face.

WESTBOROUGH, CONN., June 19, 1879.

MR. H. R. STEVENS—Dear Sir: I can testify to the good effect of your MEDICINE. My little boy had a SCROFULA sore break out on his head as large as a quarter of a dollar, and it went down his face from one ear to the other, under his neck, and was one solid mass of sores. Two bottles of your valuable VEGETINE completely cured him. Very respectfully,

MRS. G. R. THATCHER.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy, and with a warmth and fulness of words which mere business documents and certificates never possess.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate [for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove that this statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1878, to present date:

Paid to Southern Express Co., New Orleans, A. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	54,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Julius Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	11,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,235,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,637,416
Total paid by all	$4,881,066

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the state authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

THE HIGHEST AUTHORITY.

Upon a Subject of Vital Interest, Affecting the Welfare of All.

The following remarkable letter from one of the leading and best known scientific writers of the present day is specially significant, and should be of unusual value to all readers who desire to keep pace with the march of modern discoveries and events:

"A general demand for reformation is one of the most distinctive characteristics of the nineteenth century. The common people, as well as the more enlightened and refined, cry out with no uncertain voice to be emancipated from the slavery of conservatism and superstition which has held the masses in gross ignorance during a large portion of the world's history, and in the time of the 'Dark Ages' came near obliterating the last glimmer of truth. Dogmatic assertions and blind empiricism are losing caste among all classes of all countries. People are beginning to think for themselves, and to regard authority much less than argument. Men and women are no longer willing that a few individuals should dictate to them what must be their sentiments and opinions. They claim the right to solve for themselves the great questions of the day and demand that the general good of humanity shall be respected. As the result of this general awakening, we see, on every hand, unmistakable evidences of reformatory action. People who, a few years ago, endured suffering the most intense in the name of duty, now realize the utter foolishness of such a course. Men who are under the bondage of bigoted advisers allowed their health to depart; suffred their constitutions to become undermined and finally died as martyrs to a false system of treatment. There are millions of people filling untimely graves who might have lived to a green old age had their original troubles been taken in time or properly treated. There are thousands of people to-day, thoughtless enduring the first symptoms of some serious malady and without the slightest realization of the danger that is before them. They have occasional headaches; a lack of appetite one day and a ravenous one the next, or an unaccountable feeling of weariness, sometimes accompanied by nausea and attribute all these troubles to the old idea of 'a slight cold' or malaria. It is high time that people awoke to a knowledge of the seriousness of these matters and emancipated themselves from the professional bigotry which controls them. When this is done and when all classes of physicians become liberal enough to exclude all dogmas, save that it is their duty to cure disease as quickly and as safely as possible; to maintain no other position than that of truth honestly ascertained, and to endorse and recommend any remedy that has been found useful, no matter what is its origin, there will be no more quarreling among the doctors, while there will be great rejoicing throughout the world."

"I am well aware of the censure that will be meted out to me for writing this letter but I feel that I cannot be true to my honest convictions unless I extend a helping hand and endorse all that I know to be good. The extended publications for the past few years, and graphic descriptions of different diseases of the kidneys and liver have awakened the medical profession to the fact that these diseases are greatly increasing. The treatment of the doctors has been largely experimental and many of their patients have died while they were casting about for a remedy to cure them."

"It is now over two years since my attention was first called to the use of a most wonderful preparation in the treatment of Bright's disease of the kidneys. Patients had frequently asked me about the remedy and I had heard of remarkable cures effected by it, but like many others I hesitated to recommend its use. A personal friend of mine had been in poor health for some time and his application for insurance on his life had been rejected on account of Bright's disease. Chemical and microscopical examinations of his urine revealed the presence of large quantities of albumen and granular tube casts, which confirmed the correctness of the diagnosis. After trying all the usual remedies, I directed him to use this preparation and was greatly surprised to observe a decided improvement within a month, and within four months, no tube casts could be discovered. At that time there was present only a trace of albumen, and he felt, as he expressed it, 'perfectly well,' and all through the influence of Warner's Safe Cure, the remedy he used."

"After this I prescribed this medicine in full doses in both acute and chronic nephritis, [Bright's disease] and with the most satisfactory results. My observations were neither small in number nor hastily made. They extended over several months and embraced a large number of cases which saved me from satisfactory to my mind, that I would earnestly urge upon my professional brethren the importance of giving a fair and patient trial to Warner's Safe Cure. In a large class of ailments where the blood is obviously in an unhealthy state, especially where glandular engorgements and inflammatory eruptions exist, indeed in many of those forms of chronic indisposition in which there is no evidence of organic miscuief, but where the general health is depleted, the face sallow, the urine colored, constituting the condition in which the patient is said to be 'bilious, the advantage gained by the use of this remedy is remarkable. In Bright's disease it seems to act as a solvent of albumen; to soothe and heal the inflamed membranes; to wash out the epithelial debris which blocks up the *tubuli uriniferi*, and to prevent a destructive metamorphosis of tissue."

"Belonging as I do to a branch of the profession that believes that no one school of medicine knows all the truth regarding the treatment of disease, and being independent enough to select any remedy that will relieve my patients, without reference to the source from whence it comes, I am glad to acknowledge and commend the merits of this remedy thus frankly.

Respectfully yours,
R. A. GUNN, M. D.

Dean and Professor of Surgery, United States Medical College of New York; editor of the *Medical Tribune;* Author of Gunn's New and Improved Hand-Book of Hygiene and Domestic Medicine, etc., etc.

"Pique."

The first production of "Pique" in Boston for the season was given in the Globe theatre on Monday evening, Oct. 22d. Mr. Stetson having purchased the sole right of this famous play from Mr. Augustin Daly, has selected a brilliant company of artists for the dramatic illustration of this interesting story of to-day, and it is presented with new and appropriate scenery by Jos. Schell (artist of the Park theatre,) realistic effects, and an excellent cast. Miss Sara Jewett (late of the Union Square theatre) appears as Mabel Renfrew, formerly played by her with great success; Mr. Herbert Kelcey (formerly of Wallack's theatre) as Capt. Arthur Standish; Miss Annie Russell (the original Esmeralda of the Madison Square theatre) as Mary Standish; Mr. John Jack as Dr. Gossitt; Mr. George Parkes as Raymond Lessing; Mr. Walter Reynolds as Ragmoney Jim, (an artist who has achieved considerable fame in the prominent Australian and California theatres;) Mr. J. McDonald as Thorsby Gyle; Mr. Harry Brown (the famous comedian and opera bouffe artist) as Sammy Dymple; Miss Georgia Tyler as Lucille Renfrew; Miss May Sylvie as Aunt Dorothy; Miss Lizzie McCall as Raitch; Mrs. Jane Russell as Mother Thames; Sylvie, Miss Marion Russell; Little Arthur, Master Tommy Russell; Mr. N. D. Jones as Padder; Picker Bob by Mr. J. H. Redding. The cast affords a representation of the play never before equalled in Boston, and the entire production is marked by a strict attention to detail, and a successful effort to make this one of the principal dramatic features of the season.

Naval Affairs.

Capt. John H. Russell has been promoted to be a commodore, and Commander F. V. McNair to be a captain.

A telegram has been received from the American consul at Singapore stating that the Juniata would leave Batavia at once for Hong Kong. The Enterprise was daily expected at Singapore. The Monocacy was supposed to be at Chefoo. She was under orders to proceed to Corea to relieve the Essex, which vessel was to go to Formosa to look after some American sailors reported to be on that island. The Palos was to start, September 25th, for the Lamock islands, to take on board the party which had been watching the wreck of the Ashuelot, and then go to Canton. As soon as the Pensacola arrived (which a cable dispatch says was on October 10th) Admiral Crosby expected to go to Shanghai in the Richmond, unless his presence was necessary elsewhere.

Secretary Chandler on Oct. 23d cabled Admiral Crosby, commanding the Asiatic station, to proceed at once to the vicinity of Agincourt island, near Formosa, and recover, if possible, three American sailors belonging to the merchant vessel Spartan, reported to be ashore there. It is thought at the navy department that the Essex is already on the way to the relief of the men.

The United States coast survey schooner Palinurus, after five months work has completed the survey of Stonington harbor, Conn. While running for the west harbor at Fisher's island she went ashore on Penguin shoals in Stonington harbor on the 22d inst.; she was floated off at high water, and received but slight damage. It is considered strange that while their survey of the harbor is to be used as an official guide, the surveyors themselves were the first to run on one of the best-known obstructions.

It was announced by the Boston *Post*, Oct. 24th, that Mr. S. A. B. Abbott, nominated for lieutenant governor by the democrats of Massachusetts in place of Hon. F. O. Prince, declined, refuses to accept the nomination.

J. Q. Adams, Leverett Saltonstall, Richard Olney, Francis W. Bird and about fifty other leading democrats of Massachusetts, have issued an appeal to the old-line democracy of the state to aid in defeating the re-election of Butler.

Francis J. Kelly, arrested in Illinois for murder, has reached Rockport, Ind., and made a confession that, having been threatened with punishment by R. T. Arnett, the owner of a little trading boat, for whom he was working, he determined, on the night of Sept. 29th, after Arnett had gone to bed, to escape. Remembering Arnett's threat to follow and kill him, he went back and shot Arnett in the head as he lay asleep. He took his victim's money, set fire to the boat, and escaped with a skiff. Kelly is but seventeen years old.

MEDICAL.

WE DO NOT CLAIM that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

SUPREME COURT.

WEDNESDAY, Oct. 24th.

State vs. Walter Drake and Ann M. Drake, for cruelty to Mabel Stevens, aged thirteen years, an] adopted child of the Drakes, commenced on the 23d, was resumed. County Solicitor Eastman for state; Page of Portsmouth and Wiggin of Exeter for defendants. The evidence for the defence was put in, occupying most of the day. Much interest was manifested in the case, many citizens of Hampton being in the court room, and many members of the Society for the Prevention of Cruelty to Children.

The case was given to the jury at about three o'clock, and at four o'clock they returned a verdict of not guilty.

Henry Buzzell of Northwood pleaded guilty on an indictment for cruelty to a horse, and was fined $25 and costs of prosecution.

The case of Shaw vs. the town of Newmarket was put on trial. This case is an action to recover damages occasioned by alleged defects in a highway.

A divorce was decreed to Charles W. Coleman from Lilla Coleman; cause, adultery.

GOSSIPS SAY

That the worst bridge in York county is that connecting Gerrish's island with the main land, the timbers of it being nearly rotted off, and some of the piles swinging with the tide.

That the condition of this bridge and also of the disgraceful bit of road leading to it has been brought to the notice of the selectmen of Kittery, who seem to be waiting for some bad accident to happen there before taking notice of any complaints.

That Charles E. Whitehouse, long a prominent citizen of Newcastle, has taken up his residence in ward two of this city.

Mr. Frank L. Preble of Charlestown, Mass., formerly for several years a draughtsman in the department of construction and repair at this navy yard, but now practising the profession of civil engineer in Waltham, Mass., was in this city on Wednesday of this week, and when he left he carried away with him a youthful and blooming bride, having been united in marriage with Miss Edith E. Jarvis, daughter of Mr. James M. Jarvis, at the residence of the young lady's parents, Rev. James DeNormandie of Boston Highlands officiating. The wedding was a quiet one, only the nearer relatives of the contracting parties being present, and the young couple left on the 5:20 P. M. train for their future home in Charlestown, where they have at once gone to housekeeping. Mr. Preble is not only a young man of exemplary habits and a civil engineer of more than ordinary ability, but he has displayed excellent judgment (and had excellent luck) in securing a Portsmouth girl to make his home happy, and see that he doesn't get into Massachusetts politics or any other mischief in the future; and the newly-made pair have the earnest good wishes of many friends—ours among them—for their future happiness.

The *Times* says it is reported that some Kittery people refused aid to the crew of the schooner wrecked on the Western Sisters on the night of Oct. 20th, and that they were obliged to row to Newcastle to be cared for, being wet through and very cold at the time It was reported to us that Mr. Solon Frisbee of Kittery Point took the shipwrecked mariners in, and did all he could for their comfort.

The beautiful three-masted schooner Elm City, Capt. Etheridge, arrived at Sise's wharf on Wednesday, Oct. 22d, eighteen days from Georgetown, D. C., with 952 tons of coal for E. F. Sise & Co, The captain reports very heavy weather on the passage. Part of the time he sailed in company with the schooner Alice B. Phillips, bound to Boston. The latter vessel, which was built at this port, Capt. Etheridge says beat every craft she fell in with.

The harvest supper announced to be given by the ladies of the Pearl street church on Wednesday evening, was postponed to this (Thursday) evening on account of the storm.

A boat belonging to Henry Rogers, which was stolen some nights since from Fernald's boat landing, was found by E. C. Spinney's farm hands on the beach of his orchard at the south side of the Portsmouth bridge in Kittery. Her rowlocks were missing, and in her were a pair of oars belonging to some other boat.

The day of the second Eastern railroad excursion to Boston, Oct. 24th, was even more stormy than was the first one, and the number of persons who took advantage of the low fare was small. There is still time for another excursion, as the American Exposition will not close until Nov. 3d.

Mr. Thomas G. Milsted, late of the Harvard Divinity school, who has preached several times in the Unitarian church in this city since the resignation of Mr. DeNormandie, was ordained and installed as pastor of the First Unitarian society of Taunton, Mass., Oct. 23d.

The schooner Effort, Chandler master, from New York with a cargo of coal for this port, put into Edgartown Oct. 22d, having carried away foregaff, spilt foresail, and sustained other damage, in a gale.

Mr. Coleman has resigned his position as master of the carpenters at Portsmouth bridge, and Mr. Preble has been appointed in his stead.

Engine No. 109 went over the Eastern railroad on Wednesday, the 24th inst., with an extra freight train up and back, that being her first trip. She is painted in livelier colors than the other engines, and the railroad men call her "a daisy." She proves to be very serviceable.

Capt. Daniel Haley, after finishing his season of boating and lobstering at the Appledore, Isles of Shoals, is in the employment of Randall & Caswell.

The horse of one of the city surveyors of highways, while being driven recently by him over the roads in his district, stepped upon a rolling stone, and fell, seriously injuring him. The owner threatens to bring a suit against the city for damages.

The "Iron Hall," a society instituted in the west, is talked of as being established in Portsmouth. The object is intended to be beneficial to the members during their lifetime.

The slabs taken from the wrecked schooner Hannah D., which was towed in here by the Storm King, were sold to Benj. Russell, and landed at his wharf. It is said the schooner will be towed to Bath, Me., to be repaired.

Four car-loads of oak piles have recently arrived at the Portsmouth bridge, and operations have recommenced at pile driving. It is very difficult to obtain the requisite sort of timber for this purpose, on account of the great depth of the Piscataqua and its solid foundations. Red oak is more easily obtained than white oak, because of its more rapid growth.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.

Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

In New York, Oct. 23d, a saloon keeper named Thomas Young shot his wife dead at the home of her mother. She had left on account of abusive treatment.

An elastic step, buoyant spirits, and clear complexion, are among the many desirable results of pure blood. The possessor of healthy blood has his faculties at command, and enjoys a clear and quick perception, which is impossible when the blood is heavy and sluggish with impurities. Ayer's Sarsaparilla is the best blood purifier and vitalizer known.

The United States ships Tennessee, Vandalia, Alliance, Minnesota and Portsmouth were at New York Oct. 23d. The Saratoga went to Poughkeepsie from Newburg.

A Whole Shop Full.

A druggist holding up a bottle of St. Jacobs Oil said: "It holds more paincure than all the rest of my shop."

It is announced that 1500 lives and $4,000,000 worth of property were destroyed during the recent massacre at Port au Prince, Hayti.

Within the past year we have handled about twenty gross Swift's Specific. It is one of the most popular remedies we have in our house, sells rapidly, and gives general satisfaction. In this section many physicians have endorsed it as a specific for the diseases it proposes to cure. S. MANSFIELD & Co., Druggists, Mansfield, Tenn.

Mr. A. Bachelder, of North Hampton, brought in on Wednesday of this week to J. O. Downs & Co. three nice hogs, of the Suffolk variety, weighing 950 lbs.

George W. Langmaid, aged forty-five years, was instantly killed at Salem on the evening of Oct. 23d by a train from Boston, while walking on the track of the Eastern railroad.

Complaint is made by some of the citizens living on Gates and Water streets that the street lamps are only partially lighted; that some are left burning all day, and the succeeding night do not burn at all.

A despatch of Oct. 23d from Biddeford says: "The schooner Jennie, belonging to Daniel Donovan and others, and alleged to have been used for smuggling liquor, was burned last night at Cleaves wharf. The fire was incendiary. The loss was $300; covered by insurance."

It is alleged that Charles Geary, who was killed at Woodford's corner, near Portland, by a Maine Central railroad on Oct. 22d, did not fall beneath the wheels accidentally, but committed suicide, several persons testifying that they saw him throw himself in the way of the train.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."

Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin disease, serpiginous ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn-to testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases."

BEAUTY For Rough, Chapped and Greasy Skin, Black Heads, Pimples, and Skin Blemishes use CUTICURA SOAP.

George Houston, an aged Alstead, Conn., farmer, hung himself the other day. Religious zeal had made him crazy.

M. St. Paul, a Paris physician, has offered the French Academy the sum of $5,000 to found a prize for the discovery of a cure for diphtheria. He has evidently not heard of Dr. Bull's Cough Syrup, which has cured hundreds of cases of this awful disease.

Upon the recommendation of the commissioner of pensions, the secretary of the interior has ordered the suspension of Pension Attorney J. R. Cilley of Rockland, Me.

Unable to Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body, and I am unable to tell one half that I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Aple, 17 Allston street, Boston.

Benjamin Mosley has left Fall River, Mass., to take charge of the cotton mill in Bombay, East Indies.

Though numerous causes may operate to turn the hair gray, all that is needed to restore the natural color is Hall's Vegetable Sicilian Hair Renewer. For more than twenty years its sales have been enormous, but we have yet to learn of its first failure.

Superintendent Tucker, of the Maine Central railroad, has bought of Emery & Wagg a share of their granite works at North Jay, Me.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

Capt. Charles Dearing, the popular commander of the steamer Lewiston, has been presented a purse of $550 by citizens of Bar Harbor, Mt. Desert, Me.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

Eva Brooks, a young girl employed as a domestic servant in Boston, used kerosene to hasten the fire on the morning of Oct. 23d, and died in the hospital a few hours later.

"As two boxes of Dr. Benson's Celery and Chamomile Pills *cured* a friend of *neuralgia*, whom the Drs. here could'nt help, I'll send for some myself." Clifford Shand, Windsor, Nova Scotia.

The colliery owners of Yorkshire, England, have voted to refuse the fifteen per cent advance in wages demanded by the miners.

From Groton, Mass., Mr. Wm. S. Carr writes as follows: "Ellis's Spavin Cure has cured my horse. He was very lame with ringbone." Try it.

Charles L. Dambman, the young New Yorker who has paid a forfeit of $3,000 for Nixal, the French opera bouffe singer whom he has married, formerly lived in Hartford, Conn., where his father was an importer for years.

Dr. M. T. Gamble, Farmington, Ill., says; "I prescribe Brown's Iron Bitters in my practice and they give satisfaction."

Oliver Budd, a masked robber, pleaded guilty at New Haven, Conn., to the charge of breaking into the house of David L. Treat, a wealthy farmer of Orange, in November, 1882, and severely beating and robbing him. He was sentenced to state prison for seven years, the extreme penalty of the law.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Peter McEnery, a small grocer at Birmingham, Conn., who died recently, apparently very poor, really left $250,000 for his seven children.

Begin Early in Life

to cleanse the teeth with *Sozodont*, and you will be repaid in maturer years and very probably in age, by the possession of sound molars and incisors, which will give you a more youthful look than you would otherwise have, and enable you to chew without incurring the penalty of a toothache. And when you have children, use the same fragrant preparation and they will have ample cause to be grateful to you. Don't omit for a single day.

Swift's Specific

Is a complete antidote to all kinds of Blood Poison and Skin Humor.

INHERITED IT.—My family all have Scrofula—some mildly, but my case was of the worst type, and resisted all treatment until I used Swift's Specific, which cured me sound and well by forcing all the poison out through the pores of the skin. It is the greatest medicine in the world, and I hope any who doubt will write me here.
E. C. HAWES, Jr., Clarksville, Ga.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.
REV. I. R. BRANHAM, Macon, Ga.

Our treatise on Blood and Skin Diseases mailed free to applicants.

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,

"From a complication of kidney, liver, rheumatic troubles and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names,

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better father is since he used Hop Bitters,"

"He is getting well after his long suffering from a disease declared incurable,"

"And we are so glad that he used your Bitters."

SCROFULA

and all scrofulous diseases, **Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils,** and **Eruptions of the Skin,** are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

☞ **All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.**

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and specedily cures **Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility,** and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

The mothers that *always disagree* about the beauty of their respective babies, *always agree* on the fact that for the croup, and colds of their babies nothing can equal that delightful and pleasant remedy, Dr. Bull's Cough Syrup.

—"Ma," said Jennie Parvenue, "what is Lord Coleridge and what did he do to make people break their necks reaching after him so?" "Oh," said ma, "he has wrote poetry, and is the oldest judge in England. He don't look more'n fifty, either."

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulater of the various bodily functions. Ask your druggist.

—Cicero thus praised silence: "There is not only an art, but even an eloquence in it." Yes, indeed. When one is sitting with one's girl on the porch in the still night, things cannot be too silent. Even the striking of the midnight hour grates harshly on one's ear.

Another Waltham citizen, Mr. E. P. Morry, with H. J. Johnson, druggist, says: Ellis's Spavin Cure cured my horse of weak knees, and Stocked Legs.

—The "power of the press" is best felt by him who gets his fingers caught in its mechanism.

A specific, and the only one for *all forms* and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

—A Baltimore man, the other day, while taking a bath, became a raving maniac. It is all hazardous to suddenly break off old habits.

Mr. R. A. Bartt, Hillsboro Bridge, N. H., says: "I took Brown's Iron Bitters for lung difficulty, cough, etc., and received much benefit."

—Herbert Spencer says Americans are so driven by business that they never stop to leisurely examine anything. Guess he never saw 500 or 600 busy Americans standing around for two hours watching three men raising an office safe to a fourth-story window.

—"No," said the housemaid, "I don't apologize to a man when I throw a bucket of water down the front steps to wash 'em and he comes along and gets drenched. I've tried apologizing, but I've found there's nothing you can say to a man to satisfy him."

We do not hesitate to say that for a year past we have sold more of Swift's Specific (S. S. S.) than all other blood purifiers combined, and with most astonishing results. One gentleman who used half a dozen bottles says that it has done him more good than treatment which cost him $1,000. Another who has used it for a Scrofulous affection reports a permanent cure from its use.

VAN SHAACK, STEVENSON & CO., Chicago.

—We understand that collars, railroad ties, car-wheels, boats and numerous other articles are now being made out of paper. This is a world of progress. We should not be very much surprised at hearing before long that some one had discovered a way of making money out of a newspaper.

Why do you suffer with back ache, pain in the chest, rheumatism, or lameness anywhere when a Hop Plaster will surely give you relief? Druggists sell them, 25 cts.

—"That is the fourteenth mourning costume I have seen you wear in three days, and each lovelier and more becoming than the other!" "Oh! my dear," said the young widow, "I have forty; but such a bother as they were to have made! At one time I almost wished that poor George hadn't died!"

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick cadaches when every remedy failed.

—Quite a number of our exchanges have informed their readers that "the two cent postage law has been received with universal favor." This, we believe, is contrary to expectations of the general public. It was thought the people would hold indignation meetings and demand a restoration of the three cent stamp.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

—Said the civilian, as he saw the cordiality between the Boston soldiers and their southern guests: "And these are the men our soldiers were trying to lick a few years ago, and now see how they respect them!" And an old veteran replied: "Hang it, sir: you'd respect 'em if you'd been there and seen how hard they were to lick."

It is a pure Whiskey, and as such can be prescribed by doctors or purchased for domestic use from Druggists and Grocers everywhere.

—"An unfortunate wife was killed at Troy, N. Y., while cooking her husband's breakfast in a fearful manner," says the New York *Illustrated Times*. There are a great many women all over this free land of ours who cook their husbands' breakfasts "in a fearful manner," but it is not often that justice overtakes them, as it seems to have done in this case.

An Enthusiastic Endorsement.

GORHAM, N. H., July 14, 1879.

GENTS—Whoever you are, I don't know; but I thank the Lord and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow-men that was ever conferred on mankind. TIM BURCH.

—Stopping at an Arkansas farmhouse, the good woman of the house prepared a toddy for him, and told him it was made from a new barrel of whiskey that had just arrived. A week later he called at the same house again and asked for a toddy. "We haven't a drop," said the good woman. "But when I was here only a week ago you had a whole barrel of whiskey," said he. "Yes, said she, mournfully; "but, mister, you can't expect one barrel of whiskey to last a family of seven children that hasn't got nary a cow."

Lord Chesterfield, the pink of politeness in his day, said that a true gentleman should be always *suaviter in modo, fortiter in re*, which means, mild in manner, strong in action. This is precisely the character of Ayer's Carthartic Pills. Nothing operates so mildly and yet so powerfully in removing disease.

—A couple of newspaper men met a gentleman at the Revere house, Boston, the other night, and fell into conversation with him. Result, he insisted on their going with him, and they viewed the town. When they parted, about three A. M., they exchanged names for the first time, and one of the newspaper men asked the stranger: "You're a Maine man, aren't you?" "Yes." "Well, from the way you take to a racket, I felt sure you were."

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August* 15, 1883.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 20, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 3, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered and their appraised value are, the Monadnock, (old), $11,200; Alaska, $18,300; Benecia, $17,000; Tuscarora, $9,900; Narragansett, $8,900; Nyack, $4,900, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest price therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer of proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department. ED. T. NICHOLS,
d tuo 20 Acting Secretary of the Navy.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and unjust:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, T. M. Wescout, Manager	$1,366,309
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	50,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,900
Total paid as above	$2,253,059
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,069

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.

Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

Charles H. Moss, a freight conductor on the Boston & Maine railroad, was found insensible in a gutter at Dover on the night of Oct. 24th, at midnight, and taken to the police station, where he said he had spent the evening on a visit to a lady, and on leaving her home was knocked down and beaten by two men, who robbed him of $141 in money, and bills and notes to the value of $550. The police doubt the robbery part of the story, and think Moss was beaten by other admirers of the young lady.

A man, (democratic antecedents preferred,) who will consent to stand as a candidate on the Butler ticket for lieutenant governor of Massachusetts. Simmons, at the Boston headquarters.

Be Quiet, Boys.

According to the New York *Tribune*, the cabinet meeting recently reported was not as harmonious as would be desired. Mr. Frelinghuysen complained that Mr. Chandler not only put his spoon in the State dish, but insisted upon stirring it. Some of the other members complained that the Secretary of the Navy was becoming rather too unanimous, and the president was obliged to reprimand the Secretaries of the Interior and of the Navy, who had a war of words. Mr. Arthur intimated that he was master of the situation, and if any of the class did not like it there was stationery at hand upon which they could write their resignations.

The president has been considerably annoyed at some of the ways of his cabinet, and it is quite likely that a lecture upon the rights of officers, if not upon good manners, will be delivered, should there be a repetition of the disorder witnessed at the last meeting.

News and Notes.

The schooner Wm. H. Rourke, Capt. Finley, with a cargo of coal from Perth Amboy for St. John, N. Greenwich, Conn., has an underground saloon known as "Pig-eye," which claims to be part in Connecticut and part in New York. The proprietor was recently up for violating the Connecticut laws; the case has been appealed, and before it is ended the location of the state line must be settled. "Pig-eye" has been used since 1840 to evade the laws of both states.

Patrick Egan, the Irish agitator and late treasurer of the Irish Land League, has filed in the district court at Lincoln, Neb., his intention of becoming an American citizen.

The Russian minister and wife, at Washington, are educating a little Japanese boy with their own children, at the request of his parents in Japan.

At Clifton, Mo., Oct. 23d, Mrs. William Straub killed her nephew, L. L. Darling, by hitting him on the head with a hammer.

By the bursting of a buzz saw in a mill near Muncie, Ind., Oct. 23d, Jacob Ritter had his head split open, another man had his arm torn off, and a third had his face horribly mangled.

The story that Editor McCartney of Flemingsburg, Ky., killed two men who assailed him in the street, was false.

Dr. Jackson, an English surgeon living in India, was stung to death by hornets recently when hunting tigers. He received over 200 stings, and died from the erysipelas that followed.

Nathaines, the market master at Dayton, Ohio, who absconded during the summer with about $2,300 of the city's funds, has been heard from. Clara Frederick, the woman who accompanied him, has written to a friend, stating that she and Nathaines are having a good time and are now in Ireland, and expect to leave soon for Cuba.

The Kennebunk (Me.) *Journal* says that the prospect now is that only about two-thirds as much lumber will be cut on the Kennebec and its tributaries the coming winter as usual, owing to the low prices which operators have received for their lumber. A leading Augusta operator in lumber says that, practically, lumbermen received nothing for the stumpage of last year's cut.

The general impression of the relations between France and China on the Tonquin question is that all negotiations between the two countries are exhausted, and that war or mediation only will settle the dispute.

A despatch from Alexandria, Egypt, says that the Egyptians have completely defeated El Mahdi the false prophet.

The fishing schooner Northern Light, Capt. Alex. McCloud, of Gloucester, arrived at Provincetown, Mass., Oct. 23d, with the seine boat of the schooner Helen M. Crosby of Gloucester in tow, but brought no tidings of the eight men reported lost in the squall of the 20th, in Barnstable bay.

—A Nashville man received a piece of wedding cake recently, and feeling sick at his stomach killed him, and the doctors pumped him out, and braced him up, and walked him around, and at last saved his life, although they declared he had all the symptoms of pyæmia, strychnine poisoning, normal pulse and terrific respiration, and several other awful things. However, an analysis of the cake showed that it contained no substances absolutely poisonous in themselves, but having been made by the bride, to the best of her ability and inexperience, the cake was enough to kill a river and harbor bill. The man was very young or he would have known better, and would have saved the cake to kill tarantulas with.

CATARRH ELY'S CREAM BALM

has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES COLD in the HEAD, IS NOT A LIQUID OR SNUFF.

HAY-FEVER Apply by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

ELY BROTHERS, Owego, N. Y.

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,

SUPREME COURT.

THURSDAY, Oct. 25th.

Trial of case Lucy A. Shaw vs. town of South Newmarket was resumed. Mrs. Shaw was examined by Mr. Wheeler. The plff. and wife started from Brentwood on a pleasant day, snow melting and slumpy, going by horse and sleigh; kind horse; witness drove almost all the way to the placce of overturning. She described the accident.

The evidence closed at 4:30 o'clock P. M., and the court adjourned to 8:00 A. M. Friday, when the arguments are to be heard.

Wheeler for plaintiff; Marston for town.

No. 110, State vs. George M. Lane, is next in order.

POLICE COURT--BATCHELDER, J.

THURSDAY, Oct. 25th.

Frank Mitchell, for drunkenness, was fined $3, costs $6.90; county farm in default of payment.

Three vagrants, named Daniel Chase, John Keenan and John O'Conner, were sent to the county farm for sixty days, ninety days and four months, respectively, costs being taxed at $6.90 in each case.

GOSSIPS SAY

That Mr. Henry L. Harlow is having a room fitted up in Critchley & Whalley's machine shop for the manufacture of his newly patented violin case.

That Mr. George S. Heaton, formerly of the marine band, but for several years past designer of machinery for the Winchester (Mass.) Manufacturing company, is in the city, and will take charge of the work.

That "Jalma" is a wonderful and magnificent spectacular play, but absurd and ridiculous in its plot.

That Redmond, the leading man of the Boston theatre, a two hundred and twenty-five pound "Jalma," is made to bellow in frantic tones every time he gets into a tight place, "Come, mother, come and save me."

That the Lord mansion on Middle street looks very elegant in its handsome straw-colored paint and dark-green blinds.

That the Aqueduct company had a man trying for the third time on Thursday afternoon to fix the cross-walk at the junction of Elm and Vaughan streets, which they had torn up and improperly fixed some four weeks ago.

That the company are now surprised at the persistency of our street commissioner.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Oct. 26th, Mayor Treat in the chair.

Present the full board.

The records of the last meeting were read and approved.

Petitions for a crosswalk at the new church on Madison street; of Mary N. Jenkins, for relay of sidewalk on Chapel street; and of James C. Brown, for relay of sidewalk on Court place, were referred to the committee on streets, with power.

Request of Stephen L. Marston for change of location of sewer, was referred to the committee on drains.

David Urch was appointed special police at Newcastle bridge.

City marshal's quarterly report was accepted and placed on file.

Committee on claims reported in favor of the payment of Wm. H. Dennett's bill of $11.50, for hack hire; and it was so ordered. Also in favor of payment of Hett Brothers' bill for removing dead horses after the Vaughan street fire, the owners of the property being considered liable to the city for the amount of the bill.

Dr. D. W. Jones' bill for medical services, $2, was ordered paid. Also the claim of Mrs. Tucker, $35, for damages done by fireworks on the 4th of July.

A message was received from the Common Council, announcing the passage, under suspension of the rules, of a bill appropriating $1000 for the purchase of horses. The aldermen concurred.

Adjourned for two weeks.

Mr. Orville D. Bryant, formerly an overseer in the Kearsarge mill, but now a resident of Biddeford, Me., where he has charge of a room in one of the large factories, was in town for a short time one day this week.

A rare chance for investment is advertised in another column.

Sheriff Getchell, of York county, Me., was in this city on Wednesday.

The U. S. S. Marion, in the dry dock at the navy yard, has her caulking on the outside nearly finished, and two or three favorable days will enable the job to be completed.

The schooner Ida L. Howard, from Perth Amboy for this port with coal, which arrived at Newport, R. I., recently in distress, having been run into in Dutch island roads, will be discharged in Newport on account of not being in fit condition to complete the voyage. Besides having her bulwarks and rail smashed she had her bow stove, outwater started, bowsprit shrouds and fore rigging carried away, and was started leaking quite badly.

A Washington despatch of Oct. 24th says: "Secretary Chandler has decided to court martial Chief Engineer Thom Williamson, charged with mismanaging the engineering work on the Pinta." Chief Engineer Williamson, who is now attached to the navy yard at Norfolk, Va., is well and favorably known in this city, having had several terms of service at this yard. Should an enquiry develope any mismanagement in regard to the work on the Pinta—and such a result would surprise nobody—it will probably be found to have been the work of the Virginia politicians.

Engine No. 94 of the Eastern railroad, having just been rebuilt, came through this city last Thursday with the "Flying Yankee" train. She is said to be fast, and like others of her class she has a red smoke stack.

John H. Barker, of Stratham, picked thirty-two barrels of apples in eight hours one day recently, doing the work in good shape and using a 22-foot ladder.

The lighthouse steamer Myrtle came into this harbor on Wednesday of this week, and remained Thursday.

It is said that in the towns of Rye, North Hampton, Greenland and Stratham, 20,000 barrels of apples have been raised this season, of which only about 5,000 barrels have been shipped. Purchasers from Portsmouth, Boston and other places are buying them up. The prevailing price for No. 1's is $3.50 and $4 a barrel.

Mr. Joseph E. Adams, formerly of this city, and Mr. J. H. Luke of New York, have formed a partnership to carry on the real estate and loan business at Minneapolis, Minn., under the firm of J. E. Adams & Co.

Quite a large amount of furniture is required to fit the new building of the Chase Home for Children for the reception of its destined inmates. This fact was mentioned in St. John's church on the 21st inst., and on Thursday last a gift of $50 was received from a benevolent lady of this city, to be applied to the purchase of a suitable sideboard for the Home.

Capt. Joseph C. Muchmore is now utilizing the loft over the Spring market for fitting the new wire rigging of the schooner (late United States ship) Guard. It is needless to say that the job is being done in a workman-like manner, though the style is different from what has been usual at this port.

The treasurer of the Chase Home for Children has been notified by the executor of the will of the widow of Capt. Fields, that the bequest to the Home is ready to be paid over.

A naval court of enquiry convened at New York on the 25th inst., on board the receiving-ship Vermont, to investigate the cause of the collision between the U. S. S. Pinta and the brig Tally Ho, by which the latter was sunk on Nantucket shoals, the collision occuring on the night of Oct. 3d, when the Pinta was on the way to New York from this port. The court is composed of Capt. Philip C. Johnson, president, Capt. Wm. A. Kirkland, and Comdr. Wm. H. Whiting, with Lieut. Wainwright as judge advocate. Capt. Lambert, late master of the Tally Ho, was present, with two Boston lawyers.

The schooner Gulnare, Goodwin master, was lying at Sewall's bridge, York river, Oct. 25th, loaded with pressed hay and waiting a chance to run to Boston.

A GOOD OFFER.

"An honest man is the noblest work of God!" A gentleman employed by the Eastern railroad is known to have recently returned an umbrella which he borrowed some time since.—*Times.*

This reminds us that we should like to have back our umbrella, of which we were bereaved some time last spring. We intended to have given notice of our loss at the time, but the weather which was served out by Old Probs all through the summer gave no indication of an umbrella ever being of use any more, and we forgot it. Now that rain has again commenced to fall, our umbrella is once more brought to mind.

Whoever has our umbrella cannot mistake it. It was evidently made for a grown person and an esthete, being of large size and strange hue. Originally, if our memory is correct, its covering was a species of brown; but when we last saw it, it had faded out to a subdued mud color. The handle was a crook, bearing our signature—three notches cut with a knife, and filled with red ink.

To whoever has got our umbrella we have a proposition to make. During the firemen's muster some person left on our desk a single-bladed jack-knife, evidently long used for cutting tobacco; from the state of its edge, we should say this knife has in its day shaved up about three tons of the weed. Then last week somebody left hanging on the back of our chair a little rattan cane about as big round as a pipestem, and hasn't been in after it. Now if the man who has our umbrella will bring it in, we will give him in exchange the jackknife and rattan cane, and will also remember him in our prayers. Seems to us that this is a highly advantageous offer.

The Biddeford *Times* says an old lady who lives on Pool street fell very sick, and "was removed to her daughter's home in Portland. Her illness was so serious that she made a will in which she transferred all her property to her daughter. Contrary to expectation, however, she recovered her health, and the property transferred to her daughter is now refused to be given up, and her daughter also refuses to support her mother, who has obtained counsel, and intends to bring suit for the recovery of her property."

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton or the Stevens Institute; Wm. M. Habirshaw, P. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."

Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases."

Swift's Specific

Is a complete antidote to all kinds of Blood Poison and Skin Humor.

INHERITED IT.—My family all have Scrofula—some mildly, but my case was of the worst type, and resisted all treatment until I used Swift's Specific, which cured me sound and well by forcing all the poison out through the pores of the skin. It is the greatest medicine in the world, and I hope any who doubt will write me here.

E. C. HAWES, Jr., Clarksville, Ga.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."

148 Sullivan St., New York, June 24, 1882.

☞ All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer in the *Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; price $1, six bottles for $5.

Daily Chronicle.

Don't be servile toward superiors, nor arrogant to inferiors. Maintain your dignity and self-respect in one case, and exhibit a regard for the feelings of people, whatever their station may be, in the other.

Nothing is ever lost by being pleasant and agreeable, which accounts for the remarkable sale of the great national remedy, Dr. Bull's Cough Syrup, a safe, pleasant, and successful cure for coughs and colds. Price 25 cents a bottle.

Don't wear trinkets, shirt-pins, fingerrings, or anything that is solely ornamental. One may wear shirt-studs, a scarf-pin, a watch-chain and a seal, because these articles are useful; but the plainer they are the better.

Lord Chesterfield, the pink of politeness in his day, said that a true gentleman should be always *suaviter in modo, fortiter in re*, which means, mild in manner, strong in action. This is precisely the character of Ayer's Carthartic Pills. Nothing operates so mildly and yet so powerfully in removing disease.

Don't, however brief your call, wear overcoat or overshoes into the drawing-room. If you are making a short call, carry your hat and cane in your hand, but never an umbrella.

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulater of the various bodily functions. Ask your druggist.

Don't attempt to shake hands with everybody present. If hostess or host offers a hand, take it; a bow is sufficient for the rest.

Another Waltham citizen, Mr. E. P. Morry, with H. J. Johnson, druggist, says: Ellis's Spavin Cure cured my horse of weak knees, and Stocked Legs.

Don't in any case, offer to shake hands with a lady. The initiative must always come from her. By the same principle don't offer your hand to a person older than yourself, or to any one whose rank may be supposed to be higher than your own, until he has extended his.

A specific, and the only one for *all forms* and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

Don't, as hostess, insist upon taking a caller's hat or cane. Pay no attention to these articles. It is right he should carry them; it is not right that you should notice them.

Mr. R. A. Bartt, Hillsboro Bridge, N. H., says: "I took Brown's Iron Bitters for lung difficulty, cough, etc., and received much benefit."

Don't be in a precipitate hurry to get into a chair. It is just as graceful, as easy, and as proper, to stand; and it is easier to converse when in that attitude.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Don't touch people when you have occasion to address them. Catching people by the arms or the shoulders, or nudging them to attract their attention, is a violation of good breeding.

The Head and Eye.

Since last October I have suffered from accute inflammation in my nose and head—often in the night having to get up and inhale salt and water for relief. My eye has been twice, for a week at a time, so I could not see. I have used no end of remedies, also employed a doctor, who said it was impure blood—but I got no help. I used Ely's Cream Balm on the recommendation of a friend. I was faithless, but in a few days was cured. My nose now, and also my eye, is well. It is wonderful how quick it helped me. Mrs. GEORGIE S. JUDSON, Hartford, Conn.

It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

Don't forget to raise your hat to every lady acquaintance you meet, and to every gentleman you salute, when he is accompanied by a lady, whether you know her or not.

Look sharp when your skin breaks out in pimples, and use Glenn's Sulphur Soap.

Hill's Hair Dye, black or brown, 50 cts.

Colden's Liquid Beef Tonic is admirably adapted for females in delicate health. Colden's; no other. Of Druggists.

Don't speak ungrammatically. Study books of grammar, and the writings of the best authors.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

Don't pronounce incorrectly. Listen carefully to the conversation of cultivated people, and consult the dictionaries.

G. O. Taylor Old Bourbon.

This favorite brand of pure Whiskey is bottled only by Chester H. Graves & Sons, 35 Hawkins St., Boston, Possessing ample capital, this firm does not put their brand of their best and purest goods until it has become mellowed by age. They control the entire production of this brand, and allow no adulteration whatever. It is a pure Whiskey, and as such can be prescribed by doctors or purchased for domestic use from Druggists and Grocers everywhere.

Don't pronounce *route* as if it were written *root*; it should be like *root*. Don't also, pronounce *tour* as if you were speaking of a tower. Let it be pronounced as if it was *toor*.

An Enthusiastic Endorsement.

GORHAM, N. H., July 14, 1879.

GENTS—Whoever you are, I don't know; but I thank the Lord and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow-men that was ever conferred on mankind. TIM BURCH.

Don't habitually use the word *folks*—"his folks," "our folks," "their folks," etc. Strictly, the word should be *folk*, the plural form being a corruption; but, while usage sanctions *folks* for *folk*, it is better taste not to use the word at all.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.

[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

[Signed] N. P. BRYANT, 13 Hanover St.

Remarkable Cure of Scrofulous Face.

WESTBROOK, CONN., June 19, 1879.

MR. H. R. STEVENS—Dear Sir: I can testify to the good effect of your MEDICINE. My little boy had a SCROFULA sore break out on his head as large as a quarter of a dollar, and it went down his face from one ear to the other, under his neck, and was one solid mass of sores. Two bottles of your valuable VEGETINE completely cured him. Very respectfully,

MRS. G. R. THATCHER.

JAN. 1, 1878.

MR. H. R. STEVENS—Dear Sir: I take pleasure in saying that I have used the Vegetine in my family with good results, and I have known of several cases of remarkable cure effected by it. I regard it as a valuable family medicine. Truly yours,

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have tried all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

M. A. DAUPHIN, *President.*

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.

Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

The supreme court has granted William Butterfield leave to bring a suit against Concord for $20,000, for injuries claimed to have been received last March through an alleged defective highway.

An elastic step, buoyant spirits, and clear complexion, are among the many desirable results of pure blood. The possessor of healthy blood has his faculties at command, and enjoys a clear and quick perception, which is impossible when the blood is heavy and sluggish with impurities. Ayer's Sarsaparilla is the best blood purifier and vitalizer known.

A hog that had a throat trouble a year was slaughtered in Hopkinton a few days ago, and a common pin was found stuck in his windpipe.

Advice to Consumptives.

On the appearance of the first symptoms as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough, prompt measures of relief should be taken. Consumption is scrofulous disease of the lungs; therefore use the great anti-scrofulous or blood-purifier and strength-restorer, Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections, it has no equal. Sold by all druggists. For Dr. Pierce's treatise on Consumption send two stamps. World's Dispensary Medical Association, Buffalo, N. Y. a

The man calling himself Charles H. Moss, or Morse, and claiming to be a freight conductor on the Boston & Maine railroad, who was found insensible in a street at Dover, and said he had been robbed of over seven hundred dollars in cash and securities, is thought to have stretched the truth tremendously, and is believed to be a fraud.

A Fortune

may be made by hard work, but can neither be made nor enjoyed without health. To those leading sedentary lives Dr. R. V. Pierce's "Golden Medical Discovery" is a real friend. It stimulates the liver, purifies the blood, and is the best remedy for consumption, which is scrofulous disease of the lungs. By all druggists. a 43

N. B. They've got him. It was reported on Friday that James S. Grinnell, of Greenfield, had been nominated for lieutenant governor by the Butler state committee of Massachusetts, *vice* S. A. Abbott, who declined to run *vice* Frederick O. Prince, declined. The Springfield *Republican* announced Grinnell's willingness to run.

News and Notes.

At San Francisco, Cal., Oct. 25th, several packages, containing between 3000 and 4000 unstamped letters, brought over on steamship Tokio from Hong Kong, by self-appointed Chinese mail agents, were seized by the postal authorities. It was remarked that Chinese correspondence was decreasing, and a watch was set, resulting in the above discovery.

Lieutenant James F. Simpson, who was dismissed from the army by a court martial on a charge of having married his mistress, which finding was reversed by the president, has published a letter in the *Evening American* of Waterbury, Conn., where he formerly lived, defending his wife's character, and reviewing his trial and military record. The letter is dated Fort Grant, Ari.

It is announced that the great English baritone singer, Mr. Santley, has been betrothed to a beautiful South American heiress, and that the marriage will take place shortly.

Elmer F. Culver, a wealthy young farmer of East Haven, Conn., who was charged with maltreatment and failure to support his young wife and compelled to give bonds of $1,000 a few weeks ago, has been found guilty in the superior court, the jury being out five minutes. Culver treated his wife, a refined young lady, daughter of a Baltimore merchant, with great cruelty, beating her and confining her in a basement, and compelling her to eat scanty meals from the head of a barrel. He was placed under bonds for the proper support of his wife.

While a dance was in progress at Gardner, Colorado, a few nights ago, two Mexicans commenced shooting through the windows, and killed four men. They were pursued by an armed band, and one of them was captured on the night of Oct. 24th. A rope was placed around his neck, and the other end made fast to the horns of a saddle on the back of a horse. The animal was then frightened into a run, dragging the culprit over rocks and stumps until life was extinct. When captured the man stated that he with his companion had been hired to commit the murders.

Riots have occurred at Bickaneer, India, in consequence of official exactions.

Emerson H. Smith, teacher in a Newmarket school, whipped Edward and Frank Keniston. At recess they assaulted him with stones, one of which knocked him senseless. The boys were arrested. It is said there has been considerable trouble in this school, though the teacher is a well educated and gentlemanly young man, owing to the injudicious action of the parents of certain unruly boys.

The State Teachers' Association commenced its thirtieth annual session at the city hall in Concord on Friday, the attendance being the largest for years.

"The Art Amateur" for November gives a series of six admirable drawings by Walter Crane of the superb frieze illustrating Longfellow's "Skeleton in Armor," recently painted by Mr. Crane for the Newport residence of Miss Catherine Wolfe. A biographical notice of this popular artist is accompanied by a portrait drawn by him from his reflection in a mirror, by many examples of his work as an illustrator, and by a spirited drawing of his picture of "The Angel of Love Averting the Hand of Fate." The designs for wood-carving, china-painting, embroidery and sketching on linen are numerous and excellent. There is a profusion of hints and directions for art work, and the department of home decoration and furnishing is abundantly illustrated and filled with practical suggestions. Dramatic and operatic feuilletons form new and interesting features; the Munich, Louisville and Cincinnati exhibitions are noticed, and Montezuma's "Note Book" is as full as ever of readable paragraphs. A careful examination of this number will show that the Art Amateur's claim to be the "best practical art magazine" has a broad foundation. Price, thirty-five cents; per year, $4. Montague Marks, publisher, 23 Union Square, N. Y.

The October number of the "American Journal of the Medical Sciences," edited by I. Minis Hays, A. M., M. D., and published by Henry C. Lea's Sons & Co. of Philadelphia, contains the usual number of original communications, comprisings memoirs and cases coming under the observation of practicing physicians and surgeons, with reviews of medical publications, and the quarterly summary of improvements and discoveries in the medical sciences. The physician who keeps abreast of the times, of course has this quarterly publication on his table. Its circulation is so extensive among the medical professors of this country and Europe, that it is afforded at the very reasonable rate of five dollars a year, free of postage.

Don't come to breakfast in *deshabille*. A lady's morning toilet should be simple, but fresh and tasteful, and her hair *not* in curl-papers. A gentleman should wear his morning suit, and never his dressing gown. There are men who sit at tables in their shirt sleeves. This is an abomination.

We regret being obliged to announce to the person who has our umbrella that our offer to exchange a vagrant jackknife and rattan cane for the umbrella is rescinded. The owner of the cane came in and carried it off as soon as he learned where it was, and the knife has departed as mysteriously as it appeared. But this need not deter the man who has our umbrella from returning it; let him remember that virtue is its own reward.

The schooner Alaska, of Gloucester, Mass., sailed on a bank trip on August 18th. August 24th she touched at Canso, and subsequently started for the fishing grounds, since which time she has not been heard from, and it is feared she was lost in the gale of August 29th; she had twelve men on board. Fears are also felt for the safety of schooner James Bliss, as she has not been heard of since the gale of Aug. 29th; she also had a crew of twelve men.

MEDICAL.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

GARNER, N. H., Jan. 21, 1879.
MESSRS. C. I. HOOD & CO., Lowell, Mass.:
Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,
SARAH C. WHITTIEF

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
October 27, 12:00 A. M.

Probabilities for New England:—Fair weather, preceded by light local rains, northerly winds, falling, followed by rising barometer, stationary or a slight fall in temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 40 degrees above zero.

Cloudy.

Facts are Stubborn Things.

Is there anything in any of the numerour advertisements of the Royal Baking Powder to show that the Royal does not use Ammonia and Tartaric Acid as cheap substitutes for Cream of Tartar? Or is there any charge, or the slightest insinuation in those advertisements, that Cleveland's Superior Baking Powder contains anything but the purest Grape Cream of Tartar and Bicarbonate of Soda, with a small portion of flour as a preservative?

Ammonia and Tartaric Acid produce a cheap leavening gas, which is not to be compared, in the practical test of baking, with the more desirable Carbonic Acid gas generated by the exclusive use of the expensive Cream of Tartar.

Use Cleveland's Superior Baking Powder, and judge for yourself of its superiority.

POLICE COURT--HATCHELDER, J.

FRIDAY, Oct. 26th.

A young man who chastised some boys for impertinence was fined a dollar, with $6.90 costs, which he paid. As he is not of the kind who ordinarily figure in the police court reports, we omit his name.

Charles Fall and James Doyle, two seamen, were assessed $9.90 each for drunkenness.

GOSSIPS SAY

That Senator Blair has ordered copies of the volumes of rebel records now being printed in Washington, to be sent to Storer Post, G. A. R., of this city.

That Storer Post will have a public inspection and supper next week.

That George H. Joy of this city will leave town Monday for a three weeks trip in the western states.

That Mr. John P. Tibbetts, superintendent of the Portsmouth Shoe factory, a citizen of Haverhill, Mass., will shortly move his family to this city, occupying the Kimball house on Islington street.

SUPREME COURT.

Wednesday afternoon Alonzo Elliott pleaded nolo contendere to each of four indictments against him for selling liquor. The respondent furnished bail, and the cases were continued to the April term for the payment of fines and costs.

George Prescott of Exeter was brought into court Thursday afternoon and sentenced to six months at Brentwood, on a complaint charging him with being a common drunkard.

FRIDAY, Oct. 26th.

Lucy A. Shaw vs. South Newmarket, resumed. The jurors were in their seats at eight o'clock, the last man in being a Portsmouth man, who probably was un accustomed to breakfast at the early hour required on this occasion. Gen. Marston rose to begin his argument. Sheriff Kent hinted that the court should be opened, and the general gave way for this ceremony. On resuming, the learned advocate explained the requisite condition of a road, etc., to which the law refers, as one which in ordinary condition a careful person could properly travel over. Having stated the law as he understood it, he proceeded to show the application of the evidence to the law, after an allusion to what is termed contributary negligence on the part of the claimant. The arguments of counsel were closed, and the case given to the jury shortly after ten o'clock A. M. The jury found in favor of the town.

State by Emma Chesley vs. George M. Lane, a bastardy case, was next tried. Several talesmen were called, including A. H. Hill, E. D. Coffin, Herman Manson and Richard T. Call of Portsmouth, who were sworn as jurors for the trial. Joseph W. Fisk, of Raymond, was appointed foreman. Complainant lives at Newmarket, and made complaint July 21st, 1882, before A. L. Mellows, that Lane was the father of her child begotten Oct. 15th, 1881. Emma is an orphan (though said to have a mother living,) and resides with an elderly lady, Miss M. A. Chesley, at Newmarket junction, as an adopted daughter. She testified with her infant in her arms, that she was nineteen years of age last April. The child is the defendant Lane's, and complainant its mother. Lane lives in Newmarket village. She has known him for three years. Lane stood up and was identified by complainant. Cross-examined by Gen. Marston as to her declarations to other persons as to the paternity of the child. Other witnesses were examined by the complainant's counsel. Wheeler for compt.; Marston: Mellows for deft.

The defendant sought to impeach the reputation of the complainant and Miss M. A. Chesley for truth and veracity. A brother of the latter was one of the witnesses called—a sad spectacle, a brother testifying that the reputation of a sister for truth was bad. One lady from Newmarket testified that she had heard her first husband, who died twenty-eight years ago, say it was so; this was an ancient sort of proof, but it was received. The evidence closed at half-past four o'clock P. M.

The case was given to the jury at a quarter before seven o'clock, and at a late hour in the evening they were still struggling with the question.

The jurors for the rest of the term, which will probably be about ten days, are as follows:

John H. Brown, Nathaniel Shute, Exeter; George L. Parks, E. B. Goodall, (excused before court), George W. Ayers, Chas. W. Kimball, John Hand, John W. Huntress, Portsmouth; William C. Noyes, Atkinson; Alfred D. Emery, Auburn; Nahum A. Swain, Brentwood; Joseph Watson, Candia; John H. Collins, Israel Diamond, Danville; Joseph A. Tilton, George S. Giles, East Kingston; Andrew J. Brown, Warren True, Fremont; Charles Foss, Walter B. Norton, Greenland; Andrew H. Moulton, Jacob Townsend, Hampstead; George N. Batchelder, John H. Fogg, Hampton; George S. Merrill, Benj. F. Weare, Hampton Falls; Henry C. Treat, David Brown, Kensington; Clarence O. Morse, Cyrus F. Marston, Chester.

WOMAN'S RELIEF CORPS, G. A. R.

The annual convention of the Woman's Relief Corps, auxiliary to the Grand Army of the Republic, department of New Hampshire, was held at Pittsfield on Wednesday and Thursday, Oct. 24th and 25th. A large amount of routine business was transacted, and the following officers installed on Wednesday evening by Mrs. E. Florence Barker of Malden, Mass., president of the National Department:

Department president, Mattie B. Moulton, Laconia; department senior vice president, Adelaine P. Kent of Portsmouth; department junior vice president, Sarah W. Greene of Pittsfield; department secretary, Celia F. P. Foster of Milford; department treasurer, Angelina M. Hayes of Portsmouth; department inspector, Ann J. Olmstead of Laconia; department chaplain, Louisa A. Deering of Pittsfield; department conductor, Esther Ellis of Ashland; department guard, Nellie Gerry of Claremont; delegates to the national convention to be held at Minneapolis, Minn., next July, C. F. P. Foster, A. P. Kent, S. W. Greene, Annie M. Hinds; alternates, Mrs. Frank S. Johnson, C. A. Osgood, Mary O. Hemenway, Addie S. Hughes.

The ladies of the Universalist society will have a Harvest Supper and sale of aprons, fancy-work and refreshments, in their vestry on Tuesday evening, October 30th. Doors open at 6:30 o'clock; supper served from 7 to 8; entertainment to begin at 8:30. Mrs. Leavitt of Stratham will sing. Tickets of admission 10 cts.; supper 25 cts.

The Church of the Immaculate Conception held a very large assemblage, including many prominent gentlemen and ladies who usually attend other churches, on Friday evening when the new organ was played in public for the first time. The organ is a fine one, and its capabilities were skillfully displayed by Prof. Gilbert of East Cambridge, Mass. Appropriate to the occasion, an address was delivered by Rev. E. M. O'Callaghan, pastor of the church, on music, its history and development, the important influence it has exerted in the world's affairs, and the part the church has taken in its improvement; the address was one of extreme interest, and Father O'Callaghan was listened to with the closest attention to the end. There was some fine singing by the choir, and the exercises throughout were interesting and enjoyable.

A number of boxes which were left on the sidewalk in front of a store in Franklin block, Thursday evening, were found neatly piled in the middle of the street at four o'clock Friday morning.

As Mrs. Mary C. Sanborn and Mrs. Kate Osgood of Portsmouth, delegates to the state convention of the Woman's Relief Corps, G. A. R., at Pittsfield, were being carried to dinner on Wednesday, the 24th, the horse slipped down while turning a sharp corner, tipped over the buggy and threw the occupants into the street. They escaped with slight bruises, but the horse burst a blood vessel and died almost instantly.—*Manchester Union.*

"Re-Union Poems, by A. S. Twitchell of Gorham." Gorham, N. H; V. V. Twitchell; price fifty cents.

There are four poems, one read at the re-union of the New Hampshire Veterans at Camp Evarts W. Farr in September, 1882; one read at the one hundredth anniversary of the attack of the St. Francis Indians on what is now Bethel, Me.; one read at the re-union of students of Gould's Academy in 1881, at Gorham; and one written for the re-union of the 7th Maine Battery. The latter poem was not delivered, for the reason that the re-union did not come off. Mr. Twitchell disclaims all pretensions to being a poet. He rhymes only, but he revives memories of soldier life, and pictures the bright side of the long and tedious struggle through which the boys in blue went to give us the blessings of the Union, and we forgive the lack of poetical afflatus in the honest reproduction of many scenes which those who witnessed them will delight to recall.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!
Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

52th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison. Warranted.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed at by night.

Psoriasis, leprosy, and other frightful forms of skin disease, scrofulous ulcers and sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Begin Early in Life

to cleanse the teeth with *Sozodont*, and you will be repaid in maturer years and very probably in age, by the possession of sound molars and incisors, which will give you a more youthful look than you would otherwise have, and enable you to chew without incurring the penalty of a toothache. And when you have children, use the same fragrant preparation and they will have ample cause to be grateful to you. Don't omit for a single day.

The naval advisory board held an important meeting at the navy department in Washington on Oct. 25th, at which it was decided what new naval vessels they would recommend to be constructed for the navy, and the amount of appropriation therefore. After the meeting they submitted a communication to Secretary Chandler, embodying their views, and it is said recommending the construction of seven new naval vessels.

Swift's Specific

Is a complete antidote to all kinds of Blood Poison and Skin Humor.

INHERITED IT.—My family all have Scrofula—some mildly, but my case was of the worst type, and resisted all treatment until I used Swift's Specific, which cured me sound and well by forcing all the poison out through the pores of the skin. It is the greatest medicine in the world, and I hope say who doubt will write me home.
E. C. HAWES, JR., Clarksville, Ga.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.

Did She Die?

"No!
"She lingered and suffered along, pining away all the time for years,"
"The doctors doing her no good;"
"And at last was cured by this Hop Bitters the papers say so much about."
"Indeed! Indeed!"
"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,
"From a complication of kidney, liver, rheumatic troubles and Nervous debility,
"Under the care of the best physicians,
"Who gave her disease various names,
"But no relief.
"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:
"How much better father is since he used Hop Bitters."
"He is getting well after his long suffering from a disease declared incurable,"
"And we are so glad that he used your Bitters."

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *These Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Dyspepsia and Indigestion? Why let your life be made miserable with that terrible Headache? Why lay awake on your bed of pain with Rheumatism, Neuralgia, and Gout? Why suffer with Nervousness, Sleeplessness, Dizziness, Nervous Headache, and need a gentle soothing cordial to assist nature and restore health? Why suffer with Kidney Complaint, Dropsy, Gravel, Urinary Difficulties, and need a sure remedy which will cure all? Why let your system be poisoned with Malaria, and need a reliable remedy to drive it out? Why let your blood be impure, when a few bottles of SULPHUR BITTERS will make it rich and healthy? Why let your Liver be torpid, and need a safe, sure, and pleasant cathartic? Why let your Bowels be constipated, and need a mild laxative? Why let your Nerves be unstrung, and need a nerve tonic? Why let your Appetite be poor, and need a tonic? Why let your Stomach be disordered, and need a stomach bitter? Why let your Kidneys be diseased, and need a diuretic? Why let your Skin be covered with Pimples, Blotches, and need a blood purifier? Why let your Blood be impure, and need a purifier? Why let your Nerves be shattered, and need a nerve tonic? Why let your Liver be torpid, and need a cathartic? Why let your Bowels be constipated, and need a laxative

Starting To Run To The Fire.

It was in Lowell, Mass. An alarm of fire was sounded, and the engine was rapidly driven out of the engine-house. One of the horses took fright, pranced wildly about, and ran the engine against the brick door-frame. Chief Engineer Hosmer was severely bruised and two of his ribs were broken. For three weeks the physicians doctored him. Then a friend brought him some Perry Davis's Pain Killer. On being rubbed with this, he was soon well. Best liniment in the world.

Two young men named Allen Grover and Frank D. Grover, were arrested at Lynn, Mass., last Friday evening, for breaking and entering and robbery, committed at Berwick about a week ago.

If disease has entered the system, the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation a positive cure, for dyspepsia, indigestion, kidney troubles, etc.

Harrison Frost, of Salem, employed at the Eastern railroad car shops, while at work beneath a car on Friday was shockingly jammed by the, sudden starting of the car by a shifting engine. His left leg was broken and right ankle jammed, and he received other serious injuries.

Advice to Consumptives.

On the appearance of the first symptoms as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough, prompt measures of relief should be taken. Consumption is scrofulous disease of the lungs; therefore use the great anti-scrofulous or blood-purifier and strength-restorer, Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections, it has no equal. Sold by all druggists. For Dr. Pierce's treatise on Consumption send two stamps. World's Dispensary Medical Association, Buffalo, N. Y. a

"The Most Unkindest Cut Of All."

Gov. Butler's worst set-back is the notice from certain leading men of the democratic party that he, with Simmons and Palmer, are not the "grand old democratic party." The governor attempts to pooh-pooh their protest, and to tell the boys that this is nothing but a fossil element of the democracy; that he pays the bills, and he and his are the only genuine simon pure democracy that exists to-day, in the old Commonwealth. But though this will do for a stump-talk, in his heart of hearts, if such a man as Butler carries such a functional organ beneath his waistcoat, the general knows that such men as Adams and Olney, and others in the list, have supplied the brains for the party when he has been in or out of its ranks.

In fact, these are the democrats who have in view the future of their party in the nation. Butler has simply borrowed the banners and belongings of the party to use for his own purposes without the sanction of the men who are the recognized leaders, with the exception of Edward Avery, who seems to have been retained to preside at the unanimous convention which nominated the governor, and Chas. Levi Woodbury, the inveterate Mark Tapley of the party. Butler seems to be running it alone as far as the old-line democrats are concerned.

One day last week Mrs. Ann Simpson of Biddeford, a woman sixty-five years old, employed in the weaving department of the Pepperell mills, being too unwell to continue her work went home and sat down by the fire. While she was taking off her wet boots her son Frank, a worthless, drunken ruffian just out of Alfred jail, where he had served a term for drunkenness, entered the room in his normal condition of intoxication, and instantly attacked her, throwing her upon the stove and holding her there until her back was burned to a blister, and then dashing her to the floor and pouring a kettle of boiling water over her shoulders, and kicking her savagely about the body. He then dragged her out of the room by her hair, beat her head repeatedly against the stair case, pitched her down stairs, and tumbled her into a lower room, from which she escaped and ran barefooted through the street to the residence of her brother-in-law, Hugh Simpson, where she was put to bed and her injuries attended to. She was found to be frightfully burned, scalded and bruised, though it was hoped she would recover. Her assailant has been held for trial on a charge of assault with intent to kill, and will probably find his way into the state prison.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan29,84

The President's Proclamation for a National Thanksgiving.

WASHINGTON, D. C., Oct. 26, 1883.

In furtherance of the custom of this people at the closing of each year to engage upon a day, set apart for that purpose, in a special festival of praise to the Giver of all Good, I, Chester A. Arthur, President of the United States, do hereby designate Thursday, the 29th day of November next, as a day of national thanksgiving. The year which is drawing to an end has been replete with evidences of divine goodness. The prevalence of health, the fullness of the harvests, the stability of peace and order, the growth of fraternal feeling, the spread of intelligence and learning, the continued enjoyment of civil and religious liberty—all these and countless other blessings are cause for reverent rejoicing. I do, therefore, recommend that, on the day above appointed, the people rest from their accustomed labors, and, meeting in their several places of worship, express their devout gratitude to God that he hath dealt so bountifully with this nation, and pray that his grace and favor abide with it forever. In witness thereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 26th day of October, 1883, and of the independence of the United States the 108th. CHESTER A. ARTHUR.

Dewey, alias Halpert, the forger, started from San Francisco for Boston on Friday last, in custody of officers. Just before starting Dewey made an offer through his counsel to compromise the amount claimed by the bankers of Montreal and Boston, for $85,000, but was informed by Police Inspectors Hanscom and Skelton that the offer could not be entertained and the law would have to take its course. Information has been received that the payment of the drafts drawn by Dewey on Berlin has been stopped, and as the money which was deposited in San Francisco for their purchase has been attached, the probabilities are that the full amount obtained by Dewey on forged bills of lading will be recovered.

MEDICAL.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where our directions are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. All I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

POLICE COURT--BATCHELDER, J.

SATURDAY, Oct. 27th.

Katie Lawrence and Addie Wood, young women of no uncertain reputation, were fined $3 with $6.90 costs, each, for drunkenness, having been picked up by the police on Court street, Friday, in a serious state of bewilderment. They contributed the required $19.80 to the treasury, and departed.

James McLaughlin, a vagrant, was sent to the county farm for six months, costs being taxed at $6.90.

SUPREME COURT--ALLEN J.

SATURDAY, Oct. 27th.

In case State by Emma Chesley vs. George M. Lane, the jury debated the evidence until this morning at eight o'clock, when they came into court and reported their inability to agree upon a verdict. Thus the beautiful child that had been toted by the putative father before the panel, in order that any likeness in features might be discovered, is left in doubt as to its paternity, and the gossips of Newmarket and the region around the Junction still have their doubts judicially undetermined.

The jurors were discharged, and the court adjourned to Tuesday morning, the 30th.

A GREAT PUBLIC CONVENIENCE.

A new fast Shore Line express is soon to begin running, leaving the station of the Boston & Providence railroad in Boston at ten o'clock A. M., and reaching New York shortly after four o'clock P. M. This will be a very comfortable way for going to New York by rail in the winter season. Passengers who leave this city at 7:15 A. M. will have fifty-five minutes in which to reach the Providence station before the train starts for New York, and as they will reach the latter city at a comfortable hour for dinner it will prove by far the best all-rail mode of reaching New York for patrons on the line of the Eastern railroad.

STATE TEACHERS' ASSOCIATION.

At the meeting of the State Teachers' Association in Concord, Friday and Saturday of last week, among the papers read was one by Channing Folsom, superintendent of schools in Dover, on "The study of United States history: its use and abuse," and one by E. J. Goodwin, principal of the Portsmouth high school, on "English literature in the high school." E. J. Goodwin was elected president of the association for the ensuing year, and among the vice presidents are Miss Emma Chapman of Greenland and E. R. Goodwin of Dover.

A FIGHT WHICH DID NOT COME OFF.

They tell a good story of Uncle Joe, to whose industry in cleaning fifty-eight street crossings in one day we are indebted for good crosswalks during the late muddy spell of weather.

A new man who wanted a job on the streets, was employed and detailed to accompany Uncle Joe in the work of cleaning Market street. The work began, and the new employee followed the veteran street workman. He found that he was doing a larger job than his fancy had painted. Supposing the rate was but temporary he kept on, only to find that there was no lag to the veteran. He still believed it was a put-up job, and toward night, becoming excessively tired out, his temper culminated in the threat to "burst the snout" of Uncle Joe.

The promised recipient of this pastime never neglects the city's work for any side show. He returned to the headquarters near the Temple of Justice on Court street, and after all the tools had been cleanly deposited in their proper places, turned to the new laborer in the vineyard and said: "See here; you promised to burst my snout some time ago. Work is over now, and I can attend to you. I am an old man, but if you want anything and are not afraid of the consequences, come on."

There was a vigor in the countenance and a fire in the eye of the industrious veteran which convinced the challenger that business, not pleasure, would be the result of the contest. He thought better of the proposition and did not carry his threat into execution. He left the service of the city and sought more congenial employment at the navy yard, knowing full well that if any man hurried him on that island, the offender would be summarily discharged.

The steamer Knickerbocker left the navy yard early Saturday morning with the ship Kansas in tow, bound east.

No one will doubt that Judge Allen is a working judge. He came into court on Friday at eight o'clock A. M., and with an intermission from half-past twelve to half-past two, worked up to nearly seven o'clock. During this time one case was argued, and another tried and argued by Messrs. Marston of Exeter and Wheeler of Dover.

The municipal horse-buying expedition, consisting of Mayor Treat and Aldermen Martin, Caswell and Sampson, had what they consider very good luck in Boston on Friday, and secured a pair of bay horses weighing 2560 pounds, and a gray weighing 1480 lbs. to match the gray mare already owned by the city, at satisfactory prices; the animals are warranted kind and sound in every particular, and it is to be hoped they will not be so used or abused as to have to be killed at the end of a few years of service. The city stable is now in good condition, and was visited on Saturday evening by quite a number of citizens, who admired the new horses and expressed approbation of the manner in which their quarters are now looked after.

The schooner Hannah D. came off the Kittery railway on Friday last, having been sufficiently patched up to enable her to be towed to a port in eastern Maine with the first favorable weather. It was intended to have her towed around by the steamer Knickerbocker, but that steamer took one of the lately-sold government ships (the Kansas) to tow to Rockland. The steamer Adelia arrived at this port from Bath, Me., about one o'clock Sunday afternoon, and made her tow-line fast to the schooner, in readiness to start early Monday morning; the captain reported a heavy easterly swell prevailing; also that the Kansas arrived at Bath on Saturday evening in tow of the Knickerbocker, and the latter left the tow at that place and proceeded to Boston, another steamer having been engaged to take the Kansas from Bath to the Kennebec. The Adelia will also tow to Portland from the lower harbor two fishing schooners, namely, the Lucy Warren, with 175 barrels of mackerel, and the John Jameson, with 145 barrels, both from the westward.

Rev. H. E. Hovey, rector of St. John's church, having been much troubled with hoarseness on Sunday, the morning service was read by Mr. Emil Pfeiffer, lay reader.

Rev. James DeNormandie of Boston Highlands preached to a very large congregation in the Unitarian church in this city on Sunday. There was a large and very tasteful display of cut flowers, floral emblems and growing plants, the desk, communion table, baptismal font, railing, etc., being thus ornamented; and some very beautiful musical selections were performed by the quartette.

The steamer Wm. H. Clark arrived at this port from Boston early Sunday morning, and proceeded up the river to take in tow the schooner Emily A. Staples, Capt. Coleman, loaded with bricks for the completion of a Boston sewer. The tug left in a few hours with the schooner in tow. The steamer on her arrival broke up a good many morning naps with her chime whistle, which though very loud was really quite musical.

On account of sickness among the children in the Children's Home, the proposed removal to the new Home has been postponed.

The schooner Chilion, of this port, Call master, made her last run from Whalesback light to the wharf in Bangor in 18 1-2 hours.

The lighthouse steamer Myrtle, which arrived in this port Wednesday of last week, and remained over Thursday on account of the heavy weather, on Friday went to the Shoals, to endeavor to land a quantity of timber for repairing the boatways at the White Island light station. On her inward trip the Myrtle was forced to pass Boon island without making a landing, owing to the heavy sea.

On Saturday forenoon as Mr. Asa Wentworth of Newington was leaving the harness shop of Mr. John H. Larrabee on Congress street, carrying a harness which had been left there for repairs, when about half way down the stairs he was tripped by the harness and fell to the bottom, striking his head on the stone step, and receiving some ugly cuts and bruises. He was carried in a hack to the residence of his brother, Mr. H. Gates Wentworth, where he was attended by Doctors Sherburne and Folsom.

Large flocks of English sparrows are now frequenting our streets.

A free clam chowder of superior quality was served by Meagher at the Central Eating House on Saturday evening.

Smelts are now running up the river to their usual haunts, and are being caught in good numbers from the Newcastle bridges.

The shore fishermen off Foss' beach, Rye, have been tolerably successful of late, despite the heavy weather which has interfered considerably with boat fishing along this coast.

The ladies of the Universalist society will have a Harvest Supper and sale of aprons, fancy-work and refreshments, in their vestry on Tuesday evening, October 30th. Doors open at 6:30 o'clock; supper served from 7 to 8; entertainment to begin at 8:30. Mrs. Leavitt of Stratham will sing. Tickets of admission 10 cts.; supper 25 cts.

The Eastern railroad advertises another cheap excursion to Boston, tickets being good to go by any train on Thursday, Nov. 1st, and return on any train that day and the 2d. The American Exposition closes on the 3d.

The three-masted schooner John Bird, of Rockland, Me., is lying at the wharf near the Spring market, loading for New York with apples shipped by Charles H. Hayes and others.

The lighthouse steamer Iris, which was in port Friday, had her crew at work giving the red can and spar buoys in the harbor a new coat of paint, to keep them warm during the coming winter.

At the brokers' board in Boston, Saturday, Eastern railroad stock sold at $38 per share, and after the board 100 shares changed hands at $39. The gross earnings of the road for the year ending Sept. 30th were in round numbers $3,584,000, an increase of about $150,000 over the gross income the previous year. The gross earnings of the Boston & Maine road for the year ending Sept. 30th were $2,990,000, an increase of $139,000 over the previous year.

A despatch of Oct. 27th, from Gloucester, Mass., says: "The fishing boat 'I Am,' eleven tons, of Lanesville, is reported sunk at the Isles of Shoals."

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.
A Book for Every Man!
Young, Middle-aged and Old.

THE untold misery that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should perhaps the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Head, with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs.

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic.

Psoriasis, leprosy, and other frightful forms of skin disease, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.
Send for "How to Cure Skin Diseases."

BEAUTY For Rough, Chapped and Greasy Skin, Black Heads, Pimples and Skin Blemishes use CUTICURA SOAP.

AYER'S Sarsaparilla

Is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalizing power. It is the best known remedy for **Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions** of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as **Rheumatism, Neuralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.**

A new play is about to be produced entitled "what shall he do with it?" well, if "it" is a bottle of Dr. Bull's Cough Syrup, he'd better take a spoonful three times a day until he gets rid of his cough or cold.

The New York maritime exchange has collected about $1,000 for the Java earthquake sufferers.

Dr. Benson's Celery and Chamomile Pills contain no opium, quinine, or other harmful drug and are highly recommended for headache, neuralgia and nervousness. 50 cents, at druggists.

Committees of the Lehigh and Schuylkill coal exchanges met Friday and decided to make no change in prices of coal during November.

Dr. T. A. Smurr, Ottawa, Ill., says: "Brown's Iron Bitters give entire satisfaction."

Fifty operators in the coal mines of St. Clair county, Ill., have been indicted for violating the law requiring scales for weighing coal to be placed in each mine.

A good name at home is a tower of strength abroad. Ten times as much Hood's Sarsaparilla used in Lowell as of any other.

The superstitious negroes in the Washington jail are much frightened whenever placed near Guiteau's cell. Twice lately the jail has been thrown into commotion at night by the ravings of negroes, who claim to have been visited by Guiteau's ghost, and who evidently are laboring under extraordinary fear or temporary insanity.

Personal.

A young lady of seventeen summers, highly educated, refined, and of prepossessing appearance, desires to form the acquaintance of some nice young man, whom she would advise, if troubled with dyspepsia, to use that great blood purifier, Sulphur Bitters.

The attention of Secretary Chandler has been called to the case of Engineer Manveal of the navy, who is on leave of absence for a year on three-quarters pay, and is in the service of the Nicaragua canal company at a salary of $10,000 annually. The suggestion as to Mr. Manveal is that he has never been naturalized.

Another Waltham citizen, Mr. E. P. Morry, with H. J. Johnson, druggist, says: Ellis's Spavin Cure cured my horse of weak knees, and Stocked Legs.

Ensign C. C. Rogers has been detached from duty in the bureau of naval intelligence, navy department, to allow him to accept the position of professor of natural philosophy and chemistry in the Hume college, Nashville, Tenn., with the full pay of the chair.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Orders have been issued to remove the engines and boilers of the U. S. S. Monongahela, now at Mare island, Cal. She will be made into a storeship and sent to Callao, Peru, to take the place of the Onward, which is in bad condition.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

The Tallapoosa, Lieut. John F. Merry commanding, arrived at the Boston navy yard on Friday, Oct. 26th, from New York, with 100 seamen intended for the Shenandoah.

Ugly Gaps

in that row which of all others should be kept in thorough repair, a row of teeth, are sure to occur and no less sure to hopelessly disfigure the face if disregard of the teeth's cleanliness is persistent. But if the error is corrected in time with the aid of *Sozodont*, America's leading tooth beautifier and invigorant, the tenants of the mouth long retain their strength and whiteness unimpaired. A word to the wise is sufficient.

A naval board of enquiry at the Boston navy yard met on Friday last, to investigate the recent collision between the U. S. S. Powhatan and the schooner Druid. The officers comprising the court are as follows: Captain A. E. K. Benham, president, Captains E. P. Lull and F. M. Bunce, members, and Paymaster C. F. Guild as recorder.

Swift's Specific

Is a complete antidote to all kinds of Blood Poison and Skin Humor.

INHERITED IT.—My family all have Scrofula—some mildly, but my case was of the worst type, and resisted all treatment until I used Swift's Specific, which cured me sound and well by forcing all the poison out through the pores of the skin. It is the greatest medicine in the world, and I hope any who doubt will write me here.
E. C. HAWES, JR., Clarksville, Ga.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or duration of the affliction, or the injury done by the affliction, or hindrance from labor, and with security from strangulation, of which, according to statistics, not less than 30,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and moral tax; they bring on kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. Sherman's Rooms are kept by a board of Physicians, Merchants, Farmers and others who have been cured mailed for 10c. Pamphlet of photographs of real cases, 25c. by mail. Principal office, 251 Broadway, N. Y.; days of consultation each week, Mondays, Tuesdays and Saturdays. Branch office, 43 Milk St., Boston, Wednesdays, Thursdays, Fridays. oct17,4w

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Sick Headache? Why will you wrestle with that terrible Rheumatism? Why toss on that bed of pain with Rheumatism? Why not make your nerves as strong as steel? Why not be free from Nervousness? Why not secure the blessings of good health? Why not purify your blood, clean your system, and stop a genuine scrofulous humor? Why not regain the vigor of youth? Why not be free from Dyspepsia? Why not be free from Constipation? Why not be free from Liver Complaint? Why not be free from Kidney Complaint? Why not be free from Female Complaint? Why not be free from Nervous Debility? Why not be free from Mental Depression? Why not be free from Sleeplessness? Why not be free from Pimples? Why not be free from Boils? Why not be free from Blotches? Why not be free from Ulcers? Why not be free from Tumors? Why not be free from Salt Rheum? Why not be free from Scrofula? Why not be free from Blood Poison? Why not be free from Mercurial Disease? Why not be free from Malaria? Why not be free from Ague? Why not be free from Fever? Why not be free from Jaundice? Why not be free from Dropsy? Why not be free from Kidney Disease? Why not be free from Liver Disease? Why not be free from Bladder Disease? Why not be free from Urinary Disease? Why not be free from Bright's Disease? Why not be free from Diabetes? Why not be free from Gravel? Why not be free from Stone? Why not be free from Dysentery? Why not be free from Diarrhœa? Why not be free from Constipation? Starting To Run To The Fire.

It was in Lowell, Mass. An alarm of fire was sounded, and the engine was rapidly driven out of the engine-house. One of the horses took fright, pranced wildly about, and ran the engine against the brick door-frame. Chief Engineer Hosmer was severely bruised and two of his ribs were broken. For three weeks the physicians doctored him. Then a friend brought him some Perry Davis's Pain Killer. On being rubbed with this, he was soon well. Best liniment in the world.

David Adams, aged sixty-five years, died Friday at Centre White Creek, Washington county, N. Y. It is alleged that he starved to death. Fifteen thousand dollars in securities were found hidden in his house, and his relatives are looking for $20,000 more. His wife was starved to death ten years ago.

If disease has entered the system, the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparrtion a positive cure, for dyspepsia, indigestion, kidney troubles, etc.

Thomas Mitchell was set upon at Central City, S. C., Friday night, by seven circus men, murdered and thrown from a train. Officers are pursuing the murderers.

William Bruce, a well-known fox hunter and highly esteemed resident of Mont Vernon, had his left arm nearly shot away Saturday, by the accidental discharge of his gun while taking it from a wagon, and fainted and was found unconscious in the highway. He died that night, aged sixty-four years.

Advice to Consumptives.

On the appearance of the first symptoms as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough, prompt measures of relief should be taken. Consumption is scrofulous disease of the lungs; therefore use the great anti-scrofulous or blood-purifier and strength-restorer, Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections, it has no equal. Sold by all druggists. For Dr. Pierce's treatise on Consumption send two stamps. World's Dispensary Medical Association, Buffalo, N. Y. a

Poll-Taxes and Voting in New Hampshire.

In an address (or tirade) delivered by Benjamin F. Butler at Taunton, Mass., he said: "If you put poll taxes on them to prevent them from voting, they will go just across the border into New Hampshire, where there is no poll tax to prevent them from voting."

A correspondent of the Boston *Herald* signing himself "Rockingham," commenting on Butler's declaration, said: "The undersigned has been a voter in New Hampshire since 1854, and has every year since that date paid a poll tax, and always supposed that it was necessary to do in order to have a right to vote, and, if it is not the law in New Hampshire that every man between the age of twenty-one and seventy shall pay a poll tax before he can vote, I should like to know it."

Another correspondent of the *Herald*, in answer to "Rockingham," states that he has been a voter in New Hampshire since 1852, and helped to make and execute the laws, and "never, to my knowledge, since 1852, has there been any law on the statute book requiring a voter to pay any tax in order to be entitled to vote."

One of our Massachusetts subscribers writes us to know exactly what the New Hampshire law is on this subject, which we think the following will make clear:

Every male inhabitant of any town or city in New Hampshire (with certain special exceptions) between the ages of twenty-one and seventy years, is required to pay a poll tax.

Every male inhabitant who is a *citizen of the United States*, (with certain special exceptions) of the age of twenty-one years, and who has resided in the town or city in which he claims the right to vote six months previous to any election, has *the right to vote*.

In other words, while every male over twenty-one years old is required to pay a poll-tax, the non-payment of that tax, or any other tax, does not debar the *citizen* from voting.

Butler was probably right. The class of men to whom he is appealing for votes would no doubt dodge their poll taxes right along, were they in New Hampshire.

What Vessel Is It?

An unknown schooner is reported sunk about seven miles from Port Clyde, Me., with her mast-heads out of water, and in a dangerous position for passing vessels. Nothing is known of the fate of the unfortunate schooner's crew. The mast-heads of the sunken craft are painted black; and this, joined with the fact that the coast survey schooner Eagre had not arrived at Port Clyde, where she was expected, up to Sunday night, caused apprehensions for that vessel's safety. The Eagre, under command of Lieut. E. D. F. Heald, U. S. N., has been engaged in surveying the coast of Maine. She was formerly the centre-board yacht Mohawk, of the New York yacht club's fleet, and was capsized by a squall while at anchor in New York harbor, Commodore Garner and several other persons being drowned in her. She was afterward bought by the government and her spars much reduced, and was then placed in the coast survey squadron.

P. S. A despach of Oct. 29th, from New York, says "the coast survey schooner Eagre arrived here to-day, after a very rough voyage."

The schooner Chilion, Capt. Call, arrived below at nine o'clock Sunday morning, bound to Hingham, Mass., from Bangor, Me. Capt. Call reports about fifty vessels in the lower harbor, mostly light, afraid to go out. Portland harbor, which the Chilion put into on the way up, was full of vessels when she left, most of them bound west, though none of them seemed inclined to take advantage of the "slant" which brought the Chilion to our lower harbor. Besides a number of brick trips between the Piscataqua river and Boston, this schooner has made fifteen timber trips between Bangor and Hingham this season.

Among the recent visitors to this city was Mr. Dan'l S. Broderick of New York, treasurer of the Bronx Wool & Leather Co., who not many years ago was a pupil in the Portsmouth high school, and an attache of this paper. Like unto other reputable newspaper and ex-newspaper men, Mr. Broderick has taken to himself a wife, and on his visit here was accompanied by his young bride. They have gone on a brief trip to the south, and on their return will take up their residence in New York.

New York parties are reported to be buying apples in this vicinity; 20,000 barrels of this fruit it is said were raised this season in the town of Stratham alone.

York has nine resident tax payers who pay over $75 tax, namely: John R. McIntire, $306.71; Edward S. Marshall, $166.18; Charles A. Grant, $96.64; Jeremiah McIntire, $95.68; Charles Moody's heirs, $92.48; James A. Bragdon, $91.64; Samuel P. Young, $91.03; Charles C. Barrell, $83.83; Henry Moulton, $76.71. The total assessment is $11,681.12; the total number of names on the tax list is 1,928, and the nine estates above mentioned pay $1,100.37, or nearly one tenth of the whole tax. The rate of taxation is $13.70 on a thousand valuation.

Jack Sullivan of South Berwick left that town about eight years ago for service in the army, and after his discharge went to Rockford, Ill. About a month ago he turned up in Salmon Falls and went to work in a mill. On Friday last the sheriff of Winnebago county, Ill., arrived in Salmon Falls, to catch Sullivan, who is wanted in Illinois to answer for a heinous crime. It is alleged that he was engaged to be married to Miss Estella Andrews of Rockford, Ill., and made all ready for the wedding, when the girl "went back" on him, and he sold the furniture he had bought. One night in April last he met the girl near her father's house on her way home from church, inflicted twenty-three stabs and cuts on her with a knife, beat her on the head with a piece of board, and left her for dead. He was arrested and indicted, but escaped from jail Sept. 2d, and the officers had been on the hunt for him ever since until last week. He has relatives living in South Berwick, and was not suspected there of having committed any crime.

Almost A Miracle.

[Special Correspondence Atlanta (Ga.) Constitution, June 17, 1883.]

Mr. E. C. Hawes, Jr., lives at Clarksville, Ga., and teaches a village school Learning that he had been a victim to Scrofula, and had been cured of it, I sought him out and induced him to give me a history of the case for publication. After some hesitation, Mr. Hawes said that while he was averse to going in print, yet he regarded it as his duty to suffering humanity to give the particulars of his case, that others might have the benefit of his treatment and cure.

HISTORY OF THE CASE.

He said: "Scrofula is hereditary in my family, all of the members being afflicted with it—some slightly; but mine was of the worst type, and was regarded by all medical men as incurable. I was treated by many physicians, and went through the whole catalogue of medicines; in fact, the only object I had in life was to get rid of this terrible disease, which was gradually but surely eating my life away. My scalp was so sore that there have been months that I could not touch it with a comb. My face was so covered with sores that I had to shun contact with my fellow-man, and felt a delicacy in going to a general table of even a country hotel. For years I have been in constant pain, and lost flesh until I was a physical wreck.

HIS FATHER A PHYSICIAN.

My father being a practicing physician, and having read medicine myself, I was of course prejudiced against all proprietary remedies; but having had Swift's Specific recommended to me by many persons, and learning that fair-minded doctors were now prescribing it for blood and skin diseases, I determined to give it a fair trial. For the first few days, the remedy made the symptoms seemingly worse, but I knew it was forcing the poison out and I felt better. In three weeks the sores all began to heal; my hair commenced to grow out again; I commenced gaining flesh; my nervous system greatly improved; my sluggish blood quickened its course, and I felt that I was a new man. Since then I have continued to improve rapidly in every respect. The scars have left my face; the aching of my bones and joints are a thing of the past, and there is not a trace of the disease left; and from being a skeptic, I am now the warmest advocate of Swift's Specific. I do not believe there is a man, woman or child in the world, no matter what their condition, or how free from disease, that will not be benefited by taking Swift's Specific. It is without doubt the best remedy for all skin and blood disease; as a health tonic it is incomparably the best; as a nerve food it is superior to everything.

"I do not even know any one of the Swift Specific Company, but I would be recreant to my duty to my fellow-men if I did not give to the world my experience and rescue from suffering and death. I will take pleasure in answering any inquiries from other sufferers. I can say also that Swift's Specific is a certain cure for Camp Itch, as one young man here was cured sound and well by one bottle. I refer with confidence to any man of respectability around Clarksville, as all were familiar with my hopeless condition and with my miraculous cure by the use of Swift's Specific."

In mingling with the citizens, I found that they had endorsed everything which Mr. Hawes has said. Surely, this case should attract attention all over the world. NORTH GEORGIA.

MRS. FIELD'S BEQUESTS.

The remains of the late Mary Jaffrey Field were last week interred at Greenwood cemetery, Baltimore, by the side of her mother, Mrs. George Jaffrey.

The following extract from the will of Mrs. Field gives the amounts of her bequests and the names of the recipients:

I leave to St. John's church at Portsmouth, New Hampshire, $1000.

To Portsmouth Atheneum, $1000.

(One thousand to each.)

To Faith Home, same place, $1000.

To Children's Home, same place, (The William Chase house, corner of Washington street, Portsmouth, N. H.,) $1000.

To my sister Hellen Field Williams at New Berlin, Chenango county, New York, $1000.

To my niece, Libbie Field Spofard at Utica, New York, $1000.

To Buford Arbogast, $500. His mother's address is at Harisonburg, Virginia.

To Miss Mary Dehon Parker at Portsmouth, N. H., $500.

To Mrs. Mary Leighton Porter, Washington, D. C., $1000.

To Mary Hadyn $500. Her address is 1313 H St., Washington.

To Miss Edmonia Page, Carter Hall, $200.

To Mrs. Joseph Barnard at Portsmouth, New Hampshire, $100. Direct to the care of Woodbury Seavey.

To William H. Hackett as a recognition of services rendered, $300, also as a mark of esteem.

To Mr. R. W. Chase, 77 Charles street, Baltimore, $1000, as a mark of respect and esteem.

To Mr. Richard Crowther, Washington, D. C., a kind friend, $1000.

To Mrs. Arbogast, Harisonburg, Virginia, $500.

To Protestant Episcopal Missionaries—For Foreign, $500.

For Domestic, $500.

In all $1000, for Church Missions.

To Mrs. Annie Durall Robinson, $100. Her address, Care of Rev. Mr. Smith, No. 544, Pacific street, Brooklyn, N. Y.

To Mrs. Annette Brown, a colored woman of Portsmouth, N. H., 50 dollars, (an old servant.) Miss Mary Dehon Parker will hand over the amount to Annette if sent to her at Portsmouth, New Hampshire.

To Miss Maggie Crossdale, $100. Mrs. Porter will know her address.

Miss Mary Bowman, $100. Mrs. Porter will give her address.

To my dear cousin Miss M. M. Wethered, I give $1000.

To my dear cousin Linnie Wethered, I give $1000.

These various bequests are to be paid from my different securities as Mr. Crowther (my executor) thinks most advisable, therefor I do not particularize.

MRS. M. J. FIELD.

WRECK AT THE SHOALS.

The fishing schooner "I Am Here," of Lanesville, Mass., 11.06 tons register, Capt. C. E. Sammis, while lying in the Isles of Shoals roads during the gale of Oct. 25th dragged her anchors, three in number, though she had out 180 fathoms of cable, went ashore on Star island, and now lies sunk in ten feet of water. She was valued at $700, and uninsured. The crew were saved, and kindly cared for at the Oceanic hotel by Mr. O. L. Frisbee, the manager, to whom and to the Laighton Brothers Capt. Sammis and his men express earnest thanks for their generous hospitality.

THE NORTH POND.

Mr. Editor: It is announced that the mayor and aldermen have ordered the tide-gates of the north millpond to be removed Nov. 1st, and have notified to that effect Hon. Moses H. Goodrich, who for many years has depended upon the water of the pond for grinding bark for use in his tanyard.

The city authorities may be able to see that some good will come from this action; to me it is a sublime mystery. The pond is not a serious nuisance in the winter time, when covered with a foot or two of ice; and if the water is wanted to have free ingress and egress during the winter, in hope that it will wash away part of the nuisance before next spring, the same result could be equally as well attained by chaining the gates open. Then with the advent of hot weather another season, if the filthy flats when festering under the rays of the sun should send forth an unbearable stench, the gates would be in place for the purpose of keeping the pond flooded as a partial remedy, — and the only remedy which there seems any likelihood of being applied by the city government.

This north-pond-nuisance affair has been a queer one all through. Many hundreds of dollars have been expended in committee expenses, in procuring surveys by engineering experts, etc.; petitions have been sent in, signed by the majority of the heavy tax-payers of the city, praying the councils to do something effective to abate the nuisance; the city is now paying $500 a year for the "use" of the pond, which is to be made useless; and the final result of it all is to be the removal of the only protection the noses of the people have ever had—the power to keep the pond flooded at low tide.

But though we fail to see how the removal of the gates can do any good, we can easily discern where it will do some harm. Mr. Goodrich's tanning business has employed three or four men, and furnished a handy market for the hides and bark produced in the surrounding country, thus tending to bring trade to the city. By having the use of the water to grind bark with, one or two days each fortnight, this business could be continued; with the stoppage of the water the business will probably stop. This of course is not a very momentous affair; it is only a matter of whether or no three or four working men shall be thrown out of employment; but it seems to me that the business prosperity of the city is not so great that even a small industry should needlessly be destroyed. THAVELLER.

A GOOD CHOICE.

E. B. Phillips, Esq., formerly president of the Eastern Railroad Co., has been chosen president of the Fitchburg railroad, succeeding the late Wm. B. Stearns. Mr. Phillips is too well known as an able railroad president in New England to require any introduction to the shareholders in the property over which he now assumes management. As president of the Eastern he did much to develope the capabilities of that road. He was opposed to the bondholders' idea of leasing the Eastern, believing that it had reached a point where it was merely a question of time in regard to its future value. He is an honest and able man, and possesses in an eminent degree the qualifications for the position he now assumes. The Fitchburg and its connections demand a man of progressive ideas, broad views and comprehensive knowledge: as manager of a through line its executive must be thoroughly up in the ramifications of western business, and the experience of Mr. Phillips, and his observation during years of service at the west as well as in the east, make his selection for the presidency of the Fitchburg at this time a most fortunate and expedient one.

QUITE A CELEBRATION.

The city of Dover has long had a hand fire engine, the Cataract, at Garrison hill, where it was not particularly needed, and recently it was voted by the city councils to dispose of it. The thriving village of Sawyer's Mills being virtually without protection from fire, the young men of the village formed a volunteer company, and the old hand engine was turned over to them. On Friday evening of last week the engine was transferred from Garrison hill to Sawyer's Mills in grand style, seventy-four men hauling the machine, the Sawyer's band leading the way, while a drum and fife corps made music for some boys who hauled the hose carriage. The houses along the line of march were illuminated, and torches, flags and banners were carried in the procession; at the end of the journey a choice collation was served.

Portsmouth was represented by thirteen teachers at the meeting of the State Teachers' Association in Concord last week.

The old ship Kansas arrived at Rockland on Sunday.

The steam tug Adella started on Monday morning for the eastward with the schooner Hannah D., but soon returned her to her moorings at Pier wharf, and herself took a berth near Appledore wharf.

Miss Lane, daughter of Mr. George Lane, a young lady of fifteen years, in company with her mother started this morning for Montreal, to enter the school of the convent of Notre Dame.

A lodge or branch of the "Order of the Iron Hall" was organized in this city on Friday evening last by Charles H. Marshall, D. S. J., of Manchester. The objects of the order are to disburse pecuniary weekly relief to sick and disabled members, and a liberal cash benefit at the end of seven years from date of admission to the order, or upon total disability from any cause. The officers of the local hall for the present term are as follows: John H. Wells, past chief justice; David Urch, chief justice; Solomon Littlefield, vice justice; Thomas Rees, cashier; G. E. Hodgdon, adjuster; James F. Trafton, prelate; Chas. F. Langley, herald; Chas. H. Kennison, watchman; J. H. Wells, David Urch, L. M. Perkins, trustees.

The fishing schooner Joseph O., of Gloucester, Capt. Thomas Jameson, on Monday landed 10,000 lbs. of cod and haddock to Randall & Caswell.

In a window of G. Herbert Ayers' barber shop on Water street is a chrysanthemum which has on it 160 blossoms, large and beautiful. Growing close to it is a young specimen of the pineapple plant.

The bad weather of the past ten days has prevented the usual number of coal vessels from arriving at this port, though a large number are on the trip hither, weather-bound in the various shelter ports along the way. One big schooner got in on Monday from Philadelphia, with 1005 tons of coal to J. Albert Walker.

The body of Stephen Grant of Kittery, who disappeared several weeks ago and was supposed to have been drowned, was washed ashore at Rye beach on Monday. The body was identified by papers found in the pockets.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.,

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.
"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.
BOSTON, October 19, 1879.
R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you nearly the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should read the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, wanted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or by conferring with the author, who may be consulted, 14 all diseases requiring skill and experience. Address

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all important events transpiring in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and is

A passenger train collided with a freight train at a crossing of the Michigan Central railroad and the Panhandle railroad at Joliet, Ill., Oct. 28th. One engineer and a brakeman were killed, the other engineer and one fireman badly hurt, and the flagman was burned to death.

Dr. T. A. Smurr, Ottawa, Ill., says: "Brown's Iron Bitters give entire satisfaction."

A museum in Brooklyn, N. Y., will be the scene of a notable wedding in a few days. The New England midget will marry the German princess, a diminutive creature. The Brahma priestess will give the bride away. The Kentucky giant will act as the best man, and the "child with the Daniel Webster head" will be the first bridesmaid. The ceremony will be performed on the stage in the presence of the audience. The lovers seem devoted, and are miserable when out of each other's sight.

STATE OF NEW HAMPSHIRE, Rockingham, ss.

By the Judge of Probate for said County.

TO the heirs at law and creditors to the estate of BENJAMIN CANNEY, late of Portsmouth, in said County, deceased, intestate, and all persons interested in said estate, GREETING:

YOU are hereby notified that Marcellus Buffum, administrator of the estate of said deceased, had filed his account of administering said estate in the Probate office, for said County, and will present the same at a Court of Probate to be holden at Portsmouth in and for said County, on the second Tuesday of November next, at 10 o'clock, A. M., for allowance.

YOU are therefore hereby cited to appear at said court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge.

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,

"From a complication of kidney, liver, rheumatic troubles and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names,

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better fa-ther is since he used Hop Bitters."

"He is getting well after his long suffering from a disease declared incurable,"

"And we are so glad that he used your Bitters."

Swift's Specific

Is a complete antidote to all kinds of Blood Poison and Skin Humor.

INHERITED IT.—My family all have Scrofula—some mildly, but my case was of the worst type, and resisted all treatment until I used Swift's Specific, which cured me sound and well by forcing all the poison out through the pores of the skin. It is the greatest medicine in the world, and I hope any who doubt will write me here.
E. C. HAWES, JR., Clarksville, Ala.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.

HIS OWN EXECUTOR.

A Well-known Gentleman's Philanthrophy and the Connection Caused by One of his Letters.

(Rochester Democrat and Chronicle.)

We published in our local columns yesterday morning a significant letter from a gentleman known personally or by reputation to nearly every person in the land. We have received a number of letters protesting against the use of our columns for such "palpable frauds and misrepresentations;" therefore, to confirm beyond a doubt the authenticity of the letter, and the genuineness of its sentiments, a reporter of this paper was commissoned to ascertain all the possible facts in the matter. Accordingly he visited Clifton Springs, saw the author of the letter, with the following result.

Dr. Henry Foster, the gentleman in question, is 63 or 64 years of age and has an extremely cordial manner. He presides as superintendent over the celebrated sanitarium which accommodates over 500 guests and is unquestionably the leading health resort of the country. Several years ago this benevolent man wisely determined to be his own executor; and, therefore turned over this magnificent property worth $300,000, as a free gift to a board of trustees, representing the principal evangelical denominations. Among the trustees are Bishop A. C. Coxe, Protestant Episcopal, Buffalo; Bishop Mathew Simpson, Philadelphia, Methodist Episcopal; President M. B. Anderson, of the University of Rochester; Rev. Dr. Clark, Secretary of the A. B. C. F. M., Boston. The benevolent purpose of the institution is the care: 1st,—of evangelical missionaries and their families whose health has been broken in their work. 2nd,—of ministers, of any denomination, in good standing. 3rd,—of members of any church; who otherwise would be unable to secure such care and treatment. The current expenses of the institution are met by the receipt from the hundreds of distinguished and wealthy people who every year crowd its utmost capacity. Here come men and women who were once in perfect health, but neglected the first symptoms of disease. The uncertain pains they felt at first were overlooked until their health became impaired. They little realized the danger before them, nor how alarming even trifling ailments might prove. They constitute all classes, including ministers and bishops, lawyers, judges, statesmen, millionaires, journalists, college professors and officials from all parts of the land.

Drawing the morning *Democrat and Chronicle* from his pocket, the reporter remarked, "Doctor, that letter of yours has created a good deal of talk, and many of our readers have questioned its authenticity."

"To what do you refer?" remarked the doctor.

"Have you not seen the paper?"

"Yes, but I have not had time to read it yet."

The reporter thereupon showed him the letter, which was as follows:

CLIFTON SPRINGS SANITARIUM CO., CLIFTON SPRINGS, N. Y., Oct. 11, 1883.

DEAR SIR: I am using Warner's Safe Cure, and I regard it as the best remedy for some forms of kidney disease that we have. I am watching with great care some cases I am now treating with it, and I hope for favorable results.

I wish you might come down yourself, as I would like very much to talk with you about your sterling remedy and show you over our institution.

Yours truly,

[Signed] HENRY FOSTER, M. D.

"I do not see why anybody should be skeptical concerning that letter," remarked the doctor.

"Isn't it unusual for a physician of your standing and influence to commend a proprietary preparation?"

"I don't know how it may be with others, but in this institution we allow no person to dictate to us what we shall use. Our purpose is to cure the sick, and for that work we use anything we know to be valuable. Because I know Warner's Safe Cure is a very valuable preparation, I commend it. As its power is manifested under my use, so shall I add to the completeness of my commendation."

"Have you ever analyzed it, doctor?"

"We always analyze before we try any preparation of which we do not know the constituents. But analysis, you know, only gives the elements; it does not give the all important proportions. The remarkable power of Warner's Safe Cure undoubtedly consists in the proportions according to which its elements are mixed." While there may be a thousand remedies made of the same elements, unless they are put together in proper proportions, they are worth less as kidney and liver preparations.

"I hope some day to meet Mr. Warner personally, and extend full congratulations to him on the excellence of his preparations. I have heard much of him as the founder of the Warner Observatory, and as a man of large benevolence. The reputed high character of the man himself gave assurance to me in the first place that he would not put a remedy upon the market that was not praiseworthy; and it was a source of a good deal of gratification to me to find out by actual experiment that the remedy itself sustained my impressions."

The conclusion reached by Dr. Foster is precisely the same found by Dr. Dio Lewis, Dr. Robert A. Gunn, Ex-Surgeon General Gallagher and others, and proves beyond a doubt the great efficacy of the remedy which has awakened so much attention in the land and rescued so many men, women and children from disease and death.

Quick Work.

Scott & Co. are announced that Congressman Hewitt, of New York, gallant and meritorious Democrat, would be the Democratic candidate for Speaker of the 48th Congress. Scarcely had the announcement been made on the retired list by limitation of age, he then standing second on the list of commodores. About the middle of October Rear Adm. Clitz was retired, which placed Commodore Rhind at the head of his grade; and it was a subject for regret with many persons that after his long and faithful service he should not be promoted to rear admiral before his retirement, as that would make a difference of $1000 a year in his pay.

On Monday, October 29th, Secretary Chandler received a cable message from Rear Adm. Crosby, commanding the Asiatic station, requesting to be relieved from that command, and placed on the retired list under the forty-years-service law. The request was at once complied with, Commodore Davis being selected to command the Asiatic station. Commodore Rhind was ordered to appear before the examining board to be examined for promotion, and on the 30th was promoted to be a rear admiral,—so that he goes on the retired list as a rear admiral after what is probably the briefest service in that grade on record.

"In the Ranks," the new play by Sims and Pettitt, commencing its run at the Boston Museum on Monday, Nov. 5th, coincident with its first New York production, is the latest London success. It abounds in adventure, alternately tragic and humorous, and presents some startling novelties in mechanical effects. The cast numbers thirty speaking characters, and includes nearly every member of the Museum company, together with a large number of soldiers and auxiliaries. The London *Referee* of Oct. 14th, says: "'In the Ranks', at the Adelphi, is already an enormous success, and the Gallis go home, nightly, weeping because they cannot get all the money into the house that wants to get in. Crowds have to be turned away simply because there is no room for their accommodation. When I come to think of the bustle and excitement of the first night, and the eulogies I heard passed upon the various features of the play and the beautiful scenes that seemed to be worked by magic, I say to myself that the Adelphi managers did a very clever thing when they put Mr. Sims and Mr. Pettitt in cordial collaboration. 'Standing Room Only' has been out every night."

At Philadelphia, Pa., Oct. 26th, Capt. A. C. Rand and Mate Thomas Pender, of the steamer Tropic, who were convicted in the United States District court of violating the neutrality laws by furnishing arms and ammunition to insurgents in Hayti, were sentenced to one year's imprisonment each, and to pay a fine of $500 and the costs of prosecution.

Alfred Gossett, a colored thief, last April shot dead John Coffey, a policeman of New Orleans who had arrested him. He was recently tried, and convicted of a minor degree of murder, and as he was being taken to jail he was shot dead by Coffey's son, a youth of twenty years.

At Portland, Oregon, Ben. Halliday, of railroad fame, has commenced a suit against his brother Joseph for the possession of $2,000,000 worth of property held in trust by the latter for the former. When Ben got into difficulties some years ago he borrowed $160,000 from his brother, giving him a deed for all his Oregon property, stipulating that when the amount was repaid the deed should be cancelled. The value of the property deeded was in those days about $400,000, but has so increased in value that it is now worth $2,000,000. Joseph refuses to deed it back unless he is paid an immense sum for managing it while in his possession.

Starting To Ran To The Fire.

It was in Lowell, Mass. An alarm of fire was sounded, and the engine was rapidly driven out of the engine-house. One of the horses took fright, pranced wildly about, and ran the engine against the brick door-frame. Chief Engineer Hosmer was severely bruised and two of his ribs were broken. For three weeks the physicians doctored him. Then a friend brought him some Perry Davis's Pain Killer. On being rubbed with this, he was soon well. Best liniment in the world.

Chief Engr. George F. Kutz has been ordered to the Mare island navy yard.

Trial proves that honesty is the best policy in medicine as well as in other things. Ayer's Sarsaparilla is a genuine preparation, an unequalled blood purifier decidedly superior to all others.

Passed Asst. Engr. Jeff. Brown has been ordered to the Colorado.

If disease has entered the system, the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation a positive cure, for dyspepsia, indigestion, kidney troubles, etc.

Passed Asst. Paymaster T. H. Horsey, has been ordered to the Colorado.

Ex-Governor Alexander H. Rice, of Massachusetts, has been appointed to succeed Lieut. Edward W. Very, who has been on special duty in Paris, France, since the death of G. O. Taylor, Old Bourbon. Always reliable and endorsed by the certificates of two Massachusetts Assayers. For sale by all Druggists and Grocers.

Our Boys in China: the thrilling story of two young Americans, Scott and Paul Clayton, wrecked in the China sea on their return from India, with their strange adventures in China; by Harry W. French, author of "Our Boys in India," "Castle Foam," "Ego," etc.; 188 illustrations; boards, ornamental covers, $1.75; cloth, $2.50. Boston; Lee & Shepard. Portsmouth; sold by Mercer Goodrich.

The boys need only to learn that the popular lecurer, Mr. French, whose interesting lectures are now being given weekly in Boston, and who combines the traveller with the story teller in a fascinating manner, has given another book, full of interesting events, abounding in telling situations, and finely illustrated. Mr. French's books are eagerly sought and carefully read. They are full of instruction, and the Boys in China will be found equal to any of its illustrious predecessors.

Messrs. Lee & Shepard have issued seven new juvenile books; among these is Oliver Optic's "Snug Harbor," or the Champlain Mechanics, the second of the "Boat-builders' series," and uniform with "All Adrift" by the same author. In this volume Mr. Adams, according to promise, places "Davy," the hero of All Adrift, in the way of achieving useful information concerning boat building, and the sketch of the young mechanic's career is of much interest to the boys. The scenes, like those of the former volume, are laid on Lake Champlain and its shores. Sold in Portsmouth by Goodrich, No. 1 Market street; price $1.25.

Mr. J. T. Trowbridge's new book is "Phil and His Friends," which has been a serial in the St. Nicholas. Mr. Trowbridge in a book of 235 pages gives an account of Phil, full of interest, as indeed are all the books of this widely-read author. Boston; published by Lee & Shepard; price $1.25. Sold by Goodrich.

Mrs. David Moses, formerly Miss Blanch Gray of Detroit, Mich., seventeen years old and weighing 517 pounds, was found dead in bed at her boarding house in New York last Friday morning. She was under engagement at a dime show in New York, and was married a few weeks ago to a young man of that city. Her death was caused by fatty degeneration of the heart.

MEDICAL.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best GOOD MEDICINE. Such has been the success of this article at home that near ly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, and thereby restoring and removal the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

Probabilities for New England:—Fair weather, westerly winds, rising barometer, stationary or slight rise in temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 48 degrees above zero.

Sky clear.

Facts are Stubborn Things.

Is there anything in any of the numerous advertisements of the Royal Baking Powder to show that the Royal does not use Ammonia and Tartaric Acid as cheap substitutes for Cream of Tartar? Or is there any charge, or the slightest insinuation in those advertisements, that Cleveland's Superior Baking Powder contains anything but the purest Grape Cream of Tartar and Bicarbonate of Soda, with a small portion of flour as a preservative?

Ammonia and Tartaric Acid produce a cheap leavening gas, which is not to be compared, in the practical test of baking, with the more desirable Carbonic Acid gas generated by the exclusive use of the expensive Cream of Tartar.

Use Cleveland's Superior Baking Powder, and judge for yourself of its superiority.

SUPREME COURT.

TUESDAY, Oct. 30th.

Court came in at 10:30 o'clock A. M., and case Edward D. Coffin vs. Ezra H. Winchester, action to recover for painting a house, was commenced.

GOSSIPS SAY

That the people of Kittery Point are indignant at the insinuation of a local paper, that the crew of the schooner William B. Darling, lately wrecked on the Western Sisters, could not get admitted and taken care of at that place, but were obliged to go to Newcastle for hospitality.

That not only were the crew kindly cared for at the home of Solon Frisbee, for three days, but they were also furnished with funds to defray their expenses to Bangor, Maine, the home port of the schooner.

That Kittery Point has had for many years a society called the "Sailor's Bethel," the purposes and funds of which are for the aid of any shipwrecked or indigent mariners thrown upon her shores.

That Silas Harding, of Newcastle, proprietor of the Harding weir at the mouth of this harbor, had a narrow chance for his life on Wednesday of last week.

That the enterprising Silas was lying in wait for Georgesmen off the Sisters, when a huge "comber" broke over his boat, carried away his oars, and left him to the mercy of the waves and the adjacent sunken ledges.

That but for the timely service rendered by a Mr. Mitchell of Kittery Point, who was also on the lookout for Georgesmen to bait up with herring, Mr. Harding ere this would have had a first-class obituary notice written for this paper.

That the society of "Willing Workers," composed of young people connected with the Methodist Episcopal church of this city, will give a literary and musical entertainment in the chapel on Daniel street on Friday evening next.

That the masts and some of the rigging of the wrecked schooner Wm. B. Darling have gone ashore near Pocahontas point, Gerrish's island.

That although the late storm was of a week's duration, and very much rain fell, especially on the last day, dust was flying in clouds on Market square within ten hours after the storm cleared off.

That a very aged apple-tree on the grounds of the Lord house was blown down by the high wind of Tuesday morning.

That one of the members of Harlow's orchestra at Hotel Wentworth last summer, is now connected with Manager Mapleson's orchestra at the Academy of Music in New York.

That some of the local politicians who have been betting on Butler, and talking very loud in favor of "his excellency," are "hedging" in a remarkable degree.

The steamer Adelia, Capt. Frank Dingley, on Tuesday started for Bath, Me., with the wrecked schooner Hannah D. On her attempt the previous day she got about a mile to the eastward of Kittery rock, when the fishing schooners Lucy Warren and John Jameson, which were strung out behind the Hannah D. for a tow to Portland, parted the towline and ran back into the lower harbor, the tug and the other schooner following them in.

About half-past five o'clock Monday afternoon a scuttle was blown from the roof of the Nowell shoe factory building to the roof of the Times office, and sticking upon a skylight over the press, went through into the room below, carrying sash and glass with it, to the surprise of compositors and pressman. The latter would have been still more astonished had the wooden visitor appeared a half-hour earlier, when he was working off the day's edition of the paper.

The schooner Karen Happuch, which the York people are pleased to denominate the Kicking Hannah," loaded with 9000 bushels of potatoes and other produce, bound to Boston, lay in York river during the recent long spell of unpleasant weather, waiting for a chance to make the run. The schooner John & Frank, Capt Lowe, loaded with bricks and bound for a market, was at Marshall's wharf, York river.

Foss & Merrill, the civil engineers of Concord, N. H., who have been surveying the line of the proposed railroad from Kittery Depot to Union Bluff in York via Kittery Point, report the distance as but a trifle over ten miles, and the grades easy throughout. Large additions to the accommodations for summer boarders at York are laid out, and will be in readiness for the travel next season. At York harbor the Marshall house is to be much enlarged; Rufus Varrell's boarding house has been almost doubled in capacity; the foundations for a house eighty by thirty-eight feet on the ground, and three stories high, have been laid in Joseph Varrell's field; and it is reported that Hartley W. Mason and Dr. Hawkes, with Horace Mitchell, Jr., of Kittery Point, propose putting up a hotel 150 feet by thirty on the ground, and four stories high, to be ready for next summer's trade. At Long Sands the Sea Cottage is being raised and enlarged by Mr. Grant; and a hotel seventy by thirty-four feet on the ground, and three stories high, is being framed by other parties. The "Norwood farm" is being rapidly cut up into cottage lots, and a number of new cottages will be put up before next July.

NORTH KITTERY, Me., Oct. 29th.

We are informed that Mr. Geo. A. Lambert is to spend the winter in Florida and Bermuda, in company with Mr. Charles G. Emmons, formerly connected with the Crawford and Summit houses at the White mountains, and for the past two years assistant manager of the Hotel Wentworth at Newcastle; they will probably visit Europe before they return.

Frank E. Donnell, a young man living in the family of Mr. James D. Plaisted, had a successful operation performed on his left ankle on Saturday, the 27th, by Dr. Sherburne of Portsmouth; he has been suffering much pain for the last two years, with a fracture of the bone, but since the operation is much relieved, and we hope will speedily recover.

Mr. Edward E. Frost, a young man employed as an apprentice at the navy yard, has been obliged on account of ill health to move away from the salt water; he went to Great Falls on Thursday, the 25th, but we hope to see him back again at no distant day, fully recovered.

School in district No. 3 closed Wednesday, the 24th, after a successful term. This school has been taught by Miss Carrie Parsons, a resident teacher, who has sustained the good reputation she won in this district last year. S. R.

It was reported Tuesday night that Mr. Samuel Jones, an elderly man often employed by the city as a laborer, was missing. He was seen on the wharf near the Guard about five o'clock Monday evening.

Tetter, Salt Rheum, Scald Head, &c., will certainly yield to the great alterative effects of the Vegetine.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodjan9,84

Rabid Reformers Refused Rectification.

The rabid reformers of morals are constantly urging the authorities to attempt to invade the well-secured privileges enjoyed by The Louisiana State Lottery under special agreements by direct legislation; but they might as well attempt to swim against the current of Niagara Falls. The public know that all its distributions are fair and its promises fulfilled. M. A. Dauphin, New Orleans, La., will give all information relative to the matter on application before the 192d Grand Monthly Drawing, which takes place November 15th, 1883.

Why suffer with Malaria? **Emory's Standard Cure Pills** are infallible, never fail to cure the most obstinate cases; purely vegetable—25 cents.

The glory of a man is his strength. If you are weakened down through excessive study, or by early indiscretions, Allen's Brain Food will permanently restore all lost vigor, and strengthen all the muscles of Brain and body. $1; 6 for $5.—At druggists.

"7--20--8."

Augustine Daly's new play, "7—20—8; or, Casting the Boomerang," will be performed at Music hall on Monday and Tuesday evenings of next week, by a company from Daly's Fifth Avenue Theatre, New York. Of this play the New York *Herald* says: "From the rise of the curtain to its fall there is a rapid succession of humorous incidents."

The *World*: "It is full of fun, and fun of a perfectly clean and wholesome kind."

The *Commercial Advertiser*: "A delightful morsel of wholesome humor."

The *Home Journal*: "The whole play bubbles over with fun."

The *Graphic*: "Every situation and almost every line is provocative of laughter."

Washington advices say that four new lighthouse inspectors will be appointed Nov. 1st, one of whom will relieve Commander A. S. Crowninshield, inspector of the first lighthouse district, which includes the coast of Maine, and of New Hampshire as far west as Hampton river.

Read the advertisement of old, strong, and reliable Life Company—"Wanted"—in another column. A rare chance for right men.

The *Journal* says that Mrs. Brown, widow of Passed Assistant Paymaster Zachary T. Brown, U. S. N., has received the sum of $3,230 from the Navy Mutual Aid Association, of which the deceased was a member.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!
Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.)

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from the Cuticura, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of leper and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, universally of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, unwholesome ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

Captain Herman Pettengill, the oldest native resident of Wilton, died on Thursday.

Ugly Gaps

in that row which of all others should be kept in thorough repair, a row of teeth, are sure to occur and no less sure to hopelessly disfigure the face if disreguard of the teeth's cleanliness is persistent. But if the error is corrected in time with the aid of *Sozodont*, America's leading tooth beautifier and invigorant, the tenants of the mouth long retain their strength and whiteness unimpaired. A word to the wise is sufficient.

The Unitarian society at Peterborough is agitating the matter of building a parsonage.

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,

"From a complication of kidney, liver, rheumatic troubles and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names,

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better father is since he used Hop Bitters."

"He is getting well after his long suffering from a disease declared incurable."

"And we are so glad that he used your Bitters."

Swift's Specific

Is a complete antidote to all kinds of Blood Poison and Skin Humor.

INHERITED IT.—My family all have Scrofula—some mildly, but my case was of the worst type, and resisted all treatment until I used Swift's Specific, which cured me sound and well by forcing all the poison out through the pores of the skin. It is the greatest medicine in the world, and I hope say who doubts it will write me here.
E. C. HAWES, Jr., Clarksville, Ga.

After suffering twenty-five years with a painful Dry Tetter, and trying many physicians, I was at last relieved by the use of Swift's Specific, and I cheerfully commend it to all similarly afflicted.

Starting To Run To The Fire.

It was in Lowell, Mass. An alarm of fire was sounded, and the engine was rapidly driven out of the engine-house. One of the horses took fright, pranced wildly about, and ran the engine against the brick door-frame. Chief Engineer Hosmer was severely bruised and two of his ribs were broken. For three weeks the physicians doctored him. Then a friend brought him some Perry Davis's Pain Killer. On being rubbed with this, he was soon well. Best liniment in the world.

Culver, Page, Hoyne & Co. of Chicago, wholesale stationers, have failed for $500,000. The Massachusetts paper company are among the preferred creditors. The assets are estimated at $325,000.

Trial proves that honesty is the best policy in medicine as well as in other things. Ayer's Sarsaparilla is a genuine preparation, an unequalled blood purifier decidedly superior to all others.

Dr. Luther M. Knight of Franklin, the surgeon of the Fifth Regiment during the war, had a stroke of paralysis on the 28th ult. The prospects are that he will recover.

If disease has entered the system, the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation a positive cure, for dyspepsia, indigestion, kidney troubles, etc.

Samuel Brown, a veteran of the 1812 war, died in Manchester on the 29th ult. Deceased was a native of Derryfield, now Manchester, where he was born in 1796.

Gentlemen in search of the best cigarette cannot do better than to try the new brand "Sweet Bouquet."

Since the death of the Count de Chambord eleven French Legitimist newspapers have ceased to appear, presumably on account of the stoppage of the subventions of money which enabled them to live.

The Trotting Wonders of California.

SAN FRANCISCO, CAL.—The *Breeder and Sportsman* of this city, the turf and sporting authority of the Pacific coast, contains a statement from J. W. Murphy, Esq., proprietor of the elegant St. George Stables on Bush near Kearney street, as also from Chief Engineer Matthew Brady of the City Fire Department, to the effect that for the cure of pain in man or beast, particularly for rheumatism, St. Jacobs Oil has worked wonders. They regard it far superior to anything they know of.

While steaming down Mobile bay on the night of Oct. 28th, the tugboat H. W. Edye blew up with a terrible explosion. Before the smoke cleared away she sunk to the bottom, a complete wreck. By jumping, the engineer and two of the crew saved their lives, but six men were lost.

Gov. Hale and council have appointed Thursday, Nov. 29th, as Thanksgiving day.

At Concord, in the forenoon on Oct. 30th, Miss Annie Minot, daughter of the late Charles Minot, and Harry H. Dudley, a clerk in the First National bank of Concord, were married at St. Paul's church in the presence of a large and fashionable audience.

Steamer Holyhead, running between Holyhead, Eng., and Dublin, capsized and sank in the channel Oct. 31st, and sixty persons besides the crew were drowned. The steamer was only recently built.

The schooner Cygnet, at Rockland, Me., Oct. 30th, reports that early in the evening of October 20th she was in company with schooner Spartan, of Cohasset, four miles south of Whitehead light. It was blowing very hard from the northeast, and the gale continued during the night and the following day, and the vessels were separated. While east of Metinco on Monday, Oct. 22d, the Cygnet fell in with the after portion of the Spartan with the mainmast and mainboom attached; her boat was gone. On Tuesday some fishermen discovered the forward portion of a vessel on the northern triangles near Green Island. It was held by chains and anchors. The knight heads, hawse pipes, bowsprit, jibboom, etc., were attached. It is thought to be a piece of the Spartan. The fate of her crew is unknown.

In a town just north of Cincinnati, on Sunday, Oct. 28th, three brothers named Hermann, from the city, invaded the little farm owned by a widow named Hess and her two sons, in search of game. They were accompanied by two dogs, and Gustav, the eldest, carried a double-barrelled shot-gun. Martin Hess came out of his house and stoned the dogs, although Gustav Hermann threatened to shoot him if he did. Then Hess started toward Hermann, who levelled the gun at him. He continued to advance, and was joined by his brother Chris. Finally Gustav fired, and Martin was shot and instantly killed. The murderer was followed a long distance, and he finally turned over his gun and surrendered, and was locked up.

Heavy explosions occurred on two of the underground railroads in London on the evening of the 30th ult., at about the same moment. Many persons in a train on one of the roads were badly burned and cut, though none were reported killed. It was believed the explosions were caused by dynamite, and that they were the work of Fenians or "Invincibles."

Eight of the forty freshmen at Bates college are girls.

Since there appears to have been hard feelings aroused of late in part of Kittery, in consequence of a local name, viz.: "Pullet Hill," in North Kittery, and that possibly not many know whence the origin of the name, we take the liberty to transcribe what is no doubt an authentic tradition, which ought to straighten up the matter to the quieting of domestic and journalistic nerves. Years and years ago, before any person living here was born, a family lived on the hill near what was once the old Rogers place; in this family were two daughters noted for their shrill voices and rapid talking. A man from the upper parish coming to the inheritance of a farm just below the hill, moved there with his family in 1811. The peculiar voices of these girls reminded him, he said, of the cackling of young pullets, and the name in question was an outgrowth of this peculiarity in their voices. A son of this man was often heard to relate amusing reminiscences of the two sisters, particularly of Hannah; and the narrator of this tradition adds that Hannah is only remembered now as a quaint little body weaving in the old north chamber, but with the same rippling voice as if coming from a fountain of good humor, that a long sad experience had failed to diminish. Also, if the name has been used in derision there never existed any cause for it. COM.

A Visit To Macon, Ga.

Valuable Testimony Well Worth Reading.

[Special Correspondence Atlanta (Ga.) Constitution, July 15, 1883.]

A representative of the Constitution spent a portion of last week in Macon, and was accidentally thrown with Mr J. A. May, an employee of Schofield's extensive iron works, who startled your reporter by remarking to him: "I feel kindly towards everything and everybody that comes from Atlanta, because

I OWE MY LIFE

to a firm in your city, and will gladly give you a history of my case.

It was discovered, he said, when I was three years old, that I had inherited from some of my ancestors a Scrofulous Blood Poison of the worst type. As I grew older the disease continued to grow worse. I had tried in turn a score of the best and most noted physicians, and had taken medicine until it seemed a farce. Before I was twenty I had swallowed, it seems to me, two or three drug stores, and was a living proof that there was no virtue in medicine for my disease. The disease and medicine combined had taxed my system until I was a mere physical wreck. I was sallow, had no appetite, had lost flesh until I was nothing but sores, skin and bones. The sluggish blood which flowed slowly through my veins was full of poison, and was in such fearful condition that even a pin scratch would result in an ulcerated, running sore that would take weeks to heal. I had taken Mercury until my joints were stiff, and I suffered so from

MERCURIAL RHEUMATISM

that I was laid up every winter; and the mercury had soaked into the marrow of my bones until I was an infallible barometer, and could foretell to a certainty the approach of rain by the aching in my joints. Hearing of Swift's Specific, I determined to try it, but without any faith.

A SPEEDY AND EFFECTIVE CURE.

I commenced improving with the first bottle, and in a short time the stiffness had left my joints and the sores had disappeared from my body. I passed through last winter without a taint of rheumatism, and have had no appearance of the terrible disease since. My general health improved as Swift's Specific drove out the monster which was eating my life away, and I gained in flesh until I weigh 150 pounds, which is nearly double what it was when I began the use of the Specific. For the first time in years I enjoy my food. As an evidence that Swift's Specific has eliminated all the poison from my system, I cut off one of my fingers a few months ago in the machine, and in less than two weeks it had healed up nicely; and a few days ago I mashed my thumb with a hammer, and you can see it is healing up fast. If either of these accidents had happened a year ago, the chances are that I would have lost my hand. In summing up, I will say that my experience proves beyond the shadow of a doubt that Swift's Specific will cure the worst cases of Blood Poison, even when it descends as an inheritance; that it will cure Mercurial Rheumatism, and drive the mercury out of the bones, joints and system; and that it will build up the general health, and is the best medicine in the world. My case alone is enough to convince anybody; but I have known it used in a number of cases, and it has never failed in a single instance."

Mr. May will take pleasure in answering any letters in regard to his case.

Notice to Mariners.

Notice is given that on and after Nov. 5th, 1883, a fixed white light of the fourth order, with a red ray between compass bearings West ¼ North and West three quarters North, and another between Northeast by east and Northeast, will be exhibited from the lighthouse recently erected on Ram Island, Me. The apparatus lights the entire horizon, and the focal plane is 39½ feet above mean high water spring tides. The light should be seen in clear weather from the deck of a vessel eleven nautical miles distant. In entering from sea, mariners should keep within the red light, by which they will avoid all dangers.

DALY'S "7--20--8."

Arthur Rehan's combination appeared in this play at Nashua on Monday evening of this week, and the *Telegraph* of the next day said:

The comedy is a happy departure from commonplace dialogue and rehashed plot. It exhibits the originality of the author, and sparkles throughout with wit. The performance, too, was all that could be desired. Every actor was equal to his or her part, and there were no hitches or breaks to mar its perfect action and denouement. Mr. John F. Raymond, as "Signor Tamborini," the part requiring the best talent, gave a unique performance. Geo. Vanderhoff, the leading man of the company, was very satisfactory, and Mr. Harry Hotto performed the eccentric part in a manner that was thoroughly pleasing and satisfactory to the audience. Miss George Flagg's "Floss" was very prettily and pleasingly drawn, acted with discretion, and heightened with many delicate touches of art. Mrs. Maeder is also entitled to credit, while the young lady who joined the company only yesterday promises well. The company ought to play to good business, for there's not a "stick" in it; its merit is fully equal to the best that is said in its advance press notices.

At Music hall Monday and Tuesday evenings of next week. Tickets now on sale at Goodrich's bookstore.

The agent of W. A. Greenough & Co., Boston, compilers and publishers of the Portsmouth Directory, is in town this week delivering to subscribers the Directory for 1883-84. The work is gotten up in a style similar to that of the previous ones issued by this firm, and contains much information besides the mere lists of inhabitants and places of business.

The U. S. S. Tallapoosa, Lieut. Merry commanding, arrived at this navy yard Oct. 30th from Boston, with stores for the yard.

There was a slight fire in the window of L. E. Staples' dry goods store, some of the displayed articles catching from the flame of a gas light, Wednesday evening.

The Salem (Mass.) *Observer* refers as follows to an indication of prosperity on the part of a former resident of Portsmouth: "Our enterprising plumber, F. A. Wendell, has just moved into his new residence on Bridge street. The lot of land on which it stands was formerly occupied by the Catholic church, and after the church was removed the land was long a very unsightly object, and one would hardly recognize in the handsome residence the old surroundings. It at once commends itself for its general appearance, and shows the result of careful study and a thorough understanding of the land; and Mr. Wendell is to be congratulated on securing so valuable a piece of property."

Rev. J. D. Waldron of Amesbury, Mass., will preach in the Pearl street church this (Thursday) evening at 7:30 o'clock.

Lewis E. Staples invites those in want of underwear to inspect his stock of such goods for ladies, gentlemen and children

In the afternoon on Oct. 30th a boy nine years old, named Eddie David, bought five cents' worth of powder with money furnished by a younger boy named Conlon, and the pair took it into Linden street and fired it with a match. The David boy's face was badly blistered nearly all over, and his eyebrows and eyelashes burned off, but his eyes fortunately escaped being put out, though his face was directly over the powder when it flashed.

Three big schooners arrived at this port on Wednesday, Oct. 31st, the smallest one being the Annie F. Conlon, Seaward master, from Hoboken Oct. 27th with 917 tons of coal; the others were the Orville Horwitz with 1051 tons, and the Lizzie M. Dun with 1193 tons—all to J. Albert Walker.

The brick schooners D. K. Ham, Satellite and Hattie Lewis arrived from Boston on Wednesday of this week, having left this port about the 20th ult., and had the trip prolonged by the continuous bad weather.

In 1881 Lieutenant Lyman G. Spalding of this city, and Lieutenant Commander Edes, of the navy, lost their lives by a torpedo explosion at Newport, R. I. A court of inquiry investigated the matter, and reported that the accident was due to the carelessness of the two officers. It is now alleged that Admiral Porter has been making an investigation, and that his report will exonerate the deceased officers, and charge certain of their superiors with gross negligence.

The schooner Ida L. Howard, which put into Newport, R. I., to repair damages, having been fouled by schooner Diadem in Dutch island harbor, where she had taken refuge while on the passage from Perth Amboy to this port with coal, has discharged her cargo at Newport, and will go to Bath, Me., to be thoroughly overhauled. The Diadem allowed the Ida L. Howard $50 toward refitting.

In the Berwick police court, Oct. 30th, Frank and Allen Grover, brothers, were arraigned for breaking and entering Charles J. Butler's gun store, and stealing several guns and revolvers. Both were held in default of bonds for trial in January.

At Gloucester, Mass., Oct. 30th, seventeen of the mackerel fleet landed 2275 barrels of fish, and most of them hauled up for the season. At the same time most of the Maine mackerel fleet were in that port, bound home to haul up, the mackerel season being practically ended.

Dennis McNamara and Michael McNamara, who arrived in this country from Ireland in 1880, but were naturalized through perjury last year and voted for Butler, are under arrest in Worcester, Mass., as are also three other men who swore they had known the McNamaras in this country for over five years. A number of other cases of fraudulent naturalization have been discovered, and it is quite likely that some of Gov. Butler's supporters will find themselves in a prison from which he cannot release them.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia.

E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S.; Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man !
Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in youth or early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Sunset.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

"Memorandum of Invention and Hints on Patents," is the title of a pocket memorandum book of value to inventors, containing directions for keeping a record of an invention, from the moment it occurs to the inventor's mind to the time when he has it entirely perfected. It contains thirty pages on which are printed blanks for this purpose, and examples of the correct method of filling in the blanks and recording the history of an invention. It also contains thirty-four pages of hints on invention and on selling and placing patents. Sent free to any address. Geo. M. Hopkins, 137 Temple court, New York city.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, of which, according to statistics, not less than 30,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and mental tax; bring on kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. Sherman's Book, with indorsements of Physicians, Merchants, Farmers and others who have been cured mailed for 10c. Pamphlet of photographs of bad cases, 25c. by express. Principal office, 251 Broadway, N. Y.; days of consultation each week, Mondays, Tuesdays and Saturdays. SULPHUR BITTERS
THE BEST AND GREATEST MEDICINE
It will drive the Humor from your system, and make your skin clean and smooth. *These Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,
SULPHUR BITTERS.
Why suffer with Boils? Why let this terrible disease? Why let your system be poisoned with Rheumatism? Why let your nerves go all to pieces? Why let your whole system be racked with pain, with Dyspepsia? Why let that bed of pain, with Dyspepsia? Why let that terrible headache? Why let that terrible headache? Why let that bed of pain, with Dyspepsia? Why let your nerves go all to pieces? Why let your whole system be racked with pain, with Rheumatism

Starting To Run To The Fire.

It was in Lowell, Mass. An alarm of fire was sounded, and the engine was rapidly driven out of the engine-house. One of the horses took fright, pranced wildly about, and ran the engine against the brick door-frame. Chief Engineer Hosmer was severely bruised and two of his ribs were broken. For three weeks the physicians doctored him. Then a friend brought him some Perry Davis's Pain Killer. On being rubbed with this, he was soon well. Best liniment in the world.

Lu Yum, a Chinaman, is under arrest in Manchester for assaulting a girl fourteen years of age.

The Poor Ye Have Always.

H. C. Flanders, Supt. of the Alms House, Weare, N. H., certifies: "A helpless, afflicted woman, bed-ridden for five years, by the use of the great pain-banisher, St. Jacobs Oil, now gets from her bed and knits stockings."

At a meeting of the governor and council, Oct. 30th, William M. Chase of Concord, was re-appointed trustee of the state library; Stephen D. Wentworth was nominated for justice of the police court at Rochester.

If disease has entered the system, the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparrtion a positive cure, for dyspepsia, indigestion, kidney troubles, etc.

Charles N. Clough of Canterbury was recently severely injured in the head and neck by being kicked by his horse. He also had a finger broken. His condition is critical.

"Reluctant to Take the Command."

Washington despatches of Oct. 31st say:

The Secretary of the Navy, in appointing officers to command the Asiatic squadron, will be compelled to go near to the bottom of the list of commodores. Even the naval officers of higher grade are reluctant to take the command.

It is a new idea— to the public, though perhaps not to the "naval officers of higher grades"—that said officers have the right to decide as to what duty they will perform, or indeed if they will perform any at all.

In view of the complications in the east, the command of the Asiatic squadron is the most important under the navy department; and if the three or four unemployed rear admirals, and all the commodores except those "near to the bottom of the list," refuse the command, they had better be displaced to make way for officers who will do any legitimate duty devolving on them.

Butler vs. Boston Post.

The Manchester *Union* copies and commends Frank Jones' letter to the Boston *Post*, in which the *Post* is criticised for its conduct towards Butler's canvass, and in which he very adroitly weaves in a little advertisement for the sale of his share in the *Post* at a bargain. Mr. Jones believes in present success. The *Post* and its political friends see that the election of Butler would so complicate matters in the next presidential canvass that either Butler would be a candidate for president, or some other man who would be defeated would receive the nomination. There are very many democrats in and out of Massachusetts who have no faith in Gov. Butler's democracy, and do not wish to see the party handled by Butler for his own ends. Mr. Jones thinks the end justifies the means, and that as Butler is the candidate he should receive the support of the party. This is not exactly what very many democrats whose experience in politics is larger than is Mr. Jones', believe. They have no faith in the practice of turning over a party to a man who nominates himself, as against the best ideas of the party's tried supporters. The real danger to the democracy is the election of Butler. In fact, the party with Butler on its back is very much in the condition of the belated citizen who, after indulging in his cups, swayed with an arm around a lamp-post and soliloquized: "If I let go this post, I shall certainly fall down; and if I stand here this way, I am sure to freeze to death."

Another case of "scab" having appeared among a lot of sheep in Montreal, for shipment, the department of agriculture has ordered them to slaughter. This plan will be followed in all cases, to prevent Canada from being "Scheduled" by England.

Chris Baker and William Burnett, colored men and professional resurrectionists, were arrested at Richmond, Va., Oct. 30th, while moving the body of a dead pauper through the streets on a wheelbarrow. The body had been stolen from the morgue at the city almshouse.

John Lane of Rockland, Mass., seventeen years old, went duck-shooting on Sunday, Oct. 18th, and accidentally shattered his left arm. Amputation will probably be necessary.

Many people think the expression "too thin" is a bit of modern slang; but in 1758 a town meeting in Portsmouth voted that the meeting was "Two thin" to do anything "about building a seller under the State House."

The U. S. S. Tallapoosa left this navy yard for Washington and intermediate stations at noon on Thursday; she had to let down one of her mud-hooks immediately after starting, to avoid going on Pumpkin island, but soon picked it up and steamed away down the river.

The fishing schooner Bonita got ashore on Pumpkin island on Wednesday, the 31st ult., but came off on the flood tide unharmed.

The schooner William B. Darling, wrecked on the Western Sisters recently, had $800 insurance on her cargo of coal.

Cancer.

Strong Testimony from a Gentleman whose Life has been Saved by the Use of Swift's Specific.

[Special Correspondence Atlanta, (Ga.) Constitution, July 22, 1881.]

"Mr. W. R. Robison has been using Swift's Specific for a cancer," said an acquaintance to your reporter last week at Davisboro, Ga., "and thinks it has cured him; and as cancer is generally regarded as incurable, you had better go to see him and let the people know of it."

Accordingly I drove six miles and found Mr. Robison, introduced myself, and told him my errand. Mr. Robison replied: "You can tell the Swift Specific folks that their S. S. S. has

SAVED MY LIFE,

and I have such faith in its eventually curing me, that I would not, for $5,000 cash, obligate myself to quit taking it for good. For twenty-five years I have suffered beyond expression from cancer and its effects, and have exhausted the whole catalogue of remedies. The medicines seemed to feed instead of curing it and it grew gradually worse. The cancer was on the left side of my neck, just behind the ear, and in time spread its poison through my entire system. My neck was stiff, the whole of the upper part of my body was full of pain, and I had virtually lost the use of both arms. My general health had given way, and the cancer was sapping my life away, and it was only a question of time to myself and my friends as to when life would yield to its ravages. In this condition I began the use of Swift's Specific, and the first bottle relieved the stiffness of my neck, and my general health began to improve. By the time I had finished the second bottle I had regained the use of my arms, and felt like a new man. The Specific drove the poison out through the cancer, and relieved my system of it in that way.

"I believe that Swift's Specific is the greatest medicine ever discovered, and that it is the only remedy known to science that will cure cancer, and it does this by forcing the poisoned blood out through the pores of the skin. I will take pleasure in giving any information in my power to other sufferers. My address is W. R. Robison, Davisboro, Ga."

This is certainly the most remarkable case on record. FULTON.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan9,84

Why suffer with Malaria? **Emory's Standard Cure Pills** are infallible, never fail to cure the most obstinate cases; purely vegetable—25 cents.

The glory of a man is his strength. If you are weakened down through excessive study, or by early indiscretions, Allen's Brain Food will permanently restore all lost vigor, and strengthen all the muscles of Brain and body. $1; 6 for $5.—At druggists.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August 15, 1883.*

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 20, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 3, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, and their appraised value are, the Monadnock, (old), $11,850; Alaska, $18,300; Benecia, $17,900; Tuscarora, $9,900; Narragansett, $8,900; Nyack, $4,900, and Saco, $5,500.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer or proposal within thirty days from the date of the acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be paid as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department. SO. T. NICHOLS,
(2tnov2)30 Acting Secretary of the Navy.

CAMP HENRY L. RICHARDS.

At a meeting of the Sons of Veterans held in Good Templars' hall on Thursday evening last, the following-named gentlemen were selected to serve as officers for the camp which has been named for Henry L. Richards, a brave son of Portsmouth who lost his life in the war, and in whose honor Richards avenue is named:

Horace P. Kent, captain;
Arthur L. Hersey, 1st lieutenant;
Michael Crowley, 2d lieut.;
Arthur Locke, chaplain;

Camp council—Clement Waterhouse, 1st; George F. Osgood, 2d; Howard S. Laskey, 3d.

The staff will be appointed by the captain at the next meeting.

The camp starts off with a membership of forty; and it is likely to number a hundred sons in its ranks by the time it makes its first public parade on Memorial Day.

SUPREME COURT--ALLEN J.

WEDNESDAY, Oct. 31st.

Coffin vs. Winchester, continued. Action on a contract to recover for painting defendant's house. It appeared in evidence that the plaintiff was the lowest bidder for the job of painting defendant's new house on Lafayette road in 1881, and was accordingly awarded the contract. His bid was $500, for painting the house outside with three coats of white lead and oil, and on the inside filling the grain of the wood finish with three coats of white shellac and rubbing down to a polish, according to the specifications. Plaintiff commenced operations and painted the outside of the house, but when he came to the inside work he told the defendant that he could not do such fine work as was required by the architect (who according to the contract was the arbitrator between the parties.) Defendant was then obliged to hire competent parties from Boston to perform that part of the work which was included in plaintiff's contract but which he acknowledged himself incompetent to perform. Defendant was obliged to pay the Boston workmen for such work between $500 and $600. He also paid Coffin $560 from time to time as the work proceeded.

Coffin claimed that his original contract for $500 had been departed from to such an extent that he was at liberty to charge deft. by the day for the work performed, and accordingly rendered a bill to the amount of $1400, which included a small amount of extra work outside the contract which the deft. acknowledged to have been performed, but claimed to have paid for in the sum of $560 above named.

Defendant maintained that Coffin had received his contract price of $500, and pay for the extra work; also that deft. had already paid nearly $600 for such work that should have been performed by Coffin under his contract.

The court charged the jury that for the purposes of this case the contract of Coffin meant what it said, *i. e.*, to do inside and outside work for $500; that it took two people to break a contract, and that one party thereto could not set it aside at his pleasure; that the blinds that plaintiff claimed as extra were included in plff.'s contract, but plff. might recover for extra work if not already paid therefor.

The jury during the evening of Wednesday returned a verdict for Coffin for $169.66, or for about the amount of extra work claimed, less payments.

Frink & Batchelder, and Hatch, for plff.; Marston & Eastman, and Page, for deft.

THURSDAY, Nov. 1st.

George A. Noyes vs. Town of Londonderry; action for damages incurred by reason of a defective highway. The jury started by the 7:55 A. M. train on the Concord & Portsmouth railroad, going *via* Manchester to the spot where the alleged injury is claimed to have occurred, in charge of Deputy Sheriff Dustin. They returned in the evening. Wm. C. Noyes, of Atkinson, foreman of the jury. Copeland & Edgerly, and Dodge, for plff.; Sulloway, Topliff & O'Connor, and Frink & Batchelder, for the town.

Trial commences Friday morning.

State by Nettie M. Thompson vs. Walter E. Danforth; bastardy; parties live in Deerfield. Several witnesses were examined, among them the attending physician. The innocent result of the trouble was in court, and occasionally gave vent to sweet sounds as it disported upon the floor and in its mother's arms. G. C. & G. K. Bartlett for complainant; Marston & Eastman for deft.

GOSSIPS SAY

That a gentleman of this city has in his possession the original design of the rebel flag, (stars and bars) together with autograph letters of Generals Lee, Early, Beauregard and other prominent rebels, urging the Confederate Congress to adopt the design as the flag of the Confederacy.

That the owner of these valuable souvenirs of the rebellion deftly abstracted them from the Confederate senate chamber in Richmond, Va., in the summer of '61, while in the secret service of the United States government.

That "Jocky" Wyatt, the popular conductor on the Concord & Portsmouth railroad, has returned to his duties after a fortnight's vacation and a trip to Chicago.

That the Franklin hall skating rink closed on Monday night, Oct. 29th, the proprietor, a Gloucester gentleman, having ran it at a loss for a month.

That the running of the rink two nights a week would pay well, while more than that would shrink up the boys' pocketbooks.

That the Grand Army boys are projecting a big fair of a week's duration, destined to excel anything of the kind ever held in Portsmouth.

That the object is a noble and patriotic one—the raising of funds for a Soldiers' Monument.

That a prominent custom house official of this city, while leisurely promenading Congress street on Wednesday evening of this week, satisfied with himself and all the world, was kidnapped by Sheriff Kent, dragged into court, and empaneled in the jury trying a case likely to last several days.

That pedestrians who witnessed the scene say the landscape fairly turned blue with the adjectives which filled the air.

That the fall run of work opened briskly at the shoe factory on the first instant, with a prospect of its long continuance.

That three hundred tons of pig iron have been uncovered in the hold of the ship "Guard," where it had been planked under as ballast.

That this lucky find, at $20 per ton, is worth $1000 more than that vessel cost her present owners.

That Mr. Charles W. Shannon, a pensioned soldier and for several years a watchman at the navy yard, has been notified that his services are no longer required.

That the veteran soldiers in large numbers are signing a petition that Mr. Shannon be reinstated in his former position.

A BUSINESS CHANGE.

Daniel M. Lenigan, brewer for the Portsmouth Brewing Co., left the employment of the company this week, at the end of the term of his contract, having accepted the position of brewer of the Silver Spring Brewery at Providence, R. I., which is the largest brewery in Providence, and owned by James Hanley & Co., a wealthy firm in that city. He goes west to enjoy the first vacation since his engagement with the Portsmouth Brewing Co., in 1877, and will return in season to begin his duties at the Silver Spring Brewery on Dec. 1st.

Since Mr. Lenigan has been brewer of the Portsmouth Co. the product has increased about fifty per cent, and the prices of their ales in the market have advanced to an equality with those of the best ales sold. The well known India pale and stock ales made by Mr. Lenigan have always been in great demand, and have been pronounced by competent judges to be equal to Bass' and other imported ales. Since his connection with the company extensive improvements have been made at the brewery, which is in point of conveniences, appointments, cleanliness, and capacity for sending out good ale, second to none of its size in the country.

Mr. Lenigan has during his residence in this city made many friends. He has been a member and officer of the Portsmouth Cavalry, and shown great interest in the success of the company. He has a large acquaintance among the brewers and maltsters of the country, and while we are sorry to have him leave Portsmouth we can congratulate our Rhode Island friends upon the acquisition of a man who fully understands the intricacies of the business in which he is about to engage, and who will prove a worthy resident of that city, as he has been of this.

CLAM CHOWDER.

Mr. Meagher, of the Central Oyster House, opposite the post-office, proposes hereafter to prepare a superior clam chowder for family use every Friday; persons who leave their orders in the forenoon will receive a supply in time for dinner, at twenty-five cents a quart. Orders left this forenoon will be attended to, as he commences to-day.

The Eastern railroad on Thursday managed to strike a day of good weather for its excursion to Boston, and the number of people who took advantage of the reduced fares was very much larger than on either of the two previous excursion days, when it rained and blew ad lib.

Mate Hugh Kuhl has been ordered to duty in the ordnance department at this navy yard.

Mrs. Tenney, wife of Hon. Asa Wentworth Tenney, United States district attorney for the eastern district of New York, a lineal descendant of Gov. Wentworth and a son of New Hampshire, arrived in this city Wednesday evening, the 31st ult., for a two weeks visit upon Mrs. Col. Broome at the navy yard. This is her first visit to this state for many years.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

"THE

ELLIS' HORSE REMEDIES

ARE THE BEST."

Solidly Endorsed by the "Spirit of the Times," and Leading Veterinary Surgeons.

"ELLIS'S SPAVIN CURE.—Of course, it is generally regarded as impossible to completely" "cure a bone spavin and remove the enlargement" "but *it is positively astonishing* what curative" "properties exist in the mixture known as Ellis's" "Spavin Cure, and those who have given it a fair" "trial say *it is the best remedy* that they ever applied. In many cases it has not only removed" "the lameness, but also the lump, and we recommend" "*mend it* as far superior to the ordinary blisters" "prescribed by the faculty. We also learn that" "Ellis's condition, colic, worm, and heave powders are *the best of their kind*, and just what every" "ery horse owner should have at hand ready for" "use. *May 12th, 1883.*"

Sold by all druggists and harness men.

☞ Our $5 and $10 assortment of Ellis's horse remedies should be in every stable.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

The only pain we can safely make light of, is the window-pane, but the pain that racks our frame and tears our lungs is a serious consequence. To alleviate the matter and effect a permanent cure, Dr. Bull's Cough Syrup is relied on by all sensible people.

The loss by the partial burning of the Portland, Me., rolling mills has been settled for $18,000.

Personal.

A young lady of seventeen summers, highly educated, refined, and of prepossessing appearance, desires to form the acquaintance of some nice young man, whom she would advise, if troubled with dyspepsia, to use that great blood purifier, Sulphur Bitters.

The estate of the late ex-Gov. Padelford of Rhode Island, at Newport, was sold to John H. Glover of New York for $35,000.

Dr. Benson's Celery, and Chamomile Pills contain no opium, quinine, or other harmful drug and are highly recommended for headache, neuralgia and nervousness. 50 cents, at druggists.

Bridget Gard, about sixty years old, was burned to death Oct. 31st in Lowell, Mass. It is supposed that she had been kindling a fire with kerosene.

Another Waltham citizen, Mr. E. P. Morry, with H. J. Johnson, druggist, says: Ellis's Spavin Cure cured my horse of weak knees, and Stocked Legs.

A man calling himself J. S. Abbott has been arrested for passing counterfeit dollars in Piscataquis county, Me.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving satisfaction. I take pleasure recommending them."

A boiler in John Baker's boot factory at Hollistin, Mass., exploded Oct. 31st, severely scalding Mrs. Ella Hart, an operative.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

Martin Fonts, postmaster at Wilderness, Clay county, Fla., was shot and robbed at his own door on the night of Oct. 30th.

Hundreds of letters from those using Ayer's Hair Vigor attest its value as a restorer of gray hair to its natural color. As a stimulant and tonic, preventing and often curing baldness, and cleansing and beautifying the scalp, its use cannot be too strongly recommended.

Mme. Jenny Lind Goldschmidt still suffers much from a neuralgic affection of her throat and chest—the same which years ago used to cause her an agonizing headache after every appearance on the stage.

Diphtheria poisons the blood. Convalescents should take Hood's Sarsaparilla to neutralize and eradicate the poison matter.

The post-office at Haverhill, Mass., was robbed on the night of Oct. 31st by professional thieves, who blew open the safe and stole $500 in money and $7000 in stamps.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

CHAPTER I.

"I was taken sick a year ago
With billous fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system ssemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

Starting To Run To The Fire.

It was in Lowell, Mass. An alarm of fire was sounded, and the engine was rapidly driven out of the engine-house. One of the horses took fright, pranced wildly about, and ran the engine against the brick door-frame. Chief Engineer Hosmer was severely bruised and two of his ribs were broken. For three weeks the physicians doctored him. Then a friend brought him some Perry Davis's Pain Killer. On being rubbed with this, he was soon well. Best liniment in the world.

The Burlington Hawk-eye publishes a most ludicrous sketch about the great toughness of the invincible mule. Mr. W. H. Sturtevant, of New York, however, knows a stiff, lame mule, whose toughness yielded to the penetrating force of St. Jacobs Oil, completely restoring the flexibility of every muscle, and the powerful playfulness of the rear foot.

If disease has entered the system, the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation a positive cure, for dyspepsia, indigestion, kidney troubles, etc.

Two ladies from Portsmouth were in Jordan, Marsh & Co.'s store in Boston one day this week, looking at underwear. A lady acquaintance from Rye passing by, asked what prices were charged for the intended purchase, and on being informed, said loud enough for our informant to hear, "You Portsmouth folks don't know everything. I bought the same quality at Staples' at a lower price than that last week, and if he has not sold them all, I should advise you to get them there." The ladies postponed the purchase in Boston, and told the young saleswoman who was showing the goods that if they concluded to buy they would send for them by Frye's express.

Moral: Read the dry goods advertisements in the *Chronicle* and *Gazette* before starting on excursions to Boston.

The telephone managers in this city have made arrangements, in conjunction with the offices in other places, to get on Tuesday evening full returns of the result of the elections that day, not only in Massachusetts, but as far as possible in the nine other states which vote on the same date. The telephone exchange will be a centre of attraction that night.

The steamer Pottsville, one of the Philadelphia & Reading Co.'s fleet of iron steamers, which went ashore on the 9th of January last on the New Jersey coast, was hove off the beach on the morning of Oct. 29th, and towed to New York. This steamer has landed many cargoes of coal at Portsmouth, and we believe the last trip she made previous to the unlucky one when she was stranded, was to this port.

Wilbur Garrabrant and Miss Madge Ferguson, who eloped last month, created a sensation at Newark, N. J., having returned and taken up their residence there. The bridegroom's mother will endeavor to have the marriage annulled. The bride says that they had a delightfully romantic elopement. "I think the papers made entirely too much of it," she added; "I have a scrap-book full of notices, and a good deal was said that I don't like." She hoped her mother-in-law could not separate them.

Hung His Wife's Husband.

Judge Shickleton relates an interesting reminiscence of the early days of Arkansas. "I came here," said the Judge, "just after I had been admitted to the bar in a northern state. Like the average young lawyer, I was poor and actually thirsted for a case. Shortly after I arrived I went to a mountain district and stopped at a small town where there was considerable excitement over the trial of a young man who had been indicted for murder. The older lawyers were loath to engage in the prosecution, so the young prosecuting attorney was working single handed. I met him the second day after my arrival, and when he learned that I was a lawyer he said:

"I am at present prosecuting for murder a young fellow named Dawes. He is guilty as guilty can be, and should by all means hang; yet I fear, with so much opposition, that I will not be able to assist justice to a proper punishment of the terrible crime. Now, what I want you to do is to assist me."

"I studied the case carefully. I made every point so clear that I could see the jurymen shaking their heads when an illustration was strikingly vivid. The counsel for the defense, composed of old lawyers whose fame had long since been established, looked at me in astonishment. They met me and wanted a compromise. I knew nothing but justice and justice knew no compromise. Finally the case went to the jury. Within five minutes afterward a verdict of guilty was rendered. The young man was hanged. I moved to another part of the state, where I soon established a good practice.

"One day, about three years afterwards, I met at a northern watering-place a beautiful young woman whose husband was dying of consumption. The consumptive grew worse rapidly, but his wife was still hopeful, for he would talk of what he intended to do when he recovered. One night about 12 o'clock I was summoned to the poor fellow's room. He lay gasping for breath, and his wife, even beautiful in grief, sat holding his hands. The end soon came and I saw her bow her magnificent head in despair.

"I did not see Mrs. Delure, the fair widow, for a few days after the funeral. Then she came to tell me good-by.

"'When the memory of your husband affords a melancholy pleasure, instead of a deep grief, will you not write to me?' I asked.

"'I don't know,' she replied. 'I don't feel as though I shall ever again feel disposed to write, but I thank you for the deep interest you have taken in me, and hope to some day meet you again.'

"I returned to Arkansaw and resumed my practice, but business cares did not remove the image of that beautiful face. Two years passed and I heard nothing from Ella, as I had learned to think of her. At last I determined to go again to the watering-place. One evening after I had been there a few days I was strolling on the mountain when I chanced to stroll near Delure's grave. Hearing voices, I approached cautiously. I stood behind a tree. The moon came out, and I saw Mrs. Delure and a man sitting near the grave.

"'I cannot marry you,' she said. 'You have been very kind to me, and have greatly aided me in getting my school, but I cannot marry you.'

"'Do you ever expect to marry again?' he asked.

"'I don't know. There is one man whose memory I love. He was with me when my husband died. If I were ever to marry any one I would marry him. I promised to write to him, and have tried a dozen times, but each letter seemed like a love letter.'

"'I could stand no more, and exclaiming, Ella,' I rushed from my hiding place and caught her in my arms. The man looked on for a moment and turned away.

"Our arrangements were soon completed. Our wedding was quiet and simple, and immediately after the ceremony we started for my home in Arkansaw.

"We began housekeeping at once; and I know there was not a happier man in town than I. One evening while Ella and I were sitting in the twilight, she said:

"'I never saw a man so little interested in any one's history as you are. You have been acquainted with me a long time now, and have never asked me anything about my former life.'

"'Your present self,' I replied 'belongs to me; your former self did not. I am never anxious about anything that does not belong to me.'

"'Do you know that I used to live in this state?'

"'Did you?' I asked in surprise.

"'Yes,' she said in a saddened tone. 'I have been three times married. My first husband was named Dawes, but he was a bad man and died by the hand of the law.'

"Great heavens, I had hung her husband."

Postal Rates Ninety Years Ago.

Now that the 2-cent postage law has gone into effect, the following provisions of the first law of congress on the subject will be read with interest:

Feb. 20, 1792, was the date of the first act fixing rates of postage on domestic letters, and established the following rates, to take effect June 1, 1792:

Act. Feb. 20, 1792, section 9, by land: For every single letter not exceeding 30 miles, 6 cents.

For every single letter over 30 miles and not exceeding 60 miles, 8 cents.

For every single letter over 60 miles and not exceeding 100 miles, 10 cents.

For every single letter over 100 miles and not exceeding 150 miles, 12½ cents.

For every single letter 150 miles and not exceeding 200 miles, 15 cents.

For every single letter over 200 miles and not exceeding 250 miles, 17 cents.

For every single letter over 250 miles and not exceeding 350 miles, 20 cents.

For every single letter over 350 miles and not exceeding 450 miles, 22 cents.

For every single letter over 450 miles, 25 cents.

For every double letter, double the said rates.

For every triple letter, triple the said rates.

For every packet weighing one ounce avoirdupois, to pay at the rate of four single letters to the ounce, and in that proportion for any greater weight.—*Elmira Advertiser.*

Facts are Stubborn Things.

Is there anything in any of the numerous advertisements of the Royal Baking Powder to show that the Royal does not use Ammonia and Tartaric Acid as cheap substitutes for Cream of Tartar? Or is there any charge, or the slightest insinuation in those advertisements, that Cleveland's Superior Baking Powder contains anything but the purest Grape Cream of Tartar and Bicarbonate of Soda, with a small portion of flour as a preservative?

Ammonia and Tartaric Acid produce a cheap leavening gas, which is not to be compared, in the practical test of baking, with the more desirable Carbonic Acid gas generated by the exclusive use of the expensive Cream of Tartar.

Use Cleveland's Superior Baking Powder, and judge for yourself of its superiority.

SUPREME COURT--ALLEN J.

FRIDAY, Nov. 2d.

In case State by Thompson vs. Danforth, the verdict was returned by the jury against the defendant, as chargeable. The court allowed the complainant $75 and costs of prosecution, and ordered the respondent to give bonds with sufficient sureties in the sum of $500, to pay for the support of the child one dollar and fifty cents per week from the present time until it shall become seven years old, and to stand committed until the sentence is performed.

Case Noyes vs. Londonderry, was opened by Mr. Dodge of Manchester for the plaintiff, who read the notice of the claim served on the town by Mr. Noyes. The accident occurred July 21, 1881, at about eight o'clock P. M.; as Mr. Noyes and wife had started to drive to Manchester, on the road leading to Derry depot, they reached a place where boards were piled on each side of the road, when the horse shied and struck a piece of plank, overturning the carriage, throwing out Mr. and Mrs. Noyes. Their cries were heard, and some witnesses came to the spot, and took the carriage off Mr. Noyes. The horse fell over upon a pile of lumber, and on rising threw down some of the wall.

As the jury had seen the premises, the opening was brief. The plff. claims that he suffered a dislocation of left ankle, severe sprain, etc., and was otherwise severely injured; could not bear weight on his leg for ten weeks. The highway was filled with piles of boards and plank, piled by one Richardson, who had a steam mill at a point seen by the jurors. Such piles, it was contended, were such an encumbrance or defect as the law declares that towns shall be responsible for damages caused thereby. A plan of the region was shown. The writ is dated Feb. 2, 1882. Damages claimed, $2000.

A MAGNIFICENT SUNSET.

The western sky on Friday evening about half-past five o'clock presented a wondrously beautiful picture. Along the horizon was a broad belt of irregular width displaying the most gorgeous hues of crimson, orange and gold, and above this were huge gatherings of black and gray clouds, their edges glorified with a thousand tints of purple, gold and crimson, while here and there through rifts in the vast masses could be seen bits of clear sky of a most exquisite blue, in one of these patches the new moon, a very slender silver crescent, hanging suspended, something like a horse-shoe nailed over a barn door. The splendid beauty of the scene will not soon be forgotten by those who beheld it.

The roof of the main building of the Portsmouth Machine Co.'s works is approaching completion, and some idea can be had as to how the establishment will look when completed. It will be handsomer than the much-mourned Kearsarge mill, its lesser height detracting nothing from its appearance.

The Old State House, etc.

Referring to the article in the *Gazette* for September 20, 1883, upon the old State House, I may add that the precise date when Major Larkin sold the old Court House at auction was October 22, 1836. Some of the stone from the ledge on the Parade was used in building the present Court House. March 25, 1758, the town records say of a town meeting: "This meeting being Two thin the Town think not propper to act anything about building a seller under the State House." In 1759: "The selectmen have liberty to sett in Union Hall in the Work House; also the Firewards to sett in a room in sd Work House."

The following vote, from the Town Records, is interesting with regard to the first occupancy of Jefferson Hall for town meetings:

"March 26, 1812 That the Selectmen be directed to make such alterations and repairs in Jefferson Hall (so called) as to accommodate the Town for their Town meetings in such manner as may least injure it for military purposes and also to add another stair-case & to be in readiness for the Town at the next adjournment of this meeting

"Voted that this meeting be adjourned to the fourth Monday of April next to meet at Jefferson's Hall, so called, at 10 o'clock A. M." F. W. H.

DALY'S "7--20--8."

This play, which is to be given in Music hall on Monday and Tuesday evenings of next week, was played in Manchester on Wednesday evening, and the *Mirror* says of it: "It is a veritable comedy. Few genuine comedies are given in Manchester nowadays. The Boston Museum company occasionally used to bring one out, but that organization does not visit us as frequently as of yore. There is not much plot to '7—20—8,' but it is quite amusing. The situations are considerably mixed, the characters getting into all sorts of snarls. The best pieces of acting were done by Harry Hotto, who personated Launcelot Bargis, and John F. Raymond, as the Italian. The latter did a difficult part admirably. The heroine, if such she may be called, was Georgine Flagg, 'Floss,' the much sought 7—20—8, which figures are the number of a picture at the academy." Tickets for this entertainment can be procured at Goodrich's bookstore.

HISTORY, ANCIENT AND MODERN.

The Dover *Republican* of Oct. 31st, in answer to a correspondent who asks "which is the oldest, Dover or Portsmouth?" and then goes on to show that Portsmouth is, says:

We think it is a fact that the settlement of Dover antedates Portsmouth.

In the same issue the *Republican* says:

Massachusetts distils all the rum made in this country, having six stills now running.

If our up-river contemporary's ancient history regarding this city is no more correct than its modern history, it will hardly do to swear by. Portsmouth might be willing to give up its claim as the first settlement in the state, in favor of the subsequently-settled town; but it will never acknowledge that the rum distillery on Christian Shore, which pays $40,000 a year to the United States internal revenue, is in Massachusetts.

Tenney, the artist, leaves this morning for Concord, where he has engagements to paint the portraits of Hon. John Kimball, Judge Upham and others.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

ELLIS' HORSE REMEDIES

ARE THE BEST."

Solidly Endorsed by the "Spirit of the Times," and Leading Veterinary Surgeons.

"ELLIS'S SPAVIN CURE.—Of course, it is generally regarded as impossible to completely cure a bone spavin and remove the enlargement, but *it is positively astonishing* what curative properties exist in the mixture known as Ellis's Spavin Cure, and those who have given it a fair trial say *it is the best remedy* that they ever applied. In many cases it has not only removed the lameness, but also the lump, and so recommend it as far superior to the ordinary blisters prescribed by the faculty. We also learn that Ellis's condition, colic, worm, and heave powders are *the best of their kind*, and just what every horse owner should have at hand ready for use. *May 12th*, 1883."

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS

IN 1870 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a cur-e. In the summer of 18[illegible], after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES M. RICHARDSON, Custom House, New Orleans.

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring Blotches, Itching Tortures, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diuretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

Ugly Gaps

in that row which of all others should be kept in thorough repair, a row of teeth, are sure to occur and no less sure to hopelessly disfigure the face if disreguard of the teeth's cleanliness is persistent. But if the error is corrected in time with the aid of *Sozodont*, America's leading tooth beautifier and invigorant, the tenants of the mouth long retain their strength and whiteness unimpaired. A word to the wise is sufficient.

OSCULATION.

Kissing Considered in its Various Phases.

Kissing, as our readers are aware, is, under certain circumstances, says Chamber's *Journal*, a perfectly natural proceeding, and one which, within certain limitations, constitutes a highly pleasing experience. It is a proceeding, moreover, which may be said to have received the sanction of universal custom from time immemorial and all the world over; and there are not at present any indications of its becoming in the future less popular than it has been in the past. A kiss is not a thing that you can successfully describe. A poetic lover who undertook the description would probably never get beyond some stupidly inflated generalities.

Josh Billings truthfully observes that the more a man tries to analyze a kiss the more he can't, and he believes that the only real way to define a kiss is to take one. Kisses, of course, vary considerably. There are the formal kiss of greeting; the fraternal kiss of affection; the kiss of policy, which is not always easy to give with a good grace; the kiss under the mistletoe, which is only obtained after (of course) a tremendous amount of struggling and merriment; the lover's kiss, which breathes of rapture, and the staid, dutiful salutation of conjugal attachment. Such a classification as this only suggests an indefinite variety of experience.

A curious case of osculation is reported from across the Atlantic. Some time ago a Mr. Finch, who was in the jewelry business at Newbern, United States, sold to a young lady named Miss Waters what was described as a beautiful set of real jet, the bargain being that he was to receive in payment thereof one hundred kisses, to be paid at the rate of one kiss daily; if Mr. Finch was to call at the lady's house every morning, Sundays excepted, to receive his daily kiss, which Miss Waters undertook and promised to duly deliver to him. For thirty consecutive days—Sundays excepted—Mr. Finch punctually called upon Miss Waters and duly received the stipulated salutation. On the thirty-first day, however, Mr. Finch made a formal complaint that Miss Waters was not fulfilling her contract, inasmuch as she insisted upon permitting him to kiss her cheek only. He maintained that this did not constitute a legal kiss and demanded that he should be allowed to put his left arm around her waist and kiss her in the highest style of the art. To this, however, a firm refusal was returned. The lady offered Mr. Finch a choice of cheeks, but insisted that the contract would not bear the construction he put upon it. Thereupon Mr. Finch, in great indignation, brought an action for breach of contract against the lady.

This action raised several new and interesting questions, among the most important of which was, what constituted, in the eye of the law, a kiss? The plaintiff set up the further plea that there was a difference between active and passive kisses; that Miss Waters had promised to give him a certain number of kisses—not merely to allow him to take them—and that giving kisses was an act which required the use of the lips. The case was the subject of considerable discovery in the press and elsewhere; but the writer, unfortunately has never been able to discover the result of the legal proceedings which were instituted, and has concluded that a compromise of some sort must, as was at one time expected, have been brought about.

An equally remarkable kissing transaction occurred not long ago in Austria. In this instance the kiss was actually put up for sale by auction and publicly bestowed upon the highest bidder. The occasion was a charity fete got up in the little town of Torantal on behalf of the poor of Agram. The well-meant endeavors of the benevolent ladies and gentlemen who acted as salesmen and stallholders to induce visitors to purchase trifles attached for sale at twenty times their value, had not succeeded. Business was not brisk. The public who filled the *salle* were not in a generous mood, and the organizers of the fete were disheartened. At this juncture one of the lady patronesses, a remarkably beautiful woman, had what she thought a happy inspiration. She took her husband aside, conferred with him for a few moments, and shortly after, with his consent, offered a kiss to the highest bidder, the sum paid for the favor to be added to the receipts of the fete. The result of this novel idea hardly came up to what was anticipated. Very low sums were at first offered by the young men—for, of course, the feminine portion of the visitors were not tempted by the opportunity—and ultimately the kiss was knocked down at the relatively paltry figure of 15 florins and 11 kreuzers. The husband of the lady, seeing the slight store set by the favor, offered to pay the amount himself and take the kiss, but the claimant had already handed over the money, and as he refused to agree to the bargain being canceled, the kiss was exchanged before the assembled company.

A young lady reading in a newspaper the other day of a girl having been made crazy by a sudden kiss, called the attention of her uncle, who was in the room, to that rather singular occurrence, whereupon the old gentleman gruffly demanded what the fool had gone crazy for. "What did she go crazy for?" artfully returned the ingenious maiden. "Why for more, I suppose!"

WIT AND HUMOR.

"I hate to have a tax bill poked in my face," said the young woman when the assessor attempted to snatch a kiss.

The usual course is to draw before commencing to paint, but some women reverse the rule and don't draw.

Young Lady (who is writing a note for the housemaid)—"Is there anything more you wish to say, Mary?" "No, marm, except that you say: Please excuse bad writin' and spellin'."

At an academy ball masque, the other night, a jolly French girl said to her partner: "You like to waltz, monsieur?" "I adore it." "Then why did you never learn?"

With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I"

Could not move!
I shrunk!

From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

Although almost destitute, he returned it to its owners, Messrs. A. P. At West Liberty, Ky., Thursday, Oscar McKenzie, formerly sheriff of Morgan county, was called out by two brothers named Reisener, professedly to make friends over an old quarrel. The Reiseners clubbed McKenzie to death and fled to the mountains.

The secretary of the navy, acting upon the report of the court of enquiry into the circumstances of the destruction of the brig Tally Ho by the United States steamer Pinta, has detached from the latter vessel Ensign Guy W. Brown and Lieut. Uriel Sebree, the latter of whom commanded the vessel. They will probably be tried by court martial, the former for the negligence which caused the collision, and the latter for not following the sinking brig and saving her crew. It appears from the report of the board of enquiry that the brig sank in about twenty minutes, and that the captain, his wife and crew were exposed in open boats, off Nantucket, for about fourteen hours before their rescue by a passing vessel.

NEW BLOOMFIELD, MISS., Jan. 2, 1880.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

Why suffer longer from dyspepsia, indigestion, want of appetite, loss of strength, lack of energy, malaria, intermittent fevers, etc.? Brown's Iron Bitters never fail to cure these diseases. They act like a charm on the digestive organs, removing all dyspeptic symptoms, such as belching, heartburn, biliousness, etc. Remember it is the only iron preparation that will not blacken the teeth or give headache. Ask your druggist concerning its merit.

Thompson Holbrook, aged about eighty years, a highly respected resident of Townshend, Vt., mysteriously disappearen from his home early Tuesday morning of last week. Searching parties immediately began scouring the neighborhood, but it was not until Friday that the old man was found. He was discovered upon a high hill two and a half miles from Brattlebow, where he had evidently laid without food or shelter since Tuesday night. It is doubtful if he survives the shock.

Senator Anthony of Rhode Island is the only senator in service now who answered to his name at the roll call on March 4th, 1861, when the southern members resigned. Of the eight men who took the oath of office as senator in 1859, Senators Anthony and Saulsbury are still "in harness."

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not beat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC !

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, L. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Ogiesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Fellows Gaster	37,000
Paid to Canal Bank, Ed. Toby, Cashier	15,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

Yesterday's Dreadful Accident.

There were a good many accidents yesterday. There will be some to-day, and probably more or less to-morrow. Children are tumbling down stairs. Women are lighting fires with kerosene. Boys are playing with pistols. Big men are spraining their ankles as they try to catch the moving train. Babies will get their little thumbs caught in the doors. Bruised shins, dislocated joints and mashed fingers constantly remind us that accidents may take place at any moment. People who have Perry Davis's Pain Killer can smile at most of the accidents that befall them. Those who have not tried it are reminded that they do not have to run further than the nearest drug store to buy it.

Denison Currier of Enfield fell through a feed-hole in his barn last Thursday evening, breaking both bones of his right leg.

Dr. E. E. Fuller, Keokuk, Iowa, says: I have used Brown's Iron Bitters in my own family with excellent results.

James O'Kaley, alias Morgan, completed a three years' sentence at Concord last week, and was immediately re-arrested and taken to Pittsfield, Mass., on a charge of forgery.

The Greatest Care

should be taken in preparing medicine for the sick. It has been taken in the article known as "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons, and for sale by all leading Druggists and Grocers. Physicians can safely prescribe it.

The fiftieth anniversary of the foundation of the Manchester Universalist church was celebrated with appropriate exercises Friday evening. A historical address was delivered by the pastor, Rev. L. F. McKinney.

They Were Divorced.

Indianapolis, Ind.,—The Sentinel says: A Kentuckian writes of how he passed from misery to happiness. "We'd been together eleven years, and we were never what you may call congenial. I mean rheumatic and myself. Finally it got to be altogether too lively for yours truly, and I just invoked the power of St. Jacobs Oil. That's how me and my pain came to be divorced."

Has Yet Abandoned Business.

Mr. Edmund Clarence Stedman has been annoyed lately by ill-founded reports to the effect that he has abandoned his banking business, and will henceforth devote himself exclusively to literary pursuits. "This is just now calculated to injure me," he said recently to a correspondent of the Chicago *Inter-Ocean*: "I have, in fact, abandoned writing to go into business, because I could not make a living for myself and family by mere brainwork. Now, if I am deprived of the means to pursue an occupation in which I have been moderately successful, and which I understand, that ends my literary life; I shall never write another line. I shall have neither the time to devote to it nor the heart to engage in it. You see," added Mr. Stedman, "I am a critic and a poet, if you please. The largest income to be derived from literature comes through the novel. The successful novelist, in these days, has a golden road before him, but I could not write a novel if I tried, for my reputation has been won, what measure of it I have, by my verse, not by my prose writing. On some accounts I regret now that I ever began in these later years to write criticism. It is a thankless task."

Mr. Stedman is one of the few men who possess poetic excellence and first-rate business capacity. His suspension was in no degree owing to any lack of judgment or business tact on his own part, but was due entirely to the fault of others.

We trust that with his ability, his abundant integrity and his host of friends, the time is not far distant when a new fortune will begin to come to him, and certainly no man in or out of New York better deserves it, as the many generous tenders of pecuniary and business assistance have so frequently evinced since his disaster on a last summer's clouded day.

RAILROAD NOTES.

An unknown man was struck and instantly killed while walking on the Eastern railroad track between the station at West Lynn, Mass., and the Oak island bridge, about five o'clock last Thursday afternoon. He was apparently a laborer about forty years old.

On the arrival in this city of the Conway freight train at about half-past twelve o'clock Saturday, a brakeman named Fred E. Randall was missing, and search being made he was found lying on the top of a box car, dead, with his face badly smashed in, having evidently struck an overhead bridge while walking on top of the train. The last time he was seen alive was about an hour before the train arrived here, when he left the rear car and announced that he was going forward, the train then being between Conway Junction and Eliot. Deceased was about twenty years old, and was employed in the Eastern railroad freight yard in this city last winter; his remains were in the afternoon sent to Great Falls, where his relatives reside.

The Eastern railroad has just closed its fiscal year with gross earnings of $3,600,000, the largest ever recorded, and its net income, after the payment of six per cent on its bonds and the purchase of a large amount of new equipments, is $170,000 cash, which under the provisions of reorganization must go toward extinguishing the company's debt. The Boston *Transcript* says "It is improbable that the lease of the Eastern to the Boston & Maine will be concluded as at present drawn. The provision for the Eastern railroad company's bond-sinking fund has not been adequate, and very likely the whole lease arrangement will go by the board, to begin over again some future time. Nearly all the Eastern railroad people are now opposed to the lease in the present shape. Meanwhile a feeling in favor of merging the Eastern and Maine Central is gaining ground, and this may be accomplished before any lease of the Eastern to the Boston & Maine can be consummated."

BUTLER OR ROBINSON.

The managers of the Telephone Co. have arranged to receive full election returns from the cities and towns of Massachusetts, and as full returns as can possibly be obtained from the other nine states that vote to-morrow, and to accommodate the public have secured Franklin hall for to-morrow evening where the returns will be placarded as received; a small admission fee will be levied, and perfect order will be maintained in the hall.

The subscribers to the telephone may receive the returns at their residences or places of business, by paying a small sum to the agent of the company, who will call on them.

NAVY YARD ITEMS.

The old sailing frigate Sabine at ten o'clock Saturday forenoon left "rotten row" at the navy yard, where she had been lying for years, ever since she was put out of commission as a naval school-ship at this station. She was in tow of the tugs Knickerbocker and Clara Clarita, and bound for Rockland, Me., where she is now moored.

The Portsmouth representative of the Manchester *Union* informs that paper that he "will make the public a complete account of the manner in which the recent removal of the sailors at the navy yard was accomplished. Although, as the evidence will show, the removal was a neat political job, and so far the ex-bosses do not know by what influence they lost their positions, it will be mighty interesting reading for somebody." If the correspondent can fulfil his promise, there is no doubt that his story *will* be "mighty interesting reading."

In consequence of the removal from the vicinity of the navy yard of the ships Guard, Kansas and Sabine, and the prospective removal of the Congress, the following-named shipkeepers were discharged on Saturday evening: Charles E. Whitehouse of Newcastle, Thomas Seaward and Richard Seaward of Kittery Point, and James A. Waterhouse of this city.

The schooner Frank G. Dow, from Richmond, Va., arrived in the lower harbor on Saturday with 496 tons of coal for the department of yards and docks at the navy yard, on the contract of J. Albert Walker.

GOSSIP'S SAY

That Mr. Almon Jenness, blacksmith, whose shop is on North street, Christian Shore, was badly kicked by an ox while shoeing the animal on Thursday last, a closed eye and a two-inch gash on his left cheek being the immediate results.

That in addition to the immense quantity of pig iron found on board the old store-ship Guard, there has been discovered in a store-room forward, between decks, a bran new anchor-chain and a hawser, neither of them ever having been in use.

That the ship's furniture, consisting of extension tables, cane seat dining chairs, mirrors, side boards, etc., are among the perquisites of the sale to the lucky purchasers.

That the Portsmouth frequenters of navy yard auctions, when reminded of how they "got left" in this instance, exhibit a ghastly and crab-apple sort of a smile.

That Mrs. Stephen Young, a widow lady of Kittery, aged ninety-one years, is a remarkably well-preserved woman for her age, has never used glasses, and is able to read the finest print without artificial aid.

That the north millpond was frozen over its entire surface on Saturday morning last.

That the ice disappeared, however, before noon of the same day.

That the new city horses indulged in running away up Vaughan street on Saturday morning last, but were stopped without damage.

In Daly's "7—20—8," to be given at Music hall this (Monday) and to-morrow evenings, the leading gentleman of the company is Mr. George Vandenhoff, son of George Vandenhoff, Esq., who resided for some years in this city, and is known on both sides of the Atlantic as an actor, author and elocutionist of great celebrity. The grandfather, George Vandenhoff, commonly known in England when the two Georges were spoken of as "George the first," was a renowned actor in London; an engraved likeness of him as Coriolanus appeared in Tallis' illustrated edition of Shakespeare's works, 1850; he seems to have transmitted his dramatic tastes, as his son was educated to the bar and indeed had achieved quite a success at the commencement of a legal profession, before giving it over to go upon the stage; while George the third, who will delight a Portsmouth audience this evening, studied medicine and began the practice of the medical profession before he indulged in his inherited taste for the drama.

For election returns go to Franklin hall Tuesday evening. The returns from the ten states which vote that day will be placarded there.

There was quite a lively movement of vessels on the river last Saturday. The ship Sabine was towed away by two tugs; the British schooner Druid, the brick schooners Hattie Lewis, Satellite, Emily A. Staples and G. W. Raitt, and four or five coasting schooners, sailed; and two British schooners from St. John, N. B., and four American schooners from coal ports, arrived.

Ladies and gentlemen can learn the returns from all the states that hold elections on Tuesday, by going to Franklin hall that evening.

Asst. Engr. G. D. Miner has been detached from the Vandalia, and placed on waiting orders. Asst. Engr. C. M. Perkins is ordered to the Vandalia.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

SUPREME COURT--ALLEN J.

SATURDAY, Nov. 3d.

Noyes vs. Londonderry, continued. The evidence having been closed on Friday, the arguments were made this morning, and the case given to the jury at 11:45 o'clock A. M., the court adjourning to 10:30 o'clock Monday forenoon, the 5th. At 4:15 P. M. the jury returned a sealed verdict, and departed for their several homes.

There is but one more case for trial by jury. The court will devote the coming week to hearings upon the equity docket.

POLICE COURT--BATCHELDER, J.

SATURDAY, Nov. 3d.

Henry Smith, for drunkenness, was fined $3, costs $6.90. Having paid $9.90 on Friday for a drunk, Henry was a little short of funds, and was committed to the county house of correction.

Abraham Oberson, drunk, fine $3, costs $6.90; paid.

Luke Quinlan, drunk, fine $3, costs $6.90; paid.

A DISTINCTION WITHOUT A DIFFERENCE.

PORTSMOUTH, Nov. 3d.

Editor of the Chronicle: In your issue of the 2d instant we notice a sketch in regard to the change at the Portsmouth Brewing Co. While we do not wish to deprive anybody of what honor as a private citizen belongs to them, or official rank as a member of our state militia, still we do not want to see a statement that we know to be untrue going through the press, and as we think it was inspired by the subject of the *sketch, we wish to set the matter right, not only in justice to ourselves, but to you as well. Mr. Lenigan enlisted in the Cavalry May 1st, 1881, as a private; was promoted to corporal and the highest rank he attained as a member of our company was sergeant; he returned to the ranks June 7th, 1883, and was discharged as a private Aug. 4th, 1883.

MEMBERS OF THE CAVALRY.

*Our correspondents are widely in error here; the "subject of the sketch" had no more than they to do with "inspiring" what we wrote, which was that "He has been a member and officer of the Portsmouth Cavalry, and shown great interest in the success of the company." That he was a member and officer they themselves say, and that he was interested in the company would naturally be inferred from the fact that he was made sergeant. There may have been subsequent disagreements, of which we know nothing; but we fail to see that the statement of our cavalry friends conflicts in any way with our own.—*Ed.*

ANNIVERSARY SERMON.

Rev. A. P. Peabody, D. D., on Sunday occupied the desk at the Unitarian church, it being the 50th anniversary of his settlement as pastor of the South Parish. The desk was ornamented with a large floral shield bearing the figures "1833-83," and with bouquets and wreaths; there was a floral anchor on the front of the organ, a horse-shoe, harp, cross, crown and other devices, with wreaths and bouquets, on the tables and along the front of the platform, and the baptismal font was filled with growing plants, the whole being very beautiful. In the venerable clergyman's discourse, which of course dealt largely with the history of the church for the early part of the past half-century, he paid eloquent and affecting tribute to Rev. Dr. Parker, Deacon Foster, Deacon Shores, and other worthies who rendered noble service to the cause of liberal religion in their day, and have long since passed to their reward. He spoke with deep feeling, and a sermon is rarely listened to with such absorbed attention as was displayed by the very large congregation on this occasion.

—Portsmouth Journal.

DALY'S "7--20--8."

Of "7-20-8," to be performed at Music hall this and to-morrow evenings, the New York *Telegram* says: "The new comedy is calculated to enjoy a large measure of popular favor, for it sparkles with bright sayings, and fairly glistens with humorous gems. The situations are very droll, and what can rarely be said of the incidents of kindred works, positively dramatic. The action of the piece is rapid and easy. Yet is the story full of delicate and laughable surprises that are wrought into a very enjoyable whole. This is, without a doubt, one of the most entertaining pieces we have seen in New York for over a year." Tickets at Goodrich's bookstore.

The Western Union telegraph office will be open to-morrow night, and the full returns of the elections in Massachusetts and other states will be received, and furnished to the public at low rates.

There was quite a large gathering of people Sunday afternoon between four and five o'clock, on the Noble's island bridge and in its vicinity, to witness the baptism of three converts by the pastor of the Advent church. The ceremony took place at the beach of Noble's island, on the westerly side of the bridge, all the candidates being females.

A young man named Gove was driving across Portsmouth bridge late Saturday afternoon with a wagon load of fresh fish, when his horse took fright at a train and threw him out in front of the wagon wheels, which passed over him, injuring him seriously.

"The fifth of November, as I do remember, the gunpowder treason and plot." The boys of all ages, sizes, sects and previous conditions will make night hideous with tin horns this evening.

The winter storm-doors of the post-office were hung last week.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

ARE THE BEST."

Solidly Endorsed by the "Spirit of the Times," and Leading Veterinary Surgeons.

"ELLIS'S SPAVIN CURE.—Of course, it is generally regarded as impossible to completely "cure a bone spavin and remove the enlargement" but it is positively astonishing what curative" properties exist in the mixture known as Ellis's" Spavin Cure, and those who have given it a fair" trial say it is the best remedy that they ever applied. In many cases it has not only removed" the lameness, but also the lump, and we assume" need it as far superior to the ordinary blisters" prescribed by the faculty. We also learn that" Ellis's condition, colic, worms, and heave powders are the best of their kind, and just what every" very horse owner should have at hand ready for" use. *May* 12th, 1883."

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Extract of vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price, illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—DOGGS and MIDDLE AGED MEN can see much done, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Vox Populi.

The voice of an intelligent people declares, that *Sozodent* is an article of genuine merit, and their patronage confirms what their voice proclaims. There is no gainsaying this pronouncamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity, and assuredly none exerts such a beneficent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

No Money, No Eat.

The opportunities for stealing a dinner in one of the big New York hotels are not promising. The arrangements have been so thoroughly perfected that it would be pleasanter for a man to suffer the pangs of incipient starvation than risk the mental wear and tear and physical harm incident to the theft.

For some years hotel beats flourished in New York. They lounged about the corridors of their favorite hostelries, often had their letters addressed to the office, and were so much on hand that the employes of the house supposed they were regular patrons. Then the hotel began a regular crusade against them, and they have been delegated to the free lunch counters of the more prosperous saloons.

The same system is now in vogue at all the city hotels. The head waiter is the sentry of the dining room. Five minutes before the dinner a list of the guests of the hotel is sent up stairs by the clerk. On the list is the number of every room in the house with the name of the occupant (if any) opposite. The head waiter stands by the door and when a guest comes in he is asked quietly the number of his room. He gives it, and the waiter instantly sends him to a table. The man, if he thinks of it at all, supposes that the number of his room has something to do with his seat and passes on. The instant his back is turned the head waiter consults his list, and if the room of the number given is vacant, or if it is occupied by some one known to the waiter, he goes at once to the man, and while deftly rearranging the napkin or placing the knives and forks in neat rows, asks him seductively his name. If that name fails to clear away the doubt the clerk is sent for. He may recognize the man. If he does not an investigation is made, and if the man is proved a fraud he is taken out and handed over to the police.

The head waiters of the hotels are usually men of great discrimination and accurate judges of character. They seldom make mistakes, but when they do slip up their terrors are clothed in such suavity and gentleness that even the professional beats cannot get angry with them.

A Woman's Conscience Fund.

"Is the city treasurer in?" timidly asked a lady at an office in the City Hall. She was of middle age, dressed in mourning, and bore evidence of culture and good social position. The treasurer had not arrived, and the lady was shown into the city treasurer's private office. When Mr. Irvine arrived the lady handed him a sealed envelope addressed to him in his official capacity and prepared to depart. Attracted by the size of the envelope, Mr. Irvine asked the lady to be seated until he had examined its contents.

"There is no answer, sir" she replied sadly, and bowing to the officer she withdrew.

Hastily opening the envelope Mr. Irvine found a paper with the words: "Place the inclosed to the credit of the conscience fund," covering a roll of greenbacks amounting to $100. Mr. Irvine rushed out of his office with the hope of obtaining more information from the mysterious stranger, but she had gone.—*New York Times.*

Living to Purpose.

Everybody ought to have an honorable ambition and a supreme desire to be and do something in life. It is better to aspire and fail than to have no aspirations at all. There are fewer who, having laudable ambition, fail to make their mark than of those who drift through existence aimlessly, with no definite purpose in view. There are persons who devote half their lives trying to solve the problem of their existence, and the other half in longing for some friendly hand or propitious circumstance to give them a shove in the right direction. Much has been said and written of wasted lives and opportunities, and yet the subject is by no means threadbare. It is one of the accommodating matters that will admit of "line upon line and precept upon precept." To live to purpose—high and noble purpose—is an ambition worthy of all men, and women, too. How to work out destiny so that it may inure to our own and the well being of others is one of the most profitable themes of contemplation. Men like the stars, move in different spheres and orbits, and to keep in place is highly important. Fidelity to duty and station will enable any individual to become honored and useful. Should one of the small and comparatively insignificant heavenly bodies attempt to usurp the place of one of the brilliant planets, it would doubtless suffer for its pains and become the ridicule of all its associate twinklers.

So with individuals. They often miss the accomplishment of any grand aim because of a failure to comprehend the plane on which they are best fitted to move and shine. It is not necessary to an honored and useful life that one should be president, or senator, or minister plenipotentiary. A man might be either of these and yet possess no extraordinary intellectual or moral weight. Yet if he adorns the place by eminent fitness for it, he will certainly command the respect of his fellows and make the best of his opportunities. A constable might be a better and more useful man than a king, so we see that place and power are not always attended by the characteristics and principles which entitle humanity to love and respect. To make the best of the position in which one is placed, whether that position be high or low, is the secret of wise living. A clown and a preacher may be the very antipodes of character and calling, and yet a man may be honored and useful in either. The palpable fault with most of us is that we fail to make the best of our opportunities and aspire to conditions for which we are not fitted. An important thing to be remembered is that character is everything, and that without the foundation of a good character to build upon, all efforts to inspire the confidence of others in our capacity for honorable distinction will become painfully abortive.

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."
Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

NEW BLOOMFIELD, Miss., Jan. 2, 1880.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it, and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,386,900
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,559
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Casaurd, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	11,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,659
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,419
Total paid by all	$4,881,000

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

Yesterday's Dreadful Accident.

There were a good many accidents yesterday. There will be some to-day, and probably more or less to-morrow. Children are tumbling down stairs. Women are lighting fires with kerosene. Boys are playing with pistols. Big men are spraining their ankles as they try to catch the moving train. Babies will get their little thumbs caught in the doors. Bruised shins, dislocated joints and mashed fingers constantly remind us that accidents may take place at any moment. People who have Perry Davis's Pain Killer can smile at most of the accidents that befall them. Those who have not tried it are reminded that they do not have to run further than the nearest drug store to buy it.

Two railroad trains were robbed at Danville, Ill., Nov. 3d, by four men who were not masked. The thieves got about $2000 from the passengers.

Dr. E. E. Fuller, Keokuk, Iowa, says: I have used Brown's Iron Bitters in my own family with excellent results.

At Danville, Va., Nov. 3d, in a fight at a political meeting four negroes and one white man were killed, and about twenty persons wounded.

The Greatest Care

should be taken in preparing medicine for the sick. It has been taken in the article known as "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons, and for sale by all leading Druggists and Grocers. Physicians can safely prescribe it.

A train was thrown from the track near North Enosburgh, Vt., Nov. 5th, by a purposely-misplaced switch, and the engine went into a river; the fireman was killed, and the engineer fatally hurt. Ed. Ellis, a brakeman on another road, is believed to have set the switch wrong and locked it, in revenge for being refused a ride on the train without a pass.

Mark Twain's Roughing It.

Leadville, Colo.—The Chronicle says: Of all the hardships and privations endured by the Argonauts of '49 while "roughing it," none was greater than the absence of St. Jacobs Oil, the great cure for pain.

The November Elections.

To-day ten states will cast their votes for different local officers. We give below the results at the last previous elections in each of these states, which will be interesting for purposes of comparison with the vote to-day:

Massachusetts, vote for governor in 1882: Democratic majority over the republicans, 13,949; over all, 11,812.

Connecticut, vote for governor in 1882: Democratic majority over republicans, 4161; over all, 3127.

Maryland, congressional election in 1882: Democratic majority, 6210.

Minnesota, congressional election in 1882: Republican majority, 40,823.

Mississippi, congressional election in 1882: Democratic majority, 19,604.

Nebraska, vote for governor in 1882: Republican majority over democrats, 27,070; over all, 23,172.

New Jersey, congressional election in 1882: Democratic majority 2093.

New York, vote for governor in 1882: Democratic majority over the republicans, 192,854; over all others, 167,071.

Pennsylvania vote for governor in 1882: Democratic majority over republicans, 40,202; majority of republicans, independent republicans, greenbackers and prohibitionists over democrats, 32,753.

Virginia, vote for congressman at large in 1882: coalitionist majority over democrats, 5808; over democrats and colored republicans, 1468.

An ex-naval officer named Crumbaugh, of Kentucky, is said to have been badly overcome with the idea that he ought to be appointed secretary of the navy in place of Mr. Chandler last summer, on the election of the latter to the United States senate! A diagnosis of his case fails to disclose whether the insanity of the man consisted in supposing that he had the slightest chance to be appointed secretary of the navy, or in the more apparent madness of entertaining the idea that Mr. Chandler either had any purpose or prospect of being chosen senator by the legislature of New Hampshire. As we have understood it, Mr. Chandler visited Concord last summer on private business, and his only political interest was to see a good man chosen senator and his friend Moore provided for on the Railway Commission.

The fishing schooner Charles H. Hildreth, of Gloucester, sailed from that port Sept. 17th on a Georges trip, and has not since been heard from; she is supposed to have been run down by some other vessel, and sent to the bottom with her crew of ten men. The schooner James Bliss, of Gloucester, has not been heard from since the terrible gale of Aug. 29th, at which time she was on the banks; she carried a crew of twelve men.

The Portland, Bangor & Machias steamboat company has declared a dividend of ten per cent. An equal dividend was declared last year.

GOSSIPS SAY

That Mr. Porter R. Emery, manager of the Jennison farm at Gerrish's island, has purchased for that farm what he claims to be the largest and finest yoke of cattle in York county, the animals being six years old and girthing seven feet and eight inches.

That the recent drought created a mania for well digging at Kittery Point, there being not less than a dozen in process of sinking at the present time in that place.

That the well just completed for Mr. Jesse Frisbee has been a very expensive job, as thirty feet of solid ledge had to be blasted through before water was reached.

That from 1760 to 1775 from thirty to forty vessels, double-decked and from 180 to 350 tons register, were built annually at this port for the West India trade, while many single-decked vessels, comprising sloops, schooners and brigs, were built for the lumber and fish trade for the English and Spanish Mains.

That a seaman by the name of Henry W. Thurston is lying very ill on board the schooner Adeliza, now discharging coal at Sise's wharf.

That a diver was engaged seven hours on Sunday last in seeking for the body of Samuel Jones, who is supposed to have fallen overboard several days ago from some of the wharves in the vicinity of the Spring market.

That the records of the custom house show that a revenue cutter called the Samuel was built in this port in 1791, and launched in October of that year, her first officers being Hopley Yeaton, captain, John Flagg, 1st mate, and John Adams, 2d mate.

That Mr. Jesse Riley of Kittery Point has the largest porker in that town.

The play of "Young Mrs. Winthrop," that was such a success at the Madison Square theatre in New York last year, will be presented in this city on Friday evening, Nov. 23d. It is a beautiful domestic story by Bronson Howard, the well known dramatist and author of "the Banker's Daughter," "Saratoga" and other successful plays, and from a glance at its synopsis, we can easily imagine why it has captured the critics and theatre-goers in New York city. It is a story that often happens in real life, of a husband and wife drifting apart through misunderstandings, but who are happily brought together at last by some little incident. It is a gem of dramatic literature.

All of the employes of the steam engineering department at the Boston navy yard, with the exception of the apprentices, were discharged Wednesday night of last week; and the apprentices were indefinitely suspended, which is almost equivalent to a discharge. A number of riggers, sailmakers and laborers were also discharged from the equipment department. There has been a reduction in all of the other departments.

It is thought the net receipts from the recent fair by St. John's Catholic parish, Bangor, Me., will amount to nearly $7,000.

Editors Constitution:

I feel so grateful to some Georgia people that I must write and ask you to thank them for the good they have done me. In fact after he dies, there ought to be a monument erected to the memory of the inventor or discoverer of a remedy which is manufactured in your city.

For five long years past I have spent all I made, and more too, in the effort to be cured of a blood malady which was eating my life away. I tried one doctor after another, and the Warm Springs, the Hot Springs, the Sulphur Springs, and finally found myself completely broken down, poisoned with scrofula, poisoned with mercury, and pronounced incurable by all the doctors. In this condition I heard through a friend from the East of Swift's Specific (S. S. S.), which is made in Atlanta, and I took it because I felt that under any circumstances I was doomed to die. The first three doses of it infused new life into me, and after taking about twenty dollars' worth, I am a new man and as sound as a dollar. Every vestige of the old enemy is gone—my skin is clear, and I feel as well or better then I ever did in my life. Swift's Specific costs high out here but it is worth $500 per bottle to sufferers from blood diseases. Thank those people for me and let any doubters write me here, care of the Commercial Hotel.

Yours very truly,
HARRY SMITH.

BRIGHTON CATTLE MARKET.

For week ending Tuesday, Oct. 30, 1883.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 1128; Sheep and Lambs 6251; Swine 20,160; Horses 180; number of Western Cattle 1336.

Prices of Beef Cattle ℔ 100 lbs, live weight—Extra quality $6 37½ @7 00; first quality $5 87½ @6 25; second quality $5 12½ @ 5 75; third quality $4 25 @ 5 00; poorest grades coarse oxen, bulls, etc, $3 00 @ 4 12½.

Brighton hides 7½c ℔ lb.
Brighton tallow 7c ℔ lb.
Country hides, heavy ones, 7c ℔ lb; light ones, 6c ℔ lb.
Country tallow 4 @ 4½c ℔ lb.
Calf skins 11c ℔ lb.
Lamb skins 75 @ $1 each.
Sheep skins 50 @ 75c each.

The supply of cattle in market for the week past has been light, but the quality of the larger portion of them was of a good grade, many of them being for the export trade. The trade was a little more active than that of one week since, western cattle ranging in prices from 5¼ @ 6c ℔ lb, live weight. Cattle cost higher at the west, but the markets at Boston would not warrant an advance in prices over those noticed one week since.

Sheep and lambs from the west; sheep cost from 4¼ @ 5¼c, lambs 5½ @ 5¾c ℔ lb, live weight. Those from Canadas and Maine were mostly sent to butchers to slaughter and market at a commission.

Swine—Prices for western fat hogs have not materially changed for several weeks past, coasting from 5½ @ 5¾c ℔ lb, live weight, landed at the slaughter houses.

Mrs. M. J. Wright of Pittsfield, Me., is under arrest, charged with setting fire to her house to obtain the insurance.

At Portsmouth, at one o'clock Sunday morning, George Perry shot Dick Miller, who lodged with him. The Perry house had been entered and robbed, and Perry had armed himself and notified Miller that when he came in late he must make himself known. There was a misunderstanding about Miller's proposed absence from the place. Perry was in debt to Miller, and Mrs. Perry claims that some of the family entertained suspicion that Miller robbed their house.—*Boston Post.*

DIED.

CHENEY. In Ashland, Nov. 1st, Person Cheney, aged 83 years.

GERRISH. In Boston, suddenly, Nov. 2d, Hon. Benjamin Gerrish of Dover, N. H., aged 46 years. Mr. Gerrish was assistant clerk of the New Hampshire house of representatives at an early age; later he was clerk of the house, representative from Dover, and secretary of state. He was private secretary to Gov. Stearns; was consul at Nantes, France, from 1869 to 1873, and part of that time (during the Franco-Prussian war) was temporary consul for Germany, receiving flattering acknowledgements from the German government for his services. From 1873 to 1881 he was consul at Bordeaux, France.

CHASE. In Exeter, Oct. 29th, Mrs. Eunice Chase, aged 73 years.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
November 6, 12:00 A. M.

Probabilities for New England:—Warmer, fair weather followed by threatening weather and rain. During the afternoon or evening, southerly to westerly winds and lower barometer. Colder weather on Wednesday.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 42 degrees above zero.

Sky clear.

TELEGRAPHIC ELECTION RETURNS.

The Western Union Telegraph Co., whose facilities for the collection of election returns are of course unequalled, have made extra preparations for the transmission of intelligence concerning the important elections which take place in ten states to-day. The full details of the voting in Massachusetts, the general results in Connecticut, New York, New Jersey and Maryland, and the approximate results in most of the other states voting,—in fact, all that is received in Boston, will be received in this city, and promptly declared at the Rockingham House.

The CHRONICLE of to-morrow morning will contain full returns of the elections, having made arrangements for the reception of all returns that are received in Boston from any source.

DALY'S "7--20--8."

The advance notices of "7—20—8," taken from the papers of New York and other cities, were fully endorsed by the audience at Music hall on Monday evening, when and where the Rehan dramatic company presented this most amusing comedy. It is not "of the Tourist class" of plays, inasmuch as it has a well defined plot which is worked out to the end—a feature which was wholly wanting in "the Tourists," "Fun on the Bristol," and kindred pieces. The mystic "7—20—8" is the number of a picture at an exhibition, representing a young lady and a dog, with which two men fall desperately in love—one with the young lady and the other with the dog; and from and through this occur all sorts of ridiculous situations and comical misunderstandings, amusing in the extreme. The dialogue is bright and spirited, and some choice bits of sentiment are worked in here and there. The actors and actresses are all good—no "sticks"—and the performance of the comedy, for it really merits the name, affords an evening of hearty mirth. The large and select audience testified their appreciation of the piece by laughter which steadily increased from the opening, until in the last two acts it was almost continuous.

The piece will be repeated this evening, and reserved seats can be secured at Goodrich's during the day.

The election returns will be read from the stage during the evening, by special arrangement with the Western Union Telegraph.

QUEER WORK.

As Mrs. J. H. Sanborn and daughter, of Kittery, were returning early Saturday evening from a drive to this city, when near the brick schoolhouse at the Foreside their team was run into by two express wagons loaded with fresh fish, which were being driven at a rapid rate by a Portsmouth man and his son, who had been to York to buy the fish. Mrs. Sanborn's team was struck on both sides, almost at the same moment, both ladies being thrown out and their wagon smashed by the shock. The man and boy it is stated drove on without offering any assistance; but two young men named Simpson, sons of Putnam Simpson of York, who were fortunately near, conveyed Mrs. Sanborn in their wagon to her home, where she has since been confined to her bed; though no bones were broken she is severely hurt, and internal injuries are feared.

On reaching the Kittery depot the boy refused to drive his horse over the bridge, whereupon the man undertook to tow the team across by making the reins fast to the rear axle of his own wagon. Arriving at the draw, as the forward team passed over the centre and started down the decline the other team was on the ascent, and the bridle was pulled from the head of the rear horse, who promptly ran away, throwing the boy out of the wagon, the wheels of which passed over him, the wagon being capsized and smashed, and the fish tumbled about the roadway. Mr. John Williams, night watchman on the bridge, carried the boy to the toll-taker's house, whence he was subsequently taken home.

The man and boy who had such an experience we are informed were Hiram Gove, Jr., and son, of this city.

SUPREME COURT--ALLEN J.

MONDAY, Nov. 5th.

The sealed verdict returned by the jury in case Noyes vs. Londonderry was read, finding for the town.

Case Pettengill vs. Pettengill, question as to title of some property in Londonderry, was commenced. The court ruled very early in the case that there were only two points for the jury to consider, and by consent the case was taken from the jury, to be tried by the court. This being the last case for a jury, the jurors were discharged from further attendance.

Hearings of cases on the equity docket will occupy the rest of the week.

POLICE COURT--BATCHELDER, J.

MONDAY, Nov. 5th.

James Taggart and John Blake, for drunkenness, were each assessed $9.90, fine and costs. Taggart paid, but Blake "goes up."

Patrick Sheehan, for drunkenness, was fined $5, costs $6.90. Brentwood in default of payment.

DEPARTURE OF THE "CONGRESS."

The last of the condemned United States vessels has left "rotton row" at the navy yard, the old steamer Congress having departed on Monday afternoon. The tugs Luther C. Ward and Germania arrived from New York on Monday morning to tow her to Cow Bay, N. Y., where it is said she will be broken up; the steamers coaled at Appledore wharf, and between three and four o'clock hooked on to the old man-of-war and started her on her way. Several Portsmouth men have gone around in the Congress, having secured work on her for some months.

A brilliantly-attended reception in honor of Rev. A. P. Peabody, D. D., was given at the residence of John Sise, Esq., on Monday evening. A large proportion of the members of the South Parish paid their respects to the revered former pastor, and many members of other churches testified by their presence the general esteem in which he is held.

Herne's "Hearts of Oak" will be at Music hall on Tuesday evening, Nov. 13th.

Thirty-seven arrivals were registered at the custom house this month up to the close of business on the 5th.

A freight train consisting of forty-one cars drawn by two engines passed over Portsmouth bridge bound eastward at two o'clock Monday afternoon.

A coon weighing 18 1-4 lbs. dressed, killed in York, was displayed for sale in a store in this city on Monday.

A boy named Clark, aged about six years, fell overboard off a wharf near the Spring market Sunday forenoon, and came very near drowning, being saved only by a man sliding down a pile and reaching him a foot.

Four flat cars went over the Portsmouth & Dover railroad on Monday loaded with steel rails, which are to be laid first from the Dover point bridge toward Dover.

Seven sailing vessels of large size, and the iron steamer Williamsport, were lying at the Concord railroad wharf at one time on Monday; one two-masted schooner was loading with apples, with a load of which a three-masted schooner sailed on Saturday. There were three schooners at the Eastern railroad wharf, two of them having just discharged cargoes of coal, one cargo having gone to Jones' brewery and one over the Conway railroad. The Adeliza was discharging coal at E. F. Sise & Co.'s lower wharf, near the Spring market, and two other vessels were putting out coal at wharves between the Adeliza and the Appledore wharf. All these, with the gang of men working on the ship Guard, and two New York tugs taking in coal at Appledore wharf, presented a very busy scene along that part of the river front.

There were eight vessels at the draw of Portsmouth bridge on Monday, including the brickers Lewis R. French and Ocean Eagle, bound to Boston with cargoes, and the Emily A. Staples, Hattie Lewis, Satellite and G. W. Raitt, all light and bound up the river, having sailed from this port on Saturday last, with full cargoes for Boston, and arrived back on Monday.

A shanty ten by twelve feet on the ground is being put up by the Eastern railroad in the freight yard near the station in this city, for the accommodation of the night shifting gang, who have long felt its need.

The schooner Grace Choate went to the Shoals on Monday, to bring in from Lunging island Mr. Elvin Newton's fishing gang and gear. The season has been only moderately successful, owing to scarcity of bait and continued bad weather.

Election returns from the several states will be received at Garrity's, No. 23 Daniel street, every half-hour this evening.

There was a most magnificent sunrise Monday morning, the whole eastern sky being of the richest crimson imaginable. This item was handed in; contrary to our usual custom, we did not rise in time to see the sun rise Monday.

The fishing schooner Albert Woodbury, Capt. Levi Downs, has hauled up for the present; she will refit, and when the proper time comes will go to the eastward after frozen herring, for bait. Capt. Downs has been unwell for some weeks, but is now improving.

A gang of twelve men were engaged on Monday in laying an iron pipe from the tank of the eastern railroad, near Vaughan street, across the Noble's island bridge to the wood-preserving works on the island, for the purpose of furnishing the water thereto.

The schooner Casco Lodge, Dyer master, of Portland, Me., reports having had a rather hard time. On the night of Oct. 31st she was twice run into by unknown schooners, and had her flyrail smashed, mainsail torn and other slight damage done. Next morning, Nov. 1st, while at anchor off Pollock Rip, she was run into by the schooner James B. Pace, from Richmond, Va., for this port, and had her bobstay and martingale-gear carried away, jibboom sprung, jib badly chafed, anchor-stock broken, and other minor damage done. The Casco Lodge arrived at Gloucester, Mass., and the James B. Pace at this port, on the 2d inst.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

"THE

ELLIS' HORSE REMEDIES

ARE THE BEST."

Cordially Endorsed by the "Spirit of the Times," and Leading Veterinary Surgeons.

ELLIS'S SPAVIN CURE.—Of course, it is generally regarded as impossible to completely cure a bone spavin and remove the enlargement. But *it is positively astonishing* what curative properties exist in the mixture known as Ellis's Spavin Cure, and those who have given it a fair trial say *it is the best remedy* that they ever applied. In many cases it has not only removed the lameness, but also the lump, and so remove "manship as far superior to the ordinary blisters" prescribed by the faculty. We also learn that "Ellis's condition, colic, worm, and heave powders are the best of their kind, and just what every horse owner should have at hand ready for use. *May 28th, 1883.*"

Sold by all druggists and harness men.

Our $5 and $10 assortment of Ellis's horse remedies should be in every stable.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and with scarcely more than strapping, for which, according to statistics, not less than 30,000 died during the past year. No cure is safe who has a rupture and depends upon a truss; both are a physical and mental ear; bring on kidney, bladder and other complaints, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all important transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offlocred by men from Portsmouth or his neighborhood, and is just the paper for residents desiring to be posted on all that takes place at home, while those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old town by the sea," it is the best means of keeping informed of what transpires at their native city, and.

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach those in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who desire such relief should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decay of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixty edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Missouri's Pet Murderer.

A despatch of Nov. 1st, from Kansas, Mo., says: Frank James, the notorious outlaw under arrest at Gallatin, was given the freedom of the town, and with his wife and child yesterday walked about, visiting stores at will. Mr. Coember, a United States juror, came to Kansas City and laid the matter before United States Marshal McGee, to see if the government did not have some hold on the ex-train robber whereby he could be locked up. It transpires that a United States warrant is out for James' arrest from Alabama, for participating in the Shoats robbery, but that it cannot be acted upon until the state of Missouri is through with the prisoner. Great indignation is felt by the citizens of Gallatin over the fact of Frank James being allowed his liberty. In the court, while James was walking about the streets, was a negro with a ball and chain attached to his leg, the negro being only charged with stealing a ham for his family.

Many London ladies crop their hair short and wear an almost entire wig, and consequently catch cold more frequently than their American cousins, but of course they all use Dr. Bull's Cough Syrup.

A highwayman stopped the Milton stage in Sonora, Nov. 3d, and took the Walls, Fargo & Co. express bag, containing $4,700.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

Gunner John Russell has been detached from the Powhatan, and placed on waiting orders.

"Dr. Benson's Celery and Chamomile Pills for the cure of Neuralgia are a success."—Dr. G. P. Holman, Christianburg, Va. 50 cts. at Druggists.

Lieut. James M. Grimes, attached to the Powhatan, has been granted six months sick leave.

Mr. B. Johnson, No. 1, Faneuil Hall Market, Boston, says: "Ellis's Spavin Cure is all you claim for it. It cured my horse of spavin." It always does that, reader.

Commander J. C. Watson has been ordered as equipment officer at the New York navy yard.

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

Lieut. Charles P. Perkins has been ordered to the school-ship St. Marys.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

Ensign V. S. Nelson has been ordered to the Colorado, and Assistant Engineer I. S. K. Deeves to duty in the bureau of steam engineering at Washington.

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 37 terrible scrofulous sores.

Medical Director A. L. Gihon and Medical Inspector Adrian Hudson have been ordered to represent the navy at the meeting of the American Public Health Association, at Detroit, Mich., on November 13th.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew F. Preston, Druggist.

Benjamin Sadler, a Boothbay, Me., fishing skipper, claims to have lost $1,050, the proceeds of a sale of a cargo of fish. This money was in a bag and was lost overboard, according to his report. The owners of the cargo doubt his story.

Vox Populi.

The voice of an intelligent people declares, that *Sozodont* is an article of genuine merit, and their patronage confirms what their voice proclaims. There is no gainsaying this pronunciamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity, and assuredly none exerts such a beneficent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

How to Propose.

A bright-eyed girl, who is a skillful angler for hearts, thinks a young man to be successful should propose after a very short acquaintance—take the girl by storm as it were, while she is pleased with a new beau and before she has time to tire of him; then follow the proposal up with a vigorous courtship, lots of flowers and bonbons, drives, theaters, parties, etc., and if she consent insist upon a short engagement by all means.

Another well-known blonde beauty, who has created sad havoc and has had much experience in this line, says the only successful way to propose is when least expected. Allow no time for consideration and then insist that the acceptance must be "now or never." She feels sure that is the only way that she will ever be captured; but she thinks very few men are bold enough to try that game.

A handsome young widow, well known in society circles, who is not so rich as she was, says the only successful way to win her is to offer her a fine house, horses and carriages, with plenty of money to keep them up.

A dark-eyed girl, with a tangle of soft brown hair shading her brow, says: "If a fellow is desperately in love with a girl and is persistent in his efforts to win her, he is sure to gain his suit. Widowers understand this point, and know exactly how to make love and propose, and, you will observe, they are always successful." She knows one case where a widower went in and hung up his hat, announcing his intention of remaining until he was accepted and the girl had to marry him to get rid of him. A widower beau makes her nervous about the head.

One sweet, dreamy-eyed girl, who is just on the threshold of society, says love-making must be so sweet that she would wish her lover to be a long time making the approaches, and she would not shorten the delights of an engagement; if they tire of each other it will be better before than after marriage. She is not particular as to his style, but he must be tall and handsome and sing and dance well, and, above all, he must know how to make love. This girl's name must be kept a secret.

One society belle who has spent several seasons in the "field" says she will give a man all the time he wants to make up his mind to "begin the siege," but when he does begin he must go straight through without showing the "white feather." She detests "skirmishing;" it only gets one wrought up to the "fray;" nothing is accomplished and it requires all one's nervous force to endure a "campaign" of this nature, to say nothing of the mortification of several "defeats."

A handsome, youthful-looking matron, the mother of two charming daughters, sufficiently well endowed with this world's goods, gives it as her opinion that the young man should, by all means, make his proposition first to the mother, produce his pedigree and bank account for inspection; then, if his personal appearance and good common sense are also approved, he may be turned over to the young lady. His attentions having been declared, the love-making may begin.

The daughter says: "Mamma is all wrong. I would not marry a man who went around in that cold-blooded manner. I do not want anybody to examine my bank account before they make up their minds to marry me, and, as to pedigree, our common grandfather, I am told, was a monkey. I am tired of this sort of business, and if he does not propose to me because he is afraid of mamma, I will propose to him. Why shouldn't girls have that privilege?"

At the Dome of the Capitol.

An unknown man, evidently a stranger and a very daring one, performed a feat one noon recently at Washington which chilled the blood of every one who witnessed it. He ascended to the dome of the Capitol, and, producing a pair of opera-glasses, mounted the railing surrounding the thirty-eight-foot platform hundreds of feet above the ground, and walked deliberately around the narrow footing viewing the city and surrounding country through his glasses. Several persons in the parks below, who witnessed the man spider outlined against the sky like a speck almost in the clouds, rushed in and told Capt. Allbaugh, of the Capitol police force, and he immediately dispatched an officer to the dome with instructions to bring the fool-hardy man down. The officer upon reaching the top, commanded the stranger to get down. The command was obeyed by the aerialist, who remarked in a cool manner: "Why, that's nothing; I am used to that sort of business." He refused to give his name, and descended in company with the officer. The dome top is nearly 400 feet from the ground, and to even look down from behind the railings would make the average mortal quite dizzy.—*Louisville Courier-Journal.*

The Oldest Woman in the World.

At Auberine-en-Royans, a village in the Dauphine, situated between Valence and Grenoble, may be seen an old woman living in a hut in a narrow street, who has reached the extraordinary age of 123 years. She has no infirmity except a slight deafness, being in full possession of her mental faculties.

According to her marriage certificate, she completed in January last her one hundredth year since marriage. She was a "cantiniere" under the first empire, and had two sons killed at the battles of Friedland and in Spain. She is supported entirely on the alms given her by visitors, who go from great distances to see her as an object of curiosity, and her neighbors help her to do her household work.

She lives almost exclusively on soup made with bread, to which is added a little wine, and sometimes a little brandy. Dr. Bonne, who practices in the neighborhood, states that she is never ill. Her skin is like parchment, but she is comparatively upright, and is of scrupulously clean habits.—*London Lancet.*

A social philosopher, in one of the magazines, bemoans American extravagance in dress, and insists that if it continues, "the result will be bankruptcy, save for the tailor and the milliner." A survival of the fittest, as one may say.

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. B. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Die Lewis, Dr. B. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1882.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, T. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Chararon, President	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Patrecz, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

Yesterday's Dreadful Accident.

There were a good many accidents yesterday. There will be some to-day, and probably more or less to-morrow. Children are tumbling down stairs. Women are lighting fires with kerosene. Boys are playing with pistols. Big men are spraining their ankles as they try to catch the moving train. Babies will get their little thumbs caught in the doors. Bruised shins, dislocated joints and mashed fingers constantly remind us that accidents may take place at any moment. People who have Perry Davis's Pain Killer can smile at most of the accidents that befall them. Those who have not tried it are reminded that they do not have to run further than the nearest drug store to buy it.

Dewey, the alleged forger, arrived in Boston Friday.

Dr. E. E. Fuller, Keokuk, Iowa, says: I have used Brown's Iron Bitters in my own family with excellent results.

The grand total of non-taxable property in Boston is $78,630,400.

Avoid the harsh, irritating, griping compounds so often sold as purging medicines, and correct the irregularities of the bowels by the use of Ayer's Cathartic Pills, which are mild and gentle, yet thorough and searching, in their action.

There was a $100,000 fire Friday at Willoughby, Ohio.

The Greatest Care

should be taken in preparing medicine for the sick. It has been taken in the article known as "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons, and for sale by all leading Druggists and Grocers. Physicians can safely prescribe it.

During a fire in Roubaix, France, Nov. 5th, ten persons were killed and twenty wounded by an explosion of benzine.

Covetousness in Disguise.

The wonderful success of James Pyle's Pearline has given rise to a flood of imitations with an "one" to their names, evidently to have them sound like Pearline. Enterprises of this sort are quite liable to be more selfish then beneficial.

John Teemer, the "rising" young oarsman, has challenged Edward Hanlan for a three-mile race with one turn for $5000 a side, and has deposited $500 as a forfeit.

A Great Traveler.

THE ELECTIONS.

MASSACHUSETTS.

Decency Triumphant.

Butler Repudiated.

The "Supreme Executive Magistrate" Voted to Private Life.

BOSTON, Nov. 6th, 8:00 P. M.

Butler has 6000 majority in Boston, and Robinson carries the state by 12,000 or more. Butler loses heavily in Worcester, Middlesex, Plymouth and Suffolk counties. Democrats knifed him all over the state, and many republican stay-at-homes of last year came out for Robinson.

LOWELL, MASS.

Ward six, Butler's home, gives Butler 816, Robinson 719, a Butler loss of 97.

LOWELL, 11:00 P. M.

The total vote of Lowell is, Butler 5465, Robinson 4375; Butler's plurality 436 less than last year.

BOSTON, 9:00 P. M.

One hundred and thirty-five towns give Butler 109,535, Robinson 108,185; Butler's majority 1353.

BOSTON, 10:00 P. M.

Returns from 184 towns and cities, including every city except Lawrence, give Butler 122,103, Robinson 123,017—a majority of 914, and 160 towns yet to hear from.

BOSTON, 10:20 P. M.

One hundred and ninety-seven towns and cities, including Boston complete, give Butler 115,779, Robinson 117,399. Same towns last year gave Butler 103,127, Bishop 87,591. At this ratio the total vote will be, Butler 156,000, Robinson 160,500.

BOSTON, 11:00 P. M.

Two hundred towns and cities, including Boston, give Butler 119,757, Robinson 124,704.

BOSTON, 11:30 P. M.

Two hundred and sixty-seven towns and cities, including Boston, give Butler 133,758, Robinson 140,174; Robinson's majority 6416. The returns to come in will increase Robinson's majority.

BOSTON, midnight.

Connecticut has gone republican.

In New York, the republicans elect their candidate for secretary of state by 2000 majority. New York city and Brooklyn both went democratic.

Best Baking Powder.

Interesting Tests Made by the Government Chemist.

Dr. Edward G. Love, the present Analytical Chemist for the government, has recently made some interesting experiments as to the comparative value of baking powders. Dr. Love's tests were made to determine what brands are the most economical to use, and as their capacity lies in their leavening power, tests were directed solely to ascertain the available gas of each powder. Dr. Love's report gives the following:

Name of the Baking Powders.	Strength Cubic Inches Gas per each ounce of Powder.
"Royal" (cream tartar powder)	127.4
"Paragon" (alum powder)	123.2*
"Rumford's" (phosphate) fresh	122.5*
"Rumford's" (phosphate) old	32.7*
"Hanford's None Such," fresh	123.3
"Hanford's None Such," old	34.25
"Redhead's"	117.0

*In his report, the government chemist says:

"I regard all alum powders as very unwholesome. Phosphate and Tartaric Acid powders liberate their gas too freely in process of baking, or under varying climatic changes suffer deterioration."

Dr. H. A. Mott, the former government chemist, after a careful and elaborate examination of the various baking powders of commerce, reported to the government in favor of the Royal brand.

Dr. Potter, of New York, laments "the decay of enthusiasm." He should be in this city on the evening of November 5th, and hear the small boys warble on tin horns.

The mackerel catching season for this year is practically over, more than 250 of the vessels engaged in the fishery having already hauled up. The total catch to November 1st, according to a statement prepared by the secretary of the Boston Fish Bureau, is 191,056 barrels, against 322,507 barrels for the same period in 1882; 319,192 barrels in 1881; and 239,673 barrels in 1880. Most of the mackerel recently taken run very small, and will inspect No. 4; there is a scarcity of No. 3s in the market, but No. 1s and No. 2s are in fair supply.

A Bad Brunette.

Nellie C. Bailey, charged with the murder of Clement Bothemly on the 7th ult., has been before the United States circuit court at Wichita, Kansas. The prisoner, who is twenty-one years old, is a handsome brunette, well educated, and had moved in the best society of New York city and New Jersey. She met Bothemly, a rich Englishman and a member of the British association at St. Louis, and arranged with him to go to Texas and start a sheep ranch. Before they started she got a deed for his land in Kansas, valued at $20,000, and while passing through the Indian territory, en route to Texas, she shot Bothemly through the head. She then took possession of his trunk, containing diamonds and jewelry worth $7,000, together with his watch, consisting of sheep and stock worth $10,000. She buried the body at Skeleton ranch and started south, but was arrested about nine miles from where the murder was committed.

FURNITURE. The immense stock of new styles on hand in Chamber, Parlor and Sitting Room Furniture at Paine's, 48 Canal St., Boston, should be seen by all our towns-people when they visit that city. We heartily recommend this as a reliable place to trade.

—It is reported from England that Lord Coleridge's speeches while here excited surprise at home. So they did in this country.

—Doctors are generous men. Who ever heard of a doctor rushing out to base away boys who were taking fruit on his trees?

Butlerism Repudiated.

The hot political campaign in Massachusetts ended on Tuesday, and the result is to retire to private life a man who, during the one year he has occupied the gubernatorial chair of that state, has shown himself to be the most reckless and unscrupulous demagogue that has ever held such a high office in New England during the present generation at least, if ever.

Butler's overthrow this year is not distinctly a democratic defeat, any more than was his election last year a democratic victory, when the republicans elected their usual working majority of the legislature and executive council. During his canvass for re-election he has not urged the choice of a democratic legislature and a democratic council, but of a legislature and council that would do the bidding of the "Supreme Executive Magistrate," Benjamin F. Butler. His appeals have not been made to democratic principles, but to the ignorance and prejudice of the most ignorant and prejudiced classes; and in his attacks upon his opponents, truth and common decency have been alike ignored. No such canvass was ever before conducted by a New England governor, and it is to be hoped none such ever will be again; and the intelligent voters of Massachusetts have done well to prevent him from occupying another year the position he has so prostituted and disgraced.

"Governor Butler must go."

The democratic state committee of Massachusetts last week issued an address, in which they said "they have no doubt of the triumphant re-election of Gov. Butler by a largely-increased majority," and "have, also, hopes of the election of our state ticket." Seems they were a little out.

The Manchester *Union* of Sept. 20th said: "They do say the man has been nominated that Butler is to defeat this fall. The people of Massachusetts are to be congratulated that he has been found, after much tribulation." It appears that "they" were mistaken. In the same issue the *Union* remarked: "Mr. Robinson of Massachusetts will have an opportunity to go into company with Mr. Bishop within a few weeks. The republican party will have no more use for his services after Butler gets through with him." But the people of Massachusetts will have use for his services after they get rid of Butler.

Notice to Mariners.

The wreck of the schooner Maud Webster, before reported sunk off Chatham, lies about east-southeast distant five miles from Chatham lights, mastheads three feet out of water; two topmasts, with ball on each painted yellow. She is a dangerous obstruction to navigation, and navigators are warned to give her a wide berth.

MEDICAL.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, clears and invigorates the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,

(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

Is there anything in any of the numerous advertisements of the Royal Baking Powder to show that the Royal does not use Ammonia and Tartaric Acid as cheap substitutes for Cream of Tartar? Or is there any charge, or the slightest insinuation in those advertisements, that Cleveland's Superior Baking Powder contains anything but the purest Grape Cream of Tartar and Bicarbonate of Soda, with a small portion of flour as a preservative? Ammonia and Tartaric Acid produce a cheap leavening gas, which is not to be compared, in the practical test of baking, with the more desirable Carbonic Acid gas generated by the exclusive use of the expensive Cream of Tartar.

Use Cleveland's Superior Baking Powder, and judge for yourself of its superiority.

POLICE COURT--BATCHELDER, J.

TUESDAY, Nov. 6th.

Nellie Harvey, alias Nellie Parks, recently discharged from Brentwood, where she had served a term for drunkenness, was ordered back again for getting drunk without having the regulation amount of money to pay for the entertainment.

A fisherman was also assessed $9.90 for drunkenness.

GOSSIPS SAY

That the hat stores will do a good business to-day (Wednesday) over the results of the elections yesterday.

That the local Butler republicans are wearing a distressed look this morning.

That Parker Chandler's "dudes" didn't scare worth a cent.

That the "seed cake" regiment has been heard from.

That General Benjamin Franklin Butler, "Supreme Executive Magistrate," is "ordered to report at Lowell" Jan. 4th, 1884.

That the "Uncle John Robinson" racket proved a boomerang.

That the *Globe's* telephone ear is "busted."

That Butler's hide, though a tough one, was most thoroughly "tanned" on Tuesday by Geo. D. Robinson.

That parties in Hampton who have pastured a lot of cattle on Gerrish's island during the past season are exceedingly bothered by a young steer that has allowed himself to be caught several times during the past fortnight, but escapes at pleasure, and was roaming over the island at will on Monday last.

SUPREME COURT--ALLEN J.

TUESDAY, Nov. 6th.

Willey vs. City of Portsmouth was tried by the court. Mr. Willey in 1880 purchased a piece of marsh land, formerly a part of the Jacob S. Pickering farm on Peverly Hill road, and adjoining certain land, the gravel and sand upon which the late John Elwyn in 1869 conveyed to the city, with right to remove it from time to time. In doing this, Willey complained that the city had interfered with his use of a right of way from a portion of his marsh to the Lafayette road, over which he and those who had occupied before him passed, to haul hay from the salt marsh. There was no right of way mentioned in the title deeds, and the plff. shew by his own testimony and that of others who had occupied the marsh that there had been a long-existing way over the land, now interupted by the removal of gravel. The defendant denied that there was any right of way of the sort exercised by any owner of the land, and insisted that in the deeds of the land there was no mention of said right, and that Elwyn as appeared by his warrantee deed could have had no knowledge of such right; but that if used, it was without his knowledge, and was not such a right as could be violated in this instance. Willey contended that from a portion of his marsh there could be no way off except over this land. The judge went out and examined the place. Frink for Willey; Emery and Hackett for deft.

Case Charles E. Moody and others vs. Wm. W. Downs, and Claude M. Gignoux and John W. Caswell as trustees, was next heard. The question is upon the validity of an assignment of property made by W. W. Downs for the benefit of his creditors, whether it was of partnership or private property, etc. Emery for plffs.; Frink & Batchelder, and Page, for trustees.

The Eastern railroad will have an excursion to Boston on Saturday, Nov. 10th, tickets being good to go on that day by any regular train *except* that at 7:15 A. M., and to return by any train that day, Sunday or Monday. A special excursion train will leave this city at 7:30 A. M.

Next Wednesday evening, the 14th inst., the benefit complimentary to Miss Fannie Hoyt, tendered by Osgood Lodge of Odd Fellows, will take place in Music hall. Besides the talented young violinist herself, the Bernhard Listemann Concert Co. will appear, and other eminent talent has been engaged. Miss Hoyt has added much to the interest of Osgood Lodge sociables for several winters past, and the members propose to make her benefit a notable success.

Mr. James W. Lord, formerly for many years the cutter at Mr. Wm. P. Walker's fashionable clothing establishment, but for the past ten years a resident of Westmoreland Depot village, has been spending a few days in this city. Mr. Lord is bound for Detroit, Michigan, where he will spend the winter, and settle permanently if he finds things to suit him. There are few of his former companions who have changed so little in appearance as he during the last decade.

Herne's "Hearts of Oak" company, which will be at Music hall on Tuesday evening next, carries a full car load of entirely new scenery, showing Marblehead neck at sunset, with the surf and the lighthouse in the distance, the wreck of the "Nantucket," firing the life-line, etc.

The Arthur Rehan Comedy Co. had a very fair audience Tuesday evening, when "7—20—8" gave as good satisfaction as on the evening previous. The comedy is not only chock full of fun, but the fun is perfectly clean.

The regular monthly meeting of the Portsmouth Cavalry was postponed from Tuesday to Friday, the 9th inst.

The schooner Orville Horwitz, now discharging coal for J. Albert Walker, brought in 1051 tons, though she only registers 516 tons.

It is reported that the Portsmouth & Dover railroad bridge between Noble's island and Freeman's point, is to be filled under at both ends from the shore to low water mark. There is some argument as to what effect this will have upon the tides there, some persons thinking that a second north millpond will be produced.

A crow-bar, manufactured from an old Queen Anne musket, was brought up from near Fort Constitution on Tuesday by a Newcastle man, who had found it in cleaning a well and excavating two feet below the bottom. When Mr. George A. Trafton, the blacksmith on Market street, to whom it was brought to be repaired, informed the man who brought it what it was, he said: "Why, I was accused of stealing that crowbar fifty years ago."

The old ship Sabine, which left this port on Saturday, the 3d inst., in tow of tugs Knickerbocker and Clara Clarita, arrived at her destination, Rockland, Me., on the 4th.

Thomas Pearl, of Dover Point, recently found a large sum of money in his barn. A few days since Tom went to Boston and lodged $8,000 in a bank, and now a good many people think that the sum he found must have been enormously large. Tom don't care what anybody thinks. It is thought the money was originally left in Pearl's barn by some freebooter.—*Dover Democrat.*

YORK CORNER, ME., Nov. 5th.

"Our Minister" used to tell about "the noise of the old cider mill, grinding out liquid hell and damnation, as it were." The old cider mill has had a rushing run of business, (and of cider) this season, working almost night and day in all fair weather; but no noise, as a liberal application of grease prevents it, so that if Elder Short were here now he would have to see, to believe.

We notice in town this week Mr. Goodkouskey, the gentleman who stopped at Mr. Theodore Weare's on the night of the robbery. It is rumored that he intends prosecuting Weare for damages in detaining him and locking him in his room for several hours, charging him with the robbery. The officers, Plaisted and Goodwin, did not make any arrest nor search of the person of Mr. Goodkouskey. Mr. Weare made the search by the request of Mr. Goodkouskey, who showed every appearance of an innocent man. Mr. Weare and Mr. Goodkouskey both held the very natural opinion that one had robbed the other, as they were both entire strangers to each other. Plaisted told Weare in the outset, that it might be the work of a third party; and present appearances indicate that to be the fact.

Mr. Edward E. Banks of Groveland, Mass., has been visiting his friends in York, and stopping at Mr. W. H. Manson's for five weeks; and in that time has shot one hundred and two partridges, and six woodcock. Let's hear from some of the Portsmouth gunners who can beat this.

A. Mr. *Rand, of Portsmouth, who taught in Dist. 13 a few years ago, has been engaged for the winter term in the same district. Mr. Rand gave most excellent satisfaction then, and we presume he has lost none of his vigor.

School in Scituate district, No. 12, commenced one week ago, Miss M. Esther Mitchell teacher, which is sufficient evidence of a successful term. Mr. Edward E. E. Mitchell commences at Ground Root Hill West this week. This is Eddie's first school, but there is no danger; he is equal to the contingency.

Mr. Titcomb, the victim of the rotten bridge, is gaining slowly, but is yet unable to do any labor, while the bridge itself is convalescent, under the attendance of Mr. Rufus Simpson and his assistants. The bridge expects to be out about, and able to perform its usual labor, in a few weeks. We hope it may enjoy better existence than it has for the past twenty years. P.

*Mr. J. Sullivan Rand we believe is the gentleman referred to—a teacher of experience and decided merit—*Ed.*

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Country Gentleman

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of Contents, in extent and ability of Correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,

Horticulture & Fruit-Growing,

Live Stock and Dairying;

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Implements and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

Although the COUNTRY GENTLEMAN has been GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, the terms continue as heretofore, when paid strictly in advance: ONE COPY, one year, **$2.50**; FOUR COPIES, **$10**, and *one additional copy for the agent free to the sender of the Club*; TEN COPIES, **$20**, *and an additional copy for the year free to the sender of the Club.*

☞ *All NEW Subscribers for 1884, paying in advance now,* WILL RECEIVE THE PAPER WEEKLY, *for a receipt of remittance to January 1st, 1884,* WITHOUT CHARGE.

MEDICAL.

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS

IN 1870 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one-and-a-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1880, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. Skin over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three pounds to over two hundred and forty-six pounds, and the good work is still going on. I feel myself a new man, and all through the CUTICURA REMEDIES. JAMES E. RICHARDSON, Custom House, New Orleans.

Sworn to before United States Commissioner. J. D. CRAWFORD.

TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to cleanse the Skin of Disfiguring and Disheartening Tortures, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicine to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

Price of CUTICURA, small boxes, 50c.; large boxes, $1. CUTICURA RESOLVENT, $1 per bottle. CUTICURA SOAP, 35c. CUTICURA SHAVING SOAP, 15c. Sold by all druggists. POTTER DRUG AND CHEMICAL CO., Boston.

The aesthetic movement in England has entirely died out, because—well because people think there is more good common sense in taking a bottle of Dr. Bull's Cough Syrup than in carrying a lily.

A young lady named Cookson attempted to drown herself at Vassalboro, Me., Nov. 4th, but was rescued.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

Dick Miller, who was shot by Perry at Portsmouth, R. I., Nov. 4th, was mortally wounded.

Mr. B. Johnson, No. 1, Faneuil Hall Market, Boston, says: "Ellis's Spavin Cure is all you claim for it. It cured my horse of spavin." It always does that, reader.

Springfield, Mo., had a disastrous cyclone Nov. 5th; five persons were killed, thirty or more wounded, and 100 houses destroyed.

Personal.

A young lady of seventeen summers, highly educated, refined, and of prepossessing appearance, desires to form the acquaintance of some nice young man whom she would advise, if troubled with dyspepsia, to use that great blood purifier, Sulphur Bitters.

A gang of boy thieves, from nine to twelve years old, have been arrested in Waterbury, Vt.

Ayer's Cherry Pectoral wonderfully increases the power and flexibility of the voice, enabling public speakers to speak clearly and without fatigue. If people who are troubled with colds would take Ayer's Cherry Pectoral before going to church or places of entertainment, they would avoid coughing, greatly to the comfort of both hearers and speakers.

At Deadwood, Dakota, Nov. 5th, Chas. Wilson shot and killed Kitty Clyde, an actress at the Gem theatre, and shot himself through the head. He will probably die. Jealousy was the cause.

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

The deposits in the Keene Five Cents savings bank increased $100,000 the past year.

Vox Populi.

The voice of an intelligent people declares, that *Sozodent* is an article of genuine merit, and their patronage confirms what their voice proclaims. There is no gainsaying this pronunciamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity, and assuredly none exerts such a beneficent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

Immense Amount of Gratuitous Advertising.

The Postmaster-General of the United States seems to be greatly persuaded by the friends of The Louisiana State Lottery Company to enter upon a scenting crusade against this widely and favorably known, beneficial, as well as benevolent, institution. The New York *World* of Sunday, Sept. 23d, alludes to the benefits flowing to the management, and intimates that Col. Gresham, the Postmaster-General, seems to be widely spreading the information that no one can assail the integrity of The Louisiana State Lottery, and the only thing to do is to communicate prior to Nov. 14th (next drawing day, the 16th) with M. A. Dauphin, New Orleans, La., who will give all information.

Advice to Mothers.

Only a Rose.

"Has it occurred to you?" said Mr. Sabson, addressing his wife, "that we have been married twelve years today?"

"It did not occur to me," she replied, "until you spoke, but I suppose it is true. The time seems very long though, and when I look back it appears a wonder that I have lived through it all."

"Why, my dear," rejoined Mr. Sabson, turning with an air of annoyance, "you do not regret that we were married do you?"

"Oh, no, for it is a woman's province to get married, and the sooner the duty is performed, the sooner she has begun the life for which she was designed."

"I suppose then that love did not enter very largely into the arrangement?"

"It did at first."

"But the woman always discovers her mistake, I suppose?"

"Yes, more or less."

"I am sorry to hear you speak so. All along I have cherished the idea that you married me out of regard."

"And have given me very little upon which to base a hope that your marriage was actuated by the same high motive."

"Oh, now here. You are just trying to pick a quarrel with me. What have I done?"

"That's what I want to know. What *have* you done?"

"Confount it, haven't I made you a living?"

"A sort of one, but I haven't lived any better since we were married."

"Haven't I helped you in all your troubles?"

"Not all."

"Didn't I get up the other night and hold a teaspoonful of paregoric over the lamp chimney."

"Just once."

"Well, I'll declare. A man's kindness is never appreciated. Give me a spoon and I'll hold it over the lamp till it melts."

"No use to talk that way. You know you never think of me."

"Didn't I bring you a whole armful of goods last night, and didn't you go out the other day and buy a whole cart load of stuff. Talk about not thinking of you," and the annoyed gentleman arose and left the house. He was troubled as he walked along the street, and when he turned towards home, he felt heavy and cheerless. "If I could only take her something," he mused. "There was a time when her eyes brightened at my approach. I did not have to take her anything then. I'll produce one of those early visits if I can."

He plucked a rose that hung over a fence. A very common rose, but he carried it tenderly.

When he entered the room his wife sat rocking one of the children. He spoke softly and she looked up. He handed her the rose and the light, once so charming, came back into her eyes. She laid the child on the bed and blushingly approached her husband.

"You do think of me, don't you?" she said.

"I always think of you."

"Let me put the flower in a vase."

The yard was full of beautiful flowers, and she could have gathered a basketful, but in all the grand floral array there was not one so full of sentiment as this common rose that grew in a wild place and hung over the fence. It is the little remembrance that a woman prizes and a true woman's soul is not made of love for fine dresses and gorgeous display.—*Arkansaw Traveler.*

American Manners in Traveling.

An English snob, named Robinson, writing about his visit over here, describes certain bad habits as characterizing the traveling Americans generally, leading to the idea that at least nine out of ten Americans when traveling grab their food, and gorge and snort in ways too hideously unpleasant for repetition. This is teetotally denied by Mr. Richard A. Proctor, the English traveler and lecturer, than whom few persons have had such extensive opportunities of learning the manners of different peoples, especially in traveling. He answers Mr. Robinson as follows:

I believe the truth to be that the American system leads to a diminution of otherwise prevalent bad habits—for ninety-nine hundredths of the so-called lower class in America will *not suffer* any inferiority to be shown in their habits in the presence of those whom they regard as no otherwise better than in having more money to spend. But be this as it may, a fair, unbiased comparison of the manners of the traveling community, class for class, or comparing the whole number of travelers, would show that—in some way or other—a marvelous superiority has arisen on the other side of the Atlantic. Such offenses as the stolid, stupid staring so common in England, even among well-to-do people, rudeness to women or children, carelessness as to the comfort of the old and weak, etc., are scarcely ever seen on the other side of the Atlantic. If I were an American, with what "pride in my port, defiance in my eye," should I be tempted to boast that a young, inexperienced, and pretty girl, poor or rich, in her teens, can travel across the length and breadth of the United States alone and unprotected, not only with perfect safety and comfort, but with the certainty that nine-tenths of the men—of all classes—with whom her journey brings her into contact esteem it equally a duty and pleasure to assist her in every possible way. How contemptuously I might be tempted to remind the Briton that—for reasons too well known—the most courteous and well-meant proffer of assistance to such a traveler in England is apt to be looked on with suspicion. On the continent, and especially in France, it is even worse.

The Cornell College faculty is discussing the subject of making gymnastic exercises compulsory.

Captain Chas. Allen, of Worcester (Mass.) Fire Department, says: "After the doctor set the broken bones, I used Pain Killer as a liniment, and it cured me in a short time."

Captain D. S. Goodell, Jr., of Searsport, Maine, says: "For bruises, sprains and cuts, I know of no medicine that is more effective."

David Pierce, Utica, N. Y., says: "For cuts, bruises, burns and sprains, it has never failed to effect a cure."

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well,** which is answered in three words—Take Hop Bitters!

AYER'S Sarsaparilla

Is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalizing power. It is the best known remedy for Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as Rheumatism, Nouralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.

I have been a severe sufferer from Catarrh for 15 years, with distressing pain over my eyes, gradually the disease worked down upon my lungs. About a year and a half ago I began using Ely's Cream Balm, with most gratifying results, and am to-day apparently *cured*. Z. C. WARREN, Rutland, Vt.

At New Haven, Conn., Oct. 30th, the Catholic church of the Sacred Heart was profusely decorated, and filled with people, while the adjacent streets were filled with carriages which had brought the guests to the expected marriage of Eugene Lynch and Mary Mulcahey. The arrangements for the wedding were on the most elaborate scale, the prospective bride's parents being very well-to-do. The crowd waited vainly for an hour beyond the appointed time for the bridal party, and were finally dispersed by a report that the bridegroom had absconded. He arose at six o'clock that morning and left the city. He had previously borne an excellent reputation. Subsequently it was discovered that Lynch was a fraud, and Miss Mulcahey now says she is glad his true character was revealed to her before she became his wife.

NEW BLOOMFIELD, Miss., Jan. 2, 1880.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

Yesterday's Dreadful Accident.

[illegible] man will have to [illegible] before it [illegible] anything but the most [illegible] testimonials. If a committee of our most learned scientific men had [illegible] to compound and recommend a powerful vampire drink, combining the qualities of nutrition and stimulation, with a small amount of alcohol, should act as a preservative to the fluid itself, an aid to digestion, and a mild and innocuous stimulant to the whole system, it is probably upon a light bitter beer, brewed from good malt and hops, that the [illegible] their approval would be placed. Formed tonics, from wholesome and indigenous materials, easily concocted, and a small cost, tonic and nutritious, harmless except by almost impossible quantity, it is just such an ideal drink as we should pick for it we did not already possess it. All questions of adulterated, fortified, or dishonestly compounded malt liquor, and all questions of injury by excess, in this as in every other aliment, are beside the present issue.

For sale cheap—a large edition of the "Jewsbury Bible," as revised by the author and illustrated by the *Police Gazette* for general circulation; a rare chance for a bargain, as the author must shortly—very much against his will—go into other business. Also, for sale or hire, the whip with which the Supreme Executive Magistrate proposed to chastise into obedience the balky republican legislature of Massachusetts.

The Postmaster-General of the United States seems to have been persuaded by the friends of The Louisiana State Lottery Company to enter upon a seeming crusade against this widely and favorably known beneficial, as well as benevolent, institution. The New York *World* of Sunday, Sept. 23d, alludes to the benefits flowing to the management, and intimates that Col. Gresham, the Postmaster-General, seems to be widely spreading the information that no one can doubt the integrity of The Louisiana State Lottery, and the only thing to do is to communicate prior to Nov. 7th (next drawing day, the 13th) with M. A. Dauphin, New Orleans, La., who will give all information.

MEDICAL.

PURE BLOOD

IS THE ABSOLUTE NECESSITY OF HEALTH.

HOOD'S SARSAPARILLA

THE marvellous results of Hood's SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it. It eradicates scrofula, vitalizes the blood, and renovates and invigorates the whole system, thereby restoring the whole system. Hood's SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,

The November Elections.

From the returns up to Wednesday evening, the 7th inst., the following appear as the results of Tuesday's voting:

The republicans made remarkable gains in Connecticut for an off year. The legislature will be republican by about seventy majority on joint ballot, and nine of the twelve senators are republicans.

In Massachusetts, the Butler plurality of 13,949 in 1882 is changed to a plurality of 10,087 for Robinson.

In New York, where the democratic plurality in '82 was 192,854, the republican candidate for secretary of state has 10,000 to 13,000 majority, while the rest of the democratic state ticket is elected by 10,000 majority. The legislature is republican in both branches. Mayor Low, republican, of Brooklyn, is re-elected.

In Maryland, where the democratic majority was 6000 in '82, both parties were claiming the state on the 7th, the probabilities favoring the democrats.

In Virginia, where the readjusters had 5800 plurality last year, Mahone met a crushing defeat, the democrats having 20,000 majority, and both branches of the legislature.

New Jersey is democratic by an increased majority.

Is a Light Bitter Beer the Ideal Drink?

The following we take from the London *Medical Times*. We have before had occasion to remark that in the beer made in Portsmouth the best water that is found in the country is used. The high medical authority which thus endorses beer is peculiarly severe upon water. We have heretofore had quite a regard for this fluid, but after this we shall imbibe it not without fear of the perils at which the transatlantic writer hints.

After all has been said and done that can be said and done in the cause of total abstinence and on the subject of alcoholic beverages, after the fever and fashion of this our day has changed and subsided, we believe that beer will still be found to be the national drink of the future, as it has been of the past, in this country. The reason of this is that it is, in fact, economically and physiologically a drink combining so many useful qualities that nothing, it is clear, can be provided for the price likely to supersede it.

Tea and coffee, if universally drank—solutions of tannin with a small and varying amount of more or less harmful alkaloid—would cause such an increase of national dyspepsia and nervous troubles that a new crusade, with the Dean of Bangor perhaps as its Peter the Hermit, would soon drive them from their position as national beverages. Neither they nor milk can be provided good in sufficient quantity and at the price required, and milk is not always tolerated by grown-up stomachs. Oatmeal and water would soon pall upon the most enthusiastic palate. Sweet syrups or acid effervescents can scarcely be habitually consumed without derangement of the gastric function.

And as for water—the best of drinks

SUPREME COURT--ALLEN J.

WEDNESDAY, Nov. 7th.

Divorce case Abby M. Goodrich vs. Lewis Goodrich, was heard; parties reside in Danville; cause, alleged cruelty, consisting of profane language and harsh treatment. One of the witnesses was a son of the parties, eleven years of age. The case occupied the entire day, the evidence on the part of the libellant, consisting of the testimony of sixteen witnesses, closing at 3:45 o'clock P. M. There were seven witnesses sworn in behalf of the libellee, beside the libellee himself, who was the first witness examined for the defence. Stickney for libellant; Eastman for libellee.

TEAM STOLEN.

Monday evening of this week a well dressed man with the address of a gentleman, called at Cochrane's stable and said he should want a team to go to Dover point next day, stating that he and his wife were stopping at one of the hotels in the city. Tuesday forenoon between eight and nine o'clock he again appeared at the stable, and was given a white mare, buggy, robe and whip, the whole making one of the best turnouts in the stable. Remarking that he should be back about three o'clock in the afternoon the man drove off, and so far has neglected to return. He is believed to be a Massachusetts horse thief.

AN INDIA-RUBBER MINE.

The Dover *Democrat* of Monday, Nov. 5th, tells the following story:

Those in charge of the pile driving business in the Cocheco river, where the new permanent iron bridge of the Boston & Maine railroad is about to be built, were much astonished at an affair that took place there Saturday. While some piles were being driven on the easterly side of the river one of them was forced down twenty-five feet, when it would go no further notwithstanding the pressure of the eighteen-hundred-pound driver, and the pile, whenever struck, would rebound, coming back as it was before the blow. This was a mystery to those in charge. So they drove the pile down again twenty-five feet, and left the driver resting on it, thinking that would dispose of the trouble. But when the men went to work this morning they found the pile and driver had risen twenty-two inches. A pile fifty feet long was then got, and the other one taken out. This fifty-foot one was sent thirty feet down, and it would go no further, but every time it was struck it would rebound six or seven feet. The men in charge believe the trouble is that there is a bed of tough, rubber-like clay there, and so they suspended further operations and telegraphed particulars to Supt. Furber and other officials of the road. No further driving will be done until the matter is investigated.

MATTERS IN YORK.

BEECH RIDGE, YORK, Nov. 5th.

While on a visit last week to this retired spot, remote from railroads and much which makes the busy marts attractive, your correspondent found much to interest him, especially in the new industry lately established here by Moulton Bros., for the drying of apples by evaporation. They employ eleven hands; the paring is done on four large-size machines which are made in Antrim, N. H.; they are doing fifty bushels per day, and have already cured about 2000 bushels, and have about one-half as many more to do. These are packed in boxes which are made in Portsmouth and hold fifty lbs. each. The apples cost them on an average about forty-five cents per bushel. One boy employed there, Master Gilcrest, pared twenty bushels in one day last week. They are in hopes another year to double their working capacity. We wish them success in their new enterprise.

Horace McIntire, the veteran Nimrod of York, has killed about fifty mountain fishers (alias skunks) this season, and finds a ready market for their skins at Dover, N. H. He secures these unsavory quadrupeds by means of his dog and a club, going out at nightfall and returning near daybreak. He has killed two fine foxes recently near his house.

Mrs. William Furbish, who has been an invalid for a year past, remains about the same.

Mr. Perry Cummins is digging a well, and is grading the ground about his house.

Visiting the well known farm of C. C. Barrell, Esq., we learned that it this year yielded about eighty tons of excellent hay, of which he has already pressed and shipped about forty tons; 300 bushels of potatoes and 165 bushels of grain were also raised. Mr. Barrell has also a flock of eighty sheep and lambs, and will winter about fifty. His poultry houses are extensive and well stocked, having at present about 200 fowls of improved varieties. His well-kept grounds are the delight of every visitor.

Mr. Joseph Plaisted has some excellent specimens of Bramah fowls. These fowls make very large poultry, some of which weigh very heavily; recently Mr. Plaisted dressed a year-old hen which weighed 9lbs. 11 oz., which was sold to Capt. Emerson.

Mr. Benjamin Kimball is said to be the happiest man on the Ridge. She weighed ten lbs.; all doing well at last reports.

The church is closed at present for want of a pastor. S. R.

Ex-Gov. Frederick Smyth, of Manchester, has had painted to his order by U. D. Tenny a magnificent portrait of himself, which he has forwarded to his old school, the Phillips academy at Andover, Mass., to be hung in the school collection.

The next meeting of the Rockingham County Temperance Association will be held at Epping on Thursday, the 15th inst., in the Methodist church. Good speaking and a free collation.

The detailed returns of the Massachusetts election were received in this city by telephone quite as early as by telegraph, and even more fully; and the subscribers promptly received the information at their homes.

G. K. Casswell of Newmarket has received pension arrearages amounting to $955.

Eight of the navy yard watchmen were discharged on Wednesday, the 7th inst., leaving three on the yard proper, three on Seavey's island, and one at the landing in this city.

In Nashua, Nov. 6th, Norton, democrat, was re-elected mayor by a majority of 183, a gain of fifty-five from last year. The democrats elected seven aldermen and the republicans two, and there was a tie in one ward; twelve republicans and eight democrats were elected to the council. The democrats elected all the assessors and members of the board of education. Dissatisfaction with the republican "bosses," who have "run the machine" in their own interests rather than in the interests of the party, caused the overthrow.

—An eminent scientist says that when a lady cannot sit down without her nose becoming red it shows that there is imperfect circulation of the blood, caused by tight lacing. Same with the gentlemen. A red nose is a sure sign of tightness somewhere.

—Eight members of the Stone family in Tennessee, on their way to church in an ox wagon, were run away with by a yoke of oxen and all tumbled into a creek without injury. This little spread gave a local paper a chance to say that it was one of the occasions when no Stone was left upturned in the effort to hear the gospel.

—"You have very sweet lips," said a traveller to the fair damsel at a five minutes for refreshment railroad, as he laid down a sandwich on which he could make no impression, "but I must say I can't go your tongue!" Fortunately the train started when it did, or the traveller would have got more tongue than he bargained for.

—A bit of philosophy: "Whar yer gwine wid dat man?" asked a negro of his daughter; "he ain't fitten ter comp'ny yer." "Gwine ter de show," the girl replied. "Dat's all right. Thought yer was gwine ter church. A 'oman ken go wid mos' any man ter a show, but she's got ter be mighty partic'lar who goes ter church wid her."

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

THE BEST OF THE
AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of Contents, in extent and ability of Correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying;

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. In MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

Although the COUNTRY GENTLEMAN has been GREATLY ENLARGED and improved by increasing its size from 16 to 20 pages weekly, the terms continue as heretofore, which call strictly in advance: ONE COPY, one year, $2.50; TWO COPIES, $4.50; and one additional copy for the year *free to the sender of the Club*; TEN COPIES, $20, and an additional copy for the year *free to the sender of the Club.*

MEDICAL.

BAD BLOOD
SCROFULOUS, INHERITED, CONTAGIOUS.

IN 1850 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew no: what it was to be an hour even free from pain. Had reason to look upon life itself as a cur e. In the summer of 18 , after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a sound man, and all through the CUTICURA REMEDIES. TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring Blotches, Itching Tortures, Humiliating Eruptions and Loathsome Scales, and restore the Blood to Pure Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diuretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. Have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES.

MANHOOD

KNOW THYSELF.

A Book for Every Man!
Young, Middle-aged and Old.

THE untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt these assertions should peruse our new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt, price $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

—The farmer makes hay, while the sun shines behind a dry goods counter.

—With a population of 250,000, Rome has 7,500 priests. They wear all colors of uniform, from brilliant scarlet gowns to dead black. A procession of fifty priests, going two and two along the street, with dazzling red robes sweeping the ground, is a novel sight to an American. These Italian clerical gentlemen very properly study picturesque variety in their costuming. One lot dress in the Oscar Wilde fashion, as to their lower extremities.

—Longwindedness is the curse of English journalism. For instance, the *Pall Mall Gazette* concludes a review of Ella Wheeler's poems as follows: "Perhaps we would be accused of laboring under the reactionary prejudice of the world, if we were to remark that it would not be a world-wide calamity if the Sappho of the West were to find in Lake Michigan that effectual remedy for her woes which the Æolian poet found in the Ionian sea." An American critic would simply have advised Ella to put her head in soak.

"Why, what are you putting that on my feet for," asked a man with a heavy cold. "Why, to draw the cold out of you," answered the considerate nurse. "The deuce you say, I would rather have it stay where it is than be drawn the whole length of my body." At any rate there is a more pleasant method than that, go and get me a bottle of Dr. Bull's Cough Syrup.

—"Yes," said the candidate for office. "I suppose I can't use that paper for saying I spent part of my life in jail. You see I was a warden for six years. I can lick the editor, though!"

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

—Because when he came home he couldn't distinctly say: "The sea caseeth and sufficeth us," she insisted that he was intoxicated. Then she found that he could say: "You shut your head and go to bed" distinctly enough.

"Dr. Benson's Celery and Chamomile Pills for the cure of Neuralgia are a success."—Dr. G. P. Holman, Christianburg, Va. 50 cts. at Druggists.

—Long Branch is said to be the oldest settlement in northern New Jersey, and it has a church built in Queen Anne's time. You see a church at Long Branch is used so little that it doesn't get worn out, and lasts a long time.

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

—"Why," said Mr. Brynesmonkey, "should I go to hear a dog that can crow like a rooster? If I wish to hear the sound of a rooster's crowing, I'll go and hear a rooster, whose crowing must necessarily be better than anything a dog can do."

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

—Dr. McCosh recommends as an inscription for Carlyle's tombstone: "Here lies one who gave force to the English tongue." The same would apply to a Billingsgate fish woman.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

—The czar draws pay as a Russian colonel. The Kentucky colonel serves for nothing. Such is the difference between a despot and a patriot.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

—"How do you like the squash pie, Alfred?" asked a young wife of her husband, a few days after marriage. "Well, it is pretty good, but"—"But what? I suppose you started to say that it isn't as good as that which your mother makes." "Well, yes, I did intend to say that, but"—"Well, Alfred, your mother made that very pie and sent it to me!"

Vox Populi.

The voice of an intelligent people declares, that *Sozodont* is an article of genuine merit, and their patronage confirms what the voice proclaims. There is no gainsaying this pronunciamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity, and assuredly none exerts such a beneficent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

The Ethics of a Crowd.

There is no room for extremists in a crowd. The dude will be pound between the upper and nether millstone. In fact, those about him are likely to take a secret pleasure in adding to his discomfiture. The crowd has a keen eye for a sham which fares particularly ill when it takes the shape of personal pretension. There must be a feeling that "you are one of us" to secure good favor. People do not congregate in vast numbers to admire others, but to have a good time themselves. They are generally willing to do the fair thing, but want no "putting on airs." It requires room to do that with any degree of comfort to the operator. He must be out of ear-shot of the remarks which convey to him the sense of the failure he is making. It is a singular fact that no amount of experience, inherited or personal, is sufficient to disabuse many people of the idea that they can create false impressions as to their own importance on the beholder. For proved want of admiration a flashily dressed or visibly consequential person elicits, he gets a thousand contemptuous recognitions as an ass—a fact he remains perennially impervious to. The strivings and projects of the swell constantly miscarry and he knows it not—except when he is jostled in a crowd. He goes through the world in a state of perpetual ignorance as to his transparency.

The crowd is a great leveler, and the member of it who does not do his own leveling has it done for him in a manner which is not at all pleasant. Large and happy aggregations of people, like civilization itself, are based upon the spirit of mutual concession. The savage who does not know how to yield in little things wants all out doors to live and have his being in. And what is the arrogant, bumptious person, however civilized his exterior may be, who has no consideration for others, but a relic of barbarism? The kindly feeling which prompts the doing of a small favor, at some slight inconvenience even to self, it is which makes the happy crowd possible. The lubrication of good will, sympathy and small helpfulness is the grand secret which makes the social machinery move well. Each man must allow a little margin to others, or there can be no general elasticity to prevent things from being broken upon each other. He must round off the sharp corners, or there will be constant punctures and raspings.—*St. Louis Globe-Democrat.*

More Comet.

Judge Congo, of the Lime Kiln Club, secured the floor to observe that another comet was in sight, and that some people were predicting that it would strike the earth. He would like to inquire what the result would be in case of such collision.

"I has neber bin werry clus to a comet," replied the President, "but from what I have seen an' read an' heard I is prepared to b'lieve dat de airth kin take car' of herself. If I war' in your place I should go right on an' finish dat woodshed an' take my chances."—*Detroit Free Press.*

Mrs. Labouchere's Protege.

It is said in certain semi-artistic circles here, says a letter to the New York *Times*, that Mrs. Labouchere is about to "take up" an American beauty, if not with a view to rivalry with Mrs. Langtry, to give herself occupation. Mrs. Labouchere is a bright, clever, and rich woman, and she likes to help rising talent. A certain young lady from Philadelphia and New York, one Miss Detchon (until recently a comedy actress in America), has brought letters, it is said, to Mrs. Labouchere, and the authoress of "Mrs. Langtry, actress," is to introduce to London "Miss Detchon, reader." The newcomer is said to be very pretty. I saw her playing a leading part in an English comedy at Wallack's theater last year or two ago, and was not greatly impressed with her. Time, however, may have developed her charms and her talents. My informant confidently predicts that she will be heard of "very considerably" in London next season.

Translation of the Language of St. Louis.

St. Louis is not able to compete with Chicago in the glory of its pastry store windows, in the size of its elevators and fear, or in the muscle of its politicians. But St. Louis is the head center of philosophy in this country. A St. Louis journalist this week begins a report thus "The work of iconoclasm is not endemic but universal, and the breaker of our images presents himself most inopportunely as to place and season, proving that our idols are of clay, our ideals pliable, and that our worship is wasted on a thin substance." This rendered into Chicagoese means: "Johnny Mulligan, the stacsman, went into Mulhooley's saloon, and as no one would fight him he cleaned out the whole crowd."—*New York Herald.*

A Remarkable Phenomenon.

Robert A. Marr, a member of the government geologic survey, in a recent letter gives an account of an atmospheric phenomenon which he lately witnessed in the Toyabe range southwest of Montana. Mr. Marr says: "Suddenly, as I stood looking over the vast expanse beneath, I saw myself confronted by a monster figure of a man standing in mid-air before me on the top of a clearly-defined mountain peak which had but the thin air of the valley below for a resting-place. The figure was only a short distance from me. Around it were two circles of rainbow light and color, the outer one faintly defined as compared with the inner one, which was bright and clear and distinctly iridescent. Around the head was a beautiful halo of light, and from the figure itself shot rays of colors normal to the body. The sight startled me more than I can now tell. I threw up my hands in astonishment and perhaps some little fear, and at this moment the specter seemed to move toward me. In a few moments I got over my fright, and then, after the figure had faded away, I had enjoyed one of the most wonderful phenomena of nature. Since then I have seen it once or twice from Jeff Davis peak, but it never created such an impression upon me as it did that evening when I was doing duty as a heliotyper all along the top of Are Dome."

CHAPTER I.
"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I Could not move!
I shrunk!
From 228 lbs. to 120!" I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."
Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

The Boston *Post* tells the following, which shows that the American citizen of African descent may on occasion be found as "onsartin" as the white man: "The advice of Gov. Butler, given on the platform during the campaign, that his followers when approached with offers of money should take the money and then vote according to their original intentions, evidently bore some fruit. Over at the west end some of the colored brothers learned the lesson readily and well. Their votes were wanted for the governor, and their ward leaders had no difficulty in getting themselves and friends well supplied with funds for the usual campaign expenses. On election day, however, the leaders stood at polls and distributed Robinson votes, and saw that all their followers deposited these in the ballot-boxes. They took all the money they could get, and then voted as they pleased."

NEW BLOOMFIELD, MISS., Jan. 2, 1880.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

Poor But Honest.

Charlie Sullivan is a poor but honest Irish lad, who, while walking down Washington street, found a wallet containing checks and money to the value of several hundred dollars. Although almost destitute, he returned it to its owners, Messrs. A. P. Ordway & Co., proprietors of Sulphur Bitters, who gave him a liberal reward, and also gave him six bottles of Sulphur Bitters for his mother, who has been a terrible sufferer with rheumatism, and who returned many blessings after being cured by their use.—*Weekly World.*

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

At Beverly, Mass., about seven o'clock in the evening on the 7th inst., a man about fifty years old was run over in the Eastern railroad station, and had his head cut and one foot taken off. His leg was amputated, but he died on the 8th. A bottle of liquor in his pocket was broken by the train.

Why suffer longer from dyspepsia, indigestion, want of appetite, loss of strength, lack of energy, malaria, intermittent fevers, etc.? Brown's Iron Bitters never fail to cure these diseases. They act like a charm on the digestive organs, removing all dyspeptic symptoms, such as belching, heartburn, biliousness, etc. Remember it is the only iron preparation that will not blacken the teeth or give headache. Ask your druggist concerning its merit.

The republican set-back in Nashua affords a crumb of comfort just now, to the democrats. Some of the Nashua republicans make no hesitation in saying that the prolonged session of the legislature, delayed until Gen. Stevens could ascertain his chances as to the United States senatorship, and the special legislation to give Mr. Moore a position, followed by his selection by the governor for a place for which he had no special qualifications, were among the grievances which the rank and file of Nashua republicans—who think that Gen. Stevens and Mr. Moore should now subside for more successful political aspirants—had in view on election day. The question was one of reform within the party.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August* 11, 1883.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 20, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 3, 1883, and which it is deemed for the best interests of the United States to sell.

The vessels offered and their appraised value are, the Monadnock, (old), $11,200; Alaska, $18,300; Seminole, $17,600; Tuscarora, $9,200; Narragansett, $8,900; Nyack, $4,900, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest price therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of the offer of proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department. ED. T. NICHOLS,
d7nov20 Acting Secretary of the Navy.

MEDICAL.

MR. E. MARTIN,
In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulty. Mine was a case of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

Yesterday's Dreadful Accident.

There were a good many accidents yesterday. There will be some to-day, and probably more or less to-morrow. Children are tumbling down stairs. Women are lighting fires with kerosene. Boys are playing with pistols. Big men are spraining their ankles as they try to catch the moving train. Babies will get their little thumbs caught in the doors. Bruised shins, dislocated joints and mashed fingers constantly remind us that accidents may take place at any moment. People who have Perry Davis's Pain Killer can smile at most of the accidents that befall them. Those who have not tried it are reminded that they do not have to run further than the nearest drug store to buy it.

Nathan Szkolny was arrested in Boston bay Nov. 7th, on board the steamship Marathon, for forgery committed in Bromberg, Prussia, where he was engaged in banking.

Dr. E. E. Fuller, Keokuk, Iowa, says: I have used Brown's Iron Bitters in my own family with excellent results.

John Colter, of Shelburne Falls, was found drowned in the canal at Chicopee, Nov. 5th.

The Greatest Care

should be taken in preparing medicine for the sick. It has been taken in the article known as "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons, and for sale by all leading Druggists and Grocers. Physicians can safely prescribe it.

Dennis Chapler, aged sixteen years, is held for trial in Rockland, Me., for burglary. He confesses his guilt.

The Weather Tomorrow.

Cleveland, O.—The Plain Dealer says the indications point to severe changes in the weather, and that in consequence, druggists place on the handy shelf, a large supply of St. Jacobs Oil, the sovereign remedy for pains, induced by inclement weather.

Thomas Gilchrist, time keeper for the contractors on the canal work of the New Britain, Conn., water works, drew $1700 to pay men Nov. 6th, and has disappeared with the money.

Covetousness In Disguise.

The wonderful success of James Pyle's Pearline has given rise to a flood of imitations with an "one" to their names, evidently to have them sound like Pearline. Enterprises of this sort are quite liable to be more selfish then beneficial.

The Navy Yards.

Rear Admiral Nichols, chief of the bureau of yards and docks, in his annual report to the secretary of the navy for the year ending June 30th, 1883, gives a detailed account of the condition of all the yards and stations, and his views as to what is necessary to put them in good condition. The estimates for the fiscal year ending June 30th, 1884, are as follows:

For general maintenance of navy yards and stations, $420,000; for navy yard, Portsmouth, N. H., for water works, $25,000; for navy yard, Boston, Mass., rebuilding wharves, floating gate for dry-dock, water pipes, etc., $135,000; for navy yard, Brooklyn, N. Y., boiler shop, building for general storage, dredging, etc., $331,000; for navy yard, League Island, Pa., dredging and landing wharf, $126,000; for navy yard, Washington, D. C., ordnance machine shop, dredging, and continuation of yard wall, $141,000; for navy yard, Norfolk, Va., extension of quay wall, pump, well, culvert, marine railway, coal house, etc., $625,000; for navy yard, Mare island, Cal., dry-dock, wharves, bridges, cisterns, etc., $606,000; for naval station, New London, Conn., quay wall, $15,000; for naval station, Key West, Fla., purchases of Mallory lot, etc., $18,500; the estimates for civil establishment at all the yards amounts to $45,930, being an increase of nearly $20,000 over the present expense. Estimates for repairs and preservation of the yards and stations, $400,000; and for the naval asylum at Philadelphia, $92,251. The total estimates are $3,166,681.

Admiral Nichols says he "has no hesitation in saying that the reduction of the appropriation for repairs and preservation was not an economical measure, as for the past two or three years this appropriation has not been sufficient to properly care for and keep in repair the property to which it pertains; consequently deterioration is constant, until eventually rebuilding instead of repairing will be in order."

The November Elections.

In Connecticut, last year, the republicans had a legislative majority of twenty-nine on joint ballot; this year they have secured a majority of six in the senate and fifty-nine in the house—sixty-five on joint ballot, a gain of thirty-six members.

In New York, the senate will stand twenty republicans and twelve democrats, the house seventy-four republicans fifty-four democrats—a republican majority of twenty-eight on joint ballot. In the last senate the democrats had four majority, and forty-two majority in the house—a democratic majority of forty-six on joint ballot. The majority of Carr, republican, for secretary of state, is about 19,000—not bad, when it is considered that the republican minority last year was about 200,000.

BOSTON, Nov. 7, 1883.

Dear Chronicle: Our election has come and gone. There is one flag that hangs high (the only one on School street,) and has no taint of shame. It is the flag of "Almy and Blackmer," every vote cast for which was a vote for *General Governor Butler*, the Chief Executive Magistrate. As the election has turned out, Providence may be will be willing to pardon those so called temperance men who unthinkingly threw their ballots in favor of the great fillibuster; yet their are hundreds of others who will not be so charitable. If the temperance leaders do really mean what they profess; if they desire more stringent laws; if they think the people are ready for sumptuary enactments; why do they not appeal to the only party which has ever given them a hearing, instead of paltering with the one which has always been the acknowledged friend and protector of liquor dealers generally? The dealers take no stock in Mr. Almy or Mr. Faxon, but think them among their best friends. License and Local Option gives strict supervision to saloons of whatever class. Prohibition means vile liquors (such as are found in Maine) without taxation, and sold to parties who drink without discrimination, simply because their privilege is debarred.

Does any commercial traveller in Augusta, Bangor, Lewiston, Portland or Biddeford find any trouble in obtaining a drink? Many other towns might be named, but the only trouble is the vileness of the liquor.

Prohibition, without exception, has always played into the hands of its strongest enemy, the democratic party. Every republican should remember this. Yours, ION.

The regular monthly meeting of the directors of the Maine Central railroad was held at their office in Portland on the 7th inst., President Jackson presiding. All the directors were present, except Coburn and French. The president reported the business of the road for the past year as follows: Gross earnings, $2,864,615.31, against $2,632,140.30 for 1882; gross gain, $232,475.01. The operating expenses for 1883 were $1,839,706.80, making the net earnings $1,624,908.51. Total number of miles of road operated was 482.8, as against 549.9 for 1882, the increase being caused by the addition of the European & North American and the Eastern Maine roads. The report of the special committee on the Boston & Maine matter was received, but it being suggested that there had probably been further correspondence between the directors of the Boston & Maine road and the committee, no action was taken, and the report was laid on the table. The president and directors left in the afternoon to inspect the Mount Desert (Green Mountain) railroad.

Leander Sullivan of Peabody, Mass., was struck by the early train from Peabody for Boston over the Eastern railroad on the morning of Nov. 7th, and very badly injured. He was taken to the Boston city hospital.

Rupert E. Everton, of Melrose, Mass., was found dead between Maplewood and Broadway stations on the Saugus branch of the Eastern railroad, on the morning of the 7th inst. It is supposed he was run over by the late train of the previous night, his body being shockingly cut up.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. MONTGOMERY'S

MUSIC AND ART STORE,

No. 6 Pleasant St., Portsmouth.

Call early if you want a bargain.

Mr. John P. Sweetser of this city has bought the right of the U. S. Liquid Fuel Company of Boston, to manufacture and sell in Portsmouth, Rye, Newcastle and Kittery, their patent for burning crude oil in cooking stoves, ranges, furnaces, etc. It is the same patent which was exhibited in a store on Congress street, early last summer, although much improved. Mr. Sweetser has the patent placed in one of the Elmwood cooking stoves, which he sells, and set up in his store for exhibition. A large number of persons has seen the arrangement and are much pleased with it, and already numerous orders have been received for them. A gentleman from the company is with Mr. Sweetser for a few days explaining the workings of the patent. Anyone who is at all interested in the new arrangement is invited to call at Mr. Sweetser's store and look at it. It is kept running all day, and all kinds of cooking is done there to show that it will do the same work that coal will do, much more economically and with more convenience and cleanliness.

SUPREME COURT--ALLEN J.

THURSDAY, Nov. 8th.

Margaret Hanley vs. Catharine Russell, appealed from the probate court, question as to the custody of a child, was heard. Frink for appellant; Page for appellee.

Mary A. Sanborn vs. Francellus B. Sanborn; libel for divorce; cause, adultery and desertion. Parties reside in Sandown, and were married in 1877, at Fremont. The libel charges that the husband has absented himself from the wife since 1878, without making suitable provision for her support; and further, that in August, 1881, he committed the crime of adultery. The libellant prays not only for a divorce, but that a portion of the estate of the husband, which she affirms is worth over seven thousand dollars, may be decreed to her as alimony.

The defendant admitted a technical desertion, but denied the adultery, and also denied that he owned more than a few hundred dollars' worth of real estate. An attempt was made to show that one of the libellant's witnesses had been compelled to make his statement against the facts. It was shown that the libellee has an estate encumbered with the support of his father, whose property was encumbered by liability on account of his endorsement for his brother Charles, who was unable as principal to pay it. Libellee has no property. He had supposed he had a horse and wagon, but it was attached as Charles' property; it had been replevied, and was worth about $200. He held no notes against others. He had known the libellant less than six months before marriage. He said he was married Saturday night, and on Monday the bride started on a bridal tour on her own hook, without her husband, to Nashua, and that she had a fall and miscarriage there. The night after marriage she shew a letter calling for money, which was demanded of a former suitor. Libellee felt ashamed, but kept on in the nuptial yoke, and was afterward unhappy in his marital relations. The bride had fits, as he thought at will; would fall over, but not get hurt. Libellee detailed an attempt to burn the house, and said libellant told him she had prepared the combustibles. As his mother was sick and could not live with libellant in the house, the libellant left the house. The history of the unhappy relations was told. The language she used was plain, even strong. He had paid a judgment for her board since she left. This was three years ago. His brother Charles is hostile to him.

Unfinished at the adjournment.

Frink & Batchelder for libellant; Drury, and Marston & Eastman, for libellee.

A LACK OF FUNDS.

The discharge of watchmen at the navy yard is in consequence of lack of funds. This deficit is caused by the low figures made by the chief of the bureau of yards and docks, who for the coming year seems to show a very slender estimate at the yard in this harbor.

If public property has all these years required the care of watchmen, it must still need it; but it is stated that if the watchmen are retained the sum required to run the Emerald, to warm and light the officers' residences, and otherwise keep them from feeling the effects of a hard winter, must be reduced.

Of course, not even the irrepressible Holman of Indiana would propose any such unjust course as this. No; let the public property go to the bow-wows, but do not cut off the general steam heat. Let not their incandescence or the cheerful lights of their firesides be diminished a single burner, that such a mere bagatelle as the public property should be protected. The bureau of yards and docks ought to be supplied with an accountant who could figure an estimate from precedents. As it is now managed, it is a bungling exercescence.

GOSSIPS SAY

That B. F. B.
Feels terribly
Over the licking he
Received from the
Sage of Chicopee
On Tewksbury.

That several hundred dollars changed hands in this city on the result of the election in Massachusetts.

That some of the local politicians are not paying their election bets with any great alacrity.

That a leather (skin) medal will be presented to each city or town in Massachusetts that can show a Butler net gain at the recent election, on application being made at Lowell.

That a prophet is not always without due appreciation in his own country—Robinson's net gain in Chicopee, 278; Butler's net loss in Lowell, 405.

That Benjamin's presidential eye is closed.

That Massachusetts republicans will hereafter affect eye-glasses, and part their hair in the middle.

That the Hub papers will be dull reading for months to come.

That the *Globe* editor showed his back in his telephone funny business on Wednesday, the day after the election.

That the time for the paying of the employes at the Portsmouth Shoe Factory has been changed from Saturday to Wednesday.

That the change causes much dissatisfaction among the help, as they have been accustomed to receive their wages on Saturday—and it does seem as though that was the proper time.

That the fall renovation of the offices in the custom house has commenced.

That two gunners from Sea point, Gerrish's island, brought to this city sixty sea fowl one day this week.

That Miss Norah Bartlett is the only lady with Edwin Booth's company who has received favorable mention by the Boston papers since the tragedian opened at the Globe theatre.

That nine vessels were discharging coal at the north end wharves on Thursday.

That a new lodge of the order of the Golden Cross was organized in this city on Thursday evening.

That the breaking of vicious horses in the most public streets of the city should be stopped by the police.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Nov. 8th, Mayor Treat in the chair.

Present the full board, except Ald. Atwell.

The records of the last meeting were read and approved.

Bills to the amount of $2934.04, from the committee on accounts, were ordered paid. In this budget was the bill for the new hose carriage costing $500.

Alfred Elwyn's bill of $36 for sheep killed by dogs, was referred.

H. A. Yeaton's application for relay of sidewalk in front of his residence on State street, was referred to com. on streets, with power.

The mayor reported the settlement of the Walton claim; report accepted and adopted.

Application of John Sise and John J. Pickering for leave to lay a drain from the rear of a building on Market street to Spring hill, across Bow street, and application of Anderson & Junkins for leave to encumber Daniel street for building purposes, were granted.

Ald. Caswell enquired as to Ex-Collector Shannon's success in collecting taxes in arrears. There was no information forthcoming. The mayor was requested to communicate with Mr. Shannon.

Ald. Stavers moved to fill vacancy in police force, as there were but five officers chosen, and the ordinance requires six. Asst. Marshal White was called to explain the duties performed by night watchmen, and the subject of watchmen doing duty in pairs or singly was discussed.

Adjourned for two weeks.

A great many democrats in different parts of the state insist that it was a bad stroke of policy which induced Mr. Jones to write his pro-Butler letter to the Boston *Post*, and that it was a boomerang which one day will plague him.

Of the eight navy yard watchmen discharged on the 7th inst. but one was from New Hampshire, namely, Mr. William Trefethen of Newcastle. The others were Joseph Seaward, Benjamin Seaward, George Patch, Joseph Marden, George Damon and John Tobey of Kittery, and John McKenney of Eliot. It is said that this discharge was necessary in order that funds for the heating of the officers' quarters this winter, and for the running of the Emerald for the convenience of the officers and their servants, could be obtained.

Another family clam chowder at the Central Oyster House to-day; 25 cts. per quart, and delivered.

INSTALLATION.

Rockingham Lodge of Good Templars passed a very enjoyable evening at the hall on Pleasant street, Nov. 7th, the occasion being the installation of officers by Deputy Charles T. Wiggin. A dialogue was rendered in a very pleasing manner, after which the members of the lodge, with invited friends, sat down to a bountiful supper. The officers installed were as follows:

W. C. T., James Janvrin;
W. V. T., Louise Rowland;
W. S., B. F. Russell;
W. F. S., F. E. Hall;
W. T., James D. Treat;
W. M., Belle Woods;
W. D. M., Annie Rowland;
W. I. G., Eliza Deering;
W. O. G., Mary Tobey;
W. R. S., Georgia Laskey;
W. L. S., Rebecca Grant;
W. C., Amanda Holbrook.

At the regular meeting of Strawberry Bank Lodge of Good Templars, held on Wednesday evening, Nov. 7th, the following officers were installed by Lodge Deputy John A. Goss, assisted by Acting Grand Secretary William A. Plaisted and Acting Grand Marshal M. E. Perkins:

W. C. T., George W. Frost;
W. V. T., Miss Edith N. Dixon;
W. S., Joseph Philbrick;
W. A. S., William A. Plaisted;
W. F. S., Ceylon Spinney;
W. T., Charles H. Clough;
W. C., John A. Goss;
W. M., Mrs. R. D. Smart;
W. D. M., Miss Ellen M. Gammon;
W. R. S., Mrs. Josiah Grover;
W. L. S., Mrs. Mary E. Odiorne;
W. I. G., Miss Emma Gammon;
W. O. G., Charles E. Jenness;
P. W. C. T., Edward S. Smart.

Tickets for Herne's "Hearts of Oak" are now on sale at Goodrich's. In this play there is a shipwreck, with realistic scenery and effects; a grist mill; and a most gorgeous baby—a genuine baby, no "property" sham—that does everything but cry. It has drawn powerfully wherever it has been played for the past five years.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder,"
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia.

E. G. LOYE, Ph. D

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

RUPTURE
Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or duration of affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, of which, according to the surgeons, more than 50,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and moral injury. Rupture induces kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. SHERMAN'S Patent Adjustable Shield and Pad are the only impartial account published. Finely illustrated. Price low. 1831 THE CULTIVATOR AND Country Gentleman 1884
THE BEST OF THE
AGRICULTURAL WEEKLIES.
THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of Contents, in extent and ability of Correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of
Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying;
while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Healing, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended and supply, to a continually Increasing degree, and in the best sense of the term, A
LIVE AGRICULTURAL NEWSPAPER.
Although THE COUNTRY GENTLEMAN has been GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, the terms continue as heretofore, when paid strictly in advance: ONE COPY, one year, $2.50; FOUR COPIES, $10, and an additional copy for the year free to the leader of the Club; TEN COPIES, $20, and an additional copy for the year free to the leader of the Club.

MEDICAL.

BAD BLOOD
SCROFULOUS, INHERITED, CONTAGIOUS.

IN 1880 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 188-, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. RICHARDSON, Custom House, New Orleans.

Sworn to before United States Commissioner, J. D. CRAWFORD.

TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring Blotches, Itching Tortures, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines for cure of diseases of the blood and skin, and never found anything to equal the Cuticura Remedies. ALEX. McKENZIE, Providence, R. I. CHAS. A. WILLIAMS.

MANHOOD

KNOW THYSELF.

A Book for Every Man! Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their manhood should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

35th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 $2; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single may wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Vox Populi.

The voice of an intelligent people declares, that *Sozodent* is an article of genuine merit, and their patronage confirms what their voice proclaims. There is no gainsaying this pronunciamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity, and assurdly none exerts such a beneficent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

AN AUDACIOUS THIEF.

The Story of Charles R. Beckwith's Embezzlement Retold.

A New York telegram to *The Pittsburg Commercial Gazette* says: Charles R. Beckwith, formerly book-keeper for B. T. Babbitt, prominent soap manufacturer, has been released from state prison, having served about ten years for embezzlement from his employer. The amount he took was reported at the time to be very large, but Babbitt's business was so prosperous that he never noticed the defalcation in that way, but discovered it by observing that the young man drove rather too fine horses and lived in a higher style generally than might be expected of one who received no more salary than a book-keeper. Mr. Babbitt, it is said, asked him one day who it was that paid all this expense, and Beckwith unblushingly said: "You do."

"Do you mean to say that you have been misappropriating my funds?" asked the soap manufacturer.

"That is about as straightforward a way as you can put it," was the reply.

Babbitt began to threaten, and asked him what induced him to do such a thing, but Beckwith as coolly as ever told him that he had looked the ground over carefully, that he might be sent to state prison for ten years, but that he had already secured within $40,000 of as much as he intended to take, and that if his employer would pay him that amount he would go on honestly, and continue to conduct affairs with as much diligence and ability as ever, arguing at the same time that the money had not been missed, that the amounts he had taken were so cleverly secreted that they never could be found, that he already had enough to pay him well for ten years' service in prison, and would live like a gentleman when he came out.

It is needless to say that such conditions were not satisfactory to Mr. Babbitt. He caused his arrest and imprisonment for the term which recently expired.

The examination of books proved Beckwith's statements to be true; that he had taken very large amounts, and many of them. Several indictments were found against him, and some of these are hanging over his head yet.

The great question at that time was where had he secreted the proceeds? Able detectives failed to discover the place. One day, so went the story told years ago, a small, fair-looking, business-like woman called on Mr. Babbitt, representing herself to be a detective, and said she had facilities for discovering where this money had been hidden. A contract was made by which she was to have a certain percentage of the money on recovery, besides expenses. She went at the job, and from New Jersey came in regular daily reports of the operations of her force of assistants, and constantly drawing on him for "expense money." The search was continued through Connecticut with vigor, and with a large force, according to the reports which were given in detail, always on a clew and hopeful of success, until these moneys for "expenses" amounted to $45,000. Then the reports suddenly ceased. It was said that then Mr. Babbitt heard again from Beckwith from behind his prison bars to the effect that the woman had received $5,000 for her services; that the other $40,000 he required for his complete satisfaction was deposited with the original fund, and renewing his offer to live honestly and to serve him faithfully if a pardon could be obtained from the governor.

Nothing of the sort was done and the full term has been served. Those other indictments, however, are not comfortable instruments in his face, and ex-Judge Fullerton now has a motion to quash them. He believes that his client has been sufficiently punished, and argued that the district attorney has shown no disposition to push them to trial. The district attorney, however, opposed the motion, stating that he desired to hold a consultation with Mr. Babbitt on the subject, and consequently asked that the matter be deferred until he could ascertain what the gentleman's views in regard to the matter were. The judge ordered that the motion stand over until the next term of court, when it may be that Mr. Babbitt will consent, or may disclose how much truth there is in these stories, which were told at the time by the gossips of the city, when the original transactions were first called to public attention by the prosecution of the defaulter.

Once a man tole me dat he didn't want de office what he'd been nominated fur, an' dat he wasn't agwine ter sx no man ter vote fur him, but when he foun' dat I had voted agin him he come roun' an' raised a row wid me. Now, when a canderdate tells me dat he doan want de office, I may not say nuthin', but I has a mighty strong 'spicion dat he's a liar.—*Opie Read.*

They met a sturdy farmer, whereupon the gentleman remarked: "That's a fine field of oats you have got there." "Don't you know the difference between oats and wheat?" asked the sturdy farmer, contemptuously. "No, I don't." "I thought every donkey knew that," courteously responded the rustic. "You see, pa," said the gentleman's little boy, who had not taken any part in the debate, "you see, pa, if every donkey knows the difference it's lucky you said you didn't."

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

An Old Soldier's EXPERIENCE.

"Calvert, Texas, May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases. J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "26 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen:* My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a bursted sores on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin disease. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass. — Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

Yesterday's Dreadful Accident.

There were a good many accidents yesterday. There will be some to-day, and probably more or less to-morrow. Children are tumbling down stairs. Women are lighting fires with kerosene. Boys are playing with pistols. Big men are spraining their ankles as they try to catch the moving train. Babies will get their little thumbs caught in the doors. Bruised shins, dislocated joints and mashed fingers constantly remind us that accidents may take place at any moment. People who have Perry Davis's Pain Killer can smile at most of the accidents that befall them. Those who have not tried it are reminded that they do not have to run further than the nearest drug store to buy it.

—College students in Siam are allowed two wives. This is the Siamese method of hazing.

Dr. E. E. Fuller, Keokuk, Iowa, says: I have used Brown's Iron Bitters in my own family with excellent results.

—Between Bohemians: "Will it give you pleasure to breakfast with me?" "Certainly." "Well, put an extra plate on your table and in a quarter of an hour I will be at your room!"

Ayer's Cherry Pectoral wonderfully increases the power and flexibility of the voice, enabling public speakers to speak clearly and without fatigue. If people who are troubled with colds would take Ayer's Cherry Pectoral before going to church or places of entertainment, they would avoid coughing, greatly to the comfort of both hearers and speakers.

—Burglar (to friend) — "Jimmy, I think I'll quit crackin' and get a job in the New York city finance department. The stealing's are bigger, and there's no danger."

Dinner Up Among The Clouds.

White Mountains, N. H.—A. T. Barron, of the renowned Twin Mountain House and Fabyan house, who employs one hundred and fifty horses, accords his preference to St. Jacobs Oil over all other medicines, as a cure for pain in man or beast.

—"Gentlemen," exclaimed a Kentucky lawyer, "you may hang the ocean on a grape vine to dry, lasso an avalanche, pin a napkin to the mouth of a volcano, skim the clouds from the sky with a teaspoon, paste 'To Let' on the moon and stars, but never for a moment delude yourselves with the idea that this charming young girl is guilty of the charge preferred against her."

The Greatest Care

should be taken in preparing medicine for the sick. It has been taken in the article known as "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons, and for sale by all leading Druggists and Grocers. Physicians can safely prescribe it.

—Tunbridge, Vermont, has a cat with forty toes. She will probably accompany herself when she sings, although it is doubtful that the people in the neighborhood will ever get over the garden waul.

Covetousness In Disguise.

The wonderful success of James Pyle's Pearline has given rise to a flood of imitations with an "one" to their names, evidently to have them sound like Pearline. Enterprises of this sort are quite liable to be more selfish then beneficial.

A Difference.

A lack of party discipline in the ranks of the democracy was seen in the result of the election in New York. Maynard, their candidate for secretary of state, had at one time advocated prohibition, or some sort of legislation hostile to the liquor interest. In the cities of New York, Brooklyn, Rochester and Buffalo, he ran thirty thousand votes behind his ticket. In short, the liquor interest caused Maynard's defeat by over eighteen thousand votes.

Now, according to Mr. Jones' theory in his Butler letter, Mr. Maynard being the regularly nominated candidate of the party should have been supported by the brewers and distillers, who beat him. But it is different in New York, where the democrats are not as well posted in politics as the party leaders are in New Hampshire. In this state the liquor interest have gone so far as to pay manager to run a "temperance" party; and as to voting against an unorthodox candidate or neglecting to support him, who in the democratic household of faith would dare to commit such treason?

How the Republican Party "Goes."

Last year, the head of the democratic state ticket in New York had 193,000 plurality; this year the head of the democratic state ticket in New York is beaten by 10,000 to 20,000. Last year, General Butler was elected by about 14,000 plurality in Massachusetts; this year he is beaten by about 10,000. Last year the democrats elected a governor of Pennsylvania by 40,000 plurality; this year their state ticket is beaten by over 21,000. Connecticut has changed from a democratic plurality of 4200 last year, to a republican majority of 5700 this year.

It is well for those who have seen the frequent assertion of the democratic press that "the republican party must go," to bear in mind that when the occasion presents itself the party generally *does* go—to the polls, and is heard from.

Meagher had another large call for his family clam chowder on Friday, and it was just as good as the previous one.

The trustees of the Faith Home have received a legacy of $500 from J. Fisher Sheafe of New York. This sum has been paid towards the reduction of the mortgage, which now stands at $1250.

The tugs Luther C. Ward and Germania, rom fthis port with the old ship Congress in tow, arrived at Vineyard Haven on the 7th inst., and sailed for Cow Bay, New York, on the 8th, where they arrived with their tow the same day.

The Biddeford *Times* thus refers to an incident which recently took place in that city: "An unusual event occurred on Foss street Saturday. This was the marriage of a mother and her son both on the same day, Mrs. Mary E. Allen, and her son Eugene O. Allen. Both ceremonies were conducted by Rev. E. T. Adams. Mrs. Mary E. Allen, of this city, was joined in matrimonial bonds to Mr. Isaac W. Kinneson, of Limestone, Me. Mr. Eugene O. Allen, of this city, was united to Miss Mattie E. Whitaker, of Lawrence, Mass. The weddings were attended by a large party of friends of the contracting parties who were profuse in showering congratulations upon the newly-wedded couples."

General Grant has written a letter to Gen. Fitz John Porter, giving the reasons for his change of mind regarding the case of the latter, and hoping for his thorough vindication.

MEDICAL.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, but who are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,

F. C. CHURCHILL,

(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.

Facts are Stubborn Things.

Is there anything in any of the numerous advertisements of the Royal Baking Powder to show that the Royal does not use Ammonia and Tartaric Acid as cheap substitutes for Cream of Tartar? Or is there any charge, or the slightest insinuation in those advertisements, that Cleveland's Superior Baking Powder contains anything but the purest Grape Cream of Tartar and Bicarbonate of Soda, with a small portion of flour as a preservative?

Ammonia and Tartaric Acid produce a cheap leavening gas, which is not to be compared, in the practical test of baking, with the more desirable Carbonic Acid gas generated by the exclusive use of the expensive Cream of Tartar.

Use Cleveland's Superior Baking Powder, and judge for yourself of its superiority.

SUPREME COURT--ALLEN J.

FRIDAY, Nov. 9th.

No. 91. Moody and als. vs. Downs, and Gignoux and Caswell, trustees. Court held that the mortgage to Caswell was not the same transaction as the assignment. They come close as to time, and might raise suspicion, but not under the testimony and explanation consistent with the facts. This would leave the assignment valid. On questions of the construction of the assignment there may be some doubts, but taking our statute it would be enough to make the assignment good. The court intimated that a question of law might be reserved; plaintiff's counsel requested this, and the case will be continued until the question is determined by the law court.

In Coffin vs. Winchester, judgment was ordered on the verdict, with interest from the date of the writ.

In Willey vs. Portsmouth, the court finds a right of way as declared by the plaintiff. On the question of damages, the court referred to Haley vs. Colcord as the rule in this case, and said the damage would be only what the trouble of deviating would cost pltf. up to date of writ. The award of damage is one dollar, as there was land enough for pltf. to get off his land. The court held that tenants in this case had no estate in the land, being tenants at will from year to year, and in such case the rule would not apply. The way had existed by prescription when the city bought the right to remove the gravel. Verdict accordingly, for $1; bill of exceptions in twenty days.

The continued docket was called.

On the new docket are 126 entries.

On equity docket, in Hurley and others vs. Lynch and others and St. Mary's Benevolent Association, a decree was ordered for plaintiffs, defendants to deliver the books, etc., to the plaintiffs.

In Hanley vs. Russell, the court found that the guardian appointed was suitable, and the persons with whom the child is are proper people to have the care of the child. Question will be sent to the law term.

Case Laura E. Matthews, executrix, vs. Charles H. Mendum and owners of ship Chocorua, was continued on account of the absence of Capt. Locke, a material witness. [Case subsequently adjusted, a decree being entered for $252.25, without costs, which was paid. Claim was for wages and primage of the plaintiff's intestate on a voyage of the Chocorua; the defence was that Capt. Matthews died on the second day of the voyage, and was not entitled to the sum claimed.]

In Goodrich vs. Goodrich, the court held that a divorce was not warranted, and the libel was dismissed.

Peter Ostensen vs. Catharine S. C. Ostensen; divorce decreed. Hackett for libellant.

Mary A. Sanborn vs. F. B. Sanborn; divorce decreed; alimony $300.

Lucy J. Pickering vs. Margaret E. Pickering. Bill filed Aug. 27th, 1881, to obtain dower in certain land in Newington. Dower having been assigned, claim was made for rent from such time as plaintiff's estate was wrongfully withheld. A decree is now made in favor of plaintiff for $70. Hatch for plaintiff; Stickney: Page for defendant.

Darius Towle of Kingston vs. E. W. Hooper of Lowell, Mass. Replevin for a roan mare. Plea that property was vested in the defendant and not in the plaintiff. Plaintiff testified that he owned the mare, and let one Charles Taylor have her to try as to driving double. Taylor brought back another horse; pltf. did not authorize Taylor to sell the mare; asked him about her, and he said she did not work well, and promised to return her, but did not do it; he afterward said the mare was dead. Towle said the animal was worth $50. The deft.'s evidence consisted of depositions taken at Lowell, Mass. Deft. sought to impeach Mr. Towle's reputation for truth. Verdict in favor of the deft., for $50, the value of the mare. Hoyt for pltf.; Harriman for deft.

In the evening, the divorce case of Annie H. Gray vs. Charles A. C. Gray was heard. Batchelder for libellant; Hodgdon for libellee.

POLICE COURT--BATCHELDER, J.

FRIDAY, Nov. 9th.

Charles S. Marston, for drunkenness, was sentenced to four months at the county farm and to pay $6.90 costs.

GOSSIPS SAY

That the records of the custom house in this city are considered to contain more valuable documents pertaining to provincial history than those of any other customs district in New England.

That the largest two fires which ever occured in this city took place Dec. 29th, 1802, and Dec. 23d, 1813, the custom house being destroyed on both occasions.

That it is nearly eighty-one years ago that the Spanish ship Concepcion was wrecked on the Isles of Shoals, all her crew perishing.

That Mr. Charles W. Shannon is a candidate for the vacant place on the police force.

That Hon. Frank Jones, who has been suffering for some days with a bilious attack, is rapidly improving, and will soon be out.

NORTHERN MUTUAL RELIEF.

Gov. Wentworth Branch of the Northern Mutual Relief Association was organized in this city on Thursday evening last with forty members. The following officers were elected for the ensuing term:

Frank H. Warren, president;
John L. Randall, vice president;
Samuel Dodge, secretary;
Mrs. Samuel Dodge, collector;
John C. Stevens, treasurer;
Mrs. Lucy K. Lord, marshal;
Mrs. James Sanborn, chaplain;
Mrs. John Woods, sentinel;
William P. Walker, John Woods, James Sanborn, trustees.

The order is designed to take the place of the Golden Cross.

PORTSMOUTH IN FUTURE DAYS.

NUMBER ONE.

Mr. Editor: Your correspondent "F. W. H." seems satisfied in going back a few years, and gives us an idea of how they lived in those days. For myself I would rather follow in the line of thought suggested by one of the returned sons at the last reunion, when he took a look into the future and saw ocean steamers alongside of the immense docks which stretched from Dover point to the sea, said steamers taking in immense cargoes of grain from the west, and destined for various ports in Europe. I presume W. E—— intended that previous to that time the old Portsmouth bridge was to be removed, for the purpose of giving free passage to the steamers on their way up and down the river. Of course there would be no need of the bridge, because the ferry started by A. Stevenson, Esq., of Kittery, Me., will furnish all the transportation needed, and the grand transcontinental railroad inaugurated by Jay Gould and others, with the Maine Central, Eastern, and New York & Boston Air Line, will not be content with anything short of a suspension bridge across at Freeman's point, thus doing away with the old wooden bridge.

Of course in those days, on account of limited harbor room, a breakwater will be built reaching to Whalesback light, thus giving us additional room. Water for Portsmouth will be obtained by tapping Merry Meeting pond, through an act of the legislature secured by the persistent lobbying of Gaffney of Rochester. Knight's boulevard will not only encircle the south pond, but will be continued on across South road past the old Gov. Wentworth mansion, crossing Sagamore creek near its mouth and continuing on to the beaches, over which will run horse cars every five minutes. The whole city will be lighted by electricity furnished from the Portsmouth Machine Co.'s works, which will employ several thousand hands.

In those days the descendants of Hon. Frank Jones will reap a harvest on account of the wisdom shown in buying so much suburban property, for I plainly see Portsmouth outstripping all her sister cities in the state. Then will the navy yard cease to be a burden, and contractors will go about making contracts without a fear of being embarrassed by all their help being taken on the yard.

MUNCHAUSEN.

DEATH OF GEN. HOITT.

Gen. Alfred Hoitt, one of the most widely-known men in New Hampshire, died at his home in Dover on Friday, of pneumonia, in the 78th year of his age. He was a hotel keeper in the old stage-line days, and later an extensive farmer in Durham; and a four years law-suit with the Boston & Maine railroad for burning his buildings, in which he beat the road, is well remembered. He was a major general in the old militia, and a leading democrat. In 1828 he married Miss Susan Demeritt of Northwood, who died in 1877; she bore him thirteen children, twelve of whom are living. In 1879 he married Mrs. Mary A. Smart of Boston, who survives him. General Hoitt leaves a large estate.

Excursion rates to Boston to-day on the Eastern road. Excursion tickets *not taken* on regular 7:15 A. M. train; special train at 7:30—or go by any later regular train. See advertisement.

"Hearts of Oak," with its pathetic story, beautiful scenery and stage effects, and live baby, will be presented at Music hall on Tuesday evening next. Tickets at Goodrich's now.

The Dover district preachers' meeting will be held in the Methodist Church, Portsmouth, Nov. 12th and 13th. The opening service will be preached Monday evening by Rev. Wm. Eakins of Rochester. All are cordially invited.

The benefit concert for Miss Fannie Hoyt takes place on the evening of the 14th of this month. The following talent has been secured for that evening: the Bernhardt Listeman Company; Prof. Hiendel, flutist; Mrs. H. F. Knowles, soprano; Mrs. E. M. Huntley, reader; Miss Florence Whidden, piano soloist, and Mrs. Geo. P. Philbrick, accompanist.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

1831 THE CULTIVATOR AND Country Gentleman 1884

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of Contents, in extent and ability of Correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,

Horticulture & Fruit-Growing,

Live Stock and Dairying;

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Legal Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon most branches of husbandry of all questions—*When to Dig and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

Although the COUNTRY GENTLEMAN has been GREATLY ENLARGED by increasing its size from 24 to 28 pages weekly, the terms continue as heretofore, when paid strictly in advance: ONE COPY, one year, $250; TWO COPIES, $450; and an additional copy for the year free to the sender of the Club; TEN COPIES, $20, and an additional copy for the year free to the sender of the Club. ☞ All NEW Subscribers for 1884, paying $2 advance now, WILL RECEIVE THE PAPER WEEKLY, for the remainder of the year from the time of subscription, WITHOUT CHARGE.

MEDICAL.

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS,

IN 1879 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were as large as one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with putrid matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering became intense. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED,

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1879, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast there was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring blotches, Itching Tetters, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet so efficacious as the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

The court of queen's bench at Dublin, Ireland, has compensated several persons whose property had been damaged to provide fuel for bonfires during the rejoicings over the news of the murder of Carey by O'Donnell.

Near Kansas City, Mo., Nov. 8th, a farmer named Henry Clay Magee, a man of violent temper, murdered his wife and twenty-years-old daughter by shooting them with a shotgun, and then took poison.

In San Francisco, Nov. 8th, Aggie Hill, or Aggie Sharon as she claims to be, refused in court to produce the alleged marriage contract until informed by the judge that if she did not it would be ruled out as evidence, and only regarded as waste paper. She then produced it. Senator Sharon, after seeing it, denounced it as a forgery in such indignant terms that the judge ordered him to be removed from the court. The document will remain in the possession of the clerk of the court until a large photograph of it is taken.

Mrs. Joseph Perkins, of Exeter, on the 8th inst. had a large cancer removed from her breast by Doctors Bolton and Hale of Newburyport.

A rather cynical lady, somewhat of a flirt, says most men, like colds, are very easily caught, but difficult to get rid of. Her mistake is apparent. Dr. Bull's Cough Syrup will cure any cold however stubborn it may be. Price 25 cents.

The house and outbuildings of James M. Muggett of Sandwich took fire on Monday morning, the 5th inst., from a heifer breaking a lantern, and were entirely consumed. Loss, $1800; insured $1100.

Vox Populi.

The voice of an intelligent people declares, that *Sozodent* is an article of genuine merit, and their patronage confirms what their voice proclaims. There is no gainsaying this pronunciamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity, and assuredly none exerts such a beneficent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

The Peril of Bangles.

Bangle-wearing is again becoming fashionable. Young ladies' arms are beginning to look more than ever like the arms of malefactors loaded with fetters. Charles, Albert, Willis, Fred, James, Harry, Aleck, Bertie, De Witt and Chrissy are besieged more vigorously than of old for every coin from a 5-cent silver piece to a golden eagle, with their monograms engraved thereon to add to bracelets and necklaces.

The reviving passion for bangles is probably innocent enough in itself. But it has been the means of leading an honest tradesman to the very threshold of the State Prison, and of plunging a worthy and affectionate family into grief.

An industrious and enterprising Yankee in Massachusetts, marking the growing bangle passion, conceived the idea that it would be just the thing to supply the beleaguered swains with a cheap imitation of $5 gold pieces, on which they might have their initials engraved for presentation to their fair supplicants. So he had a die made after the pattern of a $5 coin, struck off a number of metal pieces, and carefully plated them with gold until they looked the counterpart of so many coins fresh from the mint. Just as he was prepared to put them on the market it was suggested to him that he might be favored with a visit from the police and a trial before a United States court.

The horrified jeweler at once came to New York, visited the Chief of the United States Detective Service here, and told him his dilemma. The jeweler was informed that he had narrowly escaped free board at the Government's expense. But as the man was evidently honest, he was told that his only penalty would be the surrender of the dies and all the medals, and the loss of their cost and his time. Delighted with such an easy settlement, the alarmed Yankee readily complied with the terms, and the imitation gold pieces, instead of adorning the arms of budding beauties, were ruthlessly cast into a smelting pot.

But for this *contretemps* they might have melted hearts instead of being themselves melted, and have led many young persons into the bonds of matrimony. Instead of releasing one individual from the danger of bonds of a very different description.—*New York World.*

Two Women.

The unhappiest woman I know, says a New York correspondent, is a brilliant woman of semi-Bohemian literary society. Envied, but not enviable, admired but not loved. The wittiest woman of her city, her *bon mots* are the cleverest at the clubs. A clever and thinking woman, her work is as clever as thoughtful. She says: "I rather be the weakest, least talented woman in the world; the honest wife of an honest man, who would love me and let me love him, than the most beautiful, successful woman in the world. I would rather be the slave of a household than a queen usurping masculine rights."

The happiest woman I know lives in a small one-story cottage, behind which are two rows of corn and a patch of sunflowers, and a little brook that thirstily hurries along to find more water. All she has in the world to "protect" her is the strong-limbed, hearty, unambitious husband, who pauses but few times from morning until night even to wave a willing hand at her from a small marble quarry two rods away. She says: "I will work for Tom in my way, but he must work for me. A woman who will, may."

Slaughter Bassett, of Lexington, Ky., paid $5 for the front door sill of the old court house at that place when the building was torn down. It is of stone, and is prized by Bassett because Henry Clay and Aaron Burr stood upon it when the latter asked Clay to defend him, and he pledged his honor that he was innocent of an attempt at a Western conspiracy. Receiving the pledge, Clay appeared in Burr's defense, but afterward declined to speak to him when he found out that Burr had lied.

The Cherokee Rose.

A pleasing feature of Florida is the beautiful and fragrant Cherokee rose that abounds in the whole peninsula. The Cherokee tribe of Indians dwelt from 500 to 1,000 miles further north, in what is now North Georgia, and in adjacent regions, now comprised in Tennessee and North Carolina. How came the Florida rose to bear the name of Cherokee?

The legend is that the Seminoles, living in the low country, now Florida, went on the war-path against the Cherokees, entered their country and fought a battle. A young Seminole brave was taken prisoner and carried to the wigwam of a Cherokee chief. He was doomed to be put to death. But the custom of the tribe was not to execute captives when sick. The young warrior, being sick, was spared till he should recover, when death would be inflicted on him. The chief had a daughter that attended him in his illness, and the two fell in love. When convalescent and able to travel, the young brave determined, with her connivance to make his escape and return to his own people. She consented to elope with him. One dark night they started from her father's abode. After they had gone some distance the young woman stopped and expressed an earnest desire to go back to her home and bear away some memento of the place. Retracing their steps, she plucked a small rosebush that she brought away. They carried it to the Seminole country, where, being replanted, it grew and flourished. From this root the variety was propagated, and, in course of time, it spread through the peninsula, where it thrives and blooms at the present day. It is universally styled the Cherokee rose.—*Galveston News.*

A Muskegon, Mich., youth has married his uncle's widow.

"Mamma," observed a flaxen-haired little girl who resides in an elegant North Side mansion, "I am 7 years old now." "Yes, my love," responded the fond mother, as she gazed upon the face of her child. "Well, then," responded the midget, "in eight years I will be 15 years old, won't I?" "Yes, darling." "And then I will have to have a beau, and oh, dear me, how I go round . . ."

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!

From 228 lbs. to 120! I had been doctoring for, my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 5, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. "Fortune's Fool," by Julian Hawthorne. Boston; James R. Osgood & Co.; pp. 470.

This novel hardly falls within the prescribed rule which requires this kind of tale to depict things as they are, or might be. In the book of Mr. Hawthorne we are introduced to impossible characters, and are told of events that never could have happened. In his female characters there is much that is unwomanly. What woman will believe that a woman possessing the powers and will of Madeline should make such confessions of her love for the outlaw Sinclair, whose wickedness was too apparent to all the women he met in London. If the men and women whom Mr. Hawthorne has studied are made of such stuff, he should have somewhere discovered and produced a bright and shining light of a true man or woman, to have given a better hue to his picture; as it is, the work fails in attraction for want of an honest, loveable character in contrast with his average man or woman, who are found to be more or less repulsive, so much so at times as to sorely try the reader's patience as he falls on one sin after another in this at times unpalatable relation.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. E. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster-General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of Prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, i. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900

A Naval Lobby.

There is said to be a great deal of chafing at the navy department in Washington over an order recently issued by Secretary Chandler, directing that in the future all communications be directed to the "secretary of the navy." The milk in that cocoanut was to practically abolish a fungus which had grown up in the department, and called in the service the "office of detail." Commodore Walker was at its head, and he had taken practical control of the disposition of the entire personnel of the navy. In order to get a good billet it was necessary to be solid with Walker. If a bad billet had to be filled it always so happened that none of Walker's friends were "available," as the phrase went, for the "detail." At least so the story runs. This thing had been going on so long that it had become one of the traditions of the service.

What brought about the change is alleged to have been a sudden discovery made by Mr. Chandler that Washington was being packed for legislative purposes through this "detailing" operation. Every officer who was known to be opposed to certain legislation by Congress was being dispatched on distant service, and those who favored the enactment of these laws were either assigned to some bureau in Washington or recommended for a few months' leave, so as to be handy when needed. In this way, it is alleged, the secretary found that an overpowing lobby was being fixed up for the influence it would bring to bear upon Congress.

A Big River and Harbor Bill.

Major Gen. H. G. Wright, chief of engineers, has submitted to the secretary of war his annual report of operations carried on under the direction of the engineer department. The appropriations recommended for the next year aggregate $36,730,485, and include the following: River and harbor improvements according to estimates of amounts that can be profitably expended during the year, $32,115,285. Examinations and surveys of rivers and harbors and contingencies for which there is no special appropriation, $150,000. Sea coast and lake frontier defences, $3,688,000. Construction of casemates and cable galleries for defences in Atlantic harbors, $200,000. Purchase of torpedo material for storage in San Francisco harbor, $500,000. Surveys and reconnaissances on military divisions and departments, $50,000. The sums called for to be expended on river and harbor improvements are to be applied as follows: Rivers and harbors of the Atlantic coast, $10,722,300; rivers and harbors of the Pacific coast, $1,978,000; rivers and harbors of the Gulf coast, $3,854,600; western rivers and harbors, $9,088,485; rivers and harbors of the Lake region, $6,474,900.

Fat Men.

Flesh is materialized philosophy. Fat men are nearly always philosophers. Dickens challenged the world to point out a mob of fat men, and, although I was not as well acquainted with Mr. Dickens as I am with certain active young fellows who visit me the first of every month, yet I agree with him. I never saw a mob of fat men. I never saw a fat man hung. Once in Kentucky a fat man was sentenced to be hanged, but when an appeal to the supreme court was taken, the judges, who were too fleshy to pull on a boot comfortably, told the condemned man that he was too fat to be hung with any degree of pleasure, and consequently gave him a palm leaf fan and sent him to the penitentiary to await a pardon, which was not long in coming. It was afterwards proved that the fat man was innocent.

History shows that all philosophers were fat, that is, history proves that some of them were fat and that others should have been. Do not understand me to say that great flesh is to be desired. Flesh is more essential to society than it is to salvation, and we know that the scriptures inform us that flesh and blood cannot enter the kingdom of heaven. I do say, though, that flesh is conducive to philosophy, for none but the philosopher can enjoy an excess of adipose tissue. When a man discovers that he is getting fat the revelation does not impart a thrill of pleasure. For some time he has noticed that his appetite is unusually good, and he has occasionally detected in himself a disposition to talk of beefsteak and to read with pleasure the old English novel where great roasts are described in detail. His friends used to ask, "How tall are you?" but now they want to know how much he weighs. He is annoyed. He does not contemplate with satisfaction the gradual filling up of his "weskit" and the tightening of a coat which was once too large for him. He decides to diet himself, but he soon abandons the idea.

"I never saw a fat man gain flesh so fast," says a friend, meeting him at the governor's reception. "Why, only a few years ago you were as slim as a rail. How much do you weigh, anyhow?"

Another man comes along and says, "Hello! When are you going to stop growing?"

"Well," he finally meditates, "I am fat, and I can't help it. A man who's going to be fleshy will be in spite of everything he can do. I don't intend to let it bother me."

After this life is much smoother. He finds himself laughing heartily, and he reads humorous works with a zest he never before experienced. He is a philosopher now; not on account of mental maturity; not that he has learned to place the proper estimate on the world's pleasures, but on account of his flesh. The resignation, the calm resolve to take life as he finds it and to do the best he can, a resolution which nothing but his flesh could so well have produced, have made him a philosopher.—*Opie P. Read, in New York Mercury.*

Eccentricities in Art.

One of the cleverest satires on the impressionists I ever heard of was "La Cigale," a farce produced in Paris some years back. The hero is an impressionistic painter. You see him in his studio surrounded by monstrosities, paste daubs and smears of absolutely no intelligibility surround him in chaotic confusion. He displays them to a poor picture buyer. One immense canvas is covered with dirty yellow paint. The only object visible and comprehensible in it is a huge knife in the foreground.

"Very fine," says the visitor dubiously, "but what is it?"

"That, my dear sir," answered the painter, "is a London fog."

"Ah! to be sure. But pardon me. The knife there, eh?"

"That is to express the quality of the—to show that it is thick enough to be cut, don't you see?"

Another eccentricity of genius is a canvas across one-half of which is a flat smear of vermilion, while the other half is similarly decorated with indigo.

"Now, there," says the painter, "is my greatest work. It is my *chef d'œuvre.*"

"Indeed! Very fine it is, too. But, pardon me. I am not an artist, you know, and I look to you for information."

"Certainly, certainly."

"Now, what does that picture represent?"

"What! Is it possible you do not recognize the ocean, with its sunset sky suffused with blood, and the great dark sea rolling beneath in all of its immensity?"

"To be sure. Fine—very fine, indeed."

"But that is not the best of it. That picture is really two pictures in one. All you have to do is to turn it upside down. Now look at it."

"Wonderful! Wonderful! But, really you must excuse me if"—

"What? Do you not see it?"

"Well, the fact is, I am a little near-sighted."

"Why, it is the desert—the vast and melancholy desert, with the blue sky above and its red sand below."

"This is very extravagant, isn't it? Yet, at the last water color exhibition, one of our artists spent half an hour in ecstatic admiration of one of Currier's contributions which was standing upside down.

There is another hit in "La Cigale" which is too good to be passed by. A canvas is shown which has no meaning whatever. It is simply one diabolical and incoherent smear. The visitor asks what it is. The painter is in a quandary. He absolutely does not understand it himself. Suddenly an idea illuminates him.

"The name must be on the back," he says. The visitor turns it and reads:

"A landscape."

"Ah!" says the painter, with a sigh of relief. "That's it. It is a landscape."

And he proceeds to expatiate on its beauties.—*New York News.*

"Why, Mr. Smith!" exclaimed a young lady, what's that on your lip?" "That!—oh, thath a muthache. It hathn't been growing long. It ithn't long enough to bite!" And Mr. Smith's eyes made a desperate effort to twist one end of it into his mouth. "Ah, then there's no necessity of being afraid of it," said the young lady, demurely drawing closer. Mr. Smithers didn't know what she meant.—*Old City Dispatch.*

"Kittyleen:" by Sophie May, author of the Dotty Dimple Stories," etc. Boston; Lee & Shepard; price seventy-five cents; sold by Goodrich, No. 1 Market street.

This is the fifth volume of the "Flaxie Frizzle" series. [We hope the little ones can master the pronunciation.] The confiding mother, to whom the author commends her story is informed that it deals less with the little child whose name it bears, than with F. F. herself, Kittyleen being all through the book an interpolation. The book is proper in its style; it aims to show the improvement in Flaxie's character under proper home influence, and cannot fail to interest the happy girl who is its possessor.

Alfred, count of Salm, eldest son of Frederic, prince of Salm, one of the wealthiest of the German nobles, left his home last year because the prince would not allow him to marry an untitled lady on whom he had set his affections. Recently he was found at work as a day laborer on the Illinois Central railroad, and the prince sent over an agent who settled the dispute, and induced the count to return.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are willing all and declare that it is a medicine possessing all and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts all the machinery of your body into working order. WILL CONVINCE

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen.—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. F. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a running appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

THE WEEK OF PRAYER.

The annual Week of Prayer under the auspices of the Young Men's Christian Associations commenced on Sunday, and ends next Saturday evening. There will be a meeting in the Middle street church each evening throughout the week.

Topic for Monday, Nov. 12th: "Opportunities: Used. Zaccheus. Luke XIX: 1-10."

ACCIDENT UP THE RIVER.

The schooner J. P. Nickerson, John G. Tyler master, 59:91 tons register, of Deer Isle, Me., on the evening of the 6th inst. finished loading at the brickyard of J. H. Mathes in Eliot, and hauled out into the stream, where she laid at anchor until about ten o'clock in the forenoon on the 9th, at which time she weighed anchor and started down the river under foresail and jib, the wind being light and fair at the time, and the tide running down.

After proceeding about two miles down the river, the scheoner's yawl being out ahead at the time, towing, the wind suddenly changed from north to south, and filling the jib, swung the vessel's head toward the shore; the jib was hauled down in a hurry and the boat ordered to point the schooner's head off shore, but the tide carried her to the edge of the channel, where she struck a rock of whose existence nothing was known until the vessel brought up against it, it making no show on the surface.

The schooner struck the rock with her bilge, and heeled over so as to wet most of her deckload; much water also got into her hold, and she partially slipped off the rock toward the channel, and filled, her keel resting on rocky bottom. Scows were sent for to aid in getting out the cargo, which consisted of about 50,000 bricks, consigned to George E. Frost of Neponset, Mass. On Saturday, the 10th, Capt. Tyler was in this city and noted protest.

MORE WATER.

The "Master Lane place" in Newington, recently purchased by Hon. Frank Jones, has upon it fine springs which it is said a Boston engineer judges to be capable of supplying a large town with water. The source of this water is reckoned to be fifteen feet above the floor of the Jones brewery, and it is stated that Mr. Jones intends to bring in the water for use in that establishment, as well as for the Rockingham house and other buildings of his. Still another report is to the effect that next spring a stock company will commence operations with a view of supplying to this city from that source an abundance of water, at a price to users much below that charged by the Portsmouth Aqueduct Co.

"HEARTS OF OAK."

This play was presented in Manchester last Wednesday evening, to a large and interested audience, and the *Mirror* says "in the last half of the play the situations are so intensely pathetic that the closest attention is held. * * * There is one feature of the entertainment which eclipses anything of a similar nature ever witnessed here, viz., the acting of the little child, Maud Thompson. Her naturalness and methods of voice and bearing were wonderfully fine. Her aptitude for the stage is most pronounced. She won the audience, and was warmly received." The *Mirror* adds that the last part of the play in particular is strongly written, and well calculated to chain the hearers' attention.

At Music hall to-morrow evening. Tickets at Goodrich's.

GOSSIPS SAY

That smoke issued from the big chimney on the Kearsarge mill lot, on Saturday last, for the first time since the big mill was destroyed by fire three years ago.

That the latter smoke was occasioned by the testing of the new boiler and engine of the Portsmouth Machine Works.

That the engine is from the celebrated Corliss Engine works of Providence, R. I., and was set up by one of the workmen who had charge of the mammoth engine at the Philadelphia Centennial Exposition.

That the last discharge of watchmen at the navy yard was to give place to veteran soldiers, and that the said veterans will be soon appointed.

That the new appointees will be from the Maine side of the river, as were most of the former watchmen, recently removed.

That measels are very prevalent among the school children at Kittery Point.

That there are several cases of the same complaint, and of diphtheria, in this city.

That Dr. S. C. Whittier is to move into the house No. 87 Congress street, lately occupied by Miss Rand.

That November thus far has been the mildest month of that name for several years.

That a new daily paper is shortly to be issued from the Portsmouth *Journal* office.

CITY OF PORTSMOUTH.

In the year of our Lord one thousand eight hundred and eighty-three.

An Ordinance raising and appropriating a certain sum of money for the purchase of horses for the Street Department.

Be it ordained by the City Councils of the City of Portsmouth, as follows:

The Mayor is hereby authorized to negotiate a loan on the credit of the City of Portsmouth, at a rate of interest not exceeding five per cent., and for a period of time not exceeding one year, for the sum of one thousand dollars, to be appropriated for the purchase of three horses for the use of the Street Department. The said sum to be included in the next annual appropriation.

Passed Oct. 25th, 1883.

ALBERT R. JENKINS,
President Common Council.
JOHN S. TREAT, *Mayor.*

THE RAILROAD TAX.

Of the $190,870.46 railroad tax, $89,001.67 goes to the state, and the balance to the cities and towns in proportion to their number of resident stockholders, according to the basis of distribution as recently completed. Concord will receive $20,231.08 as its share; Manchester, $16,177.40; Nashua, $6,044.79; Keene, $4,691.02; Portsmouth, $4,083.29; Dover, $3,322.61.

The concert to be given as a complimentary benefit to Miss Fannie P. Hoyt, the talented young violinist so well and favorably known to the lovers of music in this vicinity, will be a grand opening of the concert season at Music hall next Wednesday evening. In addition to the eminent musical talent and a superb elocutionist from Boston, Miss Hoyt will have the assistance of Florence P. Whidden, daughter of Langdon Whidden, Esq., of this city, an accomplished piano soloist whose wonderful natural gift has been developed to a degree approaching perfection, under the tuition of the famous Prof. John Orth of Boston. The entertainment will be one that will reflect credit upon the good taste of the originators and managers.

Eighteen minks were trapped in one night recently along the shores of Great bay, by Joseph Hoyt of Newington.

More seedweed has been thrown up lately on the beaches at Rye than for several years past; and the roads being in good condition, many farmers from other towns, as far away as Stratham and South Newmarket, have been to the beaches with their teams to help gather the harvest.

The working hours on the navy yard will be changed to day, the men commencing work a half-hour earlier in the morning, and knocking off a half-hour earlier in the evening, than during the summer.

The space in which the old ships were so long moored at the navy yard presents a different appearance since the ships have left the service and have been towed away to other ports; and while the chief of the bureau of yards and docks is obliged to ask for such large sums to dredge around the navy yard at New York and other stations, we can afford for naval vessels plenty of deep water attainable without resorting to artificial means.

The U. S. S. Marion will come out of the dry dock at this navy yard on Tuesday, and will require about four months to be fitted for sea.

The large number of persons who attended the exercises in Music hall on the evening of last Memorial day, will remember the little girl who rendered very finely, in costume, a selection from "Hiawatha." The bright little miss was Sophia Olive Hoyt of Newington, and last week, on the tenth anniversary of her birthday, Davis Brothers took a large photograph of her in the costume she wore on the stage, and will have the picture on exhibition at their rooms for a few days.

The schooner Enterprise, of Machias, Me., which brought a cargo of coal for E. F. Sise & Co., was loaded with apples for Eastport and Calais, at Appledore wharf last week, and sailed Saturday.

An unknown man who was struck by an Eastern railroad train at Beverly, Mass., Wednesday evening of last week, turned out to be Amos F. Pinkham of Essex, formerly of Salem. He died Thursday morning.

Among the appropriations asked for by the engineers of the army for sea coast defences are $86,000 for Portsmouth harbor and the navy yard at Kittery; $300,000 for Boston harbor and the Charlestown navy yard; $297,000 for Portland harbor.

On Friday evening, in Exeter, an elderly citizen named Owen Cunningham was knocked down and beaten, and robbed of $17, by three tramps. Wm. Broderick alias John Kelly of Newburyport, and John McCarty of Boston, have been held in $2000 each for the crime. The third thief escaped.

An investigating committee reports to the directors of the Rutland railroad, in Vermont, that during the sixteen years that John B. Page and Joel M. Haven were respectively president and treasurer there was much improper work going on with the funds of the road, and that the assets are over a half a million short.

In the United States Supreme court last Friday argument was begun in the case of Ellis et al., appellants, vs. Jefferson Davis. This is a suit brought by the next of kin and collateral heirs of the late Sarah Ann Dorsey, of Louisiana, for the purpose of setting aside the will by which said Mrs. Dorsey left all her real and personal property to Jefferson Davis. It is maintained by the heirs that the testatrix at the time when she made this will was not of sound mind, and that she was subject to undue influence.

George Trumbal, an ex-soldier, who left the home at Togus, Me., to spend $1,800 of pension money in riotous living in Boston, has died from the effects of his debauch.

—"What do we learn from the parable of the seven wise and seven foolish virgins?" was recently asked in a Texas Sunday school. "That we must watch every hour for the coming of the bridegroom," a blushing Galveston girl replied.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

The Little Widow Briggs.

A span of ponies attached to an emigrant wagon, containing a woman and three children and various household goods, halted on Grand River avenue yesterday to have a blacksmith set a shoe for one of the horses. As the woman seemed to be alone, or at least had no man in sight, the smith asked:

"Old man sick?"

"No, sir; I buried him up the country a year ago."

"Then you are a widow?"

"I reckon I am, and my name is Briggs."

"Which way are you jogging?"

"Going southwest—maybe into Indiana."

"Got sick of Michigan?" continued the smith as he pared away at the hoof.

"Well, the State is good enough," she slowly answered. "Some mighty fine land, good schools and tolerable weather, but I had to get out of where I was. I lost a pound a week right along for the last three weeks."

"Ague?"

"Humph! I'd like to see the ague upset me! No, sir! My husband wasn't cold before I had an offer of marriage! It wasn't a month before I had three of 'em. Why, it wasn't six months before their tracks were as thick around my house as cat-trails on the snow!"

"Had your pick, eh?"

"Pick! I could have married anybody from my hired man up to a chap who owned a section of land and four saw-mills. They came singly and in droves. They came by day and by night."

"And you—you——?"

"Say, you!" she exclaimed as she drew herself up, "do I look like an idiot?"

"No, ma'am."

"Well, when I fling my three children at the head of a second husband and give up the $800 in cash in my pocket you can call me an idiot. No, sir! I repelled 'em."

"And they got?"

"They had to. Susan, hand me that second husband repeller. It's in the back end of the wagon."

The girl hunted around and fished up a hickory club four feet long, and the woman held it out for inspection and said:

"There's hairs of six different colors sticking in the splinters, and these blood-stains are the pure quill. You can judge whether they sat there and made love, or tore down the front fence in their hurry to reach the woods."

"My George!" whispered the smith after a long inspection. "Well, I guess you don't want to marry."

"K'reet, sir. If you have any old widowers in this town, or if you know any one between here and Indiana who wants a headache that will last all winter without any letting up, just put 'em up to begin to ask me if my heart don't yearn for love and my soul rattle around for some one to call me darling!"—*Detroit Free Press.*

Mrs. Siddons and Her Porter.

On one excessively hot evening, when playing at Leeds, Mrs. Siddons, while behind the scenes, exhausted by thirst, desired to have some porter. Her dresser dispatched a boy in great haste "to bring some beer for Mrs. Siddons," at the same time charging him to be quick, as she was about to go on the stage. In the meantime the play, of course, proceeded. The boy, on his return, looked in vain for Mrs. Siddons. She had gone on with her part, and the scene shifter, to whom he applied, pointed to her where she was treading the board in death-like solemnity as Lady Macbeth in the sleep-walking scene. To the surprise and horror of all the performers, the boy, with the frothing pot in his hand, promptly walked up to her and offered it. She attempted to wave him away, in her grand manner, without effect, but the absurdity had now caught the general eye. The people behind the scenes, by dint of beckoning, stamping, and calling in half-audible whispers, at length succeeded in getting him away spilling, however, part of the beer in his exit. But the audience were in roars of laughter, which nothing could quell for some minutes.

A Little Mourner.

A common-looking dog dead in a gutter is a repulsive object. Past such a one people were hurrying when a diminutive boy, thinly clad, and hobbling on a crutch, calls, "Here, Bowser," and then taking in the situation, dropped his crutch, and kneeling by the dead dog, cried as if his heart was broken: "Oh, Bowser, is you dead, and can't go home with me?" It took but a moment to change the expression on faces from one of contempt to that of pity and sympathy. The boy was but a poor waif, but he kneeled by the side of his best-loved earthly friend, and he was dead. Merchants and well-dressed ladies stopped with kind words and expressions of sympathy for the little mourner. One gentleman, appreciating the grief of the boy, called an expressman and told him to take the boy and his dead pet to his home, or to some place where he could be buried, as the boy might direct, and call upon him for the pay. The burying of a dog is not much, but the binding up the wounds in the heart of that poor boy on his crutch was as act worthy of permanent record.—*Chicago Inter-Ocean.*

Something Wrong.

"This example isn't right," said a Detroit school boy to his teacher, as he exhibited his arithmetic.

"How so?"

"Why, it figures the interest on $300 at six per cent."

"Well, isn't that all right?"

"No, ma'am. Pa always figures on thirteen per cent., and if there are twenty-four days over he calls it a month! I guess this is a misprint."

Dismal.

The three brothers, Solomon, Jacob and Joseph Benjamin, stood in their shop discussing the day's earnings.

"Und dot military goat wid gold buddons, how much, eh?" said Solomon, the eldest brother and head of the firm.

"Six tollars und a hallef," said Joseph.

"Is dot all he gif you?" exclaimed Solomon in an agonized tone. "I paid sefenty-fife cents for dot goat! We sre ruint gompletely."—*N. Y. Life.*

An important decision relative to life insurance was rendered a few days ago by the Supreme Court of the United States, Judge Gray giving the opinion. The court holds that a self-killing by an insane person, understanding the physical nature and consequences of his act, but not its moral aspect, is not a death by suicide within the meaning of a condition in a policy of insurance upon his life, that the policy shall be void in case he shall die by suicide. This settles a question of much consequence to the assured. A man who pays insurance through a long life, and finally becomes discouraged, low-spirited, insane, and takes his life without being capable of judging of the moral nature of his act, commits no violation of the terms of his policy, but this is one of the contingencies against which he is insured. The decision in its result will serve to strengthen the position always maintained by the ablest insurance commissioners as well as the shrewdest business men, that legitimate life insurance is the only safe and judicious process by which a man or his family can profitably receive a return for payments to this end.

A fish-hook in your flesh, a scissors blade in your left thumb, a sprained ankle from a mis-step on a loose stone, a bruised shin by a slip from a car platform, a cut on your cheek by a clumsy barber's razor, a contusion on your elbow by poking it through a street carwindow, a swelling on your nose from running against an open door in the dark—these are likely to happen without a moment's notice. Thanksgiving Day.

State of New Hampshire.

A Proclamation for a day of Thanksgiving and Praise, by the Governor.

The passing of the year has brought us to that season when, in accordance with the custom established by our godly fathers, we celebrate a day set apart for the public expression of our gratitude to our Heavenly Father for the continued manifestation of His loving kindness and tender mercies.

In conformity with this pious example and honored usage, I hereby appoint, with the advice of the executive council, Thursday, the 29th day of November next, to be observed throughout this state as a Day of Thanksgiving and Praise; and I recommend that the people, refraining from their usual employments and consecrating the day to holy purposes, seek the house of the Lord, and there lift up their hearts in gratitude for the manifold blessings of Almighty God.

It is especially appropriate that we should thank Him for the bountiful harvests which reward the toils of the husbandman; for the success which attends the pursuit of our various industries; for the general health which prevails among our people; for the peace which reigns within our borders; for the increasing usefulness of our schools and the wider dissemination of knowledge; for the preservation of our government and our free institutions; for blessings upon our families and homes; for the benefits of morality and religion; for the providential care of our Heavenly Father over our state and nation; and for the mission of Jesus Christ to mankind.

Given at the Council Chamber, at Concord, this thirtieth day of October, in the year of our Lord one thousand eight hundred and eighty-three, and of the Independence of the United States the one hundred and eighth.

SAMUEL W. HALE.

By His Excellency the Governor, with advice of the Council.

A. B. THOMPSON, Secretary of State.

To the Holders of Certificates of Indebtedness.

THE Voting Register of Certificate-holders is now making up at the office of the Trustees, No. 32 Court street, Boston, Mass. The names of parties to whom certificates were originally delivered have been placed in the register. Any subsequent purchaser or holder desiring to register may do so by presenting at said office, to Mr. JOSHUA CRANE, a written statement of his name, address, and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificate held by him, or a written order from the last registered holder.

In accordance with regulations fixed by the Trustees, the voting register will be closed on the fourth day of December, 1883, between which time and the Annual Meeting, on the second Wednesday of December, 1883, no registration will be made. Per order of the Directors,

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon; then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth, regardless of consequenses, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, post paid as follows:

DAILY—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit $1 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

THE WEEK OF PRAYER.

Topic for Tuesday, Nov. 13th. "Opportunities: Unused. Agrippa." Acts xxvi: 22-29.

"HEARTS OF OAK."

This evening, at Music hall, "Hearts of Oak" will be presented by James A. Herne's dramatic company, by whom the piece has been performed throughout the country for the past five years, everywhere winning public commendation. It is a home picture, and appeals powerfully to the sympathies of the spectators. Tickets at Goodrich's.

A DANGEROUS PLAYTHING.

At Dover point, Monday morning, Oscar Pinkham, aged fifteen years, son of Richard Pinkham, was badly injured, and it is feared fatally, by the explosion of a dynamite cartridge. He had the cartridge in one hand when it exploded, and his arms and body were shockingly torn, and his face disfigured. The windows of the house were broken.

The schooner Mary Willey, Capt. Williams, sailed on Sunday for Bangor, having on board a hundred barrels of apples for that place. On the way down she loads at Portland with corn for Bangor.

There is talk of the bay of the river bounded by Noble's island, the Raynes shipyard, the north millbridge and Batchellor's point, being planted with oysters for the purpose of their reproduction. There seems to be no reason why they would not increase there as well as in Great bay.

Five schooners of the brick fleet arrived from Boston on Sunday, namely, the D. K. Ham, Hattie Lewis, Gold Hunter, Triton and Wave.

A heavy granite facing has been placed by the city at the foot of Dennett street, Christian Shore, and filled in at the back, making a great improvement.

A reception was given to Mrs. Jenness, of the "Bayside," Newington, by her neighbors and friends, on Tuesday, the 6th inst., the occasion being her ninetieth birthday. Mrs. Jenness was born in New Hampshire, of old New England stock, and does not discredit her lineage; she remains in full possession of her faculties, and is still a good housekeeper and laundress; and her appearance does not indicate her advanced age.

The Eastern railroad has ordered 250 Eastman heater cars for the transportation of potatoes in the winter.

The two Keniston boys, arrested in Newmarket several weeks ago on a charge of assaulting the principal of the high school in that town, and inflicting a severe wound on his head, were on Wednesday of last week, after several adjournments of the case, held in $500 each to appear at the April term of the supreme court at Exeter.

"Young Mrs. Winthrop," which is to be performed in Music hall Nov. 23d, is more essentially American than any play yet produced at the Madison Square theatre. It was written by an American author, expressly for an American theatre, and every scene is laid in America, and its production is a fitting example of the success of the strictly American policy pursued by the Madison Square theatre.

Teddy Shea, of Laconia, the third of the three tramps who on Friday night robbed Owen Cunningham on the highway in Exeter, was captured in Haverhill, Mass., on Sunday, and returned on Monday to Exeter, where he was held in $2000 for the grand jury. He was lodged in Portsmouth jail in default of sureties.

There was a brisk snow-squall Monday, and the strong wind made the day a very uncomfortable one to be out in. There were very few people on the streets in the evening.

Our advertising columns to-day contain the prospectus of the New York *Sun*, a bright and lively newspaper, very positively democratic in politics. Those who desire a metropolitan paper will find the *Sun* a good one to take.

It is reported that the three tramps now awaiting trial for highway robbery committed in Exeter on the night of the 9th inst., stopped in the police station in this city one night earlier in the week.

Mr. James Akerman, in the employ of the Eastern railroad at the Hampton station, fell from a car a few days ago, and had several of his ribs broken.

It is rumored that Mr. James B. Trefethen of Kittery has purchased of Mr. Nathan Jones his fine farm at Newington, near the Greenland line.

The house of Mr. E. C. Spinney, of Kittery, was entered on Friday night of last week, by some person or persons unknown, it is supposed with the intention of breaking into his safe. Noises were heard several times during the night, and search made, but nothing was discovered; but in the morning the front door was found ajar, the key being in the lock on the inside, and it is supposed the key was turned with nippers.

Our New York Fashion Letter.

TRANSFERABLE.

The transferability of the jersey is a strong card in its favor, since without the fixity of the dress waist, it may supply the place of the dress waist for half-a-dozen skirts. That pronounced individuality and conspicuousness of plainness which offended many, is now moreover done away with, and upon occasion one may obtain a jersey jauntily finished with embroideries, pockets, bows, plaits, buttons of various kinds, or glittering overcasts of jet beads. Widely have these departed from the original faith, yet jerseys there are as severely orthodox as heart could wish; nor would I wish to seemingly detract from the handsome moulding of a plain jersey, providing always that it be of a fine, pliable fabric. For an ill-fitting jersey is indeed an ill-starred sort of thing; an offence to Divinities and men, and brings disrepute on what is really a benediction to woman. Avoid therefore so-called cheap jerseys. They are not cheap at any price, and even as a gift would be costly.

EVENING TOILETS.

Evening brocades being works of art, it becomes a work of art to know how to wear them; a still greater, to let them alone. Since, with one's purse full of money, Satan himself could not put vaster temptations before a woman's eyes than those delicately beautiful, gorgeously radiant fabrics. The temptation to do wrong lies in the size of the patterns, which are conspicuously large, and there are many who, should they wear large patterns of anything, would commit a mighty sin against good taste. No one indeed could venture to wear an entire toilette of these materials, so without exception we see them combined with rich silks or velvet. And here come in possibilities for some fair saint who has resisted brocades, for she can expend herself on plain silk of rare quality adorned with lace. How great are the capabilities of lace! Doing pretty much whatever you want it to do, and with equal facility, suiting everybody, there being nobody to whom it is unbecoming. Lighter, yet lovely evening goods are Surahs, India and Venetian silks, all thin enough to admit of considerable bunching or a blouse waist; while piquant for small entertainments come white and pale-colored cashmeres, which, trimmed with lace or velvet, serve a season's apprenticeship of prettiness, and then, given over to the dyer, can renew their youth as a walking outfit or a dress for Mamma. Artificial flowers are completely overshadowed by the remarkable brocades. There is no place for them and they are scarce seen or mentioned, an occasional corsage bouquet reminding us that such things are. There are demi-trains and trains, but short round dresses are so extremely convenient (by comparison) that ladies are glad to wear them whenever it is possible.

FURS.

Natural flowers look charmingly on furs, and on furs will be worn. Also on walking or house costumes of dark material, and serve to present that contrast that is so important an element of the aesthetic. Garments of fur have been well nigh supplanted by garments of fur-lined silk. One reason for such pre-eminence is doubtless the demands of fashion regarding length in out-door garments, a moment's reflection sufficing to show that an expanse of fur is a costly thing. So then we have the warmth of fur by using Siberian squirrel with gentel silken outside, while for innumerable cloaks a thick quilted lining does duty with a border of handsome fur. This last idea prevails in cloaks of the redingote and dolman tribes, but the time-honored circulars (as much worn as ever) are always lined with fur, and usually without an outer bordering. Just here, too, I could write quite a tirade against these fur-lined circulars gotten up at very low prices. Have nothing to do with them unless you wish to be covered with cat-hairs whenever you go on the street, while your silk will soon turn gray and rusty. Choose rather a wool garment of good quality. There is much style in these, and great service as well. Wealthy people wear long cloaks of seal skin, but they are prohibited to all but the wealthy.

CLOTH AND VELVET.

Cloth suits with tailor finish are all the go. A capote bonnet of wool to match is stylish and economical, and to such an extent are wool bonnets carried that some are made of a large plaid to match suits of plaided wool. Both are finished with velvet, and this reminds me of the rich outfits of high grade velveteen, that look like velvet; notably one worn by a European celebrity, of the Nonpareil, and which I will describe in my next letter. Gloves and shoes being irreproachable, the *chic* of these outfits is great, and by reference to Lord & Taylor's catalogue, where are different illustrations, I find it possible to wear a shoe at once fashionable and sensible. While in their shoe department, I noticed Button's Raven gloss shoe dressing. It must be recommended, since, although costing a few cents more than other dressings, it is in the end the cheapest because it really does not crack or scale the leather. Gloves are Mousquetaire, ten to one.

LUCY CARTER.

Miss E. H. Tobey and Mrs. Charles R. Smith, doing business as milliners in Newburyport under the firm of E. H. Tobey & Co., have been held in $1500 each, and Charles R. Smith in $1000, to answer to a charge of conspiring to defraud creditors. The firm represented themselves insolvent, and large quantities of goods have been found concealed.

The Government Chemist Analyzes two of the Royal Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of Contents, in extent and ability of Correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,

Horticulture & Fruit-Growing,

Live Stock and Dairying;

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Meteorology and Grangery, Veterinary Replies, Farm Questions and Answers, Firesides Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Interests of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and its mechanical supply is a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

Although the COUNTRY GENTLEMAN has been GREATLY ENLARGED by increasing its size from 16 to 28 pages weekly, the terms continue as heretofore, when paid strictly in advance: ONE COPY, one year, $2.50; FOUR COPIES, $10, and an additional copy for the year free to the sender of the Club; TEN COPIES, $20, and an additional copy for the year free to the sender of the Club.

MEDICAL.

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS

IN 1830 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew no; what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1878, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. RICHARDSON, Cassville, Monroe Co., Wisconsin.

Sworn to before United States Commissioner, J. D. CRAWFORD.

TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring blotches, Humors, Tetter, Ringworm, Pimples, Blackheads and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease may remain, CUTICURA RESOLVENT, the new Blood Purifier, Diuretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures of world renown, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES,

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

The steamer Tallahassee, from Savannah with cotton, turpentine and passengers, arrived in New York on Sunday with her cotton on fire. The loss will be heavy, but it is not known whether the vessel is much injured or not.

Question Your Druggist,

and he will tell you, that there is a greater demand for *Sozodont* than for any other preparation for the teeth. Then ask himself whether an article for which the demand is general and constant, must not possess genuine merit. The mental response will be that it does, since the conclusion is irresistible, that if it did not really polish and preserve the teeth, a discerning public would long since have discovered the fact. It advertises itself.

Pennsylvania and Wyoming Oil.

"Venezuela has boiling oil springs, California has got an oil spring that won't flow a drop of oil in the dark of the moon, and Wyoming has oil wells that are their own storage tanks, and I've seen 'em all," said Captain Jared Fowler, of Venango county, Pennsylvania, to a New York *Sun* reporter in the Astor house rotunda. He has just returned from a two years' tour of investigation of alleged oil fields in South America, on the Pacific coast, and in other localities.

"The best oil region is in Wyoming territory. If ever the time comes when Pennsylvania can't supply enough petroleum to supply the world's demand, Wyoming can step in and fill the bill for a hundred years and not try her best at that. There are nine oil basins in that territory, isolated now, but in easy reach by pipe lines when they are needed. I only visited one of them, but I was assured that the other eight are equal if not superior in prospective capacity to that one. The basin that I saw is called the Shoshone basin. It is about seventy-five miles from the Union Pacific railway, the nearest station being Point of Rocks. This basin covers forty acres, but the company that owns it also owns 400 acres all around it. The Popoagie creek used to flow through it, but its course has been changed by a series of dams. The draining of the old bed of the creek has uncovered between three and five acres of what must have been once a lake of petroleum. This petroleum became hardened and is now a crust of solidified petroleum, two feet thick and covered by probably eight feet of alluvial soil. Wherever this soil is removed, and the crust of petroleum punctured, oil and gas escape at once. No particular effort has been made to market this oil, but the owners have thousands of barrels of it stored in natural tanks. A peculiarity of it is that it all comes from the bottom of an excavation that is made, there being no lateral drainage whatever.

"One well drilled to the oil rock in Pennsylvania may at once exhaust the supply of another well a long distance away, and consequently, the number of wells put down in that state must be based on that fact. I believe one well to every five acres is the rule in Pennsylvania. But in the Wyoming basins a shaft sunk two feet away from another one will not in the least affect the supply of the first. Over 400 wells to the acre can be put down in the Shoshone.

SHAFTING FOR GREASE.

"The way they get to the petroleum out there is by sinking a shaft about ten feet in diameter, down through the alluvium to the crust of the ancient lake. Then they drill a four-inch hole between thirty and forty feet deep. The gas, enough of good volume and abundant, does not spout like oil. It seems to reach its level when the top of the shaft is reached, and it rises no higher. The shaft, therefore, is a round oil tank and holds its contents in storage until they are wanted. The accepted scientific theory is that the true petroleum deposit is a vast lake lying at a depth of 1,000 feet, and that whenever the drill is sent into the confines of that lake the result will be gushing wells never yet equalled. The Shoshone basin oil is black, and in its natural state is a valuable lubricator, having a cold test of sixteen degrees below zero. Its gravity is twenty degrees, and its yield forty-seven per cent. of illuminating oil, thirty-two per cent. of fine lubricator, and twelve per cent. of coke. The Beaver oil basin, which is twenty-five miles east of the Shoshone, is said to produce oil more valuable still than the Shoshone oil. Its nature is different, being of a light yellow color; and of less gravity. The Beaver basin oil has been used for two years in its natural state on the locomotives of the Union Pacific railway, and has taken the place of all other lubricants. The Beaver basin covers an area a mile square, and is owned by the same company that own the Shoshone, the Rocky Mountain Oil, Mining and Transportation company. This company also owns the other seven basins, and if the opportunity ever comes it will be just such a monopoly as the Standard Oil company is now."

Oiling the Straits of Dover.

"Now that the channel tunnel has been temporarily abandoned," a correspondent writes to the Pall Mall *Gazette*, "and there is no definite project on foot for ameliorating the lot of the seasick, why should not the experiment be tried of oiling the straits of Dover? The experiments at Peterhead seem to have been very successful, but like many other successful experiments, they seem to have gone no further and to be—as, for instance, ensilage has been for years—a thing unknown in its practical bearings. How many passenger or other ships in the recent gale employed oil as a means of safety in consequence one would like to know. As, however, there are many more people interested in not being seasick than in saving themselves from the more distant danger of shipwreck, one wonders that something has not been done in this direction. A gallon of oil would be sufficent, say, to cover an acre, and a thousand gallons ample for a square mile. A passage a mile broad would cost roughly £200, or, if done daily, £75,000 a year. Perhaps the oiling would not have to be done daily, as probably after a few weeks the sea would be thoroughly becalmed; but even if it should cost that sum, it would not exceed the endless sum that are now spent in quackeries by intending passengers and advertising the said quackeries, or the incistimable sums which passengers would give when half way across. The straits of Dover might, if necessary, be worked by a concession of the two governments, and ordinary folk relegated to the Boulogne and Folkestone route. The project would, no doubt, meet with patriotic and military objections, but as I am in a mild way a follower of Leigh Hunt's sheikh, I venture to suggest it for further consideration,' as the judges would say.

"Proud of my family, sir?" exclaimed a man. "Yes, sir; I am proud. I am as proud as a boy with two stone bruises."

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 67 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me. HORACE FAIRBROTHER."
Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; he seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours, MRS. EMMA GEDNEY."
189 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRANE."

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."
Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. E. BRAGDON."
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.

NEW BLOOMFIELD, MISS., Jan. 2, 1880.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

In the court at Salem, Mass., Saturday, David Cook, Edward Danforth and James Smart, whose prosecution was ordered by the Salem aldermen for erecting a wooden stable within the fire limits on Sewall street, were each fined $20.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

At Caldwell, Idaho, on the night of Nov. 10th, two men named Brassfield and Bryan were murdered and robbed while sleeping in an unfinished building. They were supposed to have a large amount of money, but had deposited all but $300, which was taken. Two notorious characters known as "Sagebush Jack" and "Whistling Kid" committed the crime, and are under arrest.

At Brighton beach, N. Y., Nov. 9th, two colored jockeys named Montgomery and Anderson had a pistol fight in a barroom; in which they fired ten or twelve shots at each other, Montgomery being killed.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

"For President, Benjamin F. Butler."

The Newburyport *Herald* puts the above at the head of its editorial columns, and announces that "the late election in Massachusetts proves that there is no other candidate for the national democracy to take who can give them the least hope of success in 1884. * * He is the only man. Any other candidate means reaction; Ben Butler means progress."

The Lowell *Times*, occupying the responsible position of "Home Organ," looms for the governor as a presidential candidate, and fears defeat if he is not the democratic standard-bearer.

Yet with comparatively few exceptions, the republican and democratic papers all over the country have decided that Butler was politically killed by the late election. He has often been killed before; the trouble is that he will not stay killed.

The Hartford *Times*, organ of the Connecticut democrats, says: "Butler's defeat disposes of that ambitious but unornamental politician. It is probably quite as well for the democrats." The *Post*, of Pittsburg, Pa., tells how Butler had arranged for a grand labor convention to meet at Pittsburg before the democratic national convention, and nominate Butler, so that the democrats would have to "endorse" him, *a la* Greeley. The *Post* adds: "The defeat of the doughty Benjamin for governor renders his little bit of political manœuvering an impossibility; and we think it involved the only danger to the democracy from Butler's presidential aspirations." The *Post* evidently knows not Joseph—we mean Benjamin.

These are but samples of the general tone of the democratic papers, most of which assume that Butler has received his quietus. Not so Benjamin, who last week had himself interviewed by a Boston *Globe* reporter, and proved that Massachusetts is "not one of the doubtful states, but a very certainly democratic state" in the next national election, provided of course that the right man is nominated. He announced that "somebody is to lead the democracy to victory under somewhat difficult circumstances," and that "a victory for the democracy can only be obtained by uniting the labor element thoroughly with it, where it naturally and properly belongs, and adopting such measures and such platform as will satisfy that element and give us a victory." The natural inference from this is that the democracy must either nominate that horny-handed champion of labor, B. F. Butler, or once again stand a national defeat.

The Louisville *Courier-Journal* remarks that "Massachusetts democrats should let Butler drop forever." But perhaps Butler may conclude not only that he will not let the Massachusetts democrats drop, but that he will pick up the national democratic party and adopt it as his owness own. Things look a bit like this just now.

About 300 of the most prominent citizens and business firms of Boston have signed a request to Gen. A. P. Martin to accept a non-partisan nomination for mayor. If he accepts he will be elected, and Boston will have a mayor who will possess the respect of all classes of people. He was a gallant soldier in the war for the Union, has business ability of a high order, and is a staunch democrat in national politics.

MATTERS IN YORK.

YORK CORNER, ME., Nov. 12th.

A few days ago Deputy Sheriff Stewart arrested Theodore Weare, Jr., on a capias writ in favor of M. Goodkouskey, in which Mr. Goodkouskey claims two thousand dollars damages. Mr. Weare furnished the required bail for his appearance at court.

The ordinance of baptism was performed yesterday by Rev. Mr. Andrews of the Methodist Episcopal church, two young ladies, Mamie and Lisle Trafton, being the candidates.

Under the auspices of the United Order of the Golden Cross, Muchemore's interesting lecture and grand dissolving view entertainment is billed to appear at the town hall on Thursday evening, Nov. 15th, and will give a very interesting and instructive entertainment. We bespeak for them a full house, as the price of admission is low, and satisfaction is guaranteed.

The town hall is to receive one or two coats of paint, and not any too soon, either, for looks or wear.

Considerable painting is being done this mild weather. The parsonage buildings in the Second Congregational parish are being thoroughly repainted, inside and out, to be ready for a new minister, who we learn is soon to come.

Mr. Enan, foreman of Norton's brickyard, has finished burning for the season, having made about two million bricks.

The suit of J. Winslow Jones against C. P. Mattocks, the president of the Winslow Packing company, on trial at Portland, Me., ended abruptly Saturday. Mattocks was charged with misappropriating nearly $100,000 of the company's money. After the respondent's testimony was in the complainant abandoned the case and withdrew his motion for the appointment of a receiver for the company, saying that the bill had been brought under a misapprehension of the facts.

George R. Lambe, hailing from Portland, Me., started the Theatre Comique in Taunton, Mass., on Monday evening of last week, with eight performers, who were brought from Boston. Saturday night he "skipped," leaving the troupe stranded and all the bills unpaid.

DINING ROOM FURNITURE. Shall we have a New Table, Chair or Sideboard for our Dining Room before Thanksgiving Day? We recommend a number of styles just finished at Paine's, 48 Canal street, near the Maine depot, Boston. No one can fail to be suited with just what they want at this place.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething; price 25 cents. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodjan2,84

DEATH OF EX-GOV. HEAD.

Natt Head, ex-governor of New Hampshire, died Nov. 12th, in the 56th year of his age. In November, 1878, he was chosen governor for two years, having previously held many minor offices of trust, and been president of the state senate. As a business man he stood very high; and he was prominent in Masonry, Odd Fellowship, the Grange, and other orders. As adjutant-general of the state during the last year of the war, and later, he did an immense and praiseworthy work. Faithful to all public and private trusts, the soul of integrity in business matters, and of inexhaustible good nature, he will be mourned by a wide circle of friends.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
November 14, 12:00 A. M.

Probabilities for New England:—Colder southwest to northwest winds, light snows and generally cloudy weather falling followed rising barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 38 degrees above zero.

Cloudy.

Facts are Stubborn Things.

Is there anything in any of the numerous advertisements of the Royal Baking Powder to show that the Royal does not use Ammonia and Tartaric Acid as cheap substitutes for Cream of Tartar? Or is there any charge, or the slightest insinuation in those advertisements, that Cleveland's Superior Baking Powder contains anything but the purest Grape Cream of Tartar and Bicarbonate of Soda, with a small portion of flour as a preservative?

Ammonia and Tartaric Acid produce a cheap leavening gas, which is not to be compared, in the practical test of baking, with the more desirable Carbonic Acid gas generated by the exclusive use of the expensive Cream of Tartar.

Use Cleveland's Superior Baking Powder, and judge for yourself of its superiority.

THE WEEK OF PRAYER.

Topic for Wednesday, Nov. 14th: "Opportunities: Improved. The Eunuch." Acts VIII: 26-40.

N. H. S. P. C. C.

At a special meeting of this society, on the 12th inst., the following resolutions were passed:

Whereas, in the Providence of an All-wise and Loving Father, our friend and associate, the honored and efficient President of the New Hampshire Society for Prevention of Cruelty to Children, Charles Wesley Gardner, has been called from his career of usefulness and benevolent efforts here to his eternal home, therefore

Resolved, that in his departure our association has met with a great and irreparable loss, and the cause of humanity is deprived of an able and devoted supporter, whose heart and whose hand were ever ready in all helpful work for the unfortunate or oppressed.

Resolved, that we hereby express our deep sympathy with his bereaved family; and

Resolved, that we will cherish the memory of his many virtues as a precious legacy to the society which he strengthened and adorned.

A STIFF BREEZE.

The velocity of the wind at 11:30 o'clock Monday night, as measured by the government anemometer on Seavey's island, (navy yard,) was fifty miles an hour, and at daylight Tuesday morning was forty-eight miles an hour. This was an unusually stiff breeze, the greatest velocity ever before shown since the anemometer was placed there, some four or five years since, having been forty-five miles an hour. From this, those persons who were awakened about midnight on Monday night by the shaking of their dwellings can form a faint idea of what the dwellers on the top of Mount Washington experience when the wind is moving along at the rate of 130 miles an hour, with the thermometer so much below zero that they have to reach down with a boat-hook to find where it is. The barometer at sunrise stood at 29.65 inches. The wind came down the north pond in junks from midnight to daylight, Tuesday morning, residents along its easterly end momentarily expected it to drive in their windows, but nothing of the kind has been reported to us as having occurred. The pond did not freeze over, though the thermometer at the Creek indicated a temperature eight or ten degrees below the freezing point.

Some time during the night a barn on the Carkin place, near the Gosling road in Newington, occupied by a man named McQuaid, was blown down; how much damage resulted we have not been informed.

A brakeman on the train due here from the eastward at eleven o'clock Tuesday forenoon, was blown from the platform of a car just the other side of Saco. The train was stopped and backed, and the man was picked up, not badly hurt.

During Monday and Tuesday work was suspended on the roof of the Portsmouth Machine Co.'s building, the high wind making it dangerous for the workmen to go there. The stagings around the towers of the building were blown down Monday night.

The gale blew itself out Tuesday afternoon, and the evening was calm and still.

The steamer Nellie sank at her wharf at Alton Bay on Tuesday morning, the wind lifting her bodily by the stern and sending her to the bottom head foremost.

The Summit house on Mt. Kearsarge was demolished; and at Conway a wing of the Intervale house, 160 feet long, and two smaller buildings, were blown down.

The gale was very heavy on Long Island sound. A brig was blown ashore in Newport harbor, and three coal-barges and eight men were lost near Cornfield shoal.

The programme for Miss Fannie P. Hoyt's concert this evening is one of rare excellence. The sale of tickets indicates great interest on the part of our citizens, in the fair young violinist and the accomplished artists who are to assist in the grand musical entertainment to be given in Music hall to-night under the auspices of Osgood Lodge, I. O. O. F. It is seldom that such eminent talent can be secured for a concert outside of Boston or New York.

At a special meeting of the stockholders of the Portsmouth Brewing Co., held on Tuesday, Herman A. Tarlton was chosen proprietors' clerk.

The Portsmouth Machine Co. have voted the third assessment on the subscription of the capital stock, payable on the 15th inst.

Signor Erni, the famous one-legged fancy skater and gymnast, who has just closed his second season with P. T. Barnum's show, will give an exhibition in Franklin hall next Friday evening.

The team stolen from Cochrane's stable some days ago has been recovered, and the thief captured, in Providence, R. I.

The outside work on the U. S. S. Marion at this navy yard was so far completed on Tuesday that the ship was in readiness to be removed from the dry dock, but the weather was not ready by any means, so the vessel was not started.

Capt. Loring Hersey, of Gloucester, Mass., was in this city one day recently, and took a walk on Congress street, accompanied by his son George L. Hersey, by the latter's sons Arthur and Francis, and by the children of the last named two, making a family group of four generations on the street at one time.

The organ of the Unitarian church is being cleaned and repaired by Hook & Hastings of Boston. It will be about three weeks before the organ will again be in use.

The Unity club will hold a fair in Franklin hall for the sale of fancy articles, refreshments, etc., on Thursday evening, the 15th inst. Supper will be served at six o'clock. Admission for adults twenty-five cents.

Samuel D. Lane of North Hampton had thirteen valuable sheep, his entire flock, killed in the pasture by dogs one night last month. This is the third time Mr. Lane has had his flock of sheep destroyed by dogs within ten years, and he feels somewhat discouraged in regard to attempting to continue this branch of the farmer's business.

Capt. George Ingerbretson, of the Isles of Shoals, since the close of his fall fishing has turned his attention to lobstering off the islands. The crustaceans are taken in fair numbers, but run rather small. The most that have been taken from his two hundred pots have been sold to Elvin Newton, and by him forwarded to Manchester.

Mr. Edward Willard left thi citys one day last week by the Pullman train for Cambridge, Me., where he has been employed for six winters past in logging, alternating the seasons by working during the summers in the Piscataqua brickyards. The locality of his winter operations has been in the vicinity of Moosehead lake, about forty miles from the Canada line; his tales are like Thoreau's, but according to his accounts the fish and game laws are not very strictly observed in that region, by the lumbermen in winter, or by anybody else at any other time of the year.

Mr. Reuben L. Lane of Newington, familiarly known as "Master Lane" from having taught school in that town, Portsmouth and Newcastle during the winter terms for many seasons—and an excellent teacher he was, too—has been confined to his house for a long time. Although for many years a well known farm-produce trader in Portsmouth, he has forgotton even the names of the principal streets.

The bowsprit of the Ship Guard having been sawed off at the bow and removed by Capt. Joseph Muchmore, was split to pieces by the use of gunpowder.

Great bay, which was nearly depleted of oysters in such spots as were easily accessible within a few years after it was publicly made known that oysters were to be found there in large numbers, it is said has to a considerable extent renewed its supply. Many of the fishermen gave up the occupation when it ceased to render satisfactory returns, and others were called off to other avocations by the general improvement in business, thus giving the bivalves a chance to increase in numbers and size. Messrs. Jenness and Emery, of Newington, have taken considerable quantities of them this fall off the shores of that town.

The *Journal* says the Congregational church at Hampton has extended a unanimous call to Rev. Lyman Whiting, D. D., lately settled over a church in Charleston, Virginia, to become its pastor. Dr. Whiting was formerly pastor of the north church in this city.

The production of "Young Mrs. Winthrop" at the Madison Square theatre was such a rare social and dramatic event, that some of the metropolitan dailies devoted over a column of space to the synopsis of the play, and a dissertation upon its merits. The drama was pronounced "perfect in plot and portrayal."

Several persons at Cider hill, York, had barrelled apples stolen from their orchards recently. John H. Plaisted had four barrels stolen, Charles T. Young two barrels, and Charles Simpson several barrels of No. 1s.

Although the annual report of the Boston & Maine railroad company for the year ending Sept. 30th is not in print, it is so far completed as to show the earnings and expenditures during that time. The gross earnings amounted to $2,991,429.75, as against $2,850,730.22 for 1882, a gain of $140,699.53; the expenditures (including taxes) were $2,022,670.36, as against $1,948,480.84 last year, an increase of $104,199,51. In addition to the regular expenditures were extraordinary expenses aggregating $106,376.73 against $68,576.72 during the preceding twelve months, a gain of $37,800.01. This leaves as the net income $882,372.67, or $1,299.99 less than last year. The fixed charges—$245,000 for interest on the bonds and $560,000 for an eight per cent dividend—were the same both years, and the surplus of $27,372.67 is accordingly less by exactly $1,300 than in 1882. The miles run amounted to 2,028.735, as against 1,945,599 in 1882, an increase of 83,126.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

A HOME DRUGGIST
TESTIFIES.

Popularity at home is not always the best test of merit, but when unusually so the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:—

RHEUMATISM. "Eight years ago I had an attack of Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public. E. F. HARRIS."
River St., Buckland, Mass., May 13, 1882.

SALT RHEUM. GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with **Salt Rheum** in its worst form. Its ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

MEDICAL.

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS

IN 1879 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one inch and a half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone Humerus became diseased, and then the suffering began in earnest. Bone fragments began to take the form of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED,

Knew not what it was to be an hour free from pain. Had reason to look upon life itself as a curse. In the summer of 188 , after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. BIDWELL, Custom House, New Orleans.

Sworn to before United States Commissioner. J. D. CRAWFORD.

TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear Skin of Disfiguring Blotches, Itching Tortures, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

Price of CUTICURA, small boxes, 50c.; large boxes, $1. CUTICURA RESOLVENT, $1 per bottle. CUTICURA SOAP, 25c. CUTICURA SHAVING SOAP, 15c. Sold by all druggists. POTTER DRUG AND CHEMICAL CO., Boston.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Homer N. Choate, paying-teller of the Sea-board bank, Wall street, New York, shortly after midnight Friday shot and killed a burglar who had entered his residence in Newark, N. J. There was another burglar, who made his escape. Both are unknown, but are believed to have been from New York. Mr. Choate was released on $500 bail.

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

The remains of Blanche Gray, the fat bride, still repose in the Baltimore cemetery. A guard is kept over the grave, and the agent of the cemetery company says that, should the dead woman's husband desire to remove the body for the purpose of selling it, the company would not permit him to do so unless it was forced by law to surrender the corpse. The company does not recognize that the husband has any right to sell his wife's remains, death having dissolved the relation existing between them. Dr. Hill of Baltimore claims the body, saying it was purchased by him from the husband.

Question Your Druggist,

and he will tell you, that there is a greater demand for *Sozodont* than for any other preparation for the teeth. Then ask yourself whether an article for which the demand is general and constant, must not possess genuine merit. The mental response will be that it does, since the conclusion is irresistible, that if it did not really polish and preserve the teeth, a discerning public would long since have discovered the fact. It advertises itself.

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!
From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

50 Years.

I have known and watched the use of Swift's Specific for over fifty years, and have never known or heard of a failure to cure Blood Poison when properly taken. In all my life I have never known a remedy that would so fully accomplish what it is recommended to do.

H. L. DENNARD, Perry, Ga.

We have sold Swift's Specific (S. S. S.) with most astonishing results. One gentleman who used half a dozen bottles says it has done him more good than treatment for a root him $1,000. Another who has used it for a Scrofulous affection reports a permanent cure from its use.

Scrofula, Scrofulous Humor, Cancer, Cancerous Humor, Erysipelas, Cancker, Salt Rheum, Pimples or Humor in the face, Coughs and Colds, Ulcers, Bronchitis, Neuralgia, Dyspepsia, Rheumatism, Pains in the Side, Constipation, Costiveness, Piles, Dizziness, Headache, Nervousness, Pains in the Back, Faintness at the Stomach, Kidney Complaints, Female Weakness and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs, and barks, that its good effects are realized immediately after commencing to take it. There's no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon the complaints named are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

George T. Angell.

The November number of "Dio Lewis' Monthly" gives an exceedingly interesting biographical sketch of George T. Angell, President of the Massachusetts Society for the Prevention of Cruelty to Animals, a man well known throughout the civilized world for his zealous and successful efforts in behalf of suffering and abused dumb animals, and for his no less remarkable crusade against poisonous adulterations of food. The writer justly gives Mr. Angell a place in the first rank of the world's benefactors, a distinction which he has honorably earned by a persistent and intelligent advocacy of the noblest reforms of the age.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on me with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess.

A Remarkable Statement.

Some months since a report came from New York that the will of the late Henry F. Durant of Boston, the founder of Wellesley college, was to be contested by a woman who claimed that she was the wife of the deceased before his marriage with the lady who bears his name, and who was his co-worker in establishing the college. On the 13th inst., some of the Boston papers published a long and carefully-prepared story, told by Mrs. Caroline E. Shelley, who, it now appears, is the contestant of the will, claiming a widow's dower for herself and the balance for her daughter. Mrs. Shelley was at one time wife of a Captain Shelley, who was a staff officer during the war. She says that her maiden name was Caroline E. Kendrick; that she was the daughter of a Boston physician, and was born in that city in 1834; that at an early age she went upon the stage under the name of Clara Moreland, playing at the old National theatre in Boston, and elsewhere; that in January, 1852, she met Mr. Durant, who induced her to go to New York with him, and that they boarded at the Aster house as man and wife, after solemnly pledging themselves to each other; that while stopping there she introduced him to a friend as her husband; that subsequently she lived in Boston in rooms provided by Mr. Durant; that her daughter was born at East Boston in August, 1853; that her familiar relations with Mr. Durant continued for several years, and after his marriage with his acknowledged wife; that in 1855 he visited with her in Nova Scotia, and there was introduced as her husband; and that she did not know he was married to another woman until 1859; that upon making this discovery she attempted to kill Mr. Durant with a dagger, but he disarmed her; that he then offered to give her $50,000 to set her up in business, but she would not accept it, nor would keep the valuable diamonds he had given her, though some of them were afterward given her daughter. Soon after she went to New York and met Shelley, then a law student, and married him off-hand and lived with him at different places. In 1863 they came to Boston, where they quarrelled, and she was arrested for stealing articles which she claims were her own, and was sentenced to the house of correction, from which however she was pardoned before the expiration of the sentence. Two years later she was divorced from Shelley, and she says that after that her familiar relations with Mr. Durant were resumed for a short time, though she at that time supposed his marriage was prior to his acquaintance with herself. She received money from him for her daughter until a short time before his death, and says she had reasons to expect a gift of fifty thousand dollars from him. This is in brief the remarkable story that, in anticipation of a threatened trial in court, is now made public. Mrs. Shelley recently resided in East Boston, and her daughter is married. Her counsel are said to be Gov. Butler, Hon. Chas. R. Train and Mr. D. F. Crane of Boston, and Gen. Roger A. Pryor, of New York.

The high court of Pennsylvania rules, in a case where a passenger sued the Pullman Palace Car Co. for being robbed in a sleeping car, "that the object in taking passage in such cars is to permit a passenger to sleep!" That may be very good law, but when a weary traveller has fought off the ubiquitous porter and composes himself to sleep, and the competitive diapason of stalwart snorers breaks on his ear with embellished cadences, what remedy will the supreme court give him in the way of damages for thus losing his second night's sleep since leaving his own quiet couch at home?

"Peterson's Magazine" for December is, as usual, ahead of all the lady's books. Splendid as this magazine has been in the past, the present number outstrips itself. There are more than a hundred pages of reading matter; two superb steel plates; a colored pattern, costlier even than a chromo; a colored fashion, double size, printed from steel; and more than half a hundred wood-cuts of fashions, work-table patterns, etc. Address Peterson's Magazine, 306 Chestnut street, Philadelphia, Pa.; $2 per year.

Are Beer-Drinkers Sots?

We cited a Roman Catholic newspaper as publicly asserting that Martin Luther was a sot, and we rebuked the man who could utter such a shameless falsehood. The man returns to his charge, and this is his proof:

"Luther was a sot. Is not the beer-pot that he used famous in history?"

We have not a doubt that the Great Reformer drank beer every day of his life. Probably every Roman Catholic priest in Germany drinks beer every day. Probably the author of this libel on Luther drinks beer or brandy every day. In our judgment all of them would be sad do better if they would cease drinking beer or brandy. But to call a Roman priest a sot because he drinks beer with his dinner, would be infamous, and such is the falsehood perpetrated by this Roman Catholic who calls Luther a sot.—*New York Observer.*

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth, this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

Every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of sound reading night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The subscription rates of THE SUN are sent by mail, post paid as follows:

DAILY—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit $1 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural department of unequaled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. THE LEADING MAGAZINE FOR BOYS AND GIRLS.

ST. NICHOLAS,

EDITED BY MRS. MARY MAPES DODGE.

The *New York Tribune* once said: "In the avalanche of immoral literature that threatens the children, some strong, vitally wholesome, and really attractive magazine is required for them, and ST. NICHOLAS has reached a higher platform, and commands for this service wider resources in art and letters than any of its predecessors or contemporaries." The refining influence of the wide resources in art and letters commanded by ST. NICHOLAS was never more fully illustrated than by the extraordinary list of attractions which that magazine announces for 1884. The following will be some of the leading contributors:

Louisa M. Alcott, *J. T. Trowbridge,*
Captain Mayne Reid, *Hjalmar Hjorth Boyesen,*
Maurice Thompson, *Frank R. Stockton,*
Charles Dudley Warner, *Joaquin Miller,*
Elizabeth Stuart Phelps, *Mrs. A. D. T. Whitney,*
Julian Hawthorne, *Celi Thaxter,*
Mary Mapes Dodge, *Lieut. Frederic Schwatka,*
Rose Hawthorne Lathrop, *E. S. Brooks,*
George W. Cable, *Chas. G. Leland,*
Susan Fenimore Cooper, *John G. Whittier,*
"H. H." *W. O. Stoddard,* *C. P. Cranch,*

and scores of other distinguished writers. The best artists and engravers illustrate the magazine. It has been truly said that the reading of ST. NICHOLAS is

"A LIBERAL EDUCATION"

for the boys and girls who are fortunate enough to have it. In no other book or periodical is instruction so happily blended with recreation and merry mirth.

The price is $3.00 a year, or 25 cents a number. Book-sellers, news-dealers, and postmasters receive subscriptions, or remittance may be made direct to the publishers by money or express order, bank check, draft or in registered letter.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH — ELY'S CREAM BALM

has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES COLD in the HEAD, IS NOT A LIQUID OR SNUFF. Apply by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

POLICE COURT--BATCHELDER, J.

WEDNESDAY, Nov. 14th.

John Burke, John Williams and John Dalton, three transient bummers, were before the court charged with drunkenness. They pleaded guilty, but were not "sent up," though they had no money to pay their fines, as it appeared they got drunk with the express intention of securing commitment to the Bentwood institution for the winter. They were ordered to leave town within two hours; the judge informed them that if they were caught here again they might be set at work they would not like.

GOSSIPS SAY

That Miss Cora Gurney, a teacher in one of the schools in Belfast, Maine, is visiting friends in this city.

That the new steam whistle at the Portsmouth Machine shop is one of the largest in the state, and when in operation will put the fog-horn at Whalesback to sleep.

That Special Agent Walcott Lay, of the internal revenue service, was in this city a few hours on Monday of this week.

That very extensive improvements are being made to the grounds and buildings at Hon. Frank Jones' farm at Gravelly Ridge.

That Portsmouth is proud in the possession of the best opera house, best hotel, best Odd Fellows' hall, best post-office and best library (Athenæum) in the state.

That the internal revenue collections in this state for the month of October amounted to $29,925.52, against $28,-873.30 for the same month last year.

SONS OF VETERANS.

Henry L. Richards Camp, No. 12, Sons of Veterans, was mustered in on Tuesday evening of this week by Col. Frank H. Chellis, colonel commanding the New Hampshire division, Lieut. Brown and Quartermaster Webber, all of Manchester. The meeting was very enthusiastic, and the Camp starts off under exceedingly satisfactory circumstances. Capt. Kent appointed his non-commissioned officers as follows:

Orderly Sergeant, W. W. Hyde;
Quartermaster Sergt., C. F. Larrabee;
Color Sergt., Gilman B. Randall;
Ordnance Sergt., F. E. Hall;
Corporal of Guard, Geo. D. Boulter;
Camp Guard, Wm. Entwistle;
Picket Guard, Arthur Green;
Clerk to orderly sergt., F. H. Danielson;
Clerk to quartermaster sergt., Joseph Morrill;
Clerk to council, J. W. Rogers.

After the business of the meeting was through, Capt. Kent invited the Camp to an oyster supper.

STANDARD TIME.

On the 12th inst. a circular was issued from the office of Payson Tucker, general manager of the Eastern railroad, announcing that "After twelve o'clock, noon, of Sunday, Nov. 18th, 1883, the standard time of the Eastern railroad will be sixteen minutes slower than the present Boston time," and ordering all officers, train-men, station and section-men at noon of Sunday, the 18th, to set their watches and clocks, and all station-house and engine-house clocks, to correspond, this order applying to the Conway division and all branch lines, as well as to the main line of the road.

NAVAL COURT MARTIAL.

By order of the navy department a naval court martial convenes in Boston this forenoon, for the trial of Ensign Guy W. Brown, on a charge of culpable inefficiency in the performance of his duty as deck officer of the United States steamer Pinta at the time of her collision with the brig Tally Ho, while the steamer was on the passage from this port to New York, by reason of which collision the brig went to the bottom near Nantucket shoals, and became with her cargo a total loss. The detail of the court martial is as follows: Commodore Jonathan Young, Capts. Henry Wilson, T. O. Selfridge and R. F. Bradford, and Commanders A. R. Yates, Frederick Pearson and Charles V. Gridley, with Capt. R. L. Meade, U. S. M. C., as judge advocate.

Wm. F. Fernald, Esq., had a fall on the 14th inst. from the frame of the vessel in course of construction at his yard at Freeman's point, striking a riband and receiving a somewhat severe bruise upon the head. He was able to be about in the afternoon.

The smoke-stack of the iron-platers' shop on the navy yard was blown down by the gale on the night of the 12th inst.

The schooners Triton, D. K. Ham and Lewis R. French, loaded with bricks for Boston, were at the draw of Portsmouth bridge on Wednesday, the 14th inst., waiting for a favorable opportunity to make the run.

Miss Annie Bernard, as she was known at the time she was a favorite singer at St. John's church, before she left Portsmouth thirteen years ago, returned to this city a few days since from Italy, whither she went to finish her musical education. While in Europe she married an artist, in whose charge she left two children, to whom she will return in the spring. The only inconvenience she experiences here is that she to some extent gets the Italian language mixed up with the American in common conversation.

There were only two coal vessels lying at the north end wharves on the 14th inst., and both of them were discharged. Two schooners at the Eastern railroad wharf were so nearly loaded with apples that they would be ready to sail with the first fair wind.

Mr. Charles H. Foote, gate keeper for the Eastern railroad at the Noble's island bridge, has transformed his comfortable lobby into an art gallery; the ornamentation will no doubt help to keep him warm during the coming winter.

During the blow of Monday night, the 12th inst., an anchor of the receiving-ship Constitution, moored at the navy yard wharf, was let down under foot, in readiness to pay out chain should the ship break adrift from the wharf; but the fasts held in good shape, and the old frigate's ground-tackle was not called on for duty.

The intimation now comes from good authorities, says the Boston *Traveller*, that the Eastern railroad people are about ready to concede a technical defect in their lease to the Boston & Maine company, in that the protection afforded the bondholders, or those of them that will become preferred stockholders under the terms of the lease, is not sufficient. Nobody will, it is understood, upon consultation with counsel, be willing to take the preferred stock until legislation is obtained distinctly specifying that the Boston & Maine people are to pay the fixed charges before providing for the sinking fund. The act of the legislature under which the consolidation, as at present arranged, is to be consummated, leaves this unsettled, and the Eastern railroad people have, after giving the matter careful consideration, decided to secure the necessary amendment during the coming session of the Massachusetts legislature. This action on the part of the Eastern railroad people amounts practically to the postponement of the consolidation for a year.

Sunday, Nov. 11th, there died in Biddeford a French woman named Genevieve Romeo, at the advanced age of eighty-eight years and one month. Mrs. Romeo was remarkable for the large number of descendants which she left to mourn her loss and respect her memory. These aggregated two hundred, and were distributed into four generations. Her own children were fourteen in number, grandchildren sixty-five, great-grandchildren one hundred and eighteen, great-great-grandchildren three, in all exactly two hundred.

Mr. Biswell, master of maintenance of way of the Eastern railroad, went over the Portsmouth & Dover railroad on the 13th inst. in a special car, for the purpose of attending to the laying of the steel rails.

AFFAIRS IN KITTERY.

NORTH KITTERY, ME., Nov. 12th.

The scholars of the free high School will have a reunion at Trefethen's hall on Friday evening, Nov. 30th. The present term will finish that day.

Mr. Geo. Paul is to teach a singing school in the hall over the school house in district three; it will probably commence on Tuesday Evening, the 13th inst., with twenty-five scholars.

The members of Morrill Lodge, I. O. G. T. will have another Harvest Supper at their hall on Friday evening, Nov. 23d.

Mr. Albert S. Wilson last week removed the old Chase house from the position where it had stood for more than a century.

Miss Carrie H. Haley, who taught the last term of school in district two and met with such excelent success in that district, will teach the winter term of the primary school in district five.

The winter term of school in district two we understand will commence the first week in December. John P. Brooks, a student at Dartmouth college, will teach it.

Mr. Manning P. Toby, of Kittery Point will teach the winter term of school in district eight in Eliot. Mr. Toby is a fine young man, and a student at Bates college at Lewiston. S. R.

Dr. James S. Goodwin, of Portland, whose ninetieth birthday occurred Sunday, Nov. 11th, is the youngest son of the late Gen. Ichabod Goodwin, of South Berwick. He was graduated at Dartmouth at the age of eighteen, and is the only survivor of the class of 1811, and with the exception of two members of earlier classes, is the oldest surviving alumnus of that college. While feeling the physical infirmities of his advanced age, he is in remarkable possession of all his faculties.

The secretary of the navy has declined to grant the request of Lieut. Commander Caldwell, now commanding the United States steamer Pinta, for a trial by court martial to establish his innocence of all responsibility for the fatal torpedo explosion at Newport, R. I., by which two officers were killed several years ago.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOYE, Ph. D

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

RUPTURE Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or severity of the affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, of which, according to statistics, not less than 30,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and moral evil, as they tend to enlarge bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. Sherman's Book, which indorsements of Physicians, Merchants, Farmers and others who have been cured mailed for 10c. MEDICAL.

BAD BLOOD SCROFULOUS, INHERITED, CONTAGIOUS.

IN 1870 Scrofulous Ulcers broke out on my body until my legs was one mass of one eruption. Some of these Ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the entity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those thirty on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED, Know no; what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1880, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. RICHARDSON, Custom House, New Orleans. Sworn to before United States Commissioner. J. D. CRAWFORD.

TO CLENSE THE BLOOD of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the Skin of Disfiguring blotches, Itching Tortures, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify Skin, and restore the Hair so that no trace of disease remains, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES. The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

Price of CUTICURA, small boxes, 50c.; large boxes, $1. CUTICURA RESOLVENT, $1 per bottle. CUTICURA SOAP, 35c. CUTICURA SHAVING SOAP, 15c. Sold by all druggists. POTTER DRUG AND CHEMICAL CO., Boston. Send for "How to Cure Skin Diseases."

CATARRH **COMPLETE TREATMENT $1.** A single dose of Sanford's Radical Cure instantly relieves the most violent Sneezing or Head Colds. Catarrh the Disease is a magic, stops watery discharges from the Nose and Eyes, prevents Ringing Noises in the Head, cures Nervous Headache, and subdues Chills and Fevers. In Chronic Catarrh it cleanses the nasal passages of foul mucus, restores the senses of smell, taste and hearing when affected, frees the head, throat and bronchial tubes of offensive matter, sweetens and purifies the breath, stops the cough and arrests the progress of Catarrh towards Consumption.

One bottle Radical Cure, one box Catarrhal Solvent and one Inhaler, all for $1. Sold by druggists, all druggists for $1. Ask for SANFORD'S RADICAL CURE. POTTER DRUG AND CHEMICAL CO., BOSTON.

 For the relief and prevention, the instant it is applied, of Rheumatism, Lumbago, Sciatica, Coughs, Colds, Weak Back, Stomach, and Bowels, Shooting Pains, Numbness, Hysteria, Female Pains, Palpitation, Dyspepsia, Liver Complaint, Bilious Fever, Malaria and Epidemics, use Collins' Plasters (an Electric Battery combined with a Porous Plaster) and laugh at Pain. 25c. everywhere.

 PRUSSIAN ARMY OIL CO. 258 Washington St., Boston.

MANHOOD KNOW THYSELF. A Book for Every Man!

Young, Middle-aged and Old. THE untold miseries that result from indiscretion or early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Boston Post.

N.B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

All Huge Failure.

People in New York and Brooklyn are saying that the great bridge which spans the East river is a failure, and a great elephant on the hands of the tax payers. There is a constant falling off in the number of foot passengers crossing it, and as winter approaches this becomes more marked. The cable railway does not work well, and as there is no provision for heating the cars people are not anxious to ride in them in cold weather. The passage of teams, [either heavy or light, is not as great as expected, and altogether the big bridge is proving a very costly piece of property. The bridge is a needless obstruction to navigation, and should never have been allowed to be built.

It Worked Well.

A letter from Danville, Va., where there was a "negro riot" a day or two previous to the recent election, in which six negroes and no white men were killed, says that although 1301 colored voters were registered for the election in that city, only thirty-one colored men voted. In North Danville 235 colored voters were registered, but only three colored men voted, and they were democrats. In an adjacent town the colored registration was 465, while the colored vote was one. The riot kept the colored voters away from the polls in that region, as was intended, and had a marked influence throughout the state.

John H. Pearson, the proprietor of the *People and Patroit* at Concord, has been elected a director in the Concord railroad. The Concord road is one of the chief component parts of what has so often been denounced by the *People* as a "gigantic monopoly" that was in control of the rights of the people of New Hampshire. What will become of the "dear people" now? Thus ends another chapter in the great railroad controversy, illustration how lofty pretensions in behalf of a great cause, can end in the gratification of purely selfish interest.—*Manchester Union.*

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

Daniel Sullivan, fifty years old, hung himself in East Cambridge, Mass. Nov. 11th.

Are you bilious? Try the remedy that cured Mrs. Clement of Franklin, N. H.—Hood's Sarsaparilla, made in Lowell, Mass.

Ann B. Weeks, seventy years old, hung herself Nov. 10th in Weston, Mass., to a bed-post.

Dr. Benson's Skin Cure is the best. It consists of both external and internal treatment and costs only $1. per package, at druggists.

The body of a child with its throat cut was found in a bag on the flats at Salem, Mass., Nov. 11th.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The tug boat Protection, with a crew of eleven men, and the schooner Arab, with a crew of seven, have been lost on Lake Michigan.

"Rough On Corns."

Ask for Wells' "Rough on Corns." 15c. Quick complete, permanent cure. Corns, warts, bunions.

Two brothers named Bailey were taken from a jail by a mob at Comanche, Texas, and hanged on a tree in a graveyard.

Mr. C. W. Sturtevant, Hillsboro, N. H. says: I received great benefit from using Brown's Iron Bitters as a tonic and for lack of iron in the blood.

J. K. Henderson, a paper manufacturer at Manchester, Conn., was seriously injured a few days ago by the accidental discharge of his gun while shooting.

Question Your Druggist,

and he will tell you, that there is a greater demand for *Sozodont* than for any other preparation for the teeth. Then ask yourself whether an article for which the demand is general and constant, must not possess genuine merit. The mental response will be that it does, since the conclusion is irresistible, that if it did not really polish and preserve the teeth, a discerning public would long since have discovered the fact. It advertises itself.

The Making of Steel Pens.

The steel pen is a modern invention, not fifty years having elapsed since it was introduced, and like many other innovations it met with much opposition and had a number of rivals. Of these the quill pen was the most formidable, and to this day the quills of geese are used by some old stagers. Pens of silver and of gold, the latter especially, have been great favorites with those who admire much flexibility in a pen, and the handy self-feeders, as the stylographic, have plenty of users. But, after all, the steel pen is the most generally used, and unlike most inventions, the method of its manufacture has not been essentially changed or improved.

The steel from which pens are made is the finest crucible cast steel rolled into sheets 7-1000 of an inch thick. From this the blanks are cut by means of a punch and die in presses worked by hand or foot, the operators being girls. The side slits in the pen, the central oval or semi-circular hole, the corrugations or embossings, the curved or semi-circular form to the originally flat blank, and the stamp of the pen or the maker, are all formed and produced by similar means—the screw hand press or the lever foot press—by the use of punches and dies, each pen being handled separately.

These corrugations and slits and central cuts are not merely fanciful ornaments, but are intended to adapt the pen to the user. Some want a resisting pen, very stiff and allowing considerable pressure without opening the nibs wide enough to make a heavy mark; others a yielding one that requires but a touch to open the nibs. Then there are many degrees of these qualities required, as well as differences in sizes; so that a single establishment makes no less than forty-six styles of steel pens.

Of course, cast steel of such extreme tenuity becomes hardened by these successive pressings and punchings, and must be annealed. This is done by placing the blanks, or finished pens, in a cast iron box, which is then covered by a larger box leaving a space all around of half an inch or more, filled with ashes or fine charcoal. The whole is then subjected to a glowing red heat for about two hours, and allowed to cool. When annealed, these blanks may be rolled up by the fingers just like so many bits of tea lead, which they much resemble in softness.

In heating for hardening the same method is used—packing in double boxes six or eight inches square—and when the pens are red hot, they are poured into a tank of animal oil. When taken out from this bath they must be handled carefully, as they are not only stiff and brittle, but crumbly; they can be squeezed to minute fragments between thumb and finger. They are then placed within a cone-shaped sheet iron receptacle open at the large end and mounted on a spindle, and are rotated over a glowing fire until they turn to a full or "low" blue. They are then chilled in oil, and when cool are rattled in saw dust until they are quite clean and bright. The next process is the grinding of the nibs on minute wheels of fine emery and of corundum, and lastly comes the essential process that completes the pen and makes it a pen—the slitting of the nibs. This is done by a pair of shears acting the same as the presses and punches. This splits the steel from point to central hole without removing a particle of material. The pens are then washed, straw or brown, blued or blacked, or left bright, as the style demands, and packed for the market.

Lady Telegraphers.

The office telegrapher sat listening to the ticking of his instrument with a peculiarly seraphic smile on his face, when a reporter interrupted him with the remark:

"I'll bet ten to one there's a female operator on the other end of that wire, and what she's sending is a special for you and not for the paper."

"It is certainly a lady who is sending the message," said the telegrapher, "and she is doing it very well, indeed. There are many excellent operators among the women, and though they cannot do such hard work as a man, they send messages in very good shape."

"Are you sure just who it is that is sending?"

"Certainly. I can tell as quickly as I could recognize a friend's handwriting. Each operator acquires a peculiar style of handling a key, and there is not much difficulty in recognizing a sender when once the style is known to you."

"Where do all the operators come from?"

"The city telegraph operators are supplied mostly by young men who have learned the business in country offices. In many cases the son of a country telegrapher learns the art from his father in spare moments and finally succeeds him in the business. For a time he is satisfied with his position, and the novelty of 'buzzing' a female operator in a town thirty miles distant is very pleasing, but soon he gets to talking to city operators over the wires, and when he finds out what they are paid he becomes dissatisfied with his own little salary of next-to-nothing a month and find himself, and so deserts his post for the city. These young fellows from the country make very good operators, for as a rule they begin to learn when they are thirteen or fourteen years old, and that an operator should begin young is positively essential to his success. They say a person can never be a good violinist unless he begins when a child, and it is much the same way with a telegraph operator. They begin early and generally leave the business before they are old; not that they retire on a fortune, but they drift out into some occupation, as most of them intended to do when they first began to handle a key."—*Boston Globe.*

"Why, Mr. Smith!" exclaimed a young lady, what's that on your lip?" "That!—oh, thath a muthache. It hathn't been growing long. It ithn't long enough to bite!" And Mr. Smithers made a desperate effort to twist one end of it into his mouth. "Ah, then there's no necessity of being afraid of it," said the young lady, drawing closer. Mr. Smithers didn't know what she meant.—*Oil City Blizzard.*

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I Could not move!
I shrunk!

From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

50 Years. I have known and watched the use of Swift's Specific for over fifty years, and have never known or heard of a failure to cure Blood Poison when properly taken. In all my life I have never known a remedy that would so fully accomplish what it is recommended to do.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

The Boston *Globe* tells the following: "About a month ago a large, handsome cat was found in a freight car of the Boston & Maine station in Saco. The animal must have come all the way from Boston. The baggage master took charge of him, and he soon became perfectly accustomed to his new home. Many of the road men and hack drivers took a liking for the cat, and, being most of them ardent admirers of the Massachusetts governor, they christened this feline 'Butler,' partly, as they expressed it, because he 'knew who his friends were,' and partly because he was such a plucky fellow. On election day a number of politicians were in the station talking about the probable result. It is alleged that 'Butler' showed great uneasiness all the afternoon, though it is likely this is a mere fanciful embellishment to the story. But it is certainly true that when the final result was announced 'Butler' jumped up, darted out of the station, and has not been seen since, though the most careful search has been made for him."

A man out gunning in the woods at Manchester, Mass., Nov. 13th, found lying at the foot of a ledge of rocks thirty feet high the remains of a man which had evidently long laid there; around the neck was a handkerchief with its ends knotted together, and twisted up with a stick. The body is supposed to be that of Rufus Bingham, who in September, 1882, started to walk from Gloucester to Manchester, and has since been missing; it is supposed he committed suicide.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess.

A fish-hook in your flesh, a scissors blade in your left thumb, a sprained ankle from a mis-step on a loose stone, a bruised shin by a slip from a car platform, a cut on your cheek by a clumsy barber's razor, a contusion on your elbow by poking it through a street car window, a swelling on your nose from running against an open door in the dark—these are likely to happen without a moment's notice. Chaplain Toussaint Mesplie, U. S. A., charged with duplicating his pay accounts, has been found guilty by a court martial, and sentenced to dismissal from the service. Some time ago a court martial solemnly decided that for an army officer to run up bills with no prospect nor intention of paying them was not "conduct unbecoming an officer and a gentleman;" but it seems that paying bills by a fraudulent order for pay is a crime.

A despatch of Nov. 13th, from Rome, says: "The American Catholic bishops held their first meeting to-day at the College of the Propaganda. The principal question discussed was that of addressing a demand to the government of the United States that the relations between church and state shall be based upon canon law." Neither the Catholic bishops nor anybody else need bother their heads with any such question. The government of the United States has nothing to do with the church.

Capt. J. S. Dillingham, Jr., of the steamship Finance, died on board that steamer on the 14th inst. while the vessel was going up New York harbor, on her return trip from Rio de Janeiro. Captain Dillingham was a native of Chelsea, Mass., and the son-in-law of Benj. P. Shillaber, and will be remembered as the captain of a New York clipper ship that defied and sailed away from the rebel pirate Semmes, at sea, during the war, and brought his vessel with her valuable cargo of tea safely to New York. He was about forty-six years of age, and was held in high estimation by the merchant and shipping community of New York and Boston.

Pronounced the Best.

The farmers throughout this section of the country devote a great deal of their attention to dairying and consequently are interested in the subject of Butter-Colors, and desirous of ascertaining which of the many in the market is the best and also the cheapest.

It is a noticeable fact that at the agricultural fairs in New York and the New England states, the "Improved Butter Color" made by Wells, Richardson & Co., of Burlington, Vt., has taken first premiums wherever exhibited, triumphing over all competitors. Its superiority over all others, is marked by the following properties: It *never* turns rancid, as so many of the oil colors do. It gives a natural, bright color, which is just what is desired, a result which is often promised but seldom if ever obtained by others. It is far the strongest and therefore the cheapest butter-color made. It gives universal satisfaction, and dairymen who have once used it will have no other. It will not color the butter-milk.

The verdict pronounced by the country fairs is of the utmost importance, and carries great weight from the fact that the judges are practical men, farmers and dairymen, who know just what is needed, and know at once whether the promised results are obtained. The most rigid and thorough tests were made, and the triumph of this color over all others is most marked, because it is based upon real merit, unprejudiced by any favoritism or other influence.

This color is used from ocean to ocean, and is the *only safe* oil color to use. Thousands of testimonials received by the proprietors speak of its superiority and sound its praises in the strongest terms.

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, good doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which thereforeness believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, post paid as follows:

DAILY—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—eight pages. This edition furnishes the current news of the week, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit. $1 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. THE LEADING MAGAZINE FOR BOYS AND GIRLS.

ST. NICHOLAS,

EDITED BY MRS. MARY MAPES DODGE.

The *New York Tribune* once said: "In the avalanche of immoral literature that threatens the children, some strong, vitally wholesome, and really attractive magazine is required for them, and ST. NICHOLAS has reached a higher platform, and commands for this service wider resources in art and letters than any of its predecessors or contemporaries." The reference to the wide resources in art and letters commanded by ST. NICHOLAS was never more f ly illustrated than by the extraordinary list of attractions which that magazine announces for 1884. The following will be some of the leading contributors:

Louisa M. Alcott, J. T. Trowbridge,
Captain Mayne Reid, Hjalmar Hjorth Boyesen,
Maurice Thompson, Frank R. Stockton,
Charles Dudley Warner, Joaquin Miller,
Elizabeth Stuart Phelps, Mrs. A. D. T. Whitney,
Julian Hawthorne, Cali Thaxter,
Mary Mapes Dodge, Lieut. Frederick Schwatka,
Rose Hawthorne Lathrop, E. S. Brooks,
George W. Cable, Chas. G. Leland,
Susan Fenimore Cooper, John G. Whittier,
"H. H.," W. O. Stoddard, C. P. Cranch,

and scores of other distinguished writers. The best artists and engravers illustrate the magazine. It has been truly said that the reading of ST. NICHOLAS is

"A LIBERAL EDUCATION"

for the boys and girls who are fortunate enough to have it. In a other book or periodical is instruction so happily blended with recreation and amusement.

The price is $3.00 a year or 25 cents a number. Book-sellers, news-dealers, and postmasters receive subscriptions, or remittance may be made direct to the publishers by money or express order, bank ch ck draft or le registered letter.

THE WEEK OF PRAYER.

Topic for Friday, Nov. 16th: Opportunities: lost. The young ruler." Mark x: 17—12.

GOSSIPS SAY

That the brick work upon the new machine shop and boiler shop is completed, and the masons have been discharged.

That owing to the lateness of the season the building of the foundry has been deferred until spring.

That a party of roller skaters of both sexes, numbering about a dozen, will visit Exeter next Monday night, and participate in the exhilarating roller exercises at the town hall.

That Miss Helen I. Tilton of this city, a young lady who without teaching took up painting a year since, has developed great talent for portrait painting, many of her works receiving flattering mention of connoiseurs.

That the duties paid at the Portsmouth custom house on prizes captured in the war of 1812-13-14-15 with England amounted to $321,312.09.

That a pigeon was killed on Bridge street, Thursday, by a sling in the hands of an eight years old boy.

MISS FANNIE P. HOYT'S BENEFIT.

One of the finest audiences ever gathered in Music hall greeted the fair young violinist and the splendid company of artists who assisted, on the occasion of the complimentary benefit tendered by Osgood Lodge of Odd Fellows to Miss Fannie P. Hoyt of Newington, on the evening of Nov. 14th. Miss Hoyt came fully up to the high anticipation of her most sanguine friends, and displayed remarkable skill on the violin, which responded in clear, melodious strains to her magical touch.

It is only necessary to say of the Listemann company that their well earned fame and great popularity as gentlemen and musicians was fully sustained on their part, and heartily appreciated by the audience.

Mrs. Knowles, already a favorite here, surpassed all her previous efforts, and elicited vigorous demonstrations of delight, by her beautiful voice and fine selections.

Miss Florence P. Whidden evinced a thorough knowledge and complete mastery of the piano, and as a soloist on that grand instrument can scarcely be excelled by any professional pianist who ever appeared before an audience here. Her rendition of a selection from a concerto by Weber, which she played by particular request, was followed by a perfect storm of applause.

Mrs. Huntley, of Boston, an excellent elocutionist, was a little unfortunate in the nature of her first selection, it being of a sad and depressing character, but she made ample amends in the subsequent pieces, and delighted her hearers by her inimitable personation of "the school-marm and her reading class," to say nothing of the "old maid's prayer."

Mrs. Philbrick as piano accompanist performed her part with exquisite skill and effect.

Portsmouth may well be proud of the native musical talent displayed at Music hall on this occasion. LEO.

"WILLIE REILLY."

Dan Maguinnis, long and favorably known as the leading comedian at the Boston theatre, will on Monday evening present at Music hall the romantic drama "Willie Reilly," having the support of a strong dramatic company. The Fall River *News* says:

Dan Maguinnis opened his season at the Academy of Music here to a very large audience in Barney Williams' old play "Willie Reilly." Both piece and star were received with great favor, every song being encored and the curtain raised on every act. In his own inimitable way, Boston's favorite completely captured his listeners. The piece deals with the Irish question, and is full of hard-fisted landlords and warm-hearted peasants.

SERIOUS ACCIDENT.

Arthur Rand of Rye, about seventeen years old, engaged in learning the trade of a bricklayer, had a fall on Thursday at the Portsmouth Machine Co.'s works, and struck on a pile of bricks a distance of twenty-eight feet below. He was taken into the house of Walter S. Gray, and medical aid sent for, after which he was conveyed to his home; it was supposed that two of his ribs were broken, but his injuries were not considered likely to prove fatal. The accident occurred on the inside of the easterly tower of the main building, and was caused by the young man placing one of his feet on a loose brick as he stepped back to view his work.

SUICIDE OR MURDER?

Many of our readers will remember that about two years ago a man named Thomas Barrows was arrested for assault with a pistol on Mrs. Benjamin Cate, of Kittery, Me., living on the old road near the Eliot line. The story was that Barrows had previously worked on the Cate farm for some months, and one evening called at the house, shot at Mrs. Cate without effect, and then shot himself in the right breast, the bullet remaining there. He was taken to jail, where he remained a year or so, and on his release was married to Mrs. Cate. He was about forty years old, and of English or Scotch birth.

On Wednesday night of this week Barrows came to his death by a bullet wound in the head. He arrived home from Portsmouth with a load of lumber at about half-past seven o'clock Wednesday evening, put up his team, ate his supper, filled and lighted his pipe, lighted a lantern and went to the barn, which is a hundred feet or so from the house. This was about eight o'clock. In a few moments Mrs. Barrows heard pistol shots, and looking out of the window saw her husband just outside the barn, staggering; he soon fell to his knees, but crawled along toward the house, and she was so terrified that she fled to the house of her son-in-law, Mr. Blaney, a mile away, for help. On arriving at the Cate house the parties who went there found Barrows lying on the bed, dead, and Coroner E. C. Nealley of the Foreside was sent for, and arrived about half-past ten o'clock.

On inspection Mr. Nealley found that the fatal wound was on the left side of the head, near the top, the bullet having gone downward and inward into the brain. Besides this there were four other bullet wounds, one in the left leg below the knee, one in the left thigh near the body, and one in the left hip, (all these bullets having apparently entered from the rear,) and one in the left arm, a bullet having entered from the outside, below the elbow, and passed out on the inside above the elbow, shattering the joint. The pistol, a double-action "American" five-shooter, caliber thirty-eight, nickel-plated, was found in the yard, as was also the lantern, the globe being in one place and the frame and lamp in another.

Mrs. Barrows informed the coroner that she did not know her husband had a revolver, and that he had often appeared somewhat unsettled in his mind at the full of the moon. Mr. Nealley was unable to find any dealer in this city who had sold any such pistol as the one found; he decided to hold an inquest on Friday at ten o'clock A. M.

Opinions in the town are divided, many persons believing that Barrows shot himself, while others do not consider it possible he could have inflicted the wounds, nor have crawled from the barn into the house with his left leg and arm shattered and a bullet in his brain, not to mention climbing upon the bed at the end of the route. It was reported Thursday evening that Mrs. Barrows saw her husband shooting himself when she looked from the window.

WRECK.

The fishing schooner Sylph, commanded by Capt. Samuel Hiltz of this city, was abandoned off Highland light, Cape Cod, early in the morning on the 14th inst., with five feet of water in her hold, having been roughly used by the great gale of the 12th and 13th. The crew were taken off by the steam collier Centipede.

The tea party and fair of the Unity club, in Franklin hall Thursday evening, was in every way a success, a numerous and happy company assembling in the handsomely dressed room, and the sale of fancy articles being large, while the refreshment tables were liberally patronized from six o'clock to a late hour.

Meagher's family clam chowder at Central Oyster House to-day, delivered to order at houses.

Signor Erni, the one-legged skater and gymnast, at Franklin hall this evening. He skates gracefully on his one leg, without a crutch, performing many tricks, turns a somersault, and finally walks around the hall on his crutch without touching his foot to the floor.

Owing to the repairs on the organ in the Unitarian church being unfinished, services will be held in the chapel on Court street, Sunday.

"The Famous Portsmouth Orange Cake, fresh daily," is the sign in a window of a confectionery store on Temple-place, Boston.

Charles A. Clark, formerly clerk for the Portsmouth Brewing Co., has opened a variety store in Gloucester, Mass.

The funeral services of Miss Eliza Rice were held in Washington on the 13th inst., Rev. R. S. Shippen, pastor of the Unitarian church, officiating. Among those present were Gen. Humphries, Gen. Watmough, Chas. H. Ladd, F. W. Hackett and many friends from Portsmouth. The remains were brought to this city for interment.

At a meeting of the directors of the High School Association on Thursday evening, it was decided that it was not advisable to hold a reunion this year, but the subject was referred to a meeting of the association to be held at the common council room on Saturday evening.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, of which, according to statistics, not less than 30,000 died during the past year. No one is safe who has a rupture and depends on a truss. Rupture is a physical and mental tax; bring on kidney, bladder and other organic diseases, which affect future health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. MEDICAL.

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS

IN 1870 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those Ulcers on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED.

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1878, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The great disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. RICHARDSON, Custom House, New Orleans.

Sworn to before United States Commissioner, J. D. CRAWFORD.

TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to restore the Skin of Disfiguring Blotches, Itching Tortures, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to secure Clear and Beautiful Skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic Antiseptic, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicine to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this statement should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained and made plain and clear.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better work in every respect than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

A report from Richford, Vt., says Edward Ellis, under arrest for wrecking a train on the Missisquoi railroad, has made a full confession. He was ejected from a train for non-payment of his fare, and he says he misplaced the switch to get even with the conductor. He did not mean to hurt any one, but only to give the train hands the trouble of getting the train back on the main line. Two men were killed.

An Irishman was asked for his marriage certificate. He slowly lifted his hat, revealing a large scar on the head, evidently done by a flat iron. This evidence was to the point. Our certificates are the praises of those who have experienced wonderful cures by the use of Dr. Bull's Cough Syrup.

Question Your Druggist,

and he will tell you, that there is a greater demand for *Sozodont* than for any other preparation for the teeth. Then ask yourself whether an article for which the demand is general and constant, must not possess genuine merit. The mental response will be that it does, since the conclusion is irresistible, that if it did not really polish and preserve the teeth, a discerning public would long since have discovered the fact. It advertises itself.

PICTURES OF FLAMES.

Scenes in a Great Rolling-Mill.

On the summit of a blast furnance one hundred feet high the spectator feels, and can scarcely endure, the sweltering air rising from the gridiron-red sand below, into whose narrow gullies the red-hot metal runs like streams of blood from the orifice at the foot of the iron tower. The first wonder of the visitor always is that men can be found capable of sustaining the fevered andliery temperature which overhangs the white-hot plate, the bogey full of molten steel or the molds into which the pig-iron crawls crimson from the furnace. Habit which does much, would, it might be thought, stops short of converting a man into a salamander. Nevertheless, men employed in steel and iron works and in rolling-mills do not suffer from the heat to the extent of a person new to the broiling and flaming scene might imagine. Apparently, habit may train a man to toil within a hand's-breadth of the fire-fiend, though one touch of his searing finger will lay him low. The result is seen, perhaps, more conspicuously in rolling-mills than in other works of a like kind. In such places huge blocks of white-hot metal, terribly beautiful with crawling green vapor-like flames, are hauled about as sailors drag a chain cable. The shapeless lumps are thrust into the jaws of a rolling-machine, and after passing two and fro many times finally comes out as ships' plates of steel rails. But the men who are directing the course and controlling the motion of the steam-crushed red-hot metal are close to it all the time; they overhang it, they jump across it, and the crimson splendor shining upon their wet faces and half-naked figures make them crimson, too, and they resemble shapes of fire as they labor. Use has toughened their skin, and they fear nothing from the adjacency of incandescent metal. Yet this should imply a long apprenticeship. Physical sensibility may be found amazingly elastic by the visitor to such works as Bolckow, Vaughan & Co.; by one who, perspiring at the distance of a hundred feet from a bogey charged with some tons of red-hot metal, view with astonishment the indifference of the men who dodge about within a pace of the blinding and palpitating load. But habit stops short at this. There is no discovered magic in custom to enable even a puddler to lift his foot unharmed from a crimson tide of molten ore. One may see in these iron-works many a grimy figure smothered in showers of sparks and taking no heed of the dazzling rain, though the sting of each fiery particle is poignant enough to the unaccustomed; but death or disablement inevitably attend contact with the burning liquid itself; and, considering the millions of tons of molten stuff which are year after year poured out of the retorts, it is really surprising that disaster should be so infrequent.

Perhaps the element of fear which to a stranger's excited apprehension enters into these scenes of fire and power deepens their effect upon the imagination. Few if any towns are richer in wonderful, we may almost say sublime, pictures of flaming and thundrous industries than Middlesborough. To have seen Bolckew's works alone is to have viewed as impressive a spectacle of human labor, reaching to the height of gigantic toil, as this country has to offer. But, here, as at the Anderton foundry, the North-Eastern steel, the Britannia, and other works and mills, the sense of danger breaks in, and gives to admiration and wonder a character which no species of human industry—not even that of the pitman hundreds of yards deep in the black bowels of the land—will be found to yield. There is the thrilling effect of shadow and light of midnight gloom in places suddenly dashed up into noontide effulgence by the opening of a furnace, by the extraction of a mass of star-white metal, or the ponderous swing of a retort whose heart has the dazzle of a tropical sunbeam. There are groups of men toiling in darkness and in brilliance, dusky outlines flitting here and there or standing out scarlet in a sudden blaze; there is the round laced with metal ways, crodwed with little locomotives which rush to and fro like sentient things, dragging wagons whose glowing cargo flings a glory like that of sunset upon the roof and wall. The hum of whirring machinery strikes through the smoke-charged air; the pulsing notes, echoing metallically out of cylinders, are like the panting of the leviathan heard at sea; and over all is the splendor and the wonder of a hundred colors ever alternating—green of exquisite softness melting into blue, a glaring yellow shining out into a crystal whiteness, then a wild and brilliant scarlet making blood-red all that falls within the sphere of its ensanguined rays, till a kind of darkness comes down, an interval of soft dusk lasting like a sort of breathing-time, but scattered in a flash by a sudden torrent of white-hot slag. It is the presence of the fire-fiend that creates the element of fear we have mentioned.—*London Telegraph.*

Advice Which Was Taken.

The story has been kept very quiet, but this much of it has leaked out. A young gentleman, moving in good society, but whose bank account is by no means plethoric, sought out one of our wealthy citizens about a month ago and told him he wanted to speak to him on a very important affair. Crœsus said to his visitor: "I am busy just now, and must request you to brief. What is it—business?" The young gentleman, thoroughly embarrassed by the brusqueness of the other could only stammer, "Very important business." "Well," said Crœsus, "let me give you this advice: Don't put it off till to-morrow if you can do it to-day. That has been the theory on which I have made my success in life." The young gentleman stammered his thanks, departed, and that very day went before a magistrate with the daughter of Crœsus, and married her then and there. When the old gentleman found it out, he, for the first time, began to doubt the universal applicability of his theory. However, it is understood that all has been forgiven.—*Boston Gazette.*

Sympathy.—Passenger (in a whisper, behind his paper, to Wilkins, who has been "catching it" from the elder lady) "Mother-in-law?" Wilkins (in still fainter whisper): "Ye." Passenger: "Got just such mother?" (They console together at the next buffet.—*Punch.*

CHAPTER I.

"I was taken sick a year ago
With billious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!

From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 8, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well**, which is answered in three words—Take Hop Bitters!

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1851 I took a severe cold, which affected my lungs. I had a terrible cough, which raised night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. E. BRADDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

On Monday, Nov. 12th, two men living at Falmouth, Me., started in two dories with a scow in tow, to go to an island to get a load of seaweed. The wind rolled the waves so high that the dories filled, and the men were obliged to seek refuge on the scow. When last seen they were drifting out to sea, and it is feared they were lost.

Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong? If you continue feeling miserable and good for-nothing you have only yourself to blame, for Brown's Iron Bitters will surely cure you. Iron and cinchona are its principal ingredients. It is a certain cure for dyspepsia, indigestion, malaria, weakness, kidney, lung and heart affections. Try it if you desire to be healthy, robust and strong and experience its remarkable curative qualities.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

An Infamous Business.

At a meeting of the London board of trade, on the evening of Nov. 14th, some very significant utterances were made by the Right Hon Joseph Chamberlain, president of the board of trade. The loss of life at sea, he said, had recently increased to a terrible extent. He appealed to ship-owners to assist in the suppression of the infamous system of deliberate wreckage for the sake of insurance money, which had grown to the proportions of a frightful crime and a national disgrace. He announced that the British government intended to urge the passage of certain amendments to the laws governing marine insurance, with a view of making the future wrecking of ships as unprofitable as it was infamous.

A sensation has been caused by the refusal of the ladies of Macon, Ga., to participate in a musical state festival at Atlanta, for which elaborate preparations have been made, their action being on the ground that they do not care to appear under the same roof or on social terms with Levy the cornetist, who was engaged to play at the festival. It is said that the language used by Levy concerning his wives and children has aroused their indignation. They have notified the managers of the festival, declining to take part.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August* 11, 1883.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 29, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered and their appraised value are, the Monadnock, (old), $11,200; Alaska, $15,300; Benecia, $17,000; Tuscarora, $9,900; Narragansett, $8,900; Nyack, $1,800, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer of proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department. ED. T. NICHOLS,

drtnov20 Acting Secretary of the Navy.

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, post paid as follows:

DAILY.—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit $1 a year.

WEEKLY.—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess.

"It Was Only an Accident."

A fish-hook in your flesh, a scissors blade in your left thumb, a sprained ankle from a mis-step on a loose stone, a bruised shin by a slip from a car platform, a cut on your cheek by a clumsy barber's razor, a contusion on your elbow by poking it through a street car window, a swelling on your nose from running against an open door in the dark—these are likely to happen without a moment's notice. To be ready for them, have a bottle of Perry Davis's Pain Killer ready.

"Standard" Time.

Our ancestors had a good time. At least we have always been told this, for we have constantly heard sighs for "the good old time of by-gone days," listened to regrets that the time now is not what it was once, and heard sorrowful comparisons of the present with the past.

When the great ranks of men concluded to mark time by the sun's altitude, the entire globe seemed to be satisfied. The North American Indian, with his untutored mind, knew nothing about the "eleven o'clock" of the later-appearing pale-face, and satisfied his hunger rather on the occasions when he found ability to provide, and that good appetite which is developed by manly sports of out-of-door existence demanded. He knew no difference in his time of lunch; and as to measuring time, it was a trifle beneath his notice.

We have later on been accustomed both at sea and on shore to measure time by the sun's course. This was before the railroads became a power in the land. Now we are to change at the bid of the corporate creations of the country. True, such an official as "Brewster, Attorney General," becomes like his immaculate old style shirt front, ruffled at this disturbance of a settled state of affairs. Like the man who consulted Rufus Choate as to the redress to be obtained for an insult—there is no law to make him do it; and this is a point well taken. When by law, sheriffs in making attachments of real estate, or registers of deeds in noting the hour and minute when deeds were received, as is the rule in Maine, are obliged to make record of the precise time when these acts are done, what should be the rule? There will be some—very much—confusion, perhaps, because this is a change brought about not by any legislative or Congressional enactment, but as a convenience to, and at the dictation of, a certain class.

That in some respects it will be of service to us, a much-travelling people, there can be no doubt, and to those who will be in these cold mornings more and more inclined to indulge in the pleasures of the morning-nap instead of prematurely stirring around before the world gets fairly awake, the blessings will be incalculable; but for the hungry child whose stomach has been trained to food at twelve o'clock, and for many others whose high noon is to be carried back seventeen minutes into the vista of time, there may be reckoned a positive loss. However, as the country expands in population, as distant cities and remote regions become more intimately connected, all must be willing to yield to the requirements of a common convenience, and we of the East will probably bow gracefully to this little set-back made to accommodate the railroads, and our neighbors who live nearer the Occident.

Great Naval Victory.

A Famous Galaxy.

People who delight in beautiful and good books will be astonished when they see, if they have not already seen, the announcements of the "Caxton Illustrated" and other editions of standard authors, issued this season. The typography, and all mechanical qualities of printing and binding are simply superb, and the prices a veritable marvel to the old-time book-buyer. The list includes the works, complete, of Dickens, fifteen volumes, reduced in price from $22.50 to $9.00 net; Thackeray's, from $16.50 to $6.75; George Eliot's, from $12 to $3.75; Washington Irving's Works, from $20 to $4; Scott's Waverley Novels, from $30 to $7.50; Hawthorne's Works, from $21 to $6.50; J. Fenimore Cooper's, from $32 to $12.50; Bulwer's, from $31.25 to $8.50; Wm. Black's, from $15 to $4; De Quincey's, from $18 to $6.50. The publisher sends them to any one for examination before requiring any payment, on reasonable evidence of good faith, and will send a large catalogue of these and other works free upon application. John B. Alden, publisher, 18 Vesey St., New York.

Facts About Alabama Claims.

The report of the Commissioners of Alabama Claims shows that 5,751 claims amounting to $28,061,997 have been filed; 1,575 are of the first class, and amount to $10,520,503, and 4,176 are of the second class, amounting to $17,541,494. Commissions to take testimony have been issued in 4,950 cases, and testimony under stipulations of counsel is being taken in about 200 cases. The following is a statement of the work accomplished up to and including October 31st, 1883: Number of cases tried, 549; number of judgments rendered—class one, 307; class two 149; amount claimed in cases tried—class one, $1,923,157; allowed, $1,136,426; amount claimed in cases tried—class two, $831,075,49. The amounts allowed are for principal only. The interest would add about fifty-five per cent. The report says it will be impossible to dispose of all the pending cases within the term prescribed by the act. A recommendation is therefore made that the life of the court be extended by Congress.

The dredging machine and scows which have during the summer been engaged on the government excavations in the Cocheco river, having finished the work were towed down the river on the 14th inst., and moored at one of the south end wharves.

The medical examining board in the case of Captain Frank D. Webster, U. S. M. C., decided not to retire that officer, on the ground that his present disability is likely to be temporary. Capt. Webster only asked for a board of survey in his case preparatory to a further extension of his sick leave. He is now at the Chelsea hospital, where he is undergoing a course of treatment.

Under the supervision of John J. Pickering, Esq., extensive repairs and enlargements are being made by Anderson & Junkins in the rear of the store of Mercer Goodrich, corner of Market and Daniel streets, which when completed will make it one of the finest and most commodious book and stationery stores in the state. A drain is being laid by A. Brackett Trefethen from this store to the Piscataqua river at the Spring market; it goes under five buildings, and in some places has to be excavated through a solid ledge, but when it reaches Penhallow street it strikes a bed of fine clear gravel, which is very easy of removal.

A fine new photographic likeness of Hon. Frank Jones, taken by Duncan of Chicago, has been placed over the fire place in the gentlemen's parlor of the Rockingham house.

The body of the man found beside the Eastern railroad embankment near East Salisbury on the 14th inst. has been identified as that of Gilman Moulton of Lynn, Mass., a member of Co. F, eighth regiment Massachusetts militia. In his pocket was a badge for being the best shot in his company. He was employed by Gove & Locke of Seabrook, and was probably returning to his home when killed.

The brick schooners G. W. Raitt, Coleman master, and Emily A. Staples, Coleman master, arrived on Friday from Boston. The brick schooners Lewis R. French, D. K. Ham and Triton, all for Boston, and the coal schooner James B. Pace for Newport News, Va., sailed. The schooner Hattie Lewis, Brewster master, was at Portsmouth bridge with a load of brick on board for Boston, and the three-masted schooner Frank G. Dow was lying near the Spring market with a cargo of apples for Baltimore, on the same day. The only coal arrival reported was the steamer Reading, from Philadelphia with 1661 tons to J. Albert Walker.

Notice.

NOTICE is hereby given that at a Court of Probate, holden at Exeter, in the County of Rockingham, on the tenth day of October, 1883, it was decreed and ordered that the petition of Arietta Prime asking that Edward B. Prime or some other suitable person be appointed guardian over Ida May Foote of Portsmouth, in said County, minor child of Frank A. Foote, be dismissed and the subscriber being interested in the guardianship of said Ida and agreed by said order and decree, on the sixteenth day of November, 1883, claimed an appeal therefrom to the Supreme Court, next to be holden at Concord, in the County of Merrimack, for said County of Rockingham, on the first Tuesday of December next, and filed in the Probate Office for said County of Rockingham her bond to respond the costs that shall be awarded against her agreeably to the statute in such case provided. Said appeal will be entered and prosecuted at said term of said Supreme Court.

Dated the sixteenth day of November, 1883.

MEDICAL.

If it were possible

to get the testimony of the multitude who have used HOOD'S SARSAPARILLA for debility, languor, lassitude, and that general feeling of stupidity, weariness and exhaustion which every one feels during this season, we should be able to present to our readers such an overwhelming mass of commendatory testimony, that the few who have not tried it would do so at once. It is a positive fact, and has been so effectually demonstrated that no one to-day denies it, that Hood's Sarsaparilla contains more real medicinal value than any article before the people.

What a Man Did with Kidney Complaint

DRACUT, MASS.
MESSRS. C. I. HOOD & CO., Lowell, Mass.:
Dear Sirs—I have suffered from kidney complaint and biliousness for fifteen years. Have tried everything and never got any good. Last January, before I commenced taking HOOD'S SARSAPARILLA, everything I ate bloated me all up, pain in my chest and arms, headache and dizzy. I could not get up without feeling weary and all fagged out. Many mornings I was obliged to lie down on the lounge. To do any work seemed almost impossible. Have taken two bottles. The backache, dizziness, pain in my chest and arms, and that feeling of intense weariness are all gone. I can eat anything and it does not press me at all. Feel just like work; in fact, like a new man. Can heartily recommend HOOD'S SARSAPARILLA, and hope all who desire to know anything about it will come to me and ask what I think of it. Very truly yours,
JONATHAN J. COBURN.

Topic for Saturday, Nov. 17th: "One more opportunity." Luke XIII: 6-9.

GOSSIPS SAY

That Chas. A. Dyer & Co. of Portland, Maine, dealers in, and canners and packers of fish, are contemplating the removal of their extensive business to this city.

That Mr. Dyer, the head of the firm, has made several visits to this city, examining locations, and finds the facilities at Marvin's island best adapted to his business.

That Newcastle people, many of whom have had business relations with Mr. Dyer, are jubilant over the prospects of this business coming here, as from fifty to a hundred men will find employment in the establishment.

That should this business come here, corn, squash and fruits will be canned in their seasons, as is now done at Mr. Dyer's present factory.

That a willow tree four feet through at the butt and perfectly sound was broken off near the ground at Shapleigh's island by the recent gale.

That the Franklin hall skating rink, after the present week, will be managed by two young men of this city, and will be open but two nights in a week.

That Congressman-elect Haynes has signified his intention of meeting with the Grand Army at their annual muster next week.

That Comrade O. M. Knight visited Exeter on Friday evening to inspect the G. A. R. post in that town, as a deputy under Mustering Officer M. M. Collis of this city.

"STANDARD" TIME.

At a special meeting of the board of mayor and aldermen on Friday afternoon, Nov. 16th, it was

Ordered, That on the 18th of November instant, the time of the city clocks be altered to agree with the so-called Standard Railroad Time, the same being that of the 75th meridian reckoned from the prime meridian of Greenwich, England; and that thenceforth the bells of the city be rung daily in accordance therewith, at one o'clock and nine o'clock P. M.

A VERDICT OF MURDER.

An inquest on the body of Thomas Barrows of Kittery, Me., was held at his late residence on Friday before Coroner Edwin C. Nealley, the jury being as follows: Alexander Dennett, foreman; Dr. A. W. Johnson, medical expert; James O. Trefethen, Daniel A. Hill, Leonard Hanscom, Wm. O. Jones and Daniel Nason.

After examining the body Dr. Johnson described the wounds as follows:

Ball number one entered the lower third of the left leg, at the back, coming out three inches below, on the inside of the leg.

Ball number two entered the left thigh at the rear, seven inches below the hip, passing through to the inside of the thigh.

Balls number three and four entered the posterior portion of the left hip two inches apart, and passed obliquely downward.

Ball number five entered the left arm at the back side, two inches below the elbow, and came out in front, two inches above the elbow.

Ball number six entered the left parietal bone, three inches above the ear, and passed through the skull into the lower part of the brain, imbedding itself near the right side of the head.

Dr. Johnson said it would be impossible for a person to inflict such wounds upon himself. No blood could be found at the spot where Barrows was said to have fallen, nor between there and the house. The pistol found in the yard is a five-shooter, and six bullets were fired into Barrows, unless the one which went into his head was the same one that went through his arm; a similar bullet was found embedded in the barn door, but of course that may have been fired there at some other time.

Mrs. Barrows, widow of the deceased, made substantially the same statement as on the previous day. Daniel Cook, father of Mrs. Barrows, and Richard Pickernell and Oscar E. Blaney testified as to Mrs. Barrows reporting the affair to them, and also as to Barrows often having appeared very strange.

The jury returned a verdict that Thomas Barrows came to his death by shots from a pistol in the hands of some person unknown.

"WILLIE REILLY."

On Monday evening, at Music hall, the popular comedian Dan Maguinnis will appear in the romantic drama Willie Reilly, supported by his own dramatic company. Tickets at Goodrich's.

PORTSMOUTH IN FUTURE DAYS.

NUMBER TWO.

Mr. Editor: In this my second look into the future of our grand old city, I see the public library under the fostering care of Librarian Rich, with his volunteer assistants and the liberal endowments from our wealthy citizens, grown to such mammoth proportions that it now occupies the Academy building, which has been purchased, enlarged and improved by a few of our generous-minded people, and presented to the trustees of the library; the librarian receives a large salary, and all his assistants are generously paid. A third story has been added to the building, and is devoted to a recently-established Art Gallery containing portraits of the public-spirited men and women of our good old city, and on account of the limited room for such portraits, although the whole of the third story is given for that purpose, there is talk of an annex to accommodate the large number of portraits presented.

We have a magnificent City Hall costing several hundred thousand dollars, in front of which is a splendid Soldiers' Monument, for all of which we are to thank the democratic city hall ring who take their courage from the *Daily Times* which has degenerated since the good Eliot orthodox *Times*, and is now a supporter of rings. The city-farm buildings having been put into the hands of an enterprising firm of city boys for manufacturing purposes, rent and taxes free for a long term of years, the city has been enabled to sell the last of the city-farm house-lots, thereby showing the wisdom of the city government in the days of Mayor Goodrich's time in cutting the farm into house-lots and giving our friend Spinney a job.

Portsmouth may well feel proud of her school-houses, containing as they do all the modern conveniences, and named after her citizens who have been honored in state and nation. Also of her schools, each and every worthy teacher receiving such a liberal salary that outside committees have come to the conclusion that it is useless to try to hire them away from the city. The Academy has been given to the public library; and the Hanover street school has been condemned by the board of health, and converted into a fire-engine house, in which is also located a powerful steam pump.

Everybody praises our sewerage system, which was established at a cost of several hundred thousand dollars, created ostensibly for the public good but really for the purpose of carrying away the refuse matter from the breweries. The sewerage system abolishes the north millpond nuisance, a stone canal having been built from Creek road to the mill-bridge, and the remaining portion of the pond having been filled in and occupied for workshops by the Grand Transcontinental Railway of which Payson Tucker is president and general manager, with Furber as superintendent of the Boston & Maine branch, while Winslow T. is satisfied with the Lake Shore branch, formerly the Dover, Winnipesaukie & Lake Shore railroad. MUNCHAUSEN.

THE LOSS OF THE "SYLPH."

Capt. Hiltz, late master of the schooner Sylph, gives the following account of the recent loss of that vessel: "Monday morning, Nov. 12th, when the schooner Sylph was lying at anchor ten miles east of Thatcher's Island, a northwest gale sprung up at four in the morning, and at three in the afternoon she struck adrift and we were obliged to put her to a drag; at twelve o'clock at night she brought up on the Middle bank, and at seven in the morning of the 13th a sea boarded us, parted cable, and broke the mainboom and we were obliged to scud under bare poles; at three in the afternoon another sea boarded us, broke the fore stanchions on each side, and she sprang a leak; manned the pumps, but the water gained slowly on us; moderated at nine in the evening, and we worked her in shore; fetched in to the south of Highland light between three and four o'clock in the morning on the 14th, in a sinking condition; set a signal of distress for steamer Williamsport, but she would not notice us, but kept on her course. The steamer Centipede, Capt. Worth, came along and took us off and gave us as good as the steamer could afford; in fact, did all in his power to make us comfortable. There were five feet of water in the hold of the Sylph when we left her." The Sylph was a schooner of about thirty tons register, and hailed from this port.

Tramps have recently been numerous and bold about Newmarket. Saturday evening, the 10th inst., several valuable articles were stolen from teams, and on Wednesday evening of this week Fred Thyng of Exeter was knocked down at Newmarket Junction by two tramps, and robbed of his watch. The tramps were captured after a severe fight.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

A HOME DRUGGIST
TESTIFIES.

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:—

RHEUMATISM. "Eight years ago I had an attack of Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best medicine ever offered to the public. E. F. HARRIS."

River St., Buckland, Mass., May 13, 1882.

SALT RHEUM. GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with **Salt Rheum** in its worst form. Its ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

MEDICAL.

BAD BLOOD

SCROFULOUS, INHERITED, CONTAGIOUS

IN 1870 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these Ulcers were not less than one inch and a half in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness.

COULD NOT TURN IN BED,

Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1881, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer was healed. The dread disease has succumbed. All over the breast where was once a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies. JAMES E. RICHARDSON, Custom House, New Orleans.

Sworn to before United States Commissioner. J. D. CRAWFORD.

TO CLENSE THE BLOOD

of Scrofulous, Inherited and Contagious Humors, and thus remove the most prolific cause of human suffering, to clear the skin of Disfiguring blotches, Itching Eczema, Humiliating Eruptions and Loathsome Sores caused by Impure or Poisoned Blood, to purify and beautify skin, and restore the Hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, Diaphoretic and Aperient, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible. They are the only remedies that succeed when physicians and all other means fail.

GREAT BLOOD MEDICINES.

The half has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES. Providence, R. I. CHAS. A. WILLIAMS.

Price of CUTICURA, small boxes, 50c.; large boxes, $1. CUTICURA RESOLVENT, $1 per bottle. CUTICURA SOAP, 25c. CUTICURA SHAVING SOAP, 15c. Sold by all druggists. POTTER DRUG AND CHEMICAL CO., Boston.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE medical miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their condition should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25 by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beautiful. It is guaranteed to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address,

PEABODY MEDICAL INSTITUTE or W. H. PARKER, M. D.,

The *Daily Times* of Portsmouth, Va., gives the following good "send off" to a Kittery man on his departure from that place: "Boatswain J. B. F. Langton was detached from the Franklin yesterday, and left last evening for the north. Mr. Langton reported for duty on the Franklin November 1st, 1880, and while attached to her, in addition to his duty as boatswain of the ship he performed the duty of a regular watch officer. Last spring, under his supervision, the ship was stripped of her heavy spars and topmasts, which were landed without accident. Last week he landed from the ship four heavy cannons, through the gunderck ports, which was another evidence of his thorough knowledge of his business. He left many warm friends here, who joined in wishing him 'bon voyage' and a pleasant winter at home."

Men are often heard saying that their aspirations are high, but every time they cough their noses go towards the earth, which indicates that they will follow them soon, unless they are wise enough to take Dr. Bull's Cough Syrup in time.

The treasury department has decided that the word "ton," wherever used in the tariff acts, should be construed to be the ton avoirdupois—that is 2240 pounds.

Are you bilious? Try the remedy that cured Mrs. Clement of Franklin, N. H.—Hood's Sarsaparilla, made in Lowell, Mass.

Waterbury, Conn., is suffering severely from lack of water.

Answer this.—Is there a person living who ever saw a case of ague, billiousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

An order was issued by the New York state superintendent of public works, Thursday, closing, the Erie, Champlain, Oswego, Black river and Cayuga & Seneca canals Dec. 1st unless sooner closed by ice.

Dr. Benson's Skin Cure is the best. It consists of both external and internal treatment and costs only $1. per package, at druggists.

The collector of customs at San Francisco reports that in investigating the case of the Chinese who arrived by the City of Pekin, he finds many to be laborers. He will report results at the conclusion of his investigation.

Question Your Druggist,

and he will tell you, that there is a greater demand for *Sozodont* than for any other preparation for the teeth. Then ask yourself whether an article for which the demand is general and constant, must not possess genuine merit. The mental response will be that it does, since the conclusion is irresistible, that if it did not really polish and preserve the teeth, a discerning public would long since have discovered the fact. It advertises itself.

An Effect of Circus-Going.

"Whatever you do, don't ask pa if he was at the circus. You see pa and I drove up to the race track, where the circus was in the evening, and after the circus was out we waited to see the men take the tents down, and after they had gone we started to come home. It was very dark, and I drove out on the race track, and the old horse used to be a racer and he pricked up his ears. Pa took the lines and said he would drive, 'cause it was pretty late, and ma would be nervous. I told pa I didn't believe he was on the right road, but he said he guessed nobody could fool him about the road to town, and bless me if he didn't drive around that track about eight times. Every time he passed the grand stand, which pa couldn't see, on account of his eyes, I laffed, but I thought if he knew the road so well I could ride as long as he could. After we had rode around the track eight miles, and I was getting sleepy, I mildly suggested that maybe I had better stop at a house and inquire the road to the city, and pa got mad and asked me if I took him for a fool. Then he drove around a couple of times more, and the man that keeps the track he came out with a lantern and said 'hello!' Pa stopped and asked him what he wanted and he said, 'Oh, nothin',' and pa drove on and told him to mind his business. We went around the track again, and when we got to the same place the man was there, and I guess pa thought it about time to inquire the way so he pulled up and asked the man what he was doing there, and the man said he was minding his own business. Pa asked him if that was the right road to town, and the man said if there was no hurry he would like to have us drive on the track all night, as it was a little heavy, and he wanted to get it in condition to speed the colts the next day, but if we had to go we could drive out the gate and take the first left hand road. Well pa was mad, and he wanted to know why I didn't tell him we were on the track, but I told him he seemed to know it all and it was dangerous to advise a man who knew it all. He didn't speak all the way to town, but when we put out the horse he said: 'Hennery, if this thing gets out your pa will have the reputation of being drunk. If you tell of it you are no friend of mine.' So I shall not say anything about it, 'cause it is a mean boy that will go back on his pa."—*Peck's Sun.*

A Prohibition Wife.

"Take that bottle and go out and get me some whisky," said Col. Jimjams to the sad-eyed woman whose misfortune it was to be the wife of a convivial inebriate.

"Give me money to buy it with."

"Give you money! Why, any fool can get whisky if he has money, but to get whisky without money is what takes talent."

Taking up the bottle with a sigh, the patient, long-suffering woman went out and in a short time she returned.

Placing the bottle to his mouth, he was about to quench his thirst, when he discovered the bottle was empty.

"Why, what does this mean?"

"It means that anybody can drink whisky when the whisky is in the bottle, but it takes real talent to drink whisky when there is none in the bottle. Drink away, I know you have got the talent."

By a vexatious Canadian law, if a vessel sailing under the United States flag goes ashore in Canadian waters, only Canadian tugs are permitted to pull her off. And only Canadian wreckers are allowed to raise her if she sinks. This rule has been the cause of much trouble and expense to Americans owning vessels on the great lakes. For in many cases tugs powerful enough to pull the vessel off are not to be found anywhere in Canada. A short time ago an American vessel, that ran ashore in Georgian Bay had to be abandoned to the underwriters, because the owner was not allowed to employ an American tug, and no Canadian tug large enough could be had.

Folly Shots.

People who go to Boston and imagine that to be popular they must imitate the Boston style of thought and conversation are liable to be mistaken. A young man from the West, who was courting a Beacon Hill girl, wishing to express his admiration of her physical charms, told her she was as beautiful as an isosceles triangle. Being inclined to *embonpoint*, she was deeply offended by the comparison and replied with withering sarcasm:

"I want a man for a lover; not a geometry!"

Neighborly consideration is so rare that it is pleasant to be able to record any instance of it. Mr. Tantivvy recently announced to a friend residing on the opposite side of the street that it was his intention to move out into the country.

"But I thought you much preferred city life?"

"So I do," returned Mr. Tantivvy, "but I have a boy who is going to take lessons on the accordeon next month."

"The most interesting case I ever tried in my life" said a village lawyer, "was a case in which we sued the defendant for alienating the affection of my client's wife."

"And you recovered?" eagerly asked two or three of the bystanders.

"Not exactly, the jury brought in a verdict of burglary in the first degree."

"They must have been drunk," somebody suggested.

"No," explained the lawyer, "they were a Connecticut jury."

Two New York girls meet after the Summer vacation, and one of them exclaims:

"I'm so glad to see you back from the country, Lizzie."

"Back from the country? why I haven't been out of town at all."

"Have'nt been out at all."

"No."

"But you look as brown as a berry; I never saw a finer color."

CHAPTER I.

"I was taken sick a year ago
With bilious fever."

"My doctor pronounced me cured, but I got sick again, with terrible pains in my back and sides, and I got so bad I
Could not move!
I shrunk!

From 228 lbs. to 120! I had been doctoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters. Directly my appetite returned, my pains left me, my entire system seemed renewed as if by magic, and after using several bottles I am not only as sound as a sovereign but weigh more than I did before. To Hop Bitters I owe my life."

Dublin, June 6, 1881. R. FITZPATRICK.

HOW TO GET SICK.—Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time; take all the vile nostrums advertised; and then you will want to know **how to get well,** which is answered in three words—Take Hop Bitters!

Ida Allen, a school girl thirteen years of age, has been missing from her home in Providence, R. I., for a week. She is light complexioned, and was attired in a dark brown ulstercite, garnet dress and hat. She attended the Convent school, corner of Claverick and Broad streets, but has been somewhat irregular in attendance, and declined to account for her whereabouts while playing truant. Tuesday night the 13th inst., she arrived home later than usual, and was chastised by her grandmother, Mrs. Hickey, because she refused to give an account of herself. She then threatened that her relatives would not have another opportunity to whip her, as they would never see her again.

Mr. Edwin Stone, formerly of Maine, came on from the wild glades of Minneapolis alone and unprotected. He has gone back accompanied by Mrs. Stone, formerly Miss Nellie Haines, a daughter of the late Hon. William P. Haines of Biddeford.

Justice Churchill of the Boston municipal court has completed the inquest in the case of Charles G. Perkins of Biddeford, Me., who died Nov. 6th in consequence of injuries received on the Boston & Maine railroad in Boston on the 17th of October. The justice finds that Perkins and another person stood between two tracks when trains were passing in each direction, leaving only a width of fifteen or eighteen inches between them. Nothing but the greatest caution possible in taking and preserving the exact position in this narrow space could preserve life. In this case both were struck and knocked down, and Perkins sustained a fracture of the skull, probably by coming into contact with an iron rail or a sleeper.

Hon. John C. Moulton and family, of Laconia, have gone south for the winter.

Vegetine

WILL CURE

Scrofula, Scrofulous Humor, Cancer, Cancerous Humor, Erysipelas, Canker, Salt Rheum, Pimples or Humor in the face, Coughs and Colds, Ulcers, Bronchitis, Neuralgia, Dyspepsia, Rheumatism, Pains in the Side, Constipation, Costiveness, Piles, Dizziness, Headache, Nervousness, Pains in the Back, Faintness at the Stomach, Kidney Complaints, Female Weakness and General Debility.

This preparation is scientifically and Chemically combined, and so strongly concentrated from roots, herbs, and barks, that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGETINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon the complaints named are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

H. R. STEVENS, BOSTON:

I have been practising medicine for 25 years, and as a remedy for *Scrofula, Liver Complaint, Dyspepsia, Rheumatism, Weakness*, and all diseases of the *blood*, I have never found its equal. I have sold Vegetine for 7 years and have never had one bottle returned. I would heartily recommend it to those in need of a blood purifier.

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, post paid as follows:

DAILY—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit $1 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

The Horse Kicked Him.

The horse is a noble animal, and one of the best friends of man. Yet no man wants even his best friend to kick him in the back. Mr. Libby, of Lowell, Mass., received such a kick from a horse in 1865. Ever since he has been a martyr to spinal suffering. Perry Davis's Pain Killer has relieved him from a great deal of agony. While he has been using this valuable remedy he has enjoyed his life as he never could have done otherwise. "Accidents will happen." Provide against them by procuring Pain Killer.

Dr. S. P. Dresser of Hinsdale, Mass., started from his home at four o'clock Thursday morning, the 5th inst., to respond to an urgent call. He drove rapidly, and in the darkness did not notice a timber that had been placed across the road to warn travellers that a bridge was up for repairs. He drove upon the timber, was thrown out of his carriage, and two hours after was found dead in the road with his neck broken. He was forty-three years old, and leaves a widow and three children.

New Hampshire 6s of 1894 sold at 118 at auction in Boston on Saturday last.

A new locomotive, No. 110, built at Providence, R. I., came through on the Eastern railroad on Friday night with a freight train.

The drain which has been built from the rear of the Pickering building on Market street to the river struck the springs at Spring hill shortly before reaching its end.

The Congregational church and society of Hampton gave a unanimous invitation to Rev. Lyman Whiting, D. D., to settle with them as pastor. The call was declined by Mr. Whiting on account of his need of rest from all pastoral work for the present.

Rev. Mr. Beck of Kittery exchanged pulpit services on Sunday with Rev. John A. Goss of the Court street Christian church, this city. Rev. Henry A. Wales of Biddeford, Me., preached for the South Parish on Sunday, the morning services being held in the chapel on Court street, and the vesper service omitted.

Gravel trains are hauling in material from the Plains for filling in at the Jones brewery, where it is said that other tracks are to be laid.

The National Mechanics & Traders' bank has declared a semi-annual dividend of three and one-half per cent.

Mr. Jonathan Palmer, another of the old people of Hampton, died on the 13th inst. Mr. Palmer was born in the year 1800, and was married to Miss Sally Lamprey in March, 1825. In 1875 they celebrated the anniversary of the event by a golden wedding, the worthy couple receiving many tokens of love and esteem from friends and neighbors, to whom they were endeared by many acts of kindness, especially in the care of the sick and dying. They have journeyed on together eight years more, and now Uncle Jonathan has gone, and Aunt Sally is left for a little longer stay alone.

Mr. A. O. Phillips, for many years a conductor on the Dover & Winnepiseogee railroad branch of the Boston & Maine road, between Dover and Alton bay, is now running on the main line between Boston and Portland.

Exeter now has a skating rink, 100 feet by fifty on the ground. It is located near the Boston & Maine station, and is very attractive and inviting in its internal arrangements.

The session of the Circuit court of the United States for the trial of the case brought by the New Hampshire Land Co., involving the title to large sections of land in the upper part of the state, begins at Concord to-day.

Dr. Wilbur F. Sanford and Edward P. Clark have sued the town of Webster, Mass., for $5,000 for injuries received by being thrown from a carriage while returning from official duties as school committeemen.

It is announced at San Francisco that Claus Spreckles, the sugar capitalist, has ordered the construction in the east of two steamers to run in the China trade in opposition to the Pacific mail.

The saw mill of M. Maxwell near Williamsport, Pa., was destroyed by the explosion of a boiler Friday morning. James Huff, Charles Riggs and Nathan Rideout, employes, were killed; and James Campbell, U. Reed, Grant Huff and L. Moyer were wounded.

A despatch from Chicago says John Flemming, the well known member of the swindling firm of grain dealers, Flemming & Merriam, arrived there Friday morning from Dakota in custody of United States officers, and was admitted to bail to await trial. Ten thousand people have claims aggregating $200,000.

—In her "Poems of Passion," Ella Wheeler writes: "She touches my cheek, and I quiver." It is very evident Ella does not write the words of a Chicago man or a commercial traveller.

—Men grumble because cabbage is used as a substitute for tobacco in cigars; but they would probably grumble more if the best Havana tobacco should be served with their corned beef as a substitute for cabbage.

—John L. Brooks of California has just willed $100,000 to two personal friends. Several relatives, who have been "left," have become convinced that the old man was insane, but the personal friends say such an idea is preposterous. How opinions will differ!

—A young Thomaston, Me., boy strayed into the gallery of a church in that town the other day during communion service, and finding some old lever signs, hung one over the rail. When the congregation rose up and turned around they were confronted with bold-faced letters announcing "Refreshments."

—A Philadelphia man, in a sleeping car, went through a terrible accident in which the sleeping car rolled down an embankment without waking. It was noticed, however, that as the car struck the bottom he murmured. "Don't Jane, don't; I'll get up and start the fire."

—"How did you like my discourse this morning?" asked Parson Goodenough of Deacon Lightweight, the village grocer, as they walked home from church last Sunday morning. "Too long, brother; too long," replied the frank deacon; "I believe in having everything short." "Yes, I've noticed that in your weights, deacon," said the sarcastic parson.

—A boy near Poughkeepsie took some paint and dye, and fixed up a dog to resemble an escaped menagerie leopard. And of course the dog felt bad and hunted up his master, and went to snuffing at his heels, and the master went up a tree so quick that it absolutely astounded the dog, which sat down to wait for the old man to descend. It was a cold day; the wind blew, and the bare branches rattled, and the man shivered and swore for half an hour, till finally the dog barked.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

HOOD'S SARSAPARILLA

Has "decided" claims upon the public. This is positively proven by the immense good it has done to those who have been cured of diseases from which they have suffered intensely for years, as verified by the published testimonials, every one of which is a positive fact.

CHELSEA, VT., Feb. 24, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: The 6th day of last June I was taken sick with a swelling on my right foot, and with an awful pain. The swelling went all over me. My face was swelled so that I could with difficulty see out of my eyes, and I broke out over the whole surface of my body; my right foot up to my knee was one raw, itching mass, and my ankle and foot so lame and sore I could not step on it, and it would run so as to wet a bandage through in an hour. In this condition Mr. W. F. Hood (of the firm of A. R. Hood & Son, druggists, of this town), handed me a bottle of HOOD'S SARSAPARILLA, and told me to take it. I did so, and by the time I had taken one bottle I found that it was doing me good. I have since taken five bottles more. After I had taken three bottles my soreness began to leave me, and I have been growing better every day, so that to-day I can walk without going lame. I have no soreness in my ankle and it has healed all up, and does not run at all. I owe my recovery to your Sarsaparilla. I write this to let you know that I think it deserves the confidence of the public, especially those who are troubled with humors.

Yours most truly,
JOSIAH PITKIN.

P. S. Every person that saw me said that I never would get over my lameness without having a running sore on my ankle; but thank God I have. J. P.

No other Sarsaparilla has such a sharpening effect upon the appetite. No other preparation tones and strengthens the digestive organs like HOOD'S SARSAPARILLA.

Price one dollar, or six bottles for five dollars. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH

ELY'S CREAM BALM

has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES

COLD in the HEAD,

IS NOT A

LIQUID OR SNUFF,

Apply by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

Sunday, Nov. 18th, will hereafter enjoy the proud distinction of having been the longest day since the beginning of the world, and also the day on which, in obedience to the orders of the railroad power, a great majority of the clocks and watches in the United States were purposely set wrong by their owners or managers, the error varying from nothing up to a full hour, according to the distance of the clock or watch from the meridian of Greenwich.
